FREE! New illustrated catalog and stock list of aluminum architectural is now ready. For your FREE copy write or call your nearest Industrial Metals office.
THE AUGUST ISSUE OF SKYLINES is a pictorial review of buildings designed by Chapter Architects. All architectural firms with Chapter membership were invited by letter, datelined July 19, to submit a maximum of three pictures for inclusion in the issue. If your firm is not included, it's because you did not respond to the invitation to be represented in the PICTORIAL REVIEW.

Without minimizing in any way the important functions of The Institute which are discharged at national, regional and state organization levels, it is correct to say that the basic operations of the AIA in contacts within the profession and with the public and the construction industry are at the chapter level. The leadership and the strength of The Institute are measured in the eyes of the great majority of the American public by the reputation earned by the chapters.

It is necessary, whether its membership is numbered by tens or by hundreds, that each chapter reflect to the greatest possible degree the vigor, the policies and the programs of The Institute in its area and that it strive constantly through its public relations to keep the profession in a pre-eminent position. This calls, not only for a closely knit, harmonious organization but also for one in which all the constituent units work together as a well balanced team. An intelligent understanding by all chapter officers and committee chairmen of their functions and their responsibilities is a prerequisite to effective operation of the chapter. This has been the objective of your executive committee.

Since their formation at the first of the year all of our committees have been very active. Each person in general and their chairmen in particular are pressing to produce a more active chapter and consequently a more effective professional national status.

The Importance of the Chapter

FOR DISTINCTIVE INTERIORS
SELECT VERSATILE ACME BRICK

Truly the designer's material, Acme Brick, in almost
countless colors, textures and combinations, makes
possible the creative expression of any interior mood
or functional requirement.

One course of Acme Brick will give two lateral walls
that will never need finishing or upkeep. Acme Brick
floors can be laid in many patterns with or without
mortar, and will retain their good looks with a
minimum of routine care.

Genuine new burned clay Acme Brick can never fade
or wear. It cushions sound and diffuses light. Fire
insurance premiums are much lower in many areas
on fire-resistant clay masonry. Heating and air-
conditioning costs are lower because of its excellent
insulating qualities.

Visit soon with your Acme Brick representative and
investigate fully the unique creative opportunities
possible with interiors of Acme Brick.

Rugged Split-Face Carthage Marble protects the outside of this house and forms the durable surface for many of the interior walls, finally framing this handsome fireplace.

Forest Green marble leads the visitor from the parking area with stepping stones, paves the covered entrance porch, and leads him through the door and down the entry hall to the fireplace, where it forms the wide, raised hearth.

Sparkling white Colorado Yule marble tops counters in kitchen, family room and dining room, finally reaches its focal point within the house with two huge slabs enclosing the chimney above the fireplace.

This is unity, purpose, and harmony in the architectural use of marble.

The readers of SKYLINES are responsible for purchasing, financing and designing at least 85 per cent of all construction in the Kansas-Missouri area. The above firms and associations have demonstrated their interest in reaching this important readership with their advertising message.

DRY-HARD

Zonolite Mono-Kote Fireproofing
dries solid, not punky

Three things contribute to Mono-Kote's low installed cost on floors and beams. First, you use less material to get the fire rating required. Second, material cost is low to begin with. Third, installation is fast because Mono-Kote builds up fast, sets fast so you're ready for the second pass within minutes. And when you're through, it's solid. For complete information, write:

ZONOLITE
ZONOLITE COMPANY 135 S. LA SALLE STREET CHICAGO 3, ILLINOIS
At NO GREATER APPLIED COST than conventional paint,

ALL THIS:

- Ultimate in durability over any Paint system
- Minimum interruption maintenance-type finish
- You don’t have to have spots
- Complete decorative flexibility of color—coarse or fine in tones, textures, blends or solids
- Proof of performance before acceptance
- Three-year Maintenance-free Service Agreement—Cost-free service guarantees surface to remain brand new for the first three years

IF YOU HAVEN’T been getting this kind of result FOR YOUR CLIENT—at a bid price of conventional painting—

Call Ronai for help—

- Specification writing
- Preliminary cost analysis
- Qualified painting contractor bids

Ronai Performance Materials, Inc.
200 Southwest Blvd. Kansas City 8, Mo.
SEPARATE MECHANICAL BIDDING IS EASY AS A. B. C.

A. The owner and/or architect takes bids on Mechanical installation direct from qualified sub-contractors.

B. The owner and/or architect incorporates the successful bid under one contract and awards the job to a general contractor for supervision.

C. The owner and/or architect is satisfied because he received most construction for his money.
