The winning architects, along with the owners and the mason contractors on these projects, were honored at a special Masonry Awards Banquet, held last month at the Somerset Inn in Troy. All received specially cast bronze plaques known as "M Awards."

The Masonry Institute of Michigan and the Michigan Society of Architects, who cosponsored the competition, join in congratulating the winners for their outstanding designs.

We also take pleasure in announcing that this competition will continue on an annual basis. Rules for the 1976 program will be sent automatically to all MSA members. Non-winning 1975 entries may be resubmitted in 1976 provided they comply with other rules of the competition.

Future issues of this Bulletin-Newsletter will take a closer look at the 1976 winners.

Eugene DiLaura, President
Michigan Society of Architects

Joel Lutz, President
Masonry Institute of Michigan, Inc.
From the President - Eugene L. DiLaura, AIA

As we move into the second half of our 200th year, MSA is still very young, having been born in 1914.

While still young, MSA is currently in the process of reevaluating itself, to better understand the things we should be doing and how to do them. This, of course, relates to the service provided to the individual membership (all categories), and the firm members.

The goal is to provide a spring board from which Architects will become better prepared, more capable, more conscious of their involvement in providing the total needs of their clients, and allow each of us to have more control over our destiny.

To accomplish these things, we must increase the total MSA Membership to provide a greater unified voice while working closely with all levels of government. We must critically review our own short comings to determine what measures can be taken to decrease the unprecedented costs involved in maintaining the practice of Architecture, regardless, of the size of the office. We must embark on a Continuing Education Program that will enrich each of the participants as they are addressed by experts of the various disciplines—thereby—becoming a better member of his team and ultimately being better able to respond to natural resources, the environment, and his client.

The Architect, with the associates professionals, must be able to respond to the role of the Master Builder. These things can be done if we really try. You are invited to actively participate with MSA as we will play a role toward this goal!

Legislative Log

Minuteman Program...As we go to press we have only received one response from Jerry Yurk, AIA, Flint Chapter in reply to our request for minuteman information. If you have been thinking about responding DO IT TODAY - pull out your January Newsletter or call Headquarters (313) 965-4100 collect with the information. WE NEED YOUR ASSISTANCE—REMEMBER YOU ARE THE MSA.

Capitol Briefs...January 7, the State Board of Education approved $2.7 million in grants to six intermediate school districts and four community colleges for vocational education centers...

January 8, unpassed legislation from 1975 carries over to 1976 automatically. Some of the issues still before lawmakers include borrowing from two restricted funds and shifting the fiscal year to avert the $156 million remainder of a budget deficit projected for July 1. Increasing payments to workers injured on the job without raising levies on business owners excessively and increasing Detroit’s income tax on residents and corporations from 2 percent to 3 percent while tripling non-residents’ taxes from 0.5 percent to 1.5 percent...

January 8, the Court of Appeals Thursday ruled unconstitutional a statute requiring publication of notice of municipal contracts only in a newspaper circulating within the municipality. The court noted Supreme Court handling of a similar statute in which it said the requirements offend due process clauses of the federal and state constitutions...

The court of Appeals in another case upheld the constitutionality of delegating authority under the Construction Code Act to the Construction Commission to adopt a new code. The Institute (Construction Code Commission) lifted restraining orders prohibiting enforcement of the code. The City of Warren had complained the act unconstitutionally delegated legislative authority to the commission...

The court said legislative policy was made apparent and the power to carry out that policy may be delegated to an administrative board...

January 9, revenue projections for the tax are running over the $800 million initially expected by the $50 million amount he proposes for small-firm example. Mr. Davis suggested the partial cut and asked for state budget director Gerald Miller’s help in devising the change...

Michigan will make a strong bid for the proposed national Solar Energy Research Institute. The Institute will be established by the federal Energy and Development Administration as the national laboratory for study and development of all aspects of solar energy. It is expected to employ more than 1,500 persons and operate on an annual budget of more than $50 million...

The Department of corrections has named Alvin L. Whitfield deputy director of the Department’s Administrative Services.

The Department of State Highways and Transportation donated an historic 120 year old home to the Macomb County Historical Society. The building known as the Crocker House, will be moved and renovated into an historical museum. The house was acquired by the department for the improvement of southbound M-3 (Gratiot Avenue) in the city...

January 15, Governor Milliken said he will create a State Energy Administration in the Department of Commerce to provide long-term planning of supplies and demands, and...
a policy council to develop a comprehensive energy act. He also proposed amending the construction code to provide thermal efficiency standards...KELLY SAYS OTHER LAWS MUST BE FOLLOWED BEFORE CONSTRUCTION PERMITS ISSUED

Attorney General Kelly has ruled the agency enforcing the State Construction Code Act can require an applicant to obtain other permits required under state law and locally-required permits before issuing a construction permit. Other permits that could be required include land use, septic, driveway, soil erosion and sedimentation and well permits. Mr. Kelley (in Opinion No. 491) said even if a local unit exempted itself from a state and Construction Code by adopting another permitted code, it is subject to the state Construction Code rules...

BUILDING TRADES Deregulated

Five building crafts and trades no longer require state licenses under an order by Department of Licensing and Regulation Director Beverly Clark effective January 10. The trades are drywalling, awnings, fences, formica installation and water softener installation. They had been under an emergency rule filed July 9, which expired January 9. Also under the rule was asphalt paving which still requires state licensing.

For your information we are listing the Senate and House Committees and Joint Committees. If you have particular interests in any of these committees let us know we will endeavor to obtain information concerning the committee.

SENATE COMMITTEES

First named is Chairman; second is Vice-Chairman; Democrats are in Regular Type; Republicans are in Italic Type.

AGRICULTURE AND CONSUMER AFFAIRS: Hertel, Otterbacher, Faust, Young and Allen.

COLLEGES AND UNIVERSITIES: Corbin, Otterbacher, Faxon, Foy and Burstar.

COMMERCE: Cooper, McCollough, Fitzgerald, Bishop and Young.

CONSERVATION AND ENVIRONMENT: Mack, Brown, Kammer, VanderLaan and DeMaio.

CORPORATIONS AND ECONOMIC DEVELOPMENT: McCaulley, Bowman, Derezenski, Bishop and Ziegler.

EDUCATION: Faxon, Hertel, Faust, Bursley and Allen.

HEALTH, SOCIAL SERVICES AND RETIREMENT: Otterbacher, Faxon, Cartwright, DeGrav and Bursley.

HIGHWAYS AND TRANSPORTATION: Cartwright, Plesski, Hertel, DeGrav and DeMaio.

JUDICIARY: Brown, Derezenski, McCollough, Bishop and Ziegler.

LABOR: Plesski, Corbin, Faxon, DeGrav and Wellborn.

MUNICIPALITIES AND ELECTIONS: McCollough, Kammer, Cartwright, Wellborn and Young.

SENATE BUSINESS: Fitzgerald, Derezenski, Cooper, Davis and VanderLaan.

STATE AFFAIRS: Faust, O'Brien, McCaulley, VanderLaan and Bursley.

TAXATION: Bowman, Corbin, McCaulley, O'Brien, DeMaio and Wellborn.

TOURIST INDUSTRY RELATIONS: O'Brien, Kammer, Plesski, Allen and Bursley.

VETERANS AFFAIRS: Kammer, Otterbacher, O'Brien, Foy and Ziegler.

HOUSE COMMITTEES

First named is Chairman; second is Vice-Chairman; Democrats are in Regular Type; Republicans are in Italic Type.

AGRICULTURE: Albosta and Porter (co-chairmen), Spaniola, Trim, (Vacancy), Hoffman, Pesski, Sackett and Van Singel.

CITY GOVERNMENT: Griffin, Hertel, Holcomb, Markes, Padden, Brotherton, McNamee, Smith and Strong.

CIVIL RIGHTS: Bullard, Ferguson, Jondahl, Monsma, Scott, Conlin, F. R. Edwards and Farrow.

COLLEGES AND UNIVERSITIES: Vaughn, Monsma, Bullard, Elliott, Hasper, Mathieu, McCollough, House, McNamee, Wellborn and Farrow.

CONSERVATION AND RECREATION: Anderson, Rocca, Ginter, Griffin, R. Hood, Porter, Siesema, T. Stopecky, Armbruster, Goetz, Miller, Osting and Sackel.

DRAINAGE: Maynard, Porter, Harrison, Albosta, (Vacancy), Armbruster and Nash.

ECONOMIC DEVELOPMENT: Ginter, DiNello, Anderson, Hertel, Keith, Monsma, Ryan, Scott, T. Stopecky, Angel, Conlin, Engler, Geering and Wellborn.

ELECTIONS: Sheridan, R. Hood, Dutko, Griffin, Kelsey, Markes, Siesema, Goetz, DeVaughn, Grube, Kennedy, Osting and Prescott.

JUDICIARY: Rosenthal, Vaughn, Bullard, Clodfelter, Cushingerry, DiNello, Geralds, Hertel, Legel, Coughborne, Busch, Feisser, House, Nash and Stevens.

LABOR: Elliott, Scott, Bonior, Dutko, Hertel, R. Hood, Legel, Mathieu, Montgomery, Frederick, But, Hoffman, Strong, Van Singel and Wellborn.

LIQUOR CONTROL: S. Stopecky, T. Stopecky, Keith, Maynard, Ogonowski, Spaniola, Armbruster, Hayden, Miller, Osting and Prescott.

MARINE AFFAIRS: Bonior, Holcomb, Rocca, S. Stopecky, (Vacancy), Frederick, Geering and Holmes.

MILITARY AND VETERANS AFFAIRS: Harrison, Geralds, Cushingerry, Markes, Siesema, Brotherton, Holmes, Powell and Wellborn.

PUBLIC UTILITIES: Hasper, Sheridan, Ginter, McNeely, Novak, Engler, Geering, Strong and Van Singel.

SOCIAL SERVICES AND CORRECTIONS: Ferguson, Hollister, Geralds, Mathieu, Padden, Ryan, Spaniola, Wolfe, Busch, Frederick, Miller, Osting and Nash.

• Social services and corrections will be split from Social Services as of July 1, 1975, becoming a separate standing committee.

TOURIST INDUSTRY RELATIONS: Ogonowski, Harrison, Dutko, G. Edwards, Holcomb, Keith, Binfield, Frederick, Mittel, Sackett and Varnum.
On the National scene... Energy conservation fell into incorporating the federal buildings. State and local units of government for new residential and commercial buildings. The Senate floor after Congress returns January 19th. As reported, the bill authorizes the development, within 3 years, of federal energy conservation performance standards for new residential and commercial buildings. State and local units of government failing to incorporate the federal standards into their building codes within a certain time frame will be subject to sanctions—a withholding of federal funds (except revenue-sharing) for the construction of buildings and a prohibition on financial institutions making or purchasing loans for building construction. The AIA had recommended that interim performance standards—energy budget figures less precise than the final standards—be promulgated within a year so that states would have an alternative to the ASHRAE 90-75 standard many are now considering for adoption. However, federal agency officials opposed this suggestion, saying it was not feasible within the suggested time period. Because the House-approved bill authorizes voluntary performance standards, the final version of this legislation will be determined by a House-Senate conference committee.

The Metric Conversion Act of 1975, signed into law by the President on December 23rd, calls for voluntary conversion by all sectors of the economy to the international metric system. As successfully amended by the AIA, the composition of the Metric Board (which will help plan and coordinate the conversion) includes a representative of the construction industry.

Early in 1975, the House Democratic leadership sponsored an accelerated public works program, designed to create jobs and aid economic recovery. The bill, H.R. 5247, authorized $5 billion in federal funds to cover the complete cost of constructing a variety of state and local public works projects. The Institute supported this legislation as part of the joint AIA/AFL-CIO Building Trades effort to revitalize the construction industry. A final version of H.R. 5247 has now come out of a House-Senate conference committee, with $2.5 billion for the public works projects, $1.9 billion for other jobs-creating programs, and $1.6 billion in anti-recession aid to cities. The Senate has approved the conference report but the bill faces problems in the House and an almost certain veto by the President.

Ann Stacy
Executive Director
Michigan Society of Architects

NEW ASSOCIATION FOR MANAGERS

Professional business managers from planning and design firms have established a national organization aimed at improving in-house management operations and effectiveness. The goals of the newly-formed Professional Services Business Management Association (PSBMA) are:

- To provide a forum for exchanging ideas and information and for discussing common problems and issues.
- To establish guidelines for approaches to common management concerns.
- To increase the recognition of the value of good business practices among planning and design firms.
- To advance and improve service to clients.

Membership in PSBMA is open to anyone with management or administrative responsibilities in firms that deal with the planning and design of the man-made environment. Individuals in accounting, administration, finance and personnel with architects, consulting engineers and planners will benefit most from joining PSBMA.

PSBMA will not be associated with any other organization, although it is seeking cooperative relationships with other professional societies such as AIA, ACEC, PEPP, AIP and ASCE.

The first general membership meeting will be held February 25-26, 1976 in Chicago, with a seminar on overhead and profit rates and management information systems featured on February 26. For more information on PSBMA and its first meeting, contact:

O.C. (Russ) Tirella
Vice President - Finance & Administration
Ryckman/Edgerley/Tomlinson & Assoc., Inc.
12161 Lackland Road
St. Louis, MO 63141
(314) 434-6960

PRODUCERS' COUNCIL TO SPONSOR BUILDING & CONSTRUCTION EXPOSITION & CONFERENCE

The Producers' Council, Inc., will sponsor a nationally-oriented Building & Construction Exposition & Conference at McCormick Place in Chicago, November 17-19, 1976. Producers' Council (PC) is the national organization of manufacturers.
of quality building products. It comprises more than 200 national member companies, divisions and subsidiaries plus some 3,000 local members in major-market Chapters and affiliates.

ARCHITECT URGES AREA TO ADOPT STRICT CODES TO CONTROL SIGNS

Adoption of strong sign ordinances in area communities was urged Thursday by John Dye, Oscoda architect, who believes that commercial signs along US-23 are creating a chaotic situation.

Appearing before a joint session of businessmen’s associations of Tawas City and East Tawas, Dye presented his color film entitled, "The Noisy Landscape." The film showed commercial signs on US-23 from the south limits of Tawas City to the Tawas Beach Road intersection with US-23, along with the Newman Street business district at East Tawas.

Dye urged businessmen to consider the use of signs which are fastened flat against store fronts, rather than signs overhanging sidewalks. He believes that communities deserve to be beautified and recommended adoption of strict sign ordinances as a step in that direction.

AIA SCHOLARSHIPS

The 1976 AIA Scholarships are now available to any person interested. To obtain an application and further information write to, The American Institute of Architects, 1735 New York Avenue, N.W., Washington, D.C. 20006.

RECORD EDITORS WOULD LIKE TO EXPAND THE DIALOGUE ON THE FUTURE

... and herewith a request and invitation for readers across the country to submit their thoughts on the critical problems facing architects and architecture, and their ideas on the possible solutions. We cannot make work for architects—but we can make a noise that might be heard in the land. The most thoughtful submissions will be a continuing dialogue among and on behalf of architects—and the unique and uniquely important service they provide which is good architecture.

DOCUMENT SPECIAL OF THE MONTH

Document M 101 -- 'Glossary of Construction Industry Terms' is now on sale for .754 per copy, originally $1.25 with any document order consisting of $2.00 or more. Call MSA Headquarters at (313) 965-4100.

1976 ENGINEERING SUMMER CONFERENCES

CONTROL OF SOIL EROSION AT CONSTRUCTION SITES

Continuing Engineering Education
300 Chrysler Center - North Campus
The University of Michigan
Ann Arbor, Michigan 48105
Chairman: Donald H. Gray
June 10-11, 1976
Fee: $150.00

Topics will include storm runoff estimation, recognition of erosion hazards, site use planning to minimize erosion, vegetative and structural control measures, and the design of an integrated erosion control system.

CONFERENCE PLANNED BY THE AMERICAN SOCIETY OF CIVIL ENGINEERS

The Geotechnical Group of Ann Arbor/ Southeastern Branches, Michigan Section, ASCE, is planning a Conference on "Better Contracting for Underground Construction", tentatively scheduled for April 30, 1976. This Conference is in response to a rising number of contractual disputes and litigations in subsurface construction. The Conference is to review the status of existing underground construction and contracting practices and to identify the problem areas and propose improvements. The scope of the Conference will include all aspects of underground construction such as tunnels, cut and cover, excavations and foundations. The Conference objective is to bring together various viewpoints and establish dialogues among all parties involved in the underground construction and contracting; i.e., owners, engineers, architects, construction managers, contractors and attorneys.

In order to stimulate discussions and obtain the widest possible input of ideas in a very complex subject matter, the Conference
Planning Committee is requesting those who are interested to put down their thoughts in writing for publication in conference proceedings. It is hoped the preprints will be made available prior to the Conference. Following are some of the topics suggested for consideration: subsurface investigation, specifications, extras, arbitrations, contractural methods, acceptance of performance or code requirements. It is requested the prospective authors contact the Planning Committee at the following address for further details: Stoll, Evans & Associates, 111 West Kingsley Street, Ann Arbor, Michigan 48103, Attention: In Kuli Kim (313-994-5055).

NEW PERIODICAL DIGEST

There is a new periodical digest service that offers speedy retrieval of architectural source materials from 47 major international periodicals. For further details, write Geodex International, Inc., P.O. Box 279, Sonoma, CA 95476.

AACE ANNUAL CONVENTION

July 18-21 20th Annual Meeting and 4th International Cost Engineers Symposium of the American Association of Cost Engineers, Boston, Mass. at Hotel. For further information, contact A. D. Furia, United Engineers & Constructors, Inc., 100 Summer St., Boston, MA 02110, Telephone (617) 338-6000.

FOR KIDS AT CHRISTMAS

Old Newsboys Jim Gallagher of SH4G and Sam Popkin of Rossetti Associates collected almost $600.00 for the 1976 Old Newsboys fund.

Jim is a veteran of three years standing while Sam was out for the first time. Nicely done gentlemen. Thank you.

The Michigan Council for the Arts can use your help or your office's assistance. The following article appeared in a recent newsletter from the Council - please note to date only one person has volunteered.

HELP!

One glance at the MCA budget figures reveals that, once again, there has been no appreciable gain in the ranks of the hired help. We have finally been able to fill two positions, one of which was authorized 15 months ago. Two vacancies remain, however, with the unhappy prospect, at this writing, of possibly being able to fill only one of them in the near future.

We are beginning to discover that, if you bite the bullet hard enough, you can crack a tooth!

If you think this sounds like a plea for assistance, you're right. Present staff is managing to cope with the day-to-day programs and manuscript handling to a degree but, meanwhile, several tedious, mean, time consuming tasks... projects that could really make the whole effort easier and more effective... have had to be temporarily set aside.

A great deal of essential research has been done and the results now await final typing. Several lists have been collected and compiled, but must be cross-checked against what we already have. Additional research needs to be done. A jumbled store room of past files and miscellany should be sorted out and made sense of.

If you could spend an occasional half-day or even a couple of hours at our offices, or do typing in your home, you'd be surprised at how you could help raise the efficiency of your state arts agency. And, would it be appreciated?

Please contact: Deyna Shapiro, 256-3495 or Jim Hale, 256-3732.

GRAPEVINE

John Lesnick of Anderson-Lesnick was appointed to the American Institute of Architects as an Professional Affiliate of the Detroit Chapter has been elected Treasurer of the Michigan Chapter American Society of Landscape Architects. Karen M. Sieperkay, AIA, has been appointed a 76 regional representative of the project management committee by the National AIA. Sherwood Alan Smith, AIA, has joined O'Dell/Howlett & Luckenbach, Inc. Louis G. Redstone, FAIA of the Detroit Chapter has been appointed by Governor William G. Milliken to a newly established commission on art in state buildings. He will serve as chairperson of the committee on definitions and objects... Don White, AIA, of the Detroit Chapter will serve on the AIA Office Management Committee for 1976. Sewa S. Barmi has joined GAI as an architect designer. In recent years he has been associated with Sigmund Blum, Vaporciyan & Mitch, Inc., Smith, Hinckman & Grylis Associates, Inc., and Minoru Yamashiki & Associates, Inc. Donald E. Moreland, AIA, of the AIA, has been appointed director of the northern Michigan division of Manson-Jackson & Kane, Inc. Charles T. McCafferty, AIA, AIP, Vice President of Rossetti Associates/Architects Planners of Detroit has been appointed as a Regional Representative of the Committee on Historical Resources by the American Institute of Architects.

John Hilberry, AIA of the Detroit Chapter is to speak on the Restoration of Historical Buildings at the Trinity Church of Crosswall-Leisington... Jan C. Ironside, AIA, has been elected president of the Warren Holmes Company and Kenneth Black Associates Architects, Inc. Joseph E. Compton, P.E. Director of SH4G's Industrial Division has been named a
Vice President. He joined SHG in 1970, and has been responsible for directing the design and engineering of many major industrial complexes. New Associates of SHG are Edward C. Dahl, Director of Cost Planning & Negotiating; Howard L. Droz, Chief Architect, Health Facilities Division; Noel Fagerlund, Project Manager, Education & Commerce Division; William R. Fleming, Corporate Director of Personnel; Frank B. Ignich, Chief Architect, Education & Commerce Division; Christopher P. Kittides, Construction Management Division; Theodore E. Kurz, Chief of Architectural Design, Industrial Division; Istvan J. Kutny, Manager, Foundry Engineering; William P. Tassie, Assistant Director, Industrial Engineering; and W. Everett Madling, Project Manager & Assistant Director of Transportation Division. In addition, the Board of Directors of Johnson, Johnson & Roy, the environmental planning division of SHG, have named Kenneth Cobb to be an Associate of that firm.

OBITUARY

AS WE GO TO PRESS...

We sadly announce the recent death of our good friend Marvin Brokaw. Mary, retired from the F.W. Dodge Company and was living in Beulah.

A loyal supporter of the MSA, Mary was instrumental in many projects including the restoration of Biddle House on Mackinac Island, and was a permanent member of the MSA Mid-Summer Conference Committee.

He is survived by his wife Elenore, and a son and daughter.

NEW FIRM

Frederick H. Herrmann, AIA from the Huron Valley Chapter has opened his own firm. The name of the firm is Frederick H. Herrmann, AIA, Architect located at 3015 Lakeview Court, Ann Arbor 48105. Telephone (313) 663-3906

NEW FIRM

Marna Spence a Professional Affiliate member of the Saginaw Valley Chapter announces the formation of Interior Design Center, 1241 North Michigan Avenue, Saginaw Michigan 48602. (517) 755-1779

POSITION VACANT

Registered Architect with significant experience in client contact and office administration to do head negotiations between A/E Firm and Construction Management Corporation.

This position is open only to interested applicants which desire to enter into ownership participation.

Send Resume to: P.O. Box 202, Rochester, Michigan 48063.

ADDRESS CHANGE

Ralph W. Hammett, AIA, an Emeritus member of the Detroit Chapter has a change of address to, c/o Madonna Towers, Rochester, Minnesota 55901.

CLASSIFIED

The Woodbridge Citizens District Council, as a subcontractor with the City of Detroit in the planning and implementation of a conservation project in the area bounded by Trumbull Avenue, Grand River, NYC RR, and the Ford Expressway, desires a firm to provide architectural and Planning Consultant Services.

Contact the Executive Board, Woodbridge Citizens District Council, 4767 Commonwealth, Detroit, Michigan 48208 for specifications. An Equal Opportunity Employer.

LETTER

Dear Ann:

I have just received a notice from the National AIA that as of December 22, 1975 my membership in the Huron Valley Chapter has been transferred to the Southwest Oregon Chapter.

It is with sadness that I leave the Michigan Society which has been "home" to me for all my professional life up to now. I would like to express my gratitude to you and all for the long and rewarding association.

Very sincerely yours,

Yosh Machida, AIA
