IA-1978-May/June
Soundblox were specified to effectively reduce the noise level created by two new rotogravure printing presses.

**Soundblox**

Soundblox derive their excellent sound absorption from a unique patented Cavity-Slot Resonator construction with absorption reinforced by the use of meta septa/or fibrous fillers in the cavities. The cavities are closed at the top and the slots allow these closed cavities to act as damped (Helmholtz) resonators.

**Soundblox** is an effective economical way to control noise.

WE WELCOME THE OPPORTUNITY TO DISCUSS YOUR NEXT PROJECT
Re-roofing, Right Over The Old Roof!

No disruption!
No displacement!
No delay!
No problems!

Business goes on as usual downstairs while the new roof goes on upstairs, right over the old roof: that's the tremendous advantage of the Sure-Seal loose-laid re-roofing system. No disrupted schedules, no moving people and equipment out and back in, no weather delays even in the dead of winter, no reeking vats to heat or spill or create safety hazards.

A watertight covering for almost any kind of roof with these advantages

- One-source responsibility
- Cost-saving
- Low maintenance
- Durability
- Stability
- Versatility
- Clean application
- Quality assurance
- Availability

A Few Examples

- A Frame Roof
- Ski Lodge Roof
- Permanent Roof
- Reusable Roof
- Cable-suspended Roof
- Free Form Roof
- Sawtooth Roof
- Graveled Roof
- New Roof Under Insulation
- Reroof With Tear-Off
- Reroof Without Tear-Off
- Roof Over Precast Concrete
- Roof Over Poured Concrete
- Dead Level Roof
- Sod Roof
- Steep Roof
- Barrel Roof
- Dome Roof
- Peak Roof
- Paved Roof
- Black Roof
- White Roof
- Tapered Roof
- Colored Roof
- Prefab Roof
- Hip Roof

After You Purchase Your Landscaping
How Do You Protect This Investment?

Why pay for additional Planting Replacements, year after year and Lose the Valuable Growth when it is Unnecessary...

We can keep your Landscape plants Alive, Vigorous and Attractive!

Research and Knowledge are the basis of Our Program

We have a Mobile Diagnostic Laboratory for on-the-spot problem analysis

Let us apply a General Maintenance Program to your facility for you

Our Services Include:

- Tree, Shrub and Lawn Care
- Disease and Insect Control
- Scientific Deep Root Feeding
- Soil Testing Laboritories
- All types of Plant Life
  - Lawns • Shrubs • Trees
  - Flowering Ornamentals

Service after planting can save you thousands of dollars. We spray, feed and do necessary tree pruning to insure healthy, Vigorous growth

Five new ways to talk business.

Talk about progress: Northwestern Bell has made significant improvements in business communications equipment over the past few years. By talking to people like you. Finding out how we could make the telephone into an even more powerful business tool. And then doing it. Some of the results are shown here. Look them over. Then let's talk.

**The Dimension™ PBX.** This is the ultimate in business communications equipment. Designed specifically with the needs of business people in mind. Dimension includes a host of time-saving, money-saving features—including a programmable memory bank that controls the system. Highly flexible and adaptable to changing needs, the stored program can be updated simply by changing a program tape. Plug-in modules can be added as needed.

**Com Key Service.** The business “push button” telephone system that does just about everything but take coffee breaks (like provide your customers with music on hold; lets you set up your own instant conference calls). A family of small and medium sized communications systems designed to meet the needs of many different businesses.

**The AutoMatic Telephone.** It answers your calls when you can't with your own personal recorded message. Then records up to 20 minutes worth of your callers' messages. Easily incorporated with either TouchTone® or rotary phones so you can be in two places at once!

**The Dataspeed® 40 Data Terminal.** It talks to computers and other data terminals. Easy preparation and editing of text. Information is displayed on a CRT where it can be easily changed, using simple controls. Modular design lets you select the capabilities you need and add others later.

**The Touch-a-matic Telephone.** Simple programming allows this remarkable phone to "remember" up to 31 local and long distance phone numbers. Calling any of those numbers is as easy as pushing a button. Business people who frequently call regular customers and suppliers will find the Touch-a-matic phone to be a welcome and hard-working business partner.

Let's talk now.
Call Northwestern Bell now and ask your Account Executive for more information about improving your business communications system. Or mail the coupon.

Tell me more about the following:
- **AutoMatic Telephone**
- **The Dataspeed 40 Data Terminal**
- **Com Key Service**
- **The Touch-a-matic Telephone**
- **The Dimension PBX**

Mail to: Northwestern Bell, 100 South 19th Street, Suite 702, Capitol Plaza, Omaha, Nebraska 68102
When you design, remodel or rewire, use an electrical contractor that's qualified for the job. Use a member of the Joint Apprenticeship and Training Programs to provide them with the advanced management and technical skills necessary to save you both time and money on residential and commercial electrical construction.

For more information call: (515) 278-2445.
to keep on time,
keep in touch.

The last thing you need in the
design and construction phases
of a building project is a problem
securing natural gas or electrical service.

Iowa Power wants to help you keep your
project on schedule. And we'll do everything
possible to provide service when and where
you want it.

But we need your help!
We need you to keep us informed
of your plans, from the very beginning
of a project. That way, we can help
you avoid the kind of problems that
can cause costly delays. By
including us in the early
stages of planning, you'll be
giving us the lead time we need to establish
working schedules of our own and secure the
equipment and materials necessary to do
the job.

Tell us what you need, before you need it,
and you'll be helping us assure you
of the availability of natural gas and
electrical service for your project.
Just keep in touch with your local
Iowa Power office.

Good Prices — Closer To Home.
When you're specifying contemporary furnishings, you can get good prices locally. In fact, the same as if you buy direct. M.A. Knutsen distributes a number of major lines at 40% off list — plus freight. So there's no need to deal with people several states away.

Thayer Coggin residential and institutional furniture, Claud Bunyard Windsor chairs, FCA's Cesca chair, Koch + Lowy lighting and Forms & Surfaces nylon hardware — all available to you at 40% off list — plus freight. Next time, stay closer to home. Call 279-9075.

M.A. Knutsen Inc.
214 5th St.
West Des Moines, Ia. 50265

O'Keefe Elevator Company, Inc.
"A Dover Elevator Franchised Distributor"
We offer assistance to Architects through:

- **NEED AND DEMAND ANALYSIS**
  We can run a computer analysis which will provide you with the data of probable performance for any number of combinations of elevators with varying speeds, sizes and capacities. Also, based upon the specific design of your building, the computer will determine a range of probable demand to which the elevators will be subject.

- **DIMENSIONAL AND REACTION INFORMATION**
  With the use of our architectural aid design book, immediate hoistway dimensions with proper code clearances as well as information on structural load reactions can be obtained.

- **SPECIFICATION PREPARATION**
  At this stage all the various control systems will be discussed and applied to your specific building. Special options and features with cost estimates will be presented to you for possible incorporation into the specifications. Other divisions of the specifications such as electrical and interior design divisions will be co-ordinated.
  
  In preparing your elevator specifications, this office will see that all national, state, and local codes are followed as well as compliance with any applicable federal agency.

- **ACCESS TO A POOL OF EXPERIENCE**
  O'Keefe Elevator Company, Inc. has been in existence since 1883 and is the largest installation and service maintenance organization in the Nebraska-Iowa area. O'Keefe represents Dover Corporation of Memphis, Tennessee. Dover is the third largest elevator company in America and the oldest and largest manufacturer of hydraulic elevators.
  
  In conclusion, we hope that we might assist you in designing and specifying traction cable or hydraulic elevators, escalators, dumbwaiters, stage lifts, and residential elevators in your various projects.

Granite.
Tough enough to take the thunder of 10 billion feet.

What else but granite can take 38 years of wear and weather without fading, staining, or showing measurable wear? That’s what made Cold Spring granite the ideal choice for the Banker’s Life Insurance Building when it was built in Des Moines, Iowa, in 1939. And that same unique combination of beauty and unsurpassed durability make it ideal for today’s floors, facades, core walls, steps, malls and walkways—wherever you need maximum durability that’s virtually maintenance-free.

For more information, plus a free copy of our 16-page, full color catalog showing all 18 Cold Spring colors available, call toll free 800-328-7038. In Minnesota, call (612) 685-3621. Or write to the address below.

Cold Spring Granite Company, Dept. 8
202 South 3rd Avenue, Cold Spring, MN 56320

Come See Us At The Convention, We Will Be There.

Your growing trust responsibilities often require the professional services of an experienced trust department. We act as trustee for living trusts, trusts created under wills and life insurance trusts. We act as executors, administrators, investment counselors and conservators. And we serve in many other trust capacities. We’re the Bankers. Come grow with us.

If you're looking for ways to simplify and speed up construction today, look into the tilt-up method!

With this ingenious, low cost and proven construction technique you cast large concrete wall panels horizontally on the ground—then lift them by crane into vertical position and set them in place. Since the panels are formed at the job site with locally available ready mixed concrete, the builder has greater control over the project. Transportation costs are cut and delays are eliminated.

No scaffolding is needed, of course. Buildings are completed faster. Owners take occupancy sooner.

Tilt-up Concrete Wall panels offer many more advantages:

- they reduce heating and air conditioning costs...especially if cast with lightweight concrete or with a middle layer of insulation.
- designed as bearing walls, they can support heavy loads and withstand high winds.
- they provide excellent fire resistance and lower fire insurance rates.
- they discourage vandalism and burglary, and are impervious to rodents and other vermin.
- they've virtually maintenance-free. Tilt-up concrete wall panels don't rust or rot. They never need painting: color and texture can be incorporated into the concrete. And they're easy to keep clean.
- they can be given a variety of attractive architectural treatment—e.g., vertical ribbing, broomed or other textured surfaces, exposed aggregates.
- they can be easily removed and relocated to facilitate expansion or remodeling of the structure.
- For exterior and interior walls...for one-story and multi-story structures...tilt-up construction makes excellent sense as builders throughout the world have discovered. Use coupon now for more information!

The right way to design a high-density storage & filing system is to begin with this book.

Well-detailed information is mandatory for your product evaluations. The typical pages shown here from our new 36 pp. planning guide book, presents data on Spacesaver high-density storage & filing systems with clear and concise graphics created specifically for architects. The piece is loaded with planning criteria, systems details, design ideas and case studies in a full spectrum of architectural applications. A provocative and comprehensive resource guide for professional use. Yours for the asking.

WE DID IT FOR THE ISU STADIUM.

We Can Do It For You.

The planners of Iowa State University's stadium in Ames needed attractive building materials that could stand up to 50,000 high-spirited football fans. They chose Marquart concrete block as a major building material.

An important part of the stadium — including offices, locker rooms, concession and restroom facilities were all constructed of Marquart's attractive and durable corduroy block series.

Distinctive, cost efficient Marquart concrete block can complement your next building project as well. Call or write today.

The Professionals
Professional Insulation.

Raylite expanded polystyrene offers you all the versatility you are looking for in a building insulation material. It can be purchased as a rigid boardstock or as a water repellent masonry fill.

Commercial • Industrial • Residential
- low thermal conductivity
- low moisture-vapor permeability
- high strength to weight ratio
- dimensional stability
- easy installation
- economical

Manufacturing, fabrication, design, consulting, technical assistance.

Over 200 Acres of Stock Available for Immediate Delivery!
The savings effected in the foundation system, due to reduced deadloads, was more than enough to offset the cost of using lightweight concrete in the floor slabs and roof."

The above statement, by Robert G. Wade, of the engineering firm of Stevson-Hall & Wade, Inc., expresses one of the principal reasons why lightweight Haydite concrete is so often specified for high-rise construction... weight reduction without sacrificing strength... and at a savings in cost. Other reasons include superior fire rating, improved thermal and acoustical insulation, and more.

For detailed information, see your local supplier, or contact us direct.

Energy Saver Walls by Shirey

These precast-prestressed double T walls can be sandwiched with rigid thermal insulation in any thickness to meet your R-factor requirements.

This is the new wall in Iowa construction. We have “Energy Saver” walls enveloping over 3 million square feet of floor space in Iowa.

Energy Savings plus Flexibility and Variety!

- Ideal for single and multi story construction
- Practical for load bearing or curtain walls
- All the advantages of fast track construction
- Complete door and window location flexibility
- Exterior finishes include; form finished concrete, color stained, and exposed aggregates
- For schools, warehouses, office structures, retail facilities, etc.

Let Shirey help you reach your energy conservation goals, tell us your “R” factor requirements and we’ll help you meet them. Write or Phone:

Look into the economics of using independent, on-site power for your industrial or commercial needs. Then look to Caterpillar engines and power systems from Gibbs/Cook to satisfy your requirements. Caterpillar quality and service assure you of getting reliability as well as economy from your on-site power system. To find out more, get in touch with Gibbs/Cook, your Caterpillar dealer. Sales and service facilities in Des Moines, Fort Dodge, Mason City and Postville.

104th and Hickman Road, Des Moines, 50322 Phone (515) 278-4661

Our storage systems can be used for many innovations...in offices, work areas, banks...in commercial and professional innerspaces everywhere. Our design interpretations derive the utmost efficiency from every work and storage area, combining functional beauty with St. Charles quality. *Variations are limitless...executives, lawyers, doctors...technicians, artists...whoever your clients may be, they will enjoy this new dimension in comfort and efficiency.* *All are available in the familiar textured furniture steel, or the very new plastic laminate easework.*

Negley Design & Sales Company
3839 Merle Hay Road • Des Moines, Iowa
The Iowa Architect is changing. Attempting to be a more effective voice for Iowa architects and the State Chapter. Two years ago the magazine was a quarterly publication with a circulation of 1200. Last year in order to reach more of the construction industry, our circulation was increased to 3000. Through our association with Midwest Advertising Service of Des Moines, a publishing firm, we have now expanded to a bi-monthly timetable in order to incorporate the directory in this issue and a special regional convention issue this September. Beginning with the January-February issue next year, our circulation will further increase to 5000 copies. This will allow us to reach most of the state’s city governments, chambers of commerce, school boards, colleges, libraries, savings and loans, banks, construction companies, manufacturers, legislators, engineers and landscape architects.

With this increased reader contact, comes the responsibility of being an important informational tool of the state chapter. The potential for publishing current work of state architects clearly exists. Furthering the contact between Iowa and its architects is one of our major goals. The problem is locating new buildings and gathering pertinent information.

If the Iowa Architect is to be an effective voice for the chapter, the editorial staff must have contact with the various architectural offices in the chapter. With the ever increasing issue size and new bi-monthly format, our need for news and articles is great. The Iowa Architect invites you to submit your work, whether recently constructed or still in the design phase. Send, to the chapter office, photographs or renderings, and as much information as possible about the projects you would like published. The staff of the Iowa Architect will then edit the material as the case requires.

With better lines of communication between the Iowa Architect and the Iowa Chapter, both can benefit.

100% recyclable.

Asphalt Paving!

Full-depth asphalt pavement is the quality product that can be used over and over again — to save you money. Because asphalt is 100% recyclable. Old pavement can be ground up, reheated, remixed and reshaped to stretch commercial or tax dollars spent on materials.

In one Iowa county, it was estimated that asphalt recycling saved $20,000 per mile on a secondary road improvement project!

So when you decide to use strong, dependable full-depth asphalt pavement on your city streets, parking lots, tennis courts and other surfaces — remember that it’s more than just a good quality building material. It’s an investment. And it’ll pay off in big dividends when it comes time to renew it after a long, useful life.

Quality asphalt pavement. Pave with it now. Reuse it years later. Save money.
