

Honolulu Chapter of the AIA

1994 Design Awards Program

Selections of the Jury

President's Letter

Our chapter awards are made possible by the hard work and ingenuity of our committee members. This new publication which illustrates all of the award applicants, as well as the winners, is a new feature of our program. It provides an opportunity for each attendee to be his or her own jury. We hope that this program will be valuable to all of the participants and will encourage others to contribute in the future.

Awards programs are an institution in themselves within the larger institution of the AIA. It is partially through this recognition of our peers and colleagues that we represent to the community what 'good' architecture is all about.

Congratulations to the winners, a vote of appreciation to the participants, and hearty thanks to all of the committee members, jurors, donors, and others who made this program possible.

Aloha,
AIA, HONOLULU

Sheryl B. Seaman, AIA
President

Chairman's Letter

We are pleased to present what we hope will be an annual publication documenting the participating submittals of the AIA Honolulu Design Awards Program. The catalyst for this document was a goal that has long been held by the Awards Committee and the AIA in general; to encourage excellence in architecture and to illustrate to the public the variety, scope and value of architectural services. We hope a public exhibit of submissions through this collection will animate the profession and in turn stimulate the public to demand superior architectural design for both public and private construction.

From the fifty four projects submitted this year, four were chosen for Awards of Excellence and eight for Awards of Merit. The winning entries included a service station, a bank, corporate offices, research headquarters, a student center, a cultural center, the renovation of a courthouse, a hotel renovation, and several houses. This year we were fortunate to have a jury of diverse locations. Judsen Marquardt, FAIA, is the AIA Northwest Regional Director and principal with the firm of Loschky Marquardt & Nesholm. Hans Riecke, FAIA, principal of Riecke Sunnland Kono Architects, Ltd. represented AIA Maui. Taylor Cockerham, AIA, is president of the Hawaii Island Section and president of Leslie Taylor Cockerham, AIA. I-Ming Hsiue, AIA, is a senior designer with Okita Kunimitsu & Associates. Karen Barozzi, ASID, is president of the Hawaii Chapter of the American Society of Interior Designers and president of Barozzi Design, Inc.. The judging occurred on June 11 and 12 based on the standardized entry binders completed by submitting firms. The jury began with a review of all submissions followed by a round table discussion and subsequent reduction to a "short list" of submittals to be considered. The second day of judging was devoted to site visits and final discussion.

AIA Honolulu congratulates the award recipients, their clients, contractors, and consultants and expresses its appreciation to all who participated and contributed their service in this endeavor.

AIA HONOLULU DESIGN AWARDS COMMITTEE
