# USE OF THE ARCHITECTURAL INDEX

All entries are arranged alphabetically. Articles about a specific building are indexed under the general building type and also crosslisted under "**ARCHITECT or DESIGNER**" and **state or foreign country**. Under some headings, subdivisions are made geographically or by subject. All other articles are indexed by **subject** and not necessarily by title. The person's name after "**by**" is that of the author of the article. The name in *italics* is that of the architect or designer. **NEWS, BOOKS REVIEWED, and NEW PRODUCTS** are not indexed. **RESIDENTIAL DEVELOPMENT** includes speculative and builder houses.

Example: **MUSEUM** [HEADING]

**Art Museum** [Title or description]; Missouri, Kansas City [Location]; *Steven Holl* [Architect or Designer]; ph. pl. [Type of illustrations]; p. 112-117 [Page numbers]; Apr 00 [Magazine month and year]; A [Magazine]
