**SASH REMOVES FROM THE INSIDE IN A JIFFY**

So easy too . . . because of Universal's lightly sprung, fiberglass filled, jamb pocket.

Maintenance and cleaning made easy for you.

**universal** *DeLuxe*

**nothing finer for your dream house**

Dream houses never had it so good . . . beautiful wood windows so easy to open and to close; and with removable sash at a flip of the clip to ease the chore of cleaning and maintenance. Long lasting windows of treated white pine, add warmth and cheer to any architectural style.

Wood windows have met the architect's requirements for light and air and form for centuries. Today, with the new uses of aluminum, steel, and fiberglass these beautiful windows can be more efficient than ever. These new materials, and the new ideas of comfort and convenience have produced this versatile new Universal DeLuxe Window for your pleasure. A weatherseal against rough weather, and opens instantly with feather-touch pressure for nice weather.

And there is new convenience in maintenance and cleaning due to Universal's easy removal of both sash from the inside of the house. No need for you to practice a balancing act atop a ladder with a can of paint or a bucket of suds. **TRUE QUALITY WITH A PLUS, FROM UNIVERSAL.**
