Articles about a specific building are indexed under the general building type and crossfiled under "ARCHITECT OR DESIGNER" and locations, state or foreign country. Under some headings subdivisions are made geographically or by subject. All other articles are indexed by subject and not necessarily by title. The person’s name presented after "by ... ;" is that of the author of the article. The name in italics is that of the architect or designer. News, Books Reviewed, and New Products are not indexed.
