are you thinking **small** by using **DoxPlank** for low cost economy?

Repeated professional comparison has conclusively demonstrated the economical advantages of the Doxplank floor and roof framing system. Whether used in single story or high rise construction, this unique system of precast segmental construction provides the least costly method of structural framing.

Furthermore, the cost advantage of Doxplank over the nearest similar product, is additionally enhanced by its four hour fire resistive rating, exceptional esthetic qualities and superior load carrying capacity. The weight reducing hollow core becomes a raceway for plumbing, heating, air-conditioning and electrical systems, eliminating the need for expensive conduit and duct work.

Because of its exclusive segmented construction, Doxplank alone provides the manufacturing control that assures uniform product quality in addition to attractive appearance.

On your next project THINK SMALL by using Doxplank as the most economical and attractive long span framing system available.

How is gas helping to cut the cost of power?

By meeting the complete power requirements of an installation, with an all-Gas engine or turbine, that's how. Install an all-Gas energy package (consisting of a Gas engine or turbine driving an electric generator with the waste heat recovered from the engine or turbine) and cut the cost of electricity, heating, cooling, steaming, hot water.

Properly engineered, all-Gas total energy systems have resulted in substantial money savings for industrial plants, commercial buildings, schools, apartment buildings, shopping centers all across the country. We are prepared to study your particular requirements. Let's talk it over. Write Michigan Consolidated Gas Company, One Woodward Avenue, Attn.: Mr. George Marble, Manager, Major Project Sales Division, Detroit, Michigan.

U. OF D. STUDENT CHAPTER PRESENTS DEAN BURCHARD

The A.I.A. Student Chapter, University of Detroit, will sponsor an address by Dr. John E. Burchard, Dean of the School of Humanities and Social Sciences at M.I.T., on Wednesday, April 22nd at 8:30 PM in the Student Union Building.

Title of Dean Burchard's address is "The Personality of a City." This will be the third in the Student Chapter's current series of discussions "Space: The Art of the Humanized Environment."

All architects and the public are invited to attend.

Prior to the chapter meeting, Mr. Bernard DeVries, president, presided over the executive committee meeting. Aside from additional committee assignments and receiving reports from the various committees, a discussion was held relative to a Chapter Handbook. It was decided to include current membership, current committees, fee schedules, and revised by-laws, in a loose-leaf type binder handbook so that each member would be able to keep his handbook current. This is to be investigated further by the committee on State and Chapter Affairs. It was decided, however, that the president would distribute a copy of revised by-laws to all chapter members prior to the next meeting.

At the chapter meeting, program chairman, Mr. David Post presented Mr. George Reinoehl who spoke to the group on "Environmental Design." Mr. George Reinoehl is president of the Center for Environmental Study & Development and a member of AID and IDI.

Twenty-three members and three guests were present at the meeting.

A registered mechanical engineer, Moerman has been employed by Louis C. Kingscott & Assoc., Inc. since 1951 and is responsible for the design of plumbing, heating, ventilating and air conditioning systems in all buildings planned by the firm.

MOERMAN ELECTED TO KINGSCOTT ASSOCIATES BD.

At the thirty-fifth Annual Stockholders Meeting of Louis C. Kingscott & Assoc., Inc., Mr. Daniel Moerman was elected a member of the Board of Directors.

Mr. Moerman, 39, is a life-long resident of Kalamazoo and attended Kalamazoo Public Schools and graduated from Western Michigan University.

Absolute temperature control is essential at Micro-Measurements, Inc. That's why the company, manufacturer of precision strain gages for the automobile, aircraft and missile industries chose electric heat. With electric heat, temperature is easily and accurately controlled. At the same time, air changes in the building are kept within controllable, cleanable limits—an important feature in the near-sterile conditions needed here. Duct heaters maintain a constant temperature of 76 degrees during the heating season. In summer, electric air conditioning keeps the temperature at the same 76 degrees. Constructed to Edison recommendations, the Romulus plant has performed to the complete satisfaction of the owner.

What about you? Before you decide on any heating system for a new or modernized building or addition, talk to an Edison Electric Heating Specialist about the many advantages of flameless electric heat. For more information just call WO 2-2100, ext. 2223 in Metropolitan Detroit. Elsewhere call your Edison office. EDISON
ARCHITECTURE IN PRESS—ON RADIO, TV AND SIGNS

During the period prior to and during MSA's convention, recognition was given to the Society and its anniversary by various news media.

On Friday, March 13th, Carl Konzelman lead off his Home and Garden Section in The Detroit News with an illustrated article "Architects to the World — Detroit Design Talent carries weight in Projects Around the Globe."

J. Roy Carroll, Jr., A.I.A. President was interviewed by Lee Murray for her program on WJR radio.

Carol Duvall discussed residential architecture with Gunnar Birkerts on WWJ-TV's "Living" show on March 17th. Philip J. Meathe, Detroit Chapter President and Wm. Dudley Hunt, Jr., Convention Seminar Moderator, Carol Duvall and Annabelle King of The Detroit News were the guests of Ron Gamble on his show, "Conversation Piece" from 1:00—1:30 on March 19th.

Visual salutes to the Society and Michigan Architects were given by Michigan Consolidated Gas Co. and Burton Title & Abstract Co. on the illuminated message signs on the Lodge Expressway and E. Jefferson Avenue.

Additional press coverage was given by newspapers throughout the state to pre-convention releases, the Key-Note Address by Robert F. Hastings, A.I.A Treasurer and other events.

STATE BOARD EXAM

SCHEDULE ANNOUNCED

The Michigan State Board of Registration for Architects, Professional Engineers and Land Surveyors has announced the following dates for examinations for architects.

Tuesday, May 26, 1964,
Part I, Mech. Equip. (4Hr.)
8 AM to 12 Noon
Part II, Composition (4Hr.)
1 PM to 5 PM

Wednesday, May 27, 1964,
Part IV, Structural (4Hr.)
8 AM to 12 Noon
Part V, Specifications (4Hr.)
1 PM to 5 PM

Thursday, May 28, 1964,
Part III, Design (12Hrs.)
Starting at 8 AM

Friday, May 29, 1964,
Part VI, Supervision (4Hr.)
8 AM to 12 Noon
Part VII, History (4Hr.)
1 PM to 5 PM

The examination covering Part III, Architectural Design is conducted only at the University of Detroit (Engineering Building) in Detroit and the Michigan Technological University in Houghton.

All other examinations will be held in Detroit at the Rackham Building; in Ann Arbor at the University of Michigan; in East Lansing at Michigan State University; in Houghton at the Michigan Technological University; in Jackson, Bay City, and Grand Rapids.

All applications must be in the State Board office by April 1, 1964. No applications can be accepted after this date. All applications must be signed and notarized on the back page or they cannot be accepted. The $15.00 application fee must accompany all applications submitted to the State Board.

COMPETITION FOR A.I.S.C.
AWARDS ANNOUNCED

American Institute of Steel Construction has announced the opening of its Architectural Awards of Excellence competition. This is the fifth year in which the Institute, national association for the fabricated structural steel industry, has sponsored this competition to encourage the creative uses of structural steel in imaginative and esthetic ways.

The competition is open to all registered architects practicing professionally in the United States. Buildings of all classifications, completed since January 1, 1963, are eligible for entry.

"The program is intended to focus attention on outstanding structural steel design, and to encourage architects to look upon steel as a modern, versatile and esthetically pleasing material," Robert C. Palmer, AISC President and president of the R. C. Mahon Co., said in announcing the competition.

Mr. Palmer emphasized that no elaborate presentation is required for entry. He said that the awards program is open for any kind of building. The judges will give equal emphasis to buildings of all sizes and types.

In prior years, he stated, awards have been made to a wide variety of structures, from a fire house to a zoo cage, and from a massive public auditorium to a small community bank.

Submissions must be made by May 1, 1964. Details of the award program and entry information can be obtained from AISC at 101 Park Avenue, New York 17, New York.

LETTERS

THE WHITE HOUSE
Washington
February 25, 1964

Dear Mr. Hughes:
The President has asked me to acknowledge and thank you for your letter of January 28th inviting him to address the Building Industry Banquet to be held at Cobo Hall in Detroit on Friday evening, March 20th, culminating the 50th Anniversary Convention of the Michigan Society of Architects.

It is with very real regret that the President must have me decline your invitation. He is most appreciative of your kind thought of him but, as his March schedule has developed, it will not be possible for him to plan to come out to Detroit for your banquet on March 20th. He assures you of his warm thanks, nevertheless, and sends you and all those of the Michigan Society of Architects his best wishes.

Sincerely,
Kenneth O'Donnell
Special Assistant to the President

Governor Romney deeply appreciates receiving your most cordial invitation to address the delegates attending your 50th anniversary convention in Detroit in March, and regrets that he is unable to accept. Every good wish for a successful convention in '64.

Sincerely,
Phil O. Pittenger
Executive Assistant

Thank you for your letter of March 4. Mrs. McNamara and I will have to take a rain check on your kind invitation to attend the Building Industry Banquet to be held at Cobo Hall on March 20th.

As you know, the Senate is engaged in the civil rights debate and I feel it my duty to be on deck until this legislation comes up for a final vote. Thus, it will be impossible for me to leave the Washington area at this time.

My best wishes to the Society's 50th Anniversary Convention.

Sincerely,
Pat. McNamara, U.S.S.

Considering the interest I have in the work of your society, it is a personal disappointment that Mrs. Hart and I can not make it to the Banquet. But, as you know, Civil Rights keeps me here. Best Wishes.

Philip A. Hart
United States Senator
Congratulations to the Michigan Society of Architects on their Golden Anniversary. May the Society carry on many more years of progressive activity on behalf of the Architectural Profession.

G. Harold W. Haag
President Penna. Society of Architects.

Thank you for the invitation to attend the Convention of the Michigan Society of Architects. I regret that I shall not be able to accept this kind invitation because of a prior commitment. May I wish you the best for your 50th Annual Convention.

Yours truly,
Arthur Rigolo
President
The New Jersey Society of Architects

The Architect's Association of Illinois extends its wish of every success during your 50th year.

Sincerely,
Jack C. Blackman, President
Architect's Association of Illinois

The Minnesota Society of Architects extends the Michigan Society of Architects their best wishes and appreciation of the leadership they have shown among the architects for the whole country.

Sincerely,
Roy N. Thorshov
President

The Wisconsin Chapter, A.I.A. extend best wishes to the Michigan Society of Architects for a highly successful 50th Anniversary Convention.

Cordially,
Leonard H. Reinke, Pres.

I am sorry to say that several previous engagements prevent my leaving the city at this time, but I would like to take this opportunity to extend my best wishes for a most successful convention.

Sincerely,
Jack D. Train
President
Chicago Chapter, A.I.A.

You certainly have an excellent program for your 50th Annual Golden Jubilee Convention. Since AIA is so well represented I won't try to be there but extend my best wishes for a most successful meeting.

Cordially yours,
William H. Scheick, AIA

In reply to your letter of March 11th, I am sorry to say that Mrs. Cunningham and I will not be able to attend the MSA Convention this year. I wish you, Bruce and everyone else involved, the best of luck for a successful program.

Very truly yours,
NORTHERN MICHIGAN CHAPTER AIA
Harold G. Cunningham
President

Michigan Society of Architects has done and is doing great work in the advancement of the profession and deserves the whole-hearted support of all in the profession.

My best regards to all and trusting you personally are enjoying your new duties, may I remain.

Sincerely yours,
C. William Palmer

I have just been notified of a meeting on Thursday night, March 19, that I must attend. This makes it impossible for me to attend the Convention. Guess you know how disappointing this is to me. Give the boys my best. I am sure the 50th will be the best ever.

Sincerely,
C. A. OBryon

Congratulations on your outstanding March bulletin. It is one of the nicest we have seen.

Sincerely,
THE UDYLITE CORPORATION
W. G. Anderson
Director of Advertising
Lounges, Architectural and Product Exhibits and Bar in the Founders Room.

Precast Industries, Inc. Award of Merit product exhibit.

Registration Desk and Product Exhibits in the Crystal Ballroom.
MSA's Golden Jubilee Convention is now a part of the Society's fifty-year history. Record attendance and unusually fine product exhibits made this one of the greatest of the Society's conventions. The new format for the convention area—with product exhibits, architectural, students' and draftsmen's displays, registration desk, bar, lounges and buffet intermixed throughout the area—proved to be successful in creating increased interest and activity.

Total registration was approximately 550 of which 150 were MSA members, 25 guests and 75 students. Attendance of members not registered was estimated to be about 100. A total of 240 members and guests attended the Awards Dinner to hear J. Roy Carroll, Jr., A.I.A. President; 350 enjoyed the excellent cuisine, program and dancing at the Building Industry Banquet.

Seminars, moderated by William Dudley Hunt, Jr., A.I.A. Journal publisher, were thought provoking sessions with vigorous audience participation.

Pictures on these pages and elsewhere are random shots at the Convention taken by Win Holman, Lens-Art photographer.
WHEREAS, all signatory members of the ROOFING INDUSTRY PROMOTION FUND located in Detroit, Michigan, are of the opinion that a legitimate roofing guarantee is to protect the buyer during that period of time when roof problems are most likely to occur, and

WHEREAS, the Executive Board of National Roofing Contractors Association has rendered an opinion that 2 years is sufficient time for failures in materials and workmanship to become apparent and has recommended that all roofing contractors adhere to a policy of issuing built-up roofing guarantees which do not exceed 2 years.

BE IT RESOLVED, that the contractor-members of the ROOFING INDUSTRY PROMOTION FUND have determined that, effective JUNE 1st, 1964, all guarantees on built-up roofs should not exceed a maximum of 2 years duration.

ALPHA RHO CHI ALUMNI
PLAN ANNIVERSARY CELEBRATION

The year 1964, celebrated by MSA as its golden jubilee is also the fiftieth anniversary date of Alpha Rho Chi fraternity co-founded at the University of Michigan and Illinois in 1914 as the Iktinos and Anthemios Chapters.

Alpha Rho Chi is a national professional fraternity limiting its membership to students of architecture and the allied arts. It was founded at the Universities of Illinois and Michigan on April 11, 1914 to organize and unite in fellowship the architectural students in the universities and colleges of America and to combine their efforts so as to promote the artistic, scientific and practical efficiency of the younger members of the profession.

The local architectural society at Michigan, Sigma Upsilon, was formed as early as 1910. However, after a survey of architectural fraternities at other schools, nationalization was agreed upon and was assured with the formation and association of the two chapters.

Nationalization provided new impetus for the local chapter. The limited membership produced a strong spirit of fellowship which carried over beyond graduation to form active alumni groups. Most chapter members gravitated to the Detroit area for professional advancement. Many of the Detroit area firms (with some historical background) include among their members, past and present — alumni of the fraternity.

To celebrate the golden anniversary of the Fraternity, the alumni group of Alpha Rho Chi has prepared a program befitting this event. The Founders Day dinner is initiating the anniversary program. It will be held at the Washtenaw Country Club, on Packard Road, midway between Ann Arbor and Ypsilanti, on the evening of April 25, 1964. An informal gathering is to take place prior to the dinner, at the fraternity house on Oxford. Following the dinner, an evening of dancing and entertainment is scheduled at the fraternity house.

An invitation to attend is extended to all alumni of the fraternity whether active or not. Illinois alumni living in the area are also invited. The time of the gathering and dinner will be noted on the program notice which will be sent to all alumni on the current roster. For those not appearing on the roster and for further information please call or write the program co-chairmen, J. A. Gerak, 432 Birmingham (646-6390) or Richard Cain, 22947 Wellington, Dearborn (CR 4-2864). A complete program of scheduled golden anniversary events will be sent to all members at a later date. It is anticipated that joint Michigan/Illinois events will be scheduled during this year. All alumni are being cordially invited to join in the activities.

PILGRIM MANOR

Grand Rapids, Michigan

Owner: Pilgrim Manor, Inc., a non-profit corporation of West Michigan Congregational Churches.

Architects: Wold & Bowers, Architects, Inc.

Mechanical Engineer: Leonard A. Rus, P.E.

Electrical Engineer: Dean, Kempner, Fairbrother & Gunther, Inc.

Landscape Architects: Wold & Bowers, Architects, Inc.

General Contractor: George Datena & Sons, Inc.

Pilgrim Manor was awarded a First Honor Award in the Elderly-Nursing classification of the 1963 Federal Housing Administration’s Honor Award’s Program—the first to be held by F.H.A.

The Manor has as its design key a series of “villages,” each with its own laundry facilities, craft shop, garden courts and lounge. The “villages” surround a central facility containing dining room, kitchen, music lounge, gift shop and offices. Adjacent to the central unit is a 30-bed health center for infirm residents.

Pilgrim Manor’s construction makes full use of rolling ground on the 10-acre site, in an area which is rapidly being developed for residential subdivisions. The central facility is of two-story construction; the one-story villages occupy different land levels.
For the 158 persons who live at Pilgrim Manor, everything they need or want is provided, including a barber and beauty shop and shuffleboard, a popular recreation in this age group. Residents range in age from 62 to more than 90, with the average age about 80.

The village concept was decided upon to provide more intimacy of surroundings and less of the institutional atmosphere and to reduce the need for long corridors. Light, bright rooms are the rule for the 128 residents who live outside the health center. There are 112 single rooms and 16 double rooms.

Much use has been made of textured materials, such as stone and brick, in the building, and the garden courts, all different, use statuary, wood, gravel, concrete and growing plants. Interesting designs in floor tile have been provided, as well as modern lighting fixtures, to provide a homelike atmosphere. Safety has been a chief consideration, shown particularly in bathrooms, a frequent location for falls.

Total cost of the project was $1,550,000 including buildings, furnishings, landscaping, FHA and architects’ fees. The buildings contain 86,538 sq. ft. at a construction cost of $16.00 per sq. ft. Cubic foot cost was $1.44 1/2. Total cost per resident—$9,850.

14 | Monthly Bulletin, MSA
DAGL ANNOUNCES 1964 SCHEDULE

Robert J. Domke, AIA, president of the Detroit Architectural Golf league, has announced the following schedule of tournament play during the 1964 season.

May 8 Detroit Golf Club
June 9 Western Country Club
July 14 Meadowbrook Country Club
August 17 Edgewood Country Club (shotgun)
September 8 Plum Hollow
October 14 Oakland Hills Country Club

November 7 League Banquet at Plum Hollow

The final event will be the league's Annual Banquet on November 7th at Plum Hollow Country Club.

In making the announcement, Domke stated that memberships are available and urged all architects to participate. He explained, "The bylaws of this organization require that a constant ratio of one to one be maintained between architect-engineer members and contractor-producer members. This policy, which is rigidly enforced, has helped to maintain this particular organization on a high level that is beneficial to all members of the construction industry."

Further information may be had by calling Domke at WO 2-7080.

Edward W. Limp

LIMP HEADS ACOUSTICAL CONTRACTORS ASSN.

Edward W. Limp, Manager of the Contracting Department of Owens-Corning Fiberglas Supply Corporation, has recently elected president of the Acoustical Contractors Association of Greater Detroit.

A native of Akron, Ohio, he graduated from Kent State University, Bachelor of Science in 1951.

The association he now represents active in solving acoustical problems in commercial and institutional buildings throughout Michigan.

Manfred Stryck

LEVIN, PIERCE & WOLF APPOINTS CHIEF ENGINEER

Manfred Stryck has joined Levin, Pierce and Wolf, Detroit consulting engineering firm, as chief structural engineer, according to Ralph Pierce, senior partner.

A graduate of Wayne State University, Stryck has held structural engineering positions with Ford Motor Company, the City of Detroit, Harley, Ellington, Cowin and Stirton and Benjamin, Woodhouse and Guenther. He is a member of the American Society of Civil Engineers and the American Concrete Institute. Among his professional honors is a certificate of proficiency in fallout shelter design and analysis from the University of Illinois.

ESD NAMES NEW EXECUTIVE DIRECTOR

The Board of Directors of The Engineering Society of Detroit has announced the appointment of Robert W. Croy as Executive Director to succeed Frank Horton who is retiring.

Mr. Croy brings to E.S.D. an extensive background in professional societies, trade associations and hotel and food service industries. Most recently, he has been Executive Director of the Packaging Machinery Manufacturers Institute with headquarters in New York City.

Prior to that, he spent 8 years on the staff of the Society of Automotive Engineers where he managed SAE's Meetings, Displays, and Public Relations Departments.

A native of Detroit, Croy attended the University of New Hampshire, then entered the hotel industry where he was associated with several prominent hotels in sales management prior to joining SAE. These included the Boca Raton Club in Florida, the Ambassador in Los Angeles and the Hotel New Yorker.

April, 1964 | 15
OBITUARIES

HAROLD S. ELLINGTON

Harold Slaight Ellington, 78, a founder of Harley, Ellington, Cowin and Stirton, Inc., architects and engineers, died in Detroit's Ford Hospital Saturday, March 14. He was an honorary member of the Detroit Chapter, A.I.A.

A native of Chicago, Mr. Ellington graduated from Illinois Institute of Technology with a B.S.C.E. in 1908. He came to Detroit in 1912 as a construction engineer for the Stroh Brewery Company, later was associated with the Book Estate. He became a partner in the firm of Giaver, Dinkelberg & Ellington, architects and engineers, of Detroit and Chicago, and was a partner in the firm of Weston & Ellington, architects and engineers, of Detroit, prior to his association in 1933 with Alvin E. Harley, a co-founder of HEC&S.

Widely recognized as an authority in the engineering and planning of beverage and processing plants in this country and abroad, his firm developed during his active years from a small organization to one of the larger firms in the nation with a practice extending through many states and into several foreign countries.

Mr. Ellington was registered as a Civil and Professional Engineer in the States of Michigan, New York, Pennsylvania, New Jersey, Texas, Ohio, Illinois, Indiana, Rhode Island, Wisconsin, Minnesota, and the District of Columbia.

At a dinner marking the 30th Anniversary of Harley, Ellington, Cowin and Stirton, Inc. in June, 1963, Mr. Ellington and Mr. Harley retired from active practice. At that time, they were presented with testimonial letters from Detroit's Mayor Jerome P. Cavanagh praising their contribution in the design of the first two buildings in Detroit's Civic Center—the Veteran's Memorial Building and the City-County Building.

While in Detroit, Mr. Ellington made his home in the River House, 8900 East Jefferson, with his wife, Harriett L. The Ellingtons also had a home in Fort Lauderdale, Florida.

CHARLES W. TRAMBAUER

Charles W. Trambauer of 26205 Killarton Road, Farmington, Michigan died February 27, 1964, at the age of 53 after an extended illness.

Born in Chemnitz, Germany, he came to the United States in 1924. In his early years in the U.S., a wide variety of jobs prepared and directed him toward the heating and air conditioning field to which he contributed so much. Self taught by necessity and obtaining formal education whenever he could created a deep interest in the field of education. For the last fifteen years Mr. Trambauer represented the Herman Nelson Division (American Air Filter Company, Inc.), concentrating on sales of heating and ventilating equipment to the school market. Many of his proteges attribute their success to his guidance and dedication.

Mr. Trambauer's wide experience and success gained him recognition by the American Society of Heating and Ventilating Engineers, American Society of Military Engineers and also added his name to the roster of Scientific and Specialized personnel of the War Manpower Commission. He served as President of the Michigan Chapter of Producer's Council, Inc., and was honored with a lifetime membership on his retirement.

He is survived by his wife, Ann; daughter, Pamela; two sons, Charles and Guy, and four grandchildren.

PLANNING A NEW GYM FLOOR?
THERE'S A ROBBINS EXPERT NEAR YOU!

When it comes to selecting a new gymnasium floor or replacing your present one, your best source of counsel is a franchised Robbins flooring installer. His high standards, years of experience and business competence have won him high community respect. For only the best qualified contractors win installation authorization from Robbins.

He can give you full details on the best floor for your needs—a floor that will satisfy your budget-minded school board as well as your comfort-conscious student body. And you’ll be well pleased with the play-improving qualities of the flooring system he recommends.

Write or call today for full detailed information on specifications and cost estimates.

**How to insulate these basic wall systems for just 10¢ to 21¢ per sq. ft.**

1. **BRICK AND BLOCK**
2. **BRICK CAVITY**
3. **BLOCK**

Specify Zonolite Masonry Fill Insulation to fill concrete block cores or cavities of brick cavity walls. The installed cost runs from a low of approximately 10¢ per sq. ft. of wall to 21¢, depending on block or cavity size. Zonolite Masonry Fill Insulation cuts heat transmission through the walls up to 50% or more...reduces cost of heating or cooling equipment needed...offers clients more comfort, a more efficient structure for their money. Your Zonolite representative has details.

**ZONOLITE MASONRY FILL INSULATION**

"Reg. trade mark of Zonolite Div., W. R. Grace & Co."
