USE OF THE ARCHITECTURAL INDEX

All entries are arranged alphabetically. Articles about a specific building are indexed under the general building type and also crosslisted under "ARCHITECT or DESIGNER" and state or foreign country. Under some headings, subdivisions are made geographically or by subject. All other articles are indexed by subject and not necessarily by title. The person's name after "by" is that of the author of the article. The name in *italics* is that of the architect or designer. NEWS, BOOKS REVIEWED, and NEW PRODUCTS are not indexed. RESIDENTIAL DEVELOPMENT includes speculative and builder houses.

Example: **MUSEUM** [HEADING]

Art Museum [Title or description]; Missouri, Kansas City [Location]; *Steven Holl* [Architect or Designer]; ph. pl. [Type of illustrations]; p. 112-117 [Page numbers]; Apr 00 [Magazine month and year]; A [Magazine]
