TRUE TO ANGLES. :: NEITHER TOO FAST NOR TOO SLOW.
:: :: CAN BE FITTED TO ANY BILLIARD TABLE. :: ::

The "Perfect" Low Cushions can be attached to their great Billiard Invention:—

The Patent Adamant Block

The weight and extreme hardness of the "Adamant Block" give greater solidity, which ensures that:—

1. The elasticity of the rubber is more effective.
2. The cushions are rendered noiseless.
3. The EXACTLY TRUE ANGLE WILL BE MAINTAINED FOR A MUCH LONGER PERIOD than by any other means.

Speciality: Cues that will not Warp

Thurston Tables have stood the test of a century's use in every climate and temperature, and have always retained the reputation of being reliable, accurate and durable.

A Billiard Table should last a lifetime, therefore it is CHEAPEST to purchase the BEST.

"Decorative Contracts,"

BY

WARING'S

A handsome volume showing the scope of WARING & GILLOW'S public work in hotels, clubs, restaurants, liners, palaces, theatres, official buildings, &c., and the vast area of their operations in Europe, Africa, and Asia, will be sent post free to any practising Architect who may wish to possess it.

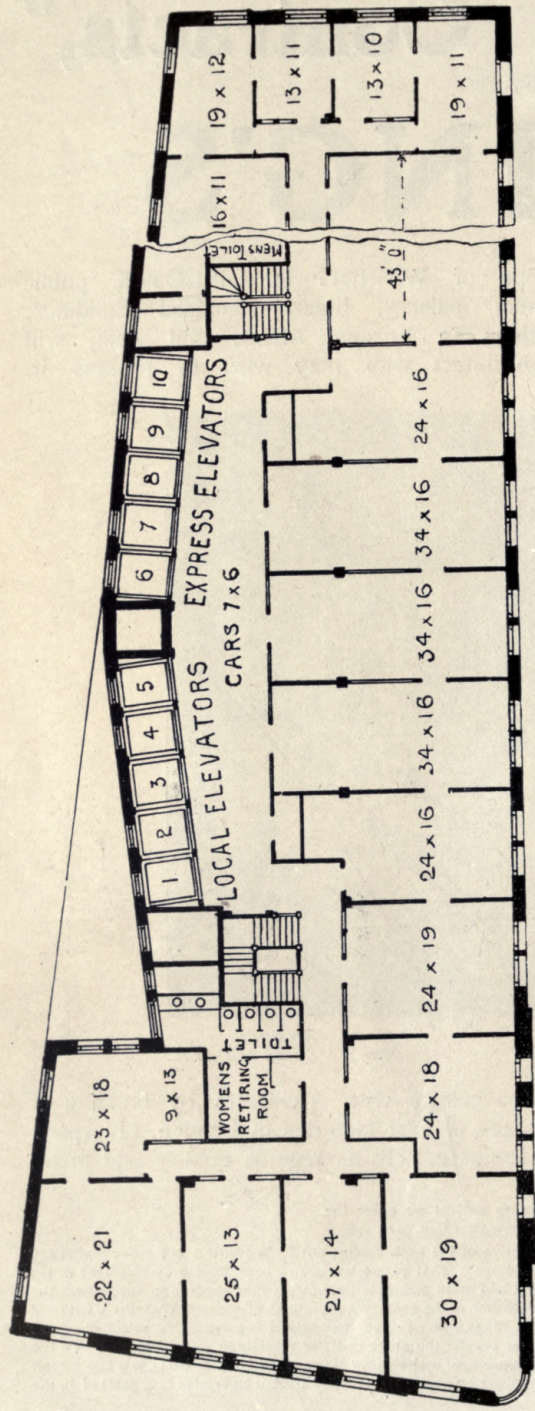

*The Ritz Hotel Restaurant,
decorated by WARING'S.*

*Architects,
Messrs. MEWES & DAVIS.*

WARING'S are at all times pleased to co-operate with Architects by building or decorating to their designs. With the advantage of vast factories in London, Liverpool, Lancashire and Paris, they can confidently compete, both as regards quality and price.

From over 200 laudatory press notices we quote the following from the *Daily Telegraph* of Dec. 31st, 1906—

"A remarkable publication was issued seven years ago illustrative of the work carried out by WARING'S in the decoration and furnishing of hotels, theatres, public offices, and other important buildings. That period has seen a considerable development in the firm's business. With the title of 'Decorative Contracts' a second and more elaborate publication now appears to supplement the first. Nothing could well be more effective as a means of directing attention to the extensive operations of Messrs. WARING & GILLOW than this handsome, well-printed volume of 200 pages. Its profuse illustrations present not only a representative selection of the contracts carried out, but they indicate a range of work which goes far beyond the strict limits of furnishing and decoration. To the business man in any way concerned with the ramifications of a great commercial undertaking Messrs. WARING & GILLOW'S latest book will necessarily have a distinct value; it will perhaps appeal also to others as exemplifying what modern enterprise is capable of in the industrial world."
