American Institute of Architects

Founded in 1857, The American Institute of Architects is the recognized advocate for the architectural profession in the United States.

With a membership of nearly 70,800 architects, interns and students, the AIA actively promotes the highest standards of professional ethics and advances the professional development of its members through continuing education. Speaking with a unified voice, the AIA represents architects in governmental and regulatory decisions that impact professional practice and the quality of life.

The North Carolina Chapter of The American Institute of Architects (AIA North Carolina) was founded in 1913 and is the largest statewide AIA chapter in the U.S. with over 1,900 members. The membership of AIA North Carolina includes about three-quarters of the architects who live in this state.

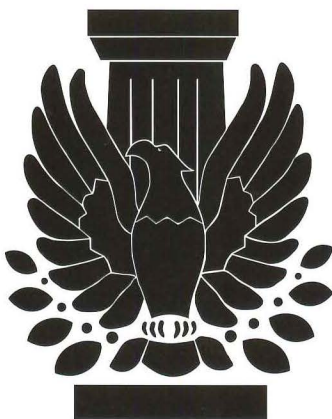

AIA North Carolina members work and live in every corner of the state, practicing in firms ranging in size from one to 400 persons. The membership is divided into seven geographical sections, located in Asheville, Charlotte, Eastern North Carolina, Piedmont (Greensboro/High Point), Triangle, Wilmington and Winston-Salem.

AIA North Carolina focuses its resources on five key areas, including:

GOVERNMENT AFFAIRS: With its offices located in a historic building less than one block from the State Capitol, AIA North Carolina is well-positioned to represent the architect's view in legislation and public policy development. AIA North Carolina opinions and positions are actively sought by lawmakers when dealing with legislation affecting construction, building codes and planning. Through a separate organization, AIA North Carolina maintains a well-funded political action committee.

PUBLIC AWARENESS OF ARCHITECTURE AND THE PROFESSION:

Working through several volunteer committees and its local sections, AIA North Carolina actively pursues a concerted effort to help the public become more aware of architecture and the positive impact architects have on the built environment. The Chapter's annual Design Awards program is a prime opportunity to highlight to the public the finest work by North Carolina architects. Additionally, AIA local sections declare one week each year Architecture Week, hosting a wide variety of activities intended to engage and stimulate the public.

CONTINUING EDUCATION AND PROFESSIONAL DEVELOPMENT:

Continuing education is a requirement for licensure renewal and for ongoing membership in the AIA. In 2004, the chapter will offer affordable and accessible programs dedicated to health-safety-welfare subject material. AIA members can participate in Knowledge Communities, that specifically target career, and practice needs ranging from health care facilities to historic preservation. This year's state summer design conference, Future Office, scheduled for August 26-28, 2004 at the Westin Charlotte Hotel in

Charlotte, North Carolina, provides architects a three-day opportunity for continuing education opportunities, professional development and networking.

MEMBER SERVICES: Publications and information are among the most valuable services available to AIA members. Members receive subscriptions to national publications such as Architectural Record and AIArchitect, along with the AIA North Carolina Archtext newsletter. Web sites are maintained at www.aianc.org and www.aia.org.

COLLATERAL ORGANIZATIONS: AIA North Carolina maintains and develops relationships with a host of organizations which impact the architectural profession including construction trade associations, state regulatory agencies, accredited schools of architecture and other licensed design professionals.

MISSION STATEMENT

The American Institute of Architects is the voice of the architectural profession dedicated to:

- *Serving its members*
- *Advancing their value*
- *Improving the quality of the built environment*

> Designing Tomorrow. Today.

Integrity, quality design and personal service are the building blocks of Boney Architects' 80-plus years of success. Today, we carry on the traditions and core values of our founders but with new leadership, a first-generation attitude, entrepreneurial energy and a broader vision for the future.

Employing the latest design technologies, we create award-winning design solutions that make sense. Understanding how you work, learn, live and play enables us to bring your vision to life.

Boney Architects. Our business is – Designing Tomorrow. Today.

President's Message

STEVEN D. SCHUSTER, AIA

In preparation for writing this article, I pulled out the North Carolina Architecture magazine for the past ten years and read the President's Message published in each of them. It was a fascinating exercise to see the consistency in the themes that emerged in those articles written over a decade. What I learned is that AIA North Carolina and the architects that it represents has a strong legacy of leadership. We are engaged in a profession that has seen significant

change in the past decade in how we practice, the range of services that we provide, and the impact that technology has had on all of us. What also became apparent was how the growth in North Carolina was mirrored by the growth in AIA North Carolina and how our organization has emerged as one of the most respected components in the country with a dedicated and skilled staff.

Presently, we are facing with a critical juncture for North Carolina with a broad range of serious issues that we must engage as architects. All over the State, in cities large and small, there is a rediscovery and rebirth occurring in our downtowns. After more than fifty years of suburbanization, we are once again rebuilding our urban centers because of the vitality and sense of community that they offer.

As part of this effort, we are redefining how we are choosing to grow in North Carolina. The ever increasing urban sprawl which devours square miles of rural countryside and open space and causes us to expand our infrastructure in increasing, expensive ways while adding to the dependence of the automobile is being challenged by smart growth policies. While we are just beginning to rethink decades of development patterns, there are encouraging trends being seen.

North Carolina is also faced with a fundamental shift in its traditional economic base of tobacco, textiles, and furniture. This is having a profound impact in the rural parts of our State and in our smaller communities, which have depended upon these industries throughout the 20th century. How we redefine our basic statewide economic structure will have a profound impact on the built environment.

As architects, we are trained as problem solvers. Members of our profession are providing leadership across our State as elected officials, members of boards, commissions and task forces, and as community leaders advocating for solid design solutions to these important issues. Architects are "stepping up to the plate" in our communities with the message that design matters in helping reshape our urban cores into livable cities, confronting development patterns and incorporating smart growth policies, and finding new uses for tobacco warehouses, textile mills, and furniture plants as those industries move off-shore.

As a professional association, AIA North Carolina has an important role in this new world through our advocacy in government affairs and collateral organizations, by providing continuing education to our members in helping them acquire the skills to tackle these important problems, in helping educate our citizens through our public awareness, and in supporting individual architects across North Carolina through our membership services. It is exciting to be part of a profession that is actively tackling these serious issues and having an impact. It is a privilege to serve as the President of AIA North Carolina this year and I urge all of our members to make a difference in their communities.

Future Office

2004 AIA NORTH CAROLINA SUMMER DESIGN CONFERENCE

FutureOffice

DESIGN • DEVELOPMENT • COMMUNITY
AIA NC SUMMER DESIGN CONFERENCE AUG 26-28 04

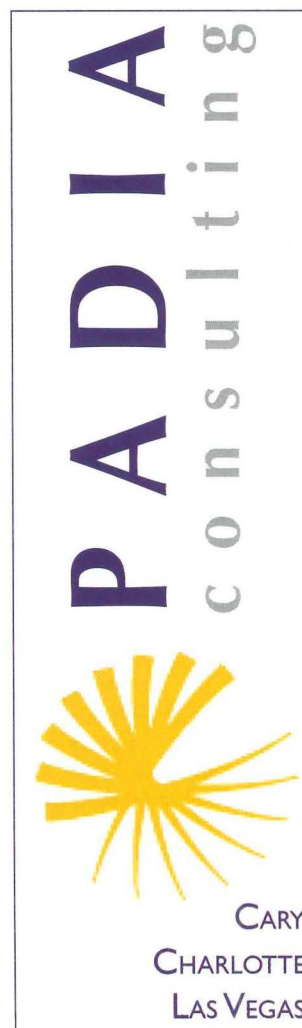

AIA North Carolina, in partnership with AIA Charlotte and the University of North Carolina – Charlotte College of Architecture and Belk College of Business Administration, presents *Future Office: Design, Development, Community*. This three-day forum will be held in Charlotte, North Carolina on August 26-28, 2004 at the Westin Charlotte Hotel.

Slightly different in format from the regular AIA North Carolina Summer Design Conference, *Future Office* aims to bring together professionals in design, interior environments, business, finance and development enterprises to debate the next generation of office buildings and their role in the economic and urban futures of American cities.

Future Office attendees can expect to hear from a stellar line-up of internationally recognized speakers from the design and development community. These speakers include: Dr. Francis Duffy, RIBA, CBE, Founder of DEGW plc. and author of *"The New Office"*; Eugene Kohn, FAIA, RIBA, JIA, Founding Principal of Kohn Pedersen Fox Architects in New York; and Christoph Ingenhoven, Architekt BDA, Principal, Ingenhoven Overdiek und Partner in Dusseldorf, Germany. The conference will also feature a traditional trade show, networking dinners, tours and alumni gatherings.

The conference will conclude on August 28 with the annual AIA North Carolina Design Awards Banquet, a program that highlights the projects of AIA North Carolina members. AIA North Carolina Chapter Awards – Firm Award, F. Carter Williams Gold Medal, and William H. Deitrick Service Medal - will also be presented at this time.

Future Office is truly a groundbreaking event. This conference reaches out to a wide range of professions and professionals, all with an interest in the subject matter. It's a wonderful opportunity to learn together as we work together.

AIA NORTH CAROLINA LEADERSHIP

Steven D. Schuster, AIA
President

Steve Schuster is a partner with the firm of Clearscapes in Raleigh that has won a host of local, regional and national awards for design excellence. Schuster received his Bachelor of Architecture from N.C. State and a Master of Architecture from the University of Colorado. Schuster has been a visiting instructor and lecturer at N.C. State, UNC Chapel Hill, Meredith College, M.I.T., and the University of Colorado while taking a leadership role in AIA Raleigh, Preservation North Carolina and the Raleigh Historic Properties Commission.

Alan D. McGuinn, AIA
President-elect

Alan McGuinn is a project architect with the firm of Calloway Johnson Moore & West in Asheville. He graduated with honors from the University of North Carolina at Charlotte with a Bachelor of Architecture. He is a recipient of the AIA Traveling Fellowship and the AIA School Medal and certificate of merit from the Henry Adams Fund. McGuinn previously served as a director for AIA North Carolina, and as chair of the A/E Joint Coordinating Committee. He was the 1996 President of AIA Asheville and served on the Section Board for four years. He is currently active in the Asheville Community as a member of the Buncombe County Planning Board.

James Easton Rains, Jr., AIA
Treasurer

Jim Rains is the owner of Rains Studio, PA, an architectural, construction administration and lender review services firm located in Ramseur. He received his Bachelor of Environmental Design in Architecture from N. C. State University in 1980. Rains has previously served as Section Director and Officer in both Raleigh and Wilmington, President of the Wilmington Section in 1996, Chairman of the Government Affairs Committee in 1997, and Chairman of the AIA-PAC Committee in 1999, which set an all time record fundraising level. In 1985, Governor Jim Martin appointed Rains to a four-year term on the Board of Directors of the Alternative Energy Corporation. He is active in the American Arbitration Association with his service on the Construction Industry Panel since 1989.

Walton R. Teague, AIA
Secretary

Walt Teague is a Partner and Principal Architect with the firm Teague Freyaldenhoven Freyaldenhoven Architects & Planners, LLP (TFF Architects). With a Business Administration and Marketing degree, he began his first career in a marketing position in an architecture-related business. His personal interest in architecture led Walt to complete a Masters in Architecture at North Carolina State University, and has been working in the field of architecture for the last 15 years. Walt has been actively involved in AIA Piedmont and AIA North Carolina. His involvement included serving on the Public Awareness Committee for the past seven years, serving as a Director of the AIA North Carolina Board of Directors, and serving as a member of the Board of Directors of the AIA North Carolina Political Action Committee.

Kerry Alan Kane, AIA
Immediate Past President

Kerry Kane is a principal of Small Kane Architects, PA, in Raleigh. He received a Bachelor of Arts from Harvard University and a Master of Architecture from N.C. State University where he was the recipient of the AIA Certificate of Merit Award for his work. Kane, who has taught at N.C. State's School of Design, has served as President of the local Raleigh Section (now known as Triangle) and convention chairman of the 1993 Summer Design Conference. Kane has served a total of five years on the AIA North Carolina Board of Directors. His community activities have included chairing the City of Raleigh Appearance Commission.

Wayne H. Camas, AIA
Director, Public Relations

Wayne Camas is a founder and president of Camas Associates Architects, PA. He received his Bachelor of Pre-Architecture and Masters of Architecture from Clemson University. Camas served as President of AIA Charlotte during the 2002 AIA National Convention, and was a member of National Steering Committee for the 2002 Carolina Convention. He has served as Membership Director and was a member of the AIANC Insurance Taskforce Committee. He has made presentations at Grassroots on Effective Public Relations initiatives for components. Camas is currently the AIA NC Public Relations Director.

Matthew D. Messick, AIA

Director, Membership Services

Matt Messick is a partner with Walter Robbs Callahan & Pierce Architects, PA in Winston-Salem. He received his Bachelor of Environmental Design in Architecture (1990) and a Bachelor of Architecture with honors from N. C. State University (1991). He was recipient of the RTKL summer fellowship in 1990, and the Walter Robbs Callahan & Pierce Scholarship in 1991. Messick has served on the Winston-Salem Board of Directors since 1998. He's been active in a variety of civic organizations in the Greensboro/Winston-Salem area.

David L. Liberatore, AIA

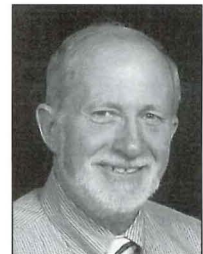

Director, Collateral Organizations

David Liberatore is an Associate with Schenkel & Shultz, Inc. and Director of the Raleigh office. Before earning his Master of Architecture degree from MIT, he received a Master of Science in Education from Wheelock College and a Bachelor of Science in Design & Environmental Analysis from Cornell University. David is both a practitioner and an educator. He has practiced in Massachusetts, New York, and North Carolina and has taught various groups from pre-school through college level. As an architect he continues to refine his expertise in programming and the development of learning environments. David has served as the President for the AIA Triangle Section and as the Chair for the AIANC Public Awareness Subcommittee.

Jesse Julius Peterson, Jr., FAIA

Director, Continuing Education

Jay Peterson is Director of Continuing Education for AIA North Carolina. He has held numerous positions in AIA including Director of AIANC, President of AIA Charlotte, President of AIA Wilmington and Chairman of AIANC PAC. Peterson graduated from North Carolina State University in 1959. He presently works with the Healthcare Studio of Boney Architects in Wilmington, where he began his career in 1956. He founded Peterson Associates, an Architectural, Engineering, and Interior Design firm in Charlotte and retired from that firm. During his career, he has worked with Hospitals throughout North Carolina, several other states, and projects in Saudi Arabia. He and his firm were awarded a national Citation by Modern Healthcare and AIA-AAH for the design of Alamance Regional Medical Center. Peterson was appointed by Governors Hunt and Easley to the North Carolina State Building Commission. He has served as Chairman and currently is a member.

Leanne Nelson Lawrence, Assoc. AIA

Associate Director

Leanne Lawrence graduated with a Bachelor of Architecture from the University of Tennessee School of Architecture in 1994. While at Tennessee, she served on the Dean's Student Advisory Committee, and represented the School of Architecture to the Undergraduate Academic Council. She also volunteered her time with the Knoxville area Habitat for Humanity as well as with local church organizations. Upon moving to Wilmington, North Carolina over six years ago, she has worked at Synthesis, Inc. Architects and Planners, now Synthesis/ CDA, PLLC in Wrightsville Beach. She served as the 2003 Associate Director for the Wilmington Chapter of the AIA, heading a pilot program funded by a grant from the national AIA, focused toward recruiting new Associate Members and developing a youth career mentoring program in the Wilmington area.

AIA NORTH CAROLINA LEADERSHIP

**Barbara Field, FAIA***Asheville Section President*

Raised in Atlanta, Georgia, Barbara Field studied architecture at Georgia Institute of Technology and was the first woman to receive a Bachelor of Architecture degree from Georgia Tech (1965-1966). She has practiced architecture at firms in Atlanta, New Canaan, Connecticut and Cambridge, Massachusetts. Since 1980, she has worked with SPACEPLAN Architects in Asheville, North Carolina. A member of the American Institute of Architects since 1980, Field has served as the President of the Asheville section, director of AIA North Carolina and Vice Chairman of the AIA North Carolina PAC Board. In 1991, Field won a seat on the Asheville City Council and went on to serve for ten years. She is currently a Director of MSD (Buncombe County Metropolitan Sewerage District) board, the Asheville Area Arts Council, the Alcohol and Beverage Control board, Our Next Generation board, the YMI Cultural Center and is a Trustee of Pack Place, Education, Arts and Science Center.

**Camille Victour, AIA***Asheville Section President-elect*

Camille Victour attended the University of Arizona and the Boston Architectural Center. With about 20 years of experience, she has worked for several firms in Boston, was active in the Boston Society of Architects and worked for the City of Boston in the Dept of Neighborhood Development before moving to Asheville in August 2000. She started her own firm, Camille Victour Architect, in May 2002. She has been very involved with AIA Asheville as Chair of the Women in Architecture Committee as well as other Section projects and committees.

Robert B. Johnson, AIA*Charlotte Section President*

Rob Johnson is a Vice-President and Principal with MBAJ Architecture with offices in Shelby, Charlotte, and Raleigh. MBAJ serves clients across the Carolinas and mid-Atlantic region. Rob is a native of Wilmington, North Carolina and a 1977 graduate from the College of Architecture at UNC-Charlotte. He earned a Masters of Architecture degree from the University of Illinois and was the recipient of the distinguished Edward L. Ryerson Traveling Fellowship. This is the highest award given to an architectural design student. After working with TV&S in Atlanta through most of the 1980s, he returned to North Carolina in 1988. While serving on the AIA Charlotte Board, he has taken a personal interest in government affairs and the annual Joe Mallamo Memorial Golf Outing that benefits the College of Architecture at UNC-Charlotte.

**Kevin Utsey, AIA***Charlotte Section President-elect*

Kevin Utsey is a principal with Isaacs + Associates Architects. Formerly an associate principal with Perkins & Will and director of Boney Architects' Charlotte office, Kevin's experience includes projects for institutions of elementary, secondary and higher education as well as commercial project types. Kevin has given presentations to a variety of groups, including a seminar on urban schools at the 2002 National Convention of the American Institute of Architects; the Council of Educational Facilities Planners International (CEFPI) on planning and design strategies for safer schools and 200 years of change in American school design; the First Iberian-American Forum of Architecture and Urbanism in Sao Paulo, Brazil on new project developments in Charlotte; and to the Urban Land Institute's national conference in Philadelphia on the Governors' Village k-12 campus in Charlotte. A native of Wilmington, NC, Kevin holds both undergraduate and Master of Architecture degrees from North Carolina State University. At NCSU, Kevin was a recipient of the NCAIA Book Award for greatest promise in design, the Alpha Rho Chi Medal and was editor of the Student Publication of the School of Design.

William M. Beutel, AIA

Eastern Section President

Bill Beutel is the Operations-Production Manager with Shuller, Ferris, Lindstrom + Associates in Fayetteville. He graduated with a Bachelor of Science in Architecture at the Rhode Island School of Design. After tour with the USAF, he opened his private practice as Solarc Design Inc in Bangor, Maine. While living in Maine, he designed and built his own "solar home" along with a few other solar facilities. He was also a Lecturer at the School of Engineering Technology at the University of Maine where he also worked toward a Masters in Civil Engineering. Beutel moved to North Carolina in 2001. He is licensed in Maine and North Carolina and is also LEED certified.

Charles A. Pearce, III, AIA

Piedmont Section President

Charles Pearce is an Associate and Project Manager / Architect for the firm of J. Hyatt Hammond and Associates in Greensboro. He received his Bachelor of Arts in Architecture from the University of North Carolina at Charlotte in 1983. He is currently serving his second term as President of the Piedmont Section. In addition to the responsibilities of President, Charles is serving on the AIA Piedmont College Scholarship Committee and the North Carolina Architectural Foundation Task Force.

Hugh E. Sutphin, Jr., AIA

Piedmont Section President-elect

Hugh Sutphin is a principal architect with Efid-Gwinn-Sutphin Architects PA in Greensboro. He received his Bachelor of Environmental Design in Architecture from NC State University in 1974 and his Masters of Architecture from the University of Colorado-Boulder in 1976. Sutphin is actively involved in the Piedmont Section and has served on the Piedmont Board of Directors as Secretary before assuming the role of President-elect in 2004. He has also served as Chair of AIA Piedmont Architecture Week for several years.

Ron Collier, AIA

Triangle Section President

Ron Collier is a principal of AlphaCollier, Inc. in Raleigh. He received his Bachelor of Architecture and Master of Architecture from Virginia Tech College of Architecture. He has been in private practice in North Carolina for 29 years with focus on education, public and institutional projects. His design of the Cary Family YMCA received honor award from NCMA and a Technical Award from the Triangle Chapter of CSI. Under his direction, the Windsor Elementary School received the "School of Excellence Award" from the NC Department of Public Instruction. Collier was an instructor of third-year design at Virginia Tech and has lectured at NCSU School of Design on professional practice. Collier has been a part of AIA since his college days where he served many offices including AIAS President at Virginia Tech. He has served as AIANC Committee Chair for Bylaws, Computers in Architecture, and as Director for Collateral Organizations. He currently serves on the AIANC Insurance Task Force. He was a member of the Triangle sections merger task force into AIA Triangle. He has served as Director, Treasurer and now President-Elect of AIA Triangle. He is a construction arbitrator with the American Arbitration Association.

Julie M. McLaurin, AIA

Triangle Section President-elect

Julie McLaurin is the group leader for Stantec Architecture in Raleigh, NC. She received her Bachelor of Environmental Design in Architecture in 1989 and her Bachelor of Architecture in 1990 from the North Carolina State University College of Architecture. McLaurin has served AIA Triangle as section secretary in 2002 and section treasurer in 2003. While at North Carolina State University College of Architecture, she served as president for AIAS in the 1989/90 school year. McLaurin has been involved with numerous professional and community organizations over the years including downtown development commissions, historical commissions, Business and Profession Women, National Association of Industrial and Office Properties, and is currently active in Triangle Commercial Real Estate Women.

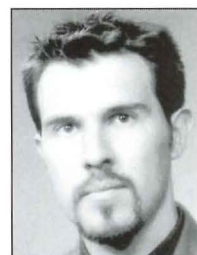

AIA NORTH CAROLINA LEADERSHIP

**Ian Johnston, AIA***Wilmington Section President*

Ian Johnston is a partner with Johnston Architecture in Wilmington. He received a Bachelor of Science from the University of North Carolina at Charlotte. He also studied Architecture at the University of Copenhagen, Denmark. Ian has been involved in the planning and execution of Continuing Education for the Wilmington Section for the last 5 years and was previously Wilmington Section IDP Coordinator. He also served on the NCAIA EIFS Task Force.

**Philip G. Humphrey, AIA***Wilmington Section President-elect*

Philip Humphrey is an Architect with John Sawyer Architects in Wilmington. He received a Bachelor of Architecture from Virginia Polytechnic and State University. Humphrey has been involved with the local section as Secretary for 2003 and as a Director in the Wilmington section's AIA/Dreams program. The AIA/Dreams program was established to encourage Associate AIA members to spark an interest among middle school minorities in pursuing a career in architecture. Humphrey has served on the Historic Wilmington Foundation's Preservation Action Committee since 1998.

**Carlos V. Espinosa, AIA***Winston-Salem Section President*

Carlos Espinosa is a partner and designer with Thomas H. Hughes\Architecture, PC in Winston-Salem. Espinosa received his undergraduate Bachelor of Science in Architecture and his Bachelor of Architecture degrees from the School of Architecture and Planning at The Catholic University of America. He extensively explored studio art and painting at the University, which continues to be an impact as he has had his works displayed in two "Art by Architects" gallery shows (1999 & 2002). He brought architectural experience from New York City and Washington DC prior to locating in Winston-Salem. Espinosa served on the Historic District Commission for the City of Winston-Salem from 1999-2002, as well as a City Marketing Commission targeted at young adults from 2000-2003. He has served on the Winston-Salem section Board of Directors since 2000.

Robert David Appleyard, Jr., AIA, NCARB, CSI*Winston-Salem Section President-elect*

R. David Appleyard is an Associate and Project Manager/Architect with the Winston-Salem firm of Ersoy & Associates, P.A. He received his Bachelor of Arts in Architecture from the University of North Carolina Charlotte (1985), and a Bachelor of Architecture from North Carolina State University (1990). Appleyard has served on the Winston-Salem Section's Board of Directors since 2001. He is a member of the Construction Specifications Institute (CSI), and is a member of the National Trust for Historic Properties.

**Kenneth A. Lambla, AIA***University Representative*

Ken Lambla is Dean of the College of Architecture, UNC Charlotte, where he has been on the faculty since 1983. Lambla received his Bachelor of Environmental Design degree from the University of Kansas, and his Master of Architecture degree from the University of California, Berkeley. His career in both education and practice is focused on defining architecture as community development and action. He has worked as an architect and urban designer in Belfast (Northern Ireland), Chicago (Illinois), San Francisco (California), and during his tenure at UNC Charlotte throughout North Carolina. He has completed two elementary schools in Charlotte, and was a consultant for the "Exploris" children's museum (Raleigh) in site selection, feasibility studies, research and programming, and early schematic design studies. His work as Director of the "Elizabeth Urban Design and Transportation Study" (Charlotte) won a national ASLA award. His teaching has been in design, design process, and history along with a strong commitment to international education. He has directed architectural programs in London (UK), The Netherlands, France, and Italy, as well as being resident director for university programs. His research has focused on social histories of housing projects completed in Chicago and Rotterdam, The Netherlands. He served as Chair of Instruction in the CoA from 1997-2002.

Marvin J. Malecha, FAIA

University Representative

Marvin J. Malecha is dean of the School of Design at N.C. State. He holds a bachelor of architecture from the University of Minnesota and a Master of Architecture from Harvard University. Prior to his appointment at N.C. State, Malecha served for 12 years as the dean of the College of Environmental Design at California State Polytechnic University, Pomona. Malecha has served as president of the Association of Collegiate Schools of Architecture and the California Council of Architectural Education. He has also served as a master juror for the National Council of Architectural Registration Board (NCARB) and on the National Architectural Accrediting Board. In 2003, he was awarded the AIA Topaz Medallion for Excellence in Architectural Education by the AIA and the Association of Collegiate Schools of Architecture. As an architect, he gained experience working with the firm of Hugh Stubbins and Associates in Cambridge, Mass. He continues to maintain a consulting practice while acting as an academic administrator.

Thomas M. Barrie, AIA

University Representative

Thomas M. Barrie is the Director of the School of Architecture at N.C. State University. Before joining N.C. State in July 2002, he was Professor of Architecture at Lawrence Technological University in Southfield, Michigan. His research focuses on alternative histories of architecture, and in particular the interrelationship of a culture's architecture on its cultural/religious belief and common rituals. Barrie's research has brought him to sacred sites worldwide. He has also published numerous articles and lectured extensively on his subject area. He is the author of two published books and is currently working on a third. In 2003, Barrie was awarded the ACSA Creative Achievement Award and in 1997 he was awarded the ACSA/AIAS New Faculty Teaching Award. He holds a Master of Philosophy in Architectural History and Theory from the University of Manchester, England and a Master of Architectural Design from Virginia Tech.

Samuel H. Johnson, Esq.

Legal Counsel

Sam Johnson has served as legal counsel for AIA North Carolina since 1985. He is senior partner in the Raleigh law firm of Johnson, Hearn, Vinegar, Gee & Mercer, PLLC and an honorary affiliate member of AIA North Carolina.

A past member of the North Carolina General Assembly, Johnson is consistently ranked among the most effective lobbyists at the General Assembly. He is past chairman of both the House Appropriations Committee and the House Judiciary Committee, and he has served as a UNC Board of Trustees member.

Johnson received his undergraduate and law degrees from the University of North Carolina.

AIA NORTH CAROLINA LEADERSHIP

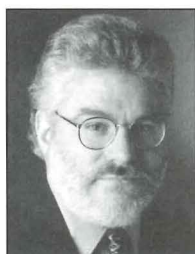

South Atlantic Regional Council

The leadership of AIA North Carolina, along with representatives from AIA Georgia and AIA South Carolina, participates in the South Atlantic Regional Council (SARC). SARC enables the AIA components in the South Atlantic Region to share ideas and also maintain liaison with national activities of the Institute.

South Atlantic Region directors serve rotating three-year terms with representation shared equally among the three states. SAR directors attend all Institute Board meetings and also travel the three-state region as a means of communicating and sharing information with AIA members.

SARC convenes at least three times a year. Every three years, SARC hosts a regional convention. The most recent convention was held in October 2003 in Savannah, GA. The next SARC convention will be hosted by AIA North Carolina in 2006.

The South Atlantic Region has two representatives who serve on the Institute Board of Directors. In 2004, those individuals are:

Stephen T. Swicegood, AIA

South Atlantic Region Director

Stephen Swicegood is a founder of idea/span, a ten-year old Atlanta-based interior architecture firm that creates workplaces to help knowledge organizations grow, thrive and prosper. The 20-person practice currently has projects in 16 states and two foreign countries. idea/span's work has been widely recognized through design awards and publication journals such as *Interiors*, *Interior Design* and *Contract*, and the 1996 book *The New Office*, which profiles new and innovative workplaces designed in the 1990s. Prior to joining idea/span, Swicegood worked at Heery International, Jova Daniels Busby and Welton Becket Associates. From 1983-89, he was Design Director and Managing Director for Heery UK Ltd. in London. Swicegood is a 1973 graduate of Auburn University. He served as President of AIA Atlanta in 1996 and AIA Georgia in 2001.

Jeffrey Rosenblum, AIA

South Atlantic Region Director

Jeffrey Rosenblum, founder of Rosenblum Coe Architects, Inc., earned a BArch and a MArch from Tulane University and an MBA from Long Island University. He served as a second lieutenant in the U.S. Army, Transportation Corps, before starting his professional career. Rosenblum has offered many volunteer hours to the AIA and to his community. He was president of the Charleston Council of Architects AIA section (1978-80) and then served in the elected offices of AIA South Carolina as secretary/treasurer (1986), vice president (1987), and president (1988). He chaired the Credentials Committee at the AIA 2002 National Convention and Expo and co-chaired the host chapter store that year. He has been a participating member of the Committee on Education (1996-present). Jeffrey also served the Low Country as member and chair of the city's Building Code Variance Board (1976-82) and the City of Charleston Board of Architect review (1988-98) and as a member of the South Carolina (1982-87) and County of Charleston (1988-92) procurement review panels. He was the design chairman of the Holocaust Memorial (1994-99) in Charleston. Jeffrey has been a member of the Exchange Club for 30 years and is past president of the Jewish Community Center.

**David A. Crawford***Executive Director*

David Crawford joined AIA North Carolina at the beginning of 2001 after serving as director of Professional Practice and assistant director of Government Relations with the AIA California Council for four years. Crawford received his B.A. in Political Science from California State University, Fullerton. He sat on the Board of Directors of the two accredited architecture schools in San Diego for five years, served on various city and regional advisory committees and has been conferred honorary membership in the AIA from the San Diego Chapter and the California Council. He is a member of the American Society of Association Executives and in 1996-97 chaired the California Council of Architectural Component Executives (California CACE).

**Jo Ellen High***Business Manager*

Jo Ellen High joined the AIA North Carolina staff in August 1989. Some of her duties as business manager include managing the financial records, serving as staff liaison for the annual design awards program, maintains records for AIA North Carolina's Political Action Committee, and supervising the staff and personnel records. For five years prior to working with the AIA, High held a financial position with the Biblical Recorder, the newsjournal for the Baptist State Convention, headquartered in Raleigh. High attended business college and received an accounting certificate in 1970. She has previous experience in the fields of insurance and mortgage banking.

**Marynell Gehrke***Director of Special Events*

Marynell Gehrke joined the AIA North Carolina staff in January 1995 after working since 1992 with Olson Management Group, an association management company.

As director of special events, Gehrke acts as staff liaison for the convention (Summer Design Conference) and handles all AIA North Carolina meeting and conference planning. Gehrke received a B.S. degree from the University of North Carolina in industrial relations in 1984.

Kathie Rainey*Director of Member Services*

Kathie Rainey joined the staff of AIA North Carolina in 1998 and has more than 20 years of administrative and customer service experience. A graduate of Lees-McRae College in Banner Elk, Rainey was raised in Southern Pines. Her responsibilities with AIA North Carolina include processing new members and maintaining the membership database, management of AIA Document sales and maintenance of a job placement file.

**Laura Tomczak***Communications Coordinator*

Laura Tomczak joined the AIA North Carolina staff in January 2002. Her duties at the AIA include coordinating communications for the organizations seven sections, website maintenance, producing a quarterly newsletter and various other communications related duties. Before relocating to the state of North Carolina, Tomczak lived in Erie, Pennsylvania where she was employed in the Communications and Public Affairs Department at GE Transportation Systems. Tomczak earned a BA in English-Creative Writing from Penn State University, The Behrend College in 1996. She has also held communications positions at the American Red Cross and the United States Postal Service.

**Cynthia Savage***Executive Director, AIA Charlotte*

Cindy Savage is the account executive for AIA Charlotte. She has ten years of association management experience working with the Society of Petroleum Engineers Intl. and the Distribution Contractors Association. Cindy has a BA in Social Work from Duquesne University and a M ED in Higher Education/Continuing Education from the University of North Texas.

Chapter Awards and Honors

AIA North Carolina announced the 2003 Chapter Award winners at the annual Design Awards Banquet held on the evening of Saturday, June 7, 2003 at the Grandover Resort & Conference Center in Greensboro, North Carolina.

A five-person Awards committee, appointed by the Chapter president and chaired by the immediate past president is responsible for reviewing the nominations and selecting a recipient.

AIA North Carolina – F. Carter Williams Gold Medal

This is the highest honor presented by the Chapter to a member of AIA North Carolina. It is awarded to an individual in recognition of a distinguished career or extraordinary accomplishments as an architect. The Gold Medal was created by the Board of Directors in 1976. The first recipient was Luther Snow Lashmit. Until 1998, Lashmit was the only architect to receive this award. It was at that time renamed in honor of the late Raleigh architect F. Carter Williams, FAIA. The Williams family has established an endowment in support of the Gold Medal.

F. Carter Williams

ELIGIBILITY: A current or deceased member of AIA North Carolina is eligible to receive the Gold Medal. No more than one such award shall be made in any year. Individuals who are current members of the Chapter Board, one year removed from the Board or members of the Awards committee are ineligible for consideration.

NOMINATIONS: Nominations may be made by members, the public, or by AIA North Carolina sections.

Please contact AIA North Carolina at 919-833-6656 for nomination deadlines. Nominations should include the following information:

- A nomination letter that summarizes the contributions made by the individual
- A brief biography of the nominee not to exceed four pages
- Miscellaneous material (clippings, articles, etc.) not to exceed three pages

Letters of support, not to exceed five, from AIA North Carolina members; letters should be explicit in their recommendation and contain specific reasons for support.

GOLD MEDAL RECIPIENTS

- 1976** Luther Snow Lashmit, AIA, Winston-Salem
- 1998** Lloyd G. Walter, Jr., FAIA, Winston-Salem
- 1999** J. Hyatt Hammond, FAIA, Greensboro
- 2000** Marley P. Carroll, FAIA, Charlotte
- 2001** Herbert P. McKim, FAIA, Wilmington
- 2002** Jeffrey A. Huberman, FAIA, Charlotte
- 2003** Charles H. Boney, Sr., FAIA, Wilmington

AIA North Carolina Firm Award

The AIA North Carolina Firm Award shall be awarded to a North Carolina firm that has consistently produced quality architecture with a verifiable level of client satisfaction for a period of at least 10 years as an established presence in this state. This award is the highest honor the Chapter can bestow upon a firm.

ELIGIBILITY: North Carolina architectural firms practicing under the leadership of either a single AIA North Carolina member principal or several AIA North Carolina member principals are eligible for the Firm Award. In addition, firms that have been reorganized and whose name has been

changed or modified are also eligible, as long as the firm has been in operation in North Carolina for a period of at least 10 years. Although firms that are headquartered in other states or firms that perform the majority of their work in other states or countries are eligible, the firm's work and impact within the state of North Carolina shall be of primary consideration. A firm owned or managed by the Chapter president, president-elect or members of the Awards committee shall not be eligible for consideration.

NOMINATIONS: Nominations may be made by members, the public, or by AIA North Carolina sections. Please contact AIA North Carolina at 919-833-6656 for nomination deadlines. The nominations should include the following information:

- A nomination letter by a member, AIA North Carolina Section or a representative of the public, summarizing the firm's contributions in terms of design excellence and client satisfaction
- A brief biography of all firm principals and a history of the firm
- A firm brochure (if available)
- Descriptive statements and photographs of early, middle and recent work of the firm
- A maximum of five signed letters by clients, attesting to the firm's excellence and/or high level of performance

Firm Award Recipients

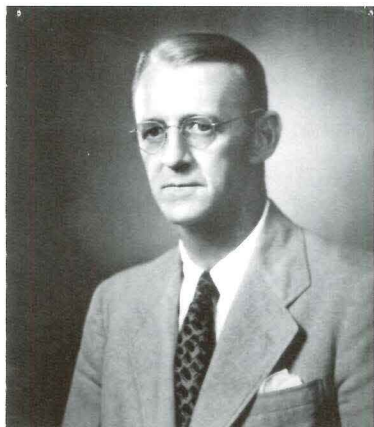

O'Brien/Atkins Associates,
Research Triangle Park

- 1999** Walter Robbs Callahan & Pierce Architects
Winston-Salem
- 2000** Lee Nichols Architecture,
Charlotte
- 2001** The Freelon Group, Inc.,
Research Triangle Park
- 2002** Boney, PLLC,
Charlotte, Raleigh & Wilmington
- 2003** Dixon Weinstein Architects, PA
Chapel Hill

Chapter Awards and Honors

AIA North Carolina - William H. Deitrick Service Medal

The AIA North Carolina - William H. Deitrick Service Medal will be presented to an AIA North Carolina member who exhibits extraordinary service to the community, profession or AIA North Carolina. The medal is named in honor of the late William Henley Deitrick, FAIA, a former president of AIA North Carolina. The AIA Tower, headquarters for AIA North Carolina, previously served as Deitrick's architectural studio and offices.

William H. Deitrick

ELIGIBILITY: A current or deceased member of AIA North Carolina is eligible to receive the Deitrick Service Medal. No more than one such award shall be made in any year. Individuals who are current members of the Chapter Board, one year removed from the Board or members of the Awards committee are ineligible for consideration. The selection will be made from one of the following categories:

- **SERVICE TO THE COMMUNITY**
This category recognizes the work of architects who serve as elected officials, public administrators or institutional leaders and establish and contribute to the development of laws, regulations and policies that promote excellence in architecture.
- **SERVICE TO THE CHAPTER**
This category recognizes the work of architects that, by their skill, professionalism, dedication, ability and commitment, have consistently advanced the common goals of AIA North Carolina.

- **SERVICE TO THE PROFESSION**
This category recognizes the work of architects who have had a significant impact on the profession of architecture and its public perception as a profession.

NOMINATIONS: Nominations may be made by members, the public, or by AIA North Carolina sections

Please contact AIA North Carolina at 919-833-6656 for nomination deadlines. The nominations should include the following information:

- A nomination letter by the AIA member, group of members, component or committee.
- A biography of the nominee, not to exceed two pages, including a list of offices, positions, honors, achievements, publications or presentations that relate to the award's purpose.
- Five letters of support that give testament to the achievement presented.
- Exhibits, if appropriate for the nominee, to illustrate accomplishments that relate to the award's purpose.

Deitrick Service Medal Recipients

- 1995 S. Scott Ferebee, Jr., FAIA, Charlotte
- 1996 Leslie N. Boney, Jr., FAIA, Wilmington
- 1997 Danie A. Johnson, FAIA, Asheville
- 1998 Sam T. Snowdon, Jr., FAIA, Laurinburg
- 1999 Carole A. Hoefener, AIA, (posthumously), Charlotte
- 2000 Thomas P. Turner Jr., FAIA, Charlotte
- 2001 Macon S. Smith, FAIA, Raleigh
- 2002 James C. Hemphill, Jr., FAIA, Charlotte
- 2003 James W. Mason, AIA (posthumously), Chapel Hill

AIA NORTH CAROLINA - J. HYATT HAMMOND SCHOLARSHIP

AIA North Carolina Gold Medalist J. Hyatt Hammond, FAIA has established a fund to provide scholarships for young professionals to attend the AIA North Carolina Summer Design Conference.

ELIGIBILITY: Eligibility is restricted to AIA North Carolina associate members and architect members who have been licensed for less than 10 years.

APPLICATION PROCESS & SCHOLARSHIP PRESENTATION

AIA North Carolina makes scholarship applications available in the months prior to the AIA North Carolina Summer Design Conference. Submitted applications are reviewed by board members of the North Carolina Architectural Foundation. Winners are notified at least one month prior to the Summer Design Conference. Scholarship money is provided to the recipients after the conference, based upon receipts provided up to a total of \$500.

HAMMOND SCHOLARSHIP RECIPIENTS

2000

Scott Dietz, AIA
Brad Davis Moore, AIA

Thomas G. Lawson, Assoc. AIA
Kenneth Luker, AIA
Angela Phinx, Assoc. AIA

Code of Ethics & Professional Conduct

Preamble

Members of The American Institute of Architects are dedicated to the highest standards of professionalism, integrity, and competence. This Code of Ethics and Professional Conduct states guidelines for the conduct of Members in fulfilling those obligations. The **Code** is arranged in three tiers of statements: Canons, Ethical Standards, and Rules of Conduct.

Canons are broad principles of conduct.

Ethical Standards (**E.S.**) are more specific goals toward which Members should aspire in professional performance and behavior.

Rules of Conduct (**Rule**) are mandatory; violation of a rule is grounds for disciplinary action by the Institute. Rules of Conduct, in some instances, implement more than one Canon or Ethical Standard.

The **Code** applies to the professional activities of all classes of Members, wherever they occur. It addresses responsibilities to the public, which the profession serves and enriches; to the clients and users of architecture and in the building industries, who help to shape the built environment; and to the art and science of architecture, that continuum of knowledge and creation which is the heritage and legacy of the profession.

Commentary is provided for some of the Rules of Conduct. That commentary is meant to clarify or elaborate the intent of the Rule. The commentary is not part of the **Code**. Enforcement will be determined by application of the Rules of Conduct alone; the commentary will assist those seeking to conform their conduct to the **Code** and those charged with its enforcement.

Statement in Compliance With the 1990 Consent Decree: The following practices are not, in themselves, unethical, unprofessional, or contrary to any policy of The American Institute of Architects or any of its components:

- (1) submitting, at any time, competitive bids or price quotations, including in circumstances where price is the sole or principal consideration in the selection of an architect;
- (2) providing discounts; or
- (3) providing free services.

Individual architects or architecture firms, acting alone and not on behalf of the

Institute or any of its components, are free to decide for themselves whether or not to engage in any of these practices. The Consent Decree permits the Institute, its components, or Members to advocate legislative or other government policies or actions relating to these practices. Finally, architects should continue to consult with state laws or regulations governing the practice of architecture.

CANON I General Obligations

Members should maintain and advance their knowledge of the art and science of architecture, respect the body of architectural accomplishment, contribute to its growth, thoughtfully consider the social and environmental impact of their professional activities, and exercise learned and uncompromised professional judgment.

E.S. 1.1 Knowledge and Skill: Members should strive to improve their professional knowledge and skill.

Rule 1.101 In practicing architecture, Members shall demonstrate a consistent pattern of reasonable care and competence, and shall apply the technical knowledge and skill which is ordinarily applied by architects of good standing practicing in the same locality.

Commentary: By requiring a "consistent pattern" of adherence to the common law standard of competence, this rule allows for discipline of a Member who more than infrequently does not achieve that standard. Isolated instances of minor lapses would not provide the basis for discipline.

E.S. 1.2 Standards of Excellence: Members should continually seek to raise the standards of aesthetic excellence, architectural education, research, training, and practice.

E.S. 1.3 Natural and Cultural Heritage: Members should respect and help conserve their natural and cultural heritage while striving to improve the environment and the quality of life within it.

E.S. 1.4 Human Rights: Members should uphold human rights in all their professional endeavors.

Rule 1.401 Members shall not discriminate in their professional activities on the basis of race, religion, gender, national origin, age, disability, or sexual orientation.

E.S. 1.5 Allied Arts & Industries: Members should promote allied arts and contribute to the knowledge and capability of the building industries as a whole.

CANON II Obligations to the Public

Members should embrace the spirit and letter of the law governing their professional affairs and should promote and serve the public interest in their personal and professional activities.

E.S. 2.1 Conduct: Members should uphold the law in the conduct of their professional activities.

Rule 2.101 Members shall not, in the conduct of their professional practice, knowingly violate the law.

Commentary: The violation of any law, local, state or federal, occurring in the conduct of a Member's professional practice, is made the basis for discipline by this rule. This includes the federal Copyright Act, which prohibits copying architectural works without the permission of the copyright owner. Allegations of violations of this rule must be based on an independent finding of a violation of the law by a court of competent jurisdiction or an administrative or regulatory body.

Rule 2.102 Members shall neither offer nor make any payment or gift to a public official with the intent of influencing the official's judgment in connection with an existing or prospective project in which the Members are interested.

Commentary: This does not prohibit campaign contributions made in conformity with applicable campaign financing laws.

Rule 2.103 Members serving in a public capacity shall not accept payments or gifts which are intended to influence their judgment.

Rule 2.104 Members shall not engage in conduct involving fraud or wanton disregard of the rights of others.

Code of Ethics & Professional Conduct

Commentary: This rule addresses serious misconduct whether or not related to a Member's professional practice. When an alleged violation of this rule is based on a violation of a law, then its proof must be based on an independent finding of a violation of the law by a court of competent jurisdiction or an administrative or regulatory body.

Rule 2.105 If, in the course of their work on a project, the Members become aware of a decision taken by their employer or client which violates any law or regulation and which will, in the Members' judgment, materially affect adversely the safety to the public of the finished project, the Members shall:

- (a) advise their employer or client against the decision,
- (b) refuse to consent to the decision, and
- (c) report the decision to the local building inspector or other public official charged with the enforcement of the applicable laws and regulations, unless the Members are able to cause the matter to be satisfactorily resolved by other means.

Commentary: This rule extends only to violations of the building laws that threaten the public safety. The obligation under this rule applies only to the safety of the finished project, an obligation coextensive with the usual undertaking of an architect.

Rule 2.106 Members shall not counsel or assist a client in conduct that the architect knows, or reasonably should know, is fraudulent or illegal.

E.S. 2.2 Public Interest Services: Members should render public interest professional services and encourage their employees to render such services.

E.S. 2.3 Civic Responsibility: Members should be involved in civic activities as citizens and professionals, and should strive to improve public appreciation and understanding of architecture and the functions and responsibilities of architects.

Rule 2.301 Members making public statements on architectural issues shall disclose when they are being compensated for making such statements or when they have an economic interest in the issue.

CANON III Obligations to the Client

Members should serve their clients competently and in a professional manner, and should exercise unprejudiced and unbiased judgment when performing all professional services.

E.S. 3.1 Competence: Members should serve their clients in a timely and competent manner.

Rule 3.101 In performing professional services, Members shall take into account applicable laws and regulations. Members may rely on the advice of other qualified persons as to the intent and meaning of such regulations.

Rule 3.102 Members shall undertake to perform professional services only when they, together with those whom they may engage as consultants, are qualified by education, training, or experience in the specific technical areas involved.

Commentary: This rule is meant to ensure that Members not undertake projects which are beyond their professional capacity. Members venturing into areas which require expertise they do not possess may obtain that expertise by additional education, training, or through the retention of consultants with the necessary expertise.

Rule 3.103 Members shall not materially alter the scope or objectives of a project without the client's consent.

E.S. 3.2 Conflict of Interest: Members should avoid conflicts of interest in their professional practices and fully disclose all unavoidable conflicts as they arise.

Rule 3.201 A Member shall not render professional services if the Member's professional judgment could be affected by responsibilities to another project or person, or by the Member's own interests, unless all those who rely on the Member's judgment consent after full disclosure.

Commentary: This rule is intended to embrace the full range of situations that may present a Member with a conflict between his interests or responsibilities and the interests of others. Those who are entitled to disclosure may include a client, owner, employer, contractor, or others who rely on or are affected by the Member's professional decisions.

A Member who cannot appropriately communicate about a conflict directly with an affected person must take steps to ensure that disclosure is made by other means

Rule 3.202 When acting by agreement of the parties as the independent interpreter of building contract documents and the judge of contract performance, Members shall render decisions impartially.

Commentary: This rule applies when the Member, though paid by the owner and owing the owner loyalty, is nonetheless required to act with impartiality in fulfilling the architect's professional responsibilities.

E.S. 3.3 Candor and Truthfulness: Members should be candid and truthful in their professional communications and keep their clients reasonably informed about the clients' projects.

Rule 3.301 Members shall not intentionally or recklessly mislead existing or prospective clients about the results that can be achieved through the use of the Members' services, nor shall the Members state that they can achieve results by means that violate applicable law or this Code.

Commentary: This rule is meant to preclude dishonest, reckless, or illegal representations by a Member either in the course of soliciting a client or during performance.

E.S. 3.4 Confidentiality: Members should safeguard the trust placed in them by their clients.

Rule 3.401 Members shall not knowingly disclose information that would adversely affect their client or that they have been asked to maintain in confidence, except as otherwise allowed or required by this Code or applicable law.

Commentary: To encourage the full and open exchange of information necessary for a successful professional relationship, Members must recognize and respect the sensitive nature of confidential client communications. Because the law does not recognize an architect-client privilege, however, the rule permits a Member to reveal a confidence when a failure to do so would be unlawful or contrary to another ethical duty imposed by this Code.

Code of Ethics & Professional Conduct

CANON IV Obligations to the Profession

Members should uphold the integrity and dignity of the profession.

E.S. 4.1 Honesty and Fairness: Members should pursue their professional activities with honesty and fairness.

Rule 4.101 Members having substantial information which leads to a reasonable belief that another Member has committed a violation of this **Code** which raises a serious question as to that Member's honesty, trustworthiness, or fitness as a Member, shall file a complaint with the National Ethics Council

Commentary: Often, only an architect can recognize that the behavior of another architect poses a serious question as to that other's professional integrity. In those circumstances, the duty to the professional's calling requires that a complaint be filed. In most jurisdictions, a complaint that invokes professional standards is protected from a libel or slander action if the complaint was made in good faith. If in doubt, a Member should seek counsel before reporting on another under this rule.

Rule 4.102 Members shall not sign or seal drawings, specifications, reports, or other professional work for which they do not have responsible control.

Commentary: Responsible control means the degree of knowledge and supervision ordinarily required by the professional standard of care. With respect to the work of licensed consultants, Members may sign or seal such work if they have reviewed it, coordinated its preparation, or intend to be responsible for its adequacy.

Rule 4.103 Members speaking in their professional capacity shall not knowingly make false statements of material fact.

Commentary: This rule applies to statements in all professional contexts, including applications for licensure and AIA membership.

E.S. 4.2 Dignity and Integrity: Members should strive, through their actions, to promote the dignity and integrity of the profession, and to ensure that their representatives and employees conform their conduct to this **Code**.

Rule 4.201 Members shall not make misleading, deceptive, or false statements or claims about their professional qualifications, experience, or performance and shall accurately state the scope and nature of their responsibilities in connection with work for which they are claiming credit.

Commentary: This rule is meant to prevent Members from claiming or implying credit for work which they did not do, misleading others, and denying other participants in a project their proper share of credit.

Rule 4.202 Members shall make reasonable efforts to ensure that those over whom they have supervisory authority conform their conduct to this **Code**.

Commentary: What constitutes "reasonable efforts" under this rule is a common sense matter. As it makes sense to ensure that those over whom the architect exercises supervision be made generally aware of the **Code**, it can also make sense to bring a particular provision to the attention of a particular employee when a situation is present which might give rise to violation.

CANON V Obligations to Colleagues

Members should respect the rights and acknowledge the professional aspirations and contributions of their colleagues.

E.S. 5.1 Professional Environment: Members should provide their associates and employees with a suitable working environment, compensate them fairly, and facilitate their professional development.

E.S. 5.2 Professional Recognition: Members should build their professional reputation on the merits of their own service and performance and should recognize and give credit to others for the professional work they have performed.

Rule 5.201 Members shall recognize and respect the professional contributions of their employees, employers, professional colleagues, and business associates.

Rule 5.202 Members leaving a firm shall not, without the permission of their employer or partner, take designs, drawings, data, reports, notes, or other materials relating to the firm's work, whether or not performed by the Member.

Rule 5.203 A Member shall not unreasonably withhold permission from a departing employee or partner to take copies of designs, drawings, data, reports, notes, or other materials relating to work performed by the employee or partner that are not confidential.

Commentary: A Member may impose reasonable conditions, such as the payment of copying costs, on the right of departing persons to take copies of their work.

RULES OF APPLICATION, ENFORCEMENT, AND AMENDMENT

Application

The **Code of Ethics and Professional Conduct** applies to the professional activities of all members of the AIA.

Enforcement

The Bylaws of the Institute state procedures for the enforcement of the **Code of Ethics and Professional Conduct**. Such procedures provide that:

Enforcement of the **Code** is administered through a National Ethics Council, appointed by the AIA Board of Directors. Formal charges are filed directly with the National Ethics Council by Members, components, or anyone directly aggrieved by the conduct of the Members.

Penalties that may be imposed by the National Ethics Council are:

- Admonition
- Censure
- Suspension of membership for a period of time
- Termination of membership
- Appeal procedures are available.

All proceedings are confidential, as is the imposition of an admonishment; however, all other penalties shall be made public.

Amendment

The **Code of Ethics and Professional Conduct** may be amended by the convention of the Institute under the same procedures as are necessary to amend the Institute's Bylaws. The **Code** may also be amended by the AIA Board of Directors upon a two-thirds vote of the entire Board.

***1997 Edition.** This copy of the **Code of Ethics** is current as of March 22, 1997. Contact the General Counsel's Office for further information at (202) 626-7311.

Continuing Education

CONTINUING EDUCATION NOW MANDATORY FOR LICENSURE AND MEMBERSHIP

AIA North Carolina

Continuing Education Academy

North Carolina architects must fulfill a program of continuing education each year in order to renew their licenses. Continuing education has been a membership requirement for the American Institute of Architects for several years now. The two requirements are slightly different but compatible.

Here's the bottom line: AIA architects in North Carolina should obtain a total of 18 hours of continuing education each year, 12 of those in health-safety-welfare subject matter. The architect will then meet both the licensure and AIA membership requirements.

STATE LICENSURE REQUIREMENTS

Each year, North Carolina architects must complete a verifiable program of 12 contact hours of continuing education. The contact hours must be in health-safety-welfare subject material. Contact hours may not be carried over from one calendar year to the next.

HSW Programs provided by AIA registered providers will be accepted by the North Carolina Board of Architecture. The licensing board will also accept an AIA member's continuing education transcript as evidence of continuing education fulfillment.

AIA REQUIREMENTS

Developed to demonstrate AIA members' lifelong commitment to learning, the AIA Continuing Education System (CES) enhances knowledge, competency and competitiveness. In summary, the Institute's plan includes the following:

- Members must have 18 hours of continuing education per year in order to maintain membership.
- The 18 hours must include 8 contact hours in health/safety and welfare related subject matter.

AIA North Carolina Continuing Education Academy

AIA North Carolina has successfully launched an aggressive effort to provide its members affordable, accessible and relevant continuing education. The AIA North Carolina Continuing Education Academy is the winner of the 1999 AIA/CES Award for Excellence. AIA North Carolina was the only AIA chapter or component in America to win this prestigious award for excellence in continuing education programming and member service.

In 2004, AIA North Carolina plans to offer seminars at various locations

around the state. Some of the programs will provide up to fourteen hours of HSW credit while others will be shorter, concentrated seminars on specific topics. The AIA North Carolina summer design conference, *Future Office*, scheduled for August 26-28, 2004 at the Westin Charlotte Hotel in Charlotte, North Carolina, provides an opportunity for members to fulfill their requirements in a compressed period of time.

Visit the AIA North Carolina web site at www.aianc.org for an updated listing of continuing education programs in the Southeast. In addition, the seven local sections of AIA North Carolina typically offer AIA/CES programs at their meetings.

WHERE AIA CES RECORDS ARE KEPT

The CES record-keeping is performed under contract by the University of Oklahoma, Continuing Education, AIA/CES, 1700 Asp Avenue, Room B4, Norman, OK 73072-6400. Call 202-626-7353 for questions or comments on AIA/CES records.

This record-keeping center monitors contact hours earned by AIA members and keeps track of registered providers. Official transcripts will be issued annually to AIA members.

AIA members may monitor their continuing education progress by visiting AIA Online at www.aia.org. By using a member ID number, members may access an updated transcript of personal continuing education activities.

North Carolina Board of Architecture

The North Carolina Board of Architecture, established by the General Assembly in 1915, is responsible for enforcement of the laws and regulations governing the practice of architecture in the state. A major task is to determine the qualifications of applicants who seek licensure in this state.

The Board is comprised of seven members appointed by the Governor, five of whom are licensed architects appointed for five-year terms. Two of the members of the Board are not licensed architects and represent the interests of the public at large. The public members serve at the pleasure of the Governor.

In order to qualify for a license to practice architecture in North Carolina, an applicant must meet the following minimum requirements:
An accredited professional degree in architecture
Three year internship
Pass all divisions of the ARE (Architectural Registration Examination)

The current board members are Kevin G. Montgomery, AIA, president, Durham; Daniel Knight, AIA, vice-president, Rocky Mount; Charles H. Boney, Jr., AIA, treasurer, Wilmington; Barbara A. Field, FAIA, member, Asheville; Jeffrey A. Huberman, FAIA, member, Charlotte; Kiki Teague, public member, secretary, Winston-

Salem; and Charles N. (Nick) Garrett, Jr., public member, Wilmington. Additional information on the N.C. Board of Architecture may be obtained by contacting:

National Council of Architectural Registration Boards

The National Council of Architectural Registration Boards was established in 1920 to assist member boards in carrying out their duties, foster the enactment of uniform architectural laws, develop examinations and establish standards for certification requirements in education and training, to perfect its procedures for verifying the qualifications of applicants and determining their eligibility for certification and establish and maintain reciprocal registration between states having registration laws.

The NCARB is a non-profit corporation with all legally constituted boards of architecture in the United States as members, including the North Carolina Board of Architecture. To be eligible for NCARB certification, architects must submit satisfactory evidence that they comply with the stan-

dard for education, training, examination and character and have been registered by a member board.

The NCARB will, upon request of an individual architect, secure, authenticate, and record factual data of the applicant's education, training, practice and character. This record will be forwarded to any state board upon request of the applicant.

Certification shall be given to an applicant holding a council record verifying that the applicant has complied with the council's standards of education, training, practice and character; and that the applicant has passed an examination conforming to the council's standards of content, extent and length of time.

Certification by the NCARB is recommendation to all registration authorities that registration be granted to the holder without further examination. Most board members accept NCARB certification as conclusive evidence of an architect's eligibility of registration. It is, however, not a national registration.

Complete information on compiling a council record and obtaining council certification can be obtained from:

National Council of
Architectural Registration Boards

Bylaws • Code of Ethics & Professional Conduct

BYLAWS

Chartered in 1913, AIA North Carolina is legally registered and incorporated with the North Carolina Secretary of State as the North Carolina Chapter, The American Institute of Architects. The Bylaws of AIA North Carolina serve as an agreement between the organizations and its membership. The Bylaws were most recently revised August 1, 1998. For a copy of the Bylaws or questions, please call 919-833-6656.

CODE OF ETHICS & PROFESSIONAL CONDUCT

Members of The American Institute of Architects are dedicated to the highest standards of professionalism, integrity and competence. They apply to all professional activities, wherever they occur. They address responsibilities to the public, which the profession serves and enriches; to the clients and users of architecture and in the building industries, who help to shape the built environment; and to the art and science of architecture, the continuum of knowledge and creation, which is the heritage and legacy of the profession.

The Code is arranged in three tiers of statements: Canons, Ethical Standards and Rules of Conduct. The Canons are broad principles of conduct. The Ethical Standards are more specific goals towards which members should aspire in professional performance and behavior. The Rules of Conduct are mandatory, the violation of which is grounds for disciplinary action by the Institute.

A copy of the Code of Ethics is available on pages (insert page # here) of this directory or online at www.aia.org/institute/code.asp.

AIA Fellows

The American Institute of Architects bestows the recognition of Fellowship for achievement in architecture on members who have contributed notably to the advancement of the profession of architecture. With the exception of the Gold Medal, fellowship is the highest honor the AIA can bestow on a member. It is conferred on members with at least 10 years of continuous membership who have made significant contributions to the aesthetic, scientific, and practical efficiency of the profession; to the standards of architectural education, training, and practice; to the building industry through leadership of the AIA and other related professional organizations; to the advancement of the living standards of people through their improved environment and to society through significant public service.

Founded in 1952, the College of Fellows includes approximately five percent of the total AIA membership. Those advanced to fellowship can use "FAIA" after their names in recognition of their contributions in design, education, research or public service.

Current members of AIA North Carolina who have been recognized for Fellowship are:

Richard K. Albyn, FAIA
John L. Atkins III, FAIA
Alan T. Baldwin, Jr., FAIA
Peter Batchelor, FAIA
C. William Bevins, FAIA
Georgia Bizios, FAIA
Charles H. Boney Sr., FAIA
Paul Davis Boney, FAIA
J. Armand Burgun, FAIA
Norma DeCamp Burns, FAIA
Robert P. Burns, FAIA
Roger Cannon, FAIA
Marley P. Carroll, FAIA
Roger H. Clark, FAIA
F. Dail Dixon Jr., FAIA
S. Scott Ferebee Jr., FAIA

Barbara Field, FAIA

AIA Political Action Committee

The AIA-PAC is one of the most successful architect PACs in America. The AIA-PAC has achieved high success rates in terms of its contributions to winning candidates and its ability to influence legislation. It has played a prominent role in enhancing the image of AIA North Carolina among state legislators and in establishing architects as a respected source of information for legislators.

LEGISLATIVE SUCCESS

Since its formation in 1986, the AIA North Carolina Political Action Committee (AIA-PAC) has become increasingly successful in the political arena and has been of major assistance to AIA North Carolina in advancing its legislative agenda.

A long string of legislative victories have been achieved by AIA North Carolina in the last decade including:

- Qualification-Based Selection for architects on public projects
- Greater flexibility for single-prime contracting on public projects
- Statutory strengthening of the Architectural Practice Act (G.S.83A)
- Passage of a \$1.8 billion statewide bond issue for school construction
- Qualified immunity for architects as volunteers in declared emergencies
- Clarification of a seven-year statute of repose
- Securing the single prime contracting option on government projects

AIA North Carolina has also been successful in defeating or altering legislation, which could have a negative effect on the architectural profession. In addition, AIA architects have been appointed by the Governor and legislative leaders to key positions on regulatory and advisory boards and commissions.

MISSION OF AIA-PAC

The AIA-PAC was established to assist the architects of North Carolina in gaining access to state legislators for the purpose of establishing an effective forum on issues facing the profession. Its mission is to work to create an environment in the North Carolina general Assembly and Council of State, which is conducive to accomplishing the goals of the architectural profession.

Three specific objectives guide the activities of the AIA-PAC. These are:

- To solicit contributions.
- To make contributions to candidates who will be influential in determining the future course and the practice of architecture in North Carolina.
- To generally educate or inform the membership of AIA North Carolina concerning legislative and political issues affecting the profession.

The AIA-PAC is organized and operated on a voluntary, non-partisan basis to preserve and promote the status of architecture through the pursuit of its objectives. The organization is governed and supervised by a Board of Directors composed of 21 members of the AIA-PAC, with a minimum of one member from each section of AIA North Carolina. Each Director is appointed to a term of three years, with no Director being appointed to more than two consecutive terms.

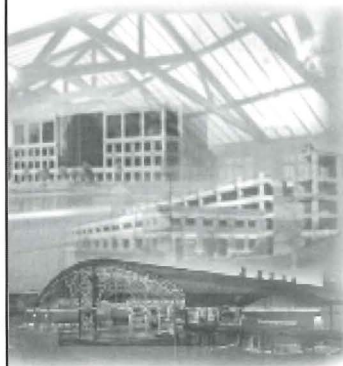

To maintain established levels of candidate contributions and ensure the continued effectiveness of AIA North Carolina's Government Affairs Programs, AIA-PAC needs continued and increased financial support from members and friends of the profession. Records and information about AIA-PAC are maintained at the offices of AIA North Carolina.

North Carolina Architectural Foundation

The North Carolina Architectural Foundation promotes and sponsors architectural programs and education. The mission of NCAF is to actively encourage and support quality in the field of architecture and educate the public about architecture.

KAMPHOEFNER PRIZE

The Foundation awards the Kamphoefner Prize of \$10,000 to an AIA North Carolina member who exhibits excellence in the Modern Movement of architecture. The Prize is funded through an endowment bequeathed by Henry and Mabel Kamphoefner. Henry Kamphoefner was the founder and original dean of the N.C. State School of Design. In years when a Prize winner is not selected, two \$5,000 scholarships are awarded to students at the N.C. State School of Design.

KAMPHOEFNER PRIZE RECIPIENTS

1988	J. Norman Pease, Jr., FAIA	Charlotte
1989	No recipient chosen	
1990	Murray Whisnant, FAIA	Charlotte
1991	Brian Shawcroft, AIA	Raleigh
1992	Philip A. Shive, FAIA	Charlotte
1993	Ligon B. Flynn, FAIA	Wilmington
1994	Marley P. Carroll, FAIA	Charlotte
1995	Frank C. Harmon, FAIA	Raleigh
1996	Lee Nichols Hepler Architecture	Charlotte
1997	Kenneth E. Hobgood, AIA	Raleigh
1998	NC State Students	
1999	Ellen Weinstein, AIA	Chapel Hill
2000	NC State Students	
2001	Thomas B. Moore, AIA	Charlotte
2002	No recipient chosen	
2003	No recipient chosen	

(Due to a balance shortage in the endowment, the Kamphoefner Prize was not awarded in 2002 and 2003)

AIA National Design Awards

A total of nine projects, located in North Carolina, have received the AIA's highest recognition of design excellence:

1953:	Project:	N.C. State Fair Pavilion (Dorton Arena), Raleigh
	Architect:	William H. Deitrick, FAIA, with Matthew Nowicki, designer
1954:	Project:	Double Oaks Elementary School, Charlotte
	Architect:	Arthur G. Odell Jr., FAIA
1957:	Project:	Wilson Junior High School, Charlotte
	Architect:	Arthur G. Odell Jr., FAIA
	Project:	Residence/studio, Raleigh
	Architect:	George Matsumoto, FAIA
1971:	Project:	NCNB (NationsBank) Branch Office, Charlotte
	Architect:	Wolf Associates
1974:	Project:	NCNB (NationsBank) Branch Office, Charlotte
	Architect:	Wolf Associates
1980:	Project:	Southern Service Center for Equitable Life, Charlotte
	Architect:	Wolf Associates
1983:	Project:	Mecklenburg County Courthouse, Charlotte
	Architect:	Wolf Associates
1984:	Project:	R.J. Reynolds Tobacco Co. building, Winston-Salem
	Architect:	Croxtan Collaborative with Hammill-Walter

Architectural Education

N.C. STATE UNIVERSITY

The Department of Architecture at N.C. State University was established in 1948 as one of two original academic components in the School of Design. The School of Design experienced a long period of development, establishing a reputation for innovation. In the fall of 2000, the department was given school status and the school was granted college status.

The College is presently led by Dean Marvin J. Malecha, FAIA, who was appointed to the position in August 1994. Thomas Barrie, AIA, was appointed department head in 2002, his title is now Director of Architecture.

The School of Architecture has grown its mission and curricular offerings over the years to include programs leading to the following three degrees:

Bachelor of Environmental Design in Architecture (BEDA)

A four-year pre-professional curriculum that serves as the foundation for the two advanced programs. The curriculum includes a balance of general studies (English, mathematics, science and humanities), design studio courses and architectural support courses (history, technology, methods and theory).

Bachelor of Architecture (B. ARCH)

A one-year professional curriculum that builds on the four-year BEDA or other equivalent program.

Master of Architecture (M. ARCH)

Three tracks lead to the professional M. ARCH degree: Track I is a two-year program for holders of the BEDA or equivalent four-year pre-professional degree; Track II is a three-semester second professional degree program for holders of the B. ARCH degree; Track III accepts students with degrees in non-architectural fields into a three and one half year program.

Both the B. ARCH and M. ARCH are professional degrees accredited by the National Architectural Accrediting Board. The most recent accreditation action took place in 2000 extending accreditation of

both programs for five years. The College of Design annually admits 120 freshmen and transfer students. Following an interdisciplinary fall semester, students begin their architectural studies in the spring semester of the first year. For information about the undergraduate admissions standards and procedures, contact the College of Design, N.C. State University, Box 7701, Raleigh, NC 27695-7701.

Admissions to the B. ARCH and M. ARCH programs are by application to the School of Architecture. For additional information, contact the School of Architecture, College of Design, N.C. State University, Box 7701, Raleigh, NC 27695-7701.

UNC CHARLOTTE

The College of Architecture at UNC Charlotte graduated its first students with professional degrees in 1976. In 1999, the school received its fifth consecutive full term accreditation from the National Architectural Accreditation Board. The college is presently led by Dean Kenneth Lamba, AIA. The curriculum provides a balance between theory and application, and general and professional education. Students may develop a double major or minor in another field such as engineering, business, computer or behavioral science. The curriculum is organized into:

The Core Program

In the first three years of the undergraduate program, students are enrolled in general education and architectural courses. In studios and seminars, which occur each semester, students acquire the fundamentals of visual design, problem solving, conceptualization and environmental influences. The third year studios focus upon building designs that are site specific. In addition, students extend their knowledge of architectural history and technology while having the opportunity to pursue individual interests through architectural and general elective seminars.

Advanced Program

In the fourth and fifth years, students select design studios and seminars in accordance with their individual study plan they developed in their third year. In addition, to the design thesis or comprehensive projects, students enroll in studios and seminars which focus on topics such as design theories, programming, architectural materials and technology, lighting design, acoustics, wood and metals design/making, community design, computer-aided design, advanced studies in architectural history, graphic explorations and other design issues. The Bachelor of Arts is awarded at the end of the fourth year and the professional degree, Bachelor of Architecture, is awarded in the fifth year.

Graduate Programs

A student with an undergraduate, non-architecture degree may enroll in a three-year plus one summer professional Master of Architecture program. A student with an undergraduate degree in architectural studies may enroll in a two-year professional Master of Architecture program. The final year provides an opportunity for specially-focus design exploration and research.

In collaboration with the Department of Geography and Earth Science, the College of Architecture also offers a Master of Arts in Community Planning.

In addition, the College maintains the Charlotte Community Design Studio in the Center City area of Charlotte. The College's International Studies programs include summer studies in Italy, Spain and study opportunities in London, Mexico, Finland, and Germany.

The College has an extensive visiting/part-time faculty designer program that includes numerous student-study field trips and special exhibitions of art, architecture and design. The College accepts transfer students for advanced standing from other NAAB schools. More detailed information may be obtained by writing the College of Architecture, UNC Charlotte, Charlotte, NC 28223.

Contact: Michael G. Talbot, PE
Firm Size: 20

Services: Our firm has experience with LEED certification and design as well as having a LEED accredited professional on staff. As designers of electromechanical systems, we also have the analytical and modeling capabilities necessary to evaluate decisions on a Life-Cycle Cost basis. Above all, we understand the relationship between effective communication and successful projects. LEED is an objectively oriented rating system that was developed by the US Green Building Council to encourage and recognize "green" design. Through a team-oriented approach and holistic decision-making process, LEED provides an invaluable framework for clear communication of design goals and priorities. The results we see are higher quality indoor environments, greater building value, and happier building owners.

Recent Projects: Friendship Missionary Baptist Church, Charlotte, NC; 1515 Elizabeth Avenue (mid-rise office building), Charlotte, NC; Hickory Grove Baptist Church Education Building, Charlotte, NC; Fire Station #10, Charlotte, NC; Ocean Seniors Assisted Living Center, Manmouth County, NJ; Carolinas Healthcare Medical Office Building, Ballantyne Medical Plaza, Charlotte, NC; Mecklenburg County Bioterror Lab, Charlotte, NC; Berean Christian Academy, Atlanta, GA; Winthrop University Student Housing, Rock Hill, SC

The strength and expertise to cover your professional liability risks.

INTRODUCING XL DESIGN PROFESSIONAL

XL and DPIC, recognized leaders in risk management solutions for the design industry, have combined their expertise to form XL Design Professional, dedicated exclusively to providing professional liability insurance, risk management products and services to the design and engineering industries.

The XL Design Professional program provides professional liability insurance solutions backed by the financial strength and stability of the XL America insurance companies, rated:

A+ (Superior) by A.M. Best

AA- (Very Strong) by

Standard & Poor's

Aa3 (Excellent) by Moody's

In addition to the protection of customized liability coverage backed by superior financial strength, our program provides industry-leading educational and risk management resources. You will also benefit from XL Design Professional's long-standing expert claims handling and dispute resolution services through our team of specialists dedicated to professional liability for architects and engineers.

REVISIT

BRICK

**BRICK IS NATURAL
TO THE CORE**

Brick is one of the world's original "green" building materials.

Its unsurpassed life cycle, exceptional energy efficiency, natural ingredients, minimal waste and countless recycling options are just a few of the properties that make brick the superb sustainable material it has been for thousands of years.

Revisit brick and discover how it can help you achieve environmentally friendly, sustainable LEED™ certified projects.

Quite simply,
Brick is of the Earth.
