ARCHITECTURAL INDEX

1979

The
ARCHITECTURAL INDEX
for 1979

Our 30th Annual Issue

PUBLISHER AND EDITOR Ervin J. Bell, A.I.A., Architect
ASSISTANT EDITOR Mary Ellen Brennan
EDITORIAL CONSULTANT William Matheson
CIRCULATION MANAGER Helen G. Papania

AID TO THE USE OF THE ARCHITECTURAL INDEX

GENERAL ARRANGEMENT

All entries are arranged alphabetically. Articles about a specific building are indexed under the **general building type** and crossfiled under "**ARCHITECT OR DESIGNER**" and **locations, state or foreign country**. Under some headings subdivisions are made geographically or by subject. All other articles are indexed by subject and not by title. The person's name presented after "by ..." is that of the author of the article; otherwise, the name is that of the architect or designer. News, Books Reviewed, and New Products are not indexed. Residential Development includes speculative and builder's houses.

SPECIAL ARRANGEMENT

Example Entry:

APARTMENT BUILDING

LOW RISE

Belmont, Calif. (**Location**); Knorr & Elliott (**Architect or Designer's Name**); ph. pl. (**photos, plans, i.e., type of illustrations that accompany the article**); p. 188-189 (**Page Number**); Sept 60 (**Date of Magazine**); AR (**Abbreviation of the Magazine**).

NOTES

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. The text also mentions the need for regular audits to detect any discrepancies or errors in the accounting process.

In addition, the document highlights the role of the accounting department in providing valuable insights into the company's financial performance. By analyzing the data, accountants can identify areas where costs can be reduced and revenues can be increased. This information is crucial for management in making informed decisions about the future of the business.

Finally, the document stresses the importance of transparency and accountability in financial reporting. It states that the company should adhere to all applicable accounting standards and regulations to ensure that its financial statements are fair and accurate. This not only builds trust with investors and creditors but also helps in maintaining a good reputation for the company in the market.
