AV Infrastructure For Any Environment

Extron Electronics is a leader in the design and manufacturing of audio-visual system integration products for applications ranging from classrooms, boardrooms, and lecture halls to medical facilities and control centers. For over 30 years, our customers have trusted Extron technology and expertise when they design AV systems for the commercial, government, education, and medical sectors.

Architect and Consultant Resources

Extron provides a number of resources for architects and consultants to aid in the development of AV presentation system proposals including:

- Autodesk® Revit® Modeling Files
- AV System CAD Drawings
- Architectural & Engineering Specifications
- Design Guides for Specific Technologies

Design and Commissioning Assistance

Extron engineers have decades of experience in providing personalized system design and project commissioning assistance. We also offer a range of free services, from equipment evaluation to complete system design. Contact our S3 support line at 800.633.9876 with your project details and we will help create a solution that suits your needs.

INTELLIGENT. ENDURING. FACADES.

Lackland Air Force Base - HDR, Inc.

The Dri-Design Wall Panel System can be customized with a nearly endless combination of materials, finishes, shapes and textures, providing the freedom to design beautiful facades. However, Dri-Design's truest beauty lies in the elegantly simple design, which eliminates the need for joint sealants and gaskets, can never delaminate and is 100% recyclable. This means the striking white façade at Lackland Air Force Base needs minimal maintenance to be dazzling for decades.

- No sealants, gaskets or butyl tape means no streaking and no maintenance for owners.
- Not laminated or a composite material, so panels will never delaminate.
- At Dri-Design, we have a strict policy of recycling and creating products that the world can live with.
- Fully tested to exceed ASTM standards and the latest AAMA 508-07.
- Available in a variety of materials and colors.

THE BEST THERMAL ANCHOR ON THE MARKET, PERIOD.

Thermal 2-Seal™ Wing Nut Anchor from Hohmann & Barnard

Rigorous independent testing with 2D & 3D thermal imaging has proven that HOHMANN & BARNARD'S Thermal 2-Seal™ Wing Nut Anchor is the strongest, most efficient anchor on the market today. By combining innovative design with state-of-the-art materials, it stands up to NFPA 285 testing while increasing the thermal and moisture performance of today's masonry walls.

- A UL-94 coating creates a thermal break at the insulation.
- Stainless Steel barrel transfers **one-seventh the thermal energy** of standard zinc barrels.
- A dual-diameter barrel with EPDM washers seal BOTH the insulation and the air barrier; H&B manufactures the **ONLY*** anchors on the market to do this.
- The wing is reinforced by a steel core which can withstand NFPA 285 fire testing without melting like typical clip-on plastic wings.
- Available with a standard or concrete tip to accommodate various masonry types.

www.h-b.com/wingnutnc1

Toll Free: 1-800-645-0616

*Competitors' single-barrel anchors only seal at insulation leaving the air & vapor barrier vulnerable if not installed perfectly perpendicular to the wall.

American Institute of Architects

Founded in 1857, the American Institute of Architects is the recognized advocate for the architectural profession in the United States.

With a membership of nearly 90,000 architects, interns and students, the AIA actively promotes the highest standards of professional ethics and advances the professional development of its members through continuing education. Speaking with a unified voice, the AIA represents architects in governmental and regulatory decisions that impact professional practice and the quality of life.

The North Carolina Chapter of the American Institute of Architects (AIA North Carolina) was founded in 1913 and is the largest statewide AIA chapter in the U.S. with over 2,200 members. The membership of AIA North Carolina includes about three-quarters of the architects who live in this state.

AIA North Carolina members work and live in every corner of the state, practicing in firms ranging in size from one to 400 persons. The membership is divided into seven geographical sections, located in Asheville, Charlotte, Eastern North Carolina, Piedmont (Greensboro/High Point), Triangle, Wilmington and Winston-Salem.

AIA North Carolina focuses its resources on several key areas, including:

Public Awareness of Architecture and the Profession

Working through Activate NC and local Activate committees, AIA North Carolina actively pursues a concerted effort to help the public become more aware of architecture and the positive impact architects have on the built environment. AIA local sections declare one month each year Architecture Month, hosting a wide variety of activities intended to engage and stimulate the public. Additionally, the chapter's annual Design Awards program is a prime opportunity to highlight to the public the finest work by North Carolina architects.

Government Affairs

With its current offices located in close proximity to the state Capitol, AIA North Carolina is well-positioned to represent the architect's view in legislation and public policy development. AIA North Carolina opinions and positions are actively sought by lawmakers when dealing with legislation affecting construction, building codes and planning. Through a separate organization, AIA North Carolina maintains a well-funded political action committee.

Continuing Education and Professional Development

Continuing education is a requirement for licensure renewal and for ongoing membership in the AIA. In 2017, the chapter offered affordable and accessible programs dedicated to health, safety and welfare subject material. AIA North Carolina also offered online classes through its O.W.L.S. (On-Demand Webinar Learning Series) program, which was accessible to members all across the state. AIA members can participate in Knowledge Communities that specifically target career and practice needs ranging from health care facilities to historic preservation. In 2017, AIA North Carolina hosted the 2017 Design Conference, which took place in Wilmington, North Carolina, from September 13-15. The theme, "Activate: Design, Collaboration, Community Engagement," was a unique experience where members were encouraged to see how their ideas can help shape a community.

Member Services

Publications and information are among the most valuable services available to AIA members. Members receive subscriptions to national publications, such as *ARCHITECT*, and many digital editions, such as *Eco-Home* and *Eco-Structure*, along with the *AIA North Carolina News and Notes* newsletter. Websites are maintained at www.aianc.org and www.aia.org.

The AIA NC Center for Architecture and Design

AIA North Carolina is proud to be located in the Center for Architecture and Design at 14 E. Peace St. in Raleigh, North Carolina. This building was made possible by donations from AIA members and firms. Find more information about the building at www.cfadnc.org.

Collateral Organizations

AIA North Carolina maintains and develops relationships with a host of organizations that impact the architectural profession, including construction trade associations, state regulatory agencies, accredited schools of architecture and other licensed design professionals.

Mission Statement

The mission of AIA North Carolina is to serve its members by enhancing and promoting the profession of architecture.

2017 AIA North Carolina President's Message

The mission of AIA North Carolina is to serve its members by enhancing and promoting the profession of architecture.

We have an amazing Board of Directors representing our seven unique sections throughout the state and an incredible staff to carry out our mission. Membership is up, architecture school graduates are finding jobs, and firms across the state are busier than they have been in several years.

Times are good! After three years of repositioning per AIA's directive, we are finally beginning to settle into a more efficient association organized around seven core member services. We are now able to focus more heavily on public outreach, advocacy, design and the future of AIA NC.

AIA NC Staff Growth

A much-needed position has been created for the AIA NC staff. This summer, Maggie Whittemore, director of programs and communications, joined David Crawford, Keri Dixon and Marynell Gehrke at the Center for Architecture and Design. Her focus will be on member communication, Activate programming, continuing education and public outreach.

Activate

Chair and AIA NC President-Elect Thad Rhoden, AIA (Asheville), kept busy coordinating April Architecture Month for all seven sections as well as the 2017 Urban Housing Design Ideas Competition hosted in the city of Asheville. The international design competition was released in the fall. We are enjoying the second year of Activate becoming a statewide public outreach initiative, and we encourage all members to participate in or initiate programs or events that engage the public and help improve our communities through design. Benefits include increased awareness of the value of architects and the opportunity to give back!

Advocacy

Director Richard Alsop, AIA (Charlotte), has poured his heart and soul into connecting with members in all seven sections to ensure they have the opportunity to be engaged in and informed of legislative matters that affect our practice and the significance of our profession. Prior to Legislative Day in April, Richard visited each section to present the Advocacy Workshop he created. The workshop centered on how to successfully communicate with legislators and create relationships that encourage productive dialogue about important issues to our practice.

Education

Matt Hart, AIA (Winston-Salem), empaneled a group of members statewide to help create topics for the successful existing O.W.L.S. program and CE Academy. Matt also worked on details and learning objectives related to CE credits that were offered during the Wilmington Design Conference in the way of seminars, tours and a two-day design charrette.

Emerging Professionals

Director Megan Bowles, AIA (Triangle), organized a fall Leadership Conference called "Designing the Career You Love." Thanks to the support of the Fellows Committee, the event highlighted the various career paths that can be enjoyed by architects. Our state is fortunate to have many accomplished fellows whose career experiences vary greatly and can serve to inspire young architects to consider traditional and nontraditional ways of practicing architecture. Megan also worked on organizing a design-focused summer community service outreach program that benefited a nonprofit group in an underserved part of the state.

Membership

Director Julianne Kuminski Hatfield, AIA (Triangle), has been diligently communicating with all seven sections in order to keep up to speed with the many newsletter-worthy activities happening throughout the state. More frequent e-newsletters to our members as well as a multipart series highlighting the value of AIA membership were enjoyed this year. Julianne is also leading the effort on revitalizing the North Carolina Architectural Foundation, which will allow for increased focus on education and outreach in architecture.

Public Awareness

Director Chris Roberts, AIA (Triangle), is preparing for the release of a new website template offered to all components from AIA National. The website will be more aesthetically pleasing, easier to navigate and update, and more graphically unified across the board for all components, while still allowing for individualization. Because the website template is member-focused, Chris is also working on enhancing AIA NC's public website, www.activatenc.org, in order to make it more accessible to all seven sections.

Fellows Committee

Chair Walt Teague, FAIA (Piedmont), has expanded the scope and energy of the Fellows Committee this year. In addition to nominating and supporting candidates for fellowship, the committee is working closely with emerging professionals in order to foster mentorship opportunities to young architects throughout the state.

Wilmington Design Conference, September 13-15

Many thanks to the volunteer AIA Wilmington section members and Jen Sisak, AIA Triangle president, who worked to make the Design Conference a success! The theme this year was "ACTIVATE: Design | Collaboration | Community Engagement." We partnered with the city of Wilmington Planning Department and identified two areas in the city that need design attention in light of recent and future growth and change in the area. The design charrettes occurred over two days during the conference and included attendees from allied professions in addition to architects. Exciting tours (including walking, boat, bus and kayak!) and seminars were concurrent tracks as well. Design and chapter awards will take place on the battleship *USS North Carolina*, followed by live music, fellowship, food and dancing!

2018-2020 Strategic Plan

A new three-year strategic plan has been created for 2018-2020! Members had the opportunity to provide input on current successes and areas for improvement in the association as we created new, measureable goals under the categories of advocacy, relevance and composition.

The success of AIA NC is not possible without our 2,000-plus members, allied organizations, dedicated staff and incredible Board leadership to carry our mission forward.

Erin Sterling Lewis, AIA

2017 Leadership

President

Erin Sterling Lewis, AIA
in situ studio
704 N. Person St.
Raleigh, NC 27604
p: (919) 397-3951
e: erin@insitustudio.us

Erin Sterling Lewis, AIA, is a native of Illinois and grew up in Mississippi. She earned a Bachelor of Architecture from the University of Kentucky in 2002. There, she was inducted into Tau Sigma Delta Honor Society and was an architecture history teaching assistant for three semesters. Before founding in situ studio, Erin worked for over eight years at Frank Harmon Architect PA, where she played an integral role in various projects, including the Merchants Millpond State Park Visitor Center, the Walnut Creek Wetland Center, Horseshoe Farm Park, the AIA NC Center for Architecture and Design, and the First Presbyterian Church renovation. Erin is involved in various community outreach and volunteer programs. From 2004 to 2006, Erin served on the Raleigh Historic Districts Commission. She has served on the Raleigh Planning Commission since 2009, and currently serves on the advisory board for the North Carolina State University (NCSU) College of Design School of Architecture. Erin has been an invited juror for the city of Raleigh Sir Walter Raleigh Awards in 2007 and 2010, as well as the 2010 North Carolina Solar Center NC Sustainable Building Design Competition. In early 2010, she volunteered to teach a course on sustainable design at the NCSU Encore Center for Lifelong Enrichment.

Secretary

Rod Lindsey, AIA
Lindsey Architecture
125 S. Elm St., Ste. 300
Greensboro, NC 27401
p: (336) 617-4402
e: rod@lindseyarch.com

Rod Lindsey, AIA, has been a member of AIA North Carolina since 1994 and has served on the Board of the AIA Piedmont Section in Greensboro. Rod received his Bachelor of Architecture from Drury University in Springfield, Missouri. Rod began his internship in architecture at Bass Pro Shops Inc., in Springfield, Missouri, and continued with his internship after moving to Greensboro, North Carolina, with Tye Architecture in 1994. He received his architectural license in 1997 and practiced architecture for Tye, Spots and Davis and Triad Design Group for over 13 years. Rod started Lindsey Architecture in October 2008 and continues growing his company and helping develop his community.

President-Elect

Thad Rhoden, AIA
McMillan Pazden Smith Architecture
34 Commerce St.
Asheville, NC 28801
p: (828) 398-5016
e: trhoden@mcmillanpazdensmith.com

Thad Rhoden, AIA, joined Sparc Design bringing an appreciation for the technical aspects of the profession. After finishing school at Clemson University, he started his career in forensics architecture, learning value in quality design. Since moving to Asheville in 2005, he has been active in the community, serving on the local AIA Board as president, while collaborating on nonprofit events, like HATCHfest, CANstruction and Bow Wow Haus. His passion for quality and process has translated well to an unexpected hobby, barbeque, where he enjoys a well-smoked pork shoulder.

Immediate Past President

David Liberatore, AIA
BSA LifeStructures
510 Glenwood Ave.
Raleigh, NC 27603
p: (919) 830-8243
e: dliberatore@bsa-lifestructures.com

David L. Liberatore, AIA, is the director of learning with BSA LifeStructures. David earned his Master of Architecture degree from the Massachusetts Institute of Technology, his Master of Science degree in early childhood education from Wheelock College, and in 32 years of design practice has refined his expertise in the programming, design and construction of learning environments. He is a LEED Accredited Professional and a registered educational facility planner. Prior to rejoining the AIA NC Board, he served as president of the AIA NC Triangle Section, chairperson of the North Carolina AIA Public Relations Committee, and state Board member for the North Carolina Chapter.

Treasurer

Jim R. Williams, AIA
Little
5815 Westpark Dr.
Charlotte, NC 28217
p: (704) 561-3238
e: jwilliams@littleonline.com

As a partner and national director of design, Jim R. Williams, AIA, leads Little's design directors responsible for ensuring that clients receive design solutions that not only provide remarkable architecture but also create a catalyst for improved performance. He has more than 29 years of international architectural design, project management and due diligence experience, primarily with large-scale, mixed-use, office and award-winning retail and community projects. In addition to serving various roles with the AIA, Jim is a past Board member and officer of the Charlotte Regional Chapter of the U.S. Green Building Council and has served as a past chairman of the city of Concord Historic Preservation Commission. Jim also served on the Executive Committee of the Urban Land Institute (ULI) Charlotte District Council and was chair of the Technical Assistance Panels Committee. In addition, he has taught a Master of Architecture design studio at the University of North Carolina at Charlotte College of Architecture and serves as a member of its Professional Advisory Board. Jim received his Bachelor of Architecture and Bachelor of Environmental Design from the University of Kansas.

2017 Leadership

Director (One Year)

Christopher E. Roberts, AIA
LS3P
434 Fayetteville St., Ste. 1700
Raleigh, NC 27601
p: (919) 829-2700
e: chrisroberts@ls3p.com

Christopher E. Roberts, AIA, has been with LS3P since 2003 and is currently the director of the design studio and the operations and finance manager in the Raleigh office. In his tenure with the firm, he has developed a relationship with the state construction office over the course of several university and other state-funded projects. Chris has a strong background in public facility design, extending his experience in programming, planning and design of higher-education learning environments. Notable designs include the Duke Institute for Brain Sciences, the six-building Wolf Ridge Apartments at Centennial and On the Oval dining project at North Carolina State University. Chris is highly skilled in all phases of project delivery, including programming, master planning and design, and serves as a sustainability resource for the firm. Chris is widely respected in the professional community as well. He recently served as president of the 2014 Board of Directors for AIA Triangle, and currently serves as a director on the Board of Directors for AIA North Carolina.

Director (Two Years)

Matthew S. Hart, AIA, NCARB
Walter Robbs Callahan and Pierce Architects, PA
530 N. Trade St., #300
Winston-Salem, NC 27101
p: (336) 725-1371
e: mattshart@gmail.com

Matthew S. Hart, AIA, NCARB, started in the profession in 2004 as an aspiring architect while attending Savannah College of Art and Design. Matt has since gained experience in multiple project types, including private developments and public projects for municipal, state and federal agencies. His main focus has been learning enrichment environments within K-12 and higher-education markets. He is currently a project architect at Walter Robbs Callahan and Pierce Architects, PA in Winston-Salem, North Carolina. Matt holds licenses in Georgia and North Carolina, and he has a National Council of Architectural Registration Boards (NCARB) certificate for reciprocity in other jurisdictions. He has been active in the AIA since college, serving on multiple boards, committees and work groups at the student, local, regional and national level.

Director (One Year)

J. Richard Alsop Jr., AIA
J. Richard Alsop, Architect PLLC
P.O. Box 481000
Charlotte, NC 28269
p: (704) 358-8400
e: richard@arcreview.org

J. Richard Alsop Jr., AIA, has been a licensed professional architect for 34 years, with 11 years of service in the profession prior to licensing working for an engineering company in the planning and design of nuclear power plants, operator training facilities and environmental laboratories. Work under his own banner includes 16 years as founder and president of a mid-sized architectural firm, which soon expanded to include a diversified engineering component. The company served a 14-state area performing work on chemical manufacturing, industrial, and medical laboratory facilities and regulatory life safety upfits for extended care facilities. For the past 18 years, Richard has been engaged in the development of large-scale residential communities and now serves these and other communities as a professional consultant to their architectural review boards. His interest in the process of building consensus for making better laws led him to his participation with AIA North Carolina as the director of government affairs.

Director (Two Years)

Juliane Kuminski Hatfield, AIA
Clark Nexsen
333 Fayetteville St., #1000
Raleigh, NC 27601
p: (919) 828-1876
e: jkuminski@clarknexsen.com

Juliane Kuminski Hatfield, AIA, is a registered architect in Clark Nexsen's Raleigh office. She holds a master's degree in architecture from North Carolina State University's School of Design. Over the course of her career at Clark Nexsen, Juliane has worked on a number of project types, including science and technology, higher education, municipal and federal Department of Defense projects. Juliane is an active member in the AIA Triangle Section and received the Presidential AIA Triangle Volunteer Award in 2013. She serves the AIA Triangle as the chair of the R3 (Reduce, Recycle, Reuse) Committee, and is an integral member of the Triangle Tour of Residential Architecture and COTE (Committee of the Environment) committees. She is also a member of the Junior League of Raleigh.

Emerging Professional (Two Years)

Megan Bowles, AIA

Asheville

President: Lindsey Rhoden, AIA
McMillan Pazden Smith Architecture
34 Commerce St.
Asheville, NC 28801
p: (828) 398-5016
e: lrhoden@mcmillanpazdensmith.com

Lindsey Rhoden, AIA, joined Sparc Design as a founding principal with the goal of providing a service that reflects a modernized profession. Originally from Ohio, she received her Bachelor of Arts in architecture from Miami University. After finishing her master's at Clemson University, she transitioned into a lead role as Aldi Grocery Store's prototype designer. Relocating to Asheville in 2006, she has learned the value of community-focused design and well-crafted research. Lindsey was featured in the Asheville publication *Verve* as one of Asheville's 30 under 30.

Asheville

President-Elect: Tripp Anderson, AIA
Aiton Anderson Architecture
12 Church St., Ste. 21
Asheville, NC 28801
p: (828) 989-5154
e: gaa@aitonanderson.com

Tripp Anderson, AIA, is a founding principal architect of Aiton Anderson Architecture. Since returning to Asheville in 2008, he enjoys being an active part of AIA Asheville leadership and AIA NC political action days, and contributing to nonprofit support events, like CANstruction and Bow Wow Haus. He received his bachelor's degree and Master of Architecture from Clemson University and is a lifelong Tigers fan. Tripp enjoys balancing his time between his architecture projects and spending time in the woods with family, while attempting to balance his calorie intake between consuming local microbrews and trail running.

Charlotte

President: Catherine Monroe, AIA
The Housing Studio
333 W. Trade St., Ste. 300
Charlotte, NC 28202
p: (704) 333-7862
e: cmonroe@housingstudio.com

Catherine Monroe, AIA, hails from Salisbury, North Carolina, and earned a Bachelor of Arts in art history from Davidson College in 1996 prior to completing her Master of Architecture degree at the University of North Carolina at Charlotte School of Architecture in 2000. She worked as an architectural intern at Little Diversified Architectural Consulting from 2000 to 2001, and then at The Lawrence Group from 2001 to 2005, where she helped complete community-oriented projects, such as the Lowe's YMCA, the Baxter Village YMCA, affordable housing for the Davidson Housing Coalition and the public restrooms at Roosevelt Wilson Park for the town of Davidson. She has been working with The Housing Studio as a staff and project architect since 2005. She earned her LEED Accredited Professional certification in 2004 and her license to practice architecture in North Carolina in 2008. At The Housing Studio, she has managed various housing project types, including market rate and affordable multifamily housing, and has participated in several award-winning projects around the Southeast, including the master plan for the Siegle Avenue redevelopment in Charlotte. She has been a past recipient of the J. Hyatt Hammond Award, has served on the UNC Charlotte School of Architecture Alumni Board and currently serves as president of AIA Charlotte.

Shermin Ata Architecture
145 S. Elm-Eugene St.
Greensboro, NC 27406
p: (336) 333-5650
e: sherminata@bellsouth.net

Prior to opening her own firm in 2007, Shermin Ata, AIA, had professional experience that included nearly 25 years with international and local firms practicing architecture and construction administration. A graduate of Leadership Greensboro and City Academy, Shermin has served on several community boards and city of Greensboro committees and commissions. She received the Greensboro Chamber of Commerce's 2011 Nussbaum Center Associate of the Year and 2015 Woman Owned Business Outstanding Success in the Professional Service Industry, presented by Greensboro Minority-Woman Enterprise, and was nominated for the Greensboro Chamber of Commerce's 2017 Small Business Award. Shermin holds a Bachelor of Science degree in architecture, a postgraduate degree in housing studies and a Master of Science degree in architecture.

RATIO
135 E. Martin St.
Raleigh, NC 27601
p: (919) 256-4968
e: jsisak@ratioarchitects.com

Jennifer H. Sisak, AIA, has a professional background that features more than 20 years of diverse experience in architecture, planning, construction management, marketing and the business of design, giving her a deep understanding of how design can positively impact redevelopment and the client's bottom line. In every project, Jennifer focuses on high-level research and development, creative problem-solving and professional insight to achieve the right solution for the client's needs.

Wilmington

President: Matthew W. Williard, AIA

Matthew Williard Architect, PLLC
3519 Stratford Rd.
Wilmington, NC 28403
p: (910) 297-3665
e: mwwilliard@icloud.com

With 15 years of experience, Matthew W. Williard, AIA, founded M.W. Williard, Architect, PLLC in June 2013. His design philosophy reflects his pursuit of refinement, humility and harmony with place and climate. The design process is one of gathering and editing, resulting in an architectural concept. Satisfying his clients' needs and budget are a given, and he strives for an architecture that enhances and brings joy to the tasks of everyday life.

President-Elect: Jason Lettie, AIA, LEED AP BD+C

Cline Design Associates
125 N. Harrington St.
Raleigh, NC 27603
p: (919) 833-6143
e: jasonl@clinedesignassoc.com

Jason Lettie, AIA, LEED AP BD+C, has over 22 years of architectural experience, including 20 years with Cline Design Associates, PA. As a principal, team leader and senior project manager, Jason oversees a diverse range of project types, including multifamily residential, mixed-use, student housing, affordable housing, restaurant and recreational buildings. As a LEED Accredited Professional, Jason has a passion for creating livable, sustainable communities. His extensive knowledge of building codes, accessibility requirements and construction systems, developed through experience in jurisdictions throughout the Southeast and beyond, serves as a valuable asset during the project design and construction processes. Jason has served on the AIA Triangle Board of Directors since 2012, volunteered as the AIA Triangle Continuing Education chairperson since 2007, and is an active member of the Urban Land Institute. He earned his Bachelor of Environmental Design from Miami University in Oxford, Ohio, and his Master of Architecture from North Carolina State University. A native of Columbus, Ohio, and a Raleigh resident since 1995, Jason enjoys mountain biking, golf, reading, traveling and spending quality time with his daughters, Emma and Ava.

Kenneth A. Lambla, AIA

UNC Charlotte College of Arts + Architecture
9201 University City Blvd.
Charlotte, NC 28223
p: (704) 687-4024
e: klambla@email.uncc.edu

Kenneth A. Lambla, AIA, is dean of the College of Arts + Architecture at the University of North Carolina at Charlotte, where he also served as chair from 1997 to 2002. He received his Bachelor of Environmental Design degree from the University of Kansas and his Master of Architecture degree from the University of California, Berkeley. His career in both education and practice is focused on architecture as community development and advocates social responsibility, craft and innovation. He has taught in Illinois, California, Canada and North Carolina. His teaching has focused on design, design process and history. He has worked as an architect and urban designer in Belfast (Northern Ireland), Chicago, San Francisco and, during his tenure at UNC Charlotte, throughout North Carolina on educational and institutional projects. As co-director of the Elizabeth Urban Design and Transportation Study (Charlotte), he won a national American Society of Landscape Architects award and used this research in advocating zoning changes in Charlotte. He has directed architectural programs in London, the Netherlands, France and Italy, as well as having been foreign resident director for university programs. His research has focused on social histories of housing projects completed in Chicago and Rotterdam, Netherlands.

e: mehovers@ncsu.edu

Mark E. Hoversten, PhD, FASLA, AICP, Assoc. AIA, was appointed dean of the North Carolina State University College of Design in 2016. He previously served as dean and professor at the University of Idaho since 2007. Prior to that, he served as assistant, associate and full professor at the University of Nevada-Las Vegas, where he also was coordinator of landscape architecture and planning. Prior to his work in higher education, Mark worked in the private sector for a variety of landscape architecture and architecture firms. He is fellow of the Yaddo arts community, the American Society of Landscape Architects and the Council of Educators in Landscape Architecture. He is also a member of the College Art Association.

AIA North Carolina Staff

David Crawford, Hon. AIA
Executive Vice President

David Crawford, Hon. AIA, joined AIA North Carolina at the beginning of 2001 after serving as executive director for AIA San Diego for 10 years. Prior to that, he served as director of professional practice and assistant director of government relations with the AIA California Council for four years.

David received his Bachelor of Arts in political science from California State University, Fullerton. He was selected to finish his undergraduate work as part of the California State University system's prestigious Sacramento Semester Program. Following graduation in 1984, he worked briefly as a political operative for a California state Assembly member and then began his legislative career as a manager for the state's first online legislative tracking service. He began his lobbying career in 1986 with the California Probation, Parole and Correctional Association.

David sat on the Board of Directors of the two accredited architecture schools in San Diego for five years and served on various city and regional advisory committees.

He is a member of the American Society of Association Executives and in 1996-97 chaired the California Council of Architectural Component Executives (California CACE). In 2006, he was president of the National Council of Architectural Component Executives.

Marynell Gehrke
Director of Special Events

Marynell Gehrke joined the AIA North Carolina staff in January 1995 after working since 1992 with Olson Management Group, an association management company. As director of special events, Marynell acts as staff liaison for the convention (Summer

Design Conference) and continuing education committees and all AIA North Carolina meeting and conference planning. Marynell received a Bachelor of Science degree from the University of North Carolina in industrial relations in 1984.

Keri Dixon
Director of Membership, Awards and Technology

Keri Dixon joined AIA North Carolina in June 2010. Keri is a graduate of Western Carolina University in North Carolina and studied professional writing and history. Keri has a background in communications and previously worked

as the director of communications for the Episcopal Diocese of East Carolina. Her major responsibilities include the production of the *Architext* newsletter, maintenance of the AIA NC website, and email updates to AIA members through *News and Notes*. Her background in communications makes her well-suited for creating an active and interactive environment for AIA NC members.

Maggie Whittemore
Director of Programs and Communications

Maggie Whittemore joined AIA North Carolina in August 2017. Maggie is a graduate of Saint Michael's College in Vermont and studied media studies,

journalism and digital arts. She also studied public relations at Murdoch University in Australia. Before moving to North Carolina from Maine, Maggie held a social media position at her internship at Christ the King School. In her free time, she enjoys hiking, swimming, reading and traveling.

Kate Shelton
Executive Director, AIA Charlotte

Before becoming the executive director for AIA Charlotte, Kate was AIA Charlotte's member services coordinator. She graduated in 2004 from the

University of North Carolina at Charlotte with a degree in business administration.

The contact information for AIA Charlotte is:

Mary Fierle

Executive Manager, AIA Asheville

Mary Fierle serves as executive manager to the Asheville Section of the American Institute of Architects. A former business development coordinator for the city of Asheville's Downtown Development office, Mary also worked as staff coordinator for the city's Urban Trail program. Prior to moving to Asheville in 1993, she was public relations manager

for the Historic Savannah Foundation in Georgia. She has worked in public relations for nearly 20 years, and has held positions with Marriott Corporation, Carnival Cruise Lines, the 1982 World's Fair and the Atlanta Braves. She has a B.S. degree in public relations from Georgia Southern University. Mary lives in Asheville with her husband, Tim, an architect and AIA member with Buncombe County School System, and their two young children.

Contact information for AIA Asheville is:
9 West St. Ext.
Asheville, NC 28801
p: (828) 253-6014

Code of Ethics & Professional Conduct

Ethics

From the Office of General Counsel

Preamble

Members of The American Institute of Architects are dedicated to the highest standards of professionalism, integrity, and competence. This Code of Ethics and Professional Conduct states guidelines for the conduct of Members in fulfilling those obligations. The Code is arranged in three tiers of statements: Canons, Ethical Standards, and Rules of Conduct:

- Canons are broad principles of conduct.
- Ethical Standards (E.S.) are more specific goals toward which Members should aspire in professional performance and behavior.
- **Rules of Conduct (Rule) are mandatory; violation of a Rule is grounds for disciplinary action by the Institute.** Rules of Conduct, in some instances, implement more than one Canon or Ethical Standard.

The **Code** applies to the professional activities of all classes of Members, wherever they occur. It addresses responsibilities to the public, which the profession serves and enriches; to the clients and users of architecture and in the building industries, who help to shape the built environment; and to the art and science of architecture, that continuum of knowledge and creation which is the heritage and legacy of the profession.

Commentary is provided for some of the Rules of Conduct. That commentary is meant to clarify or elaborate the intent of the rule. The commentary is not part of the **Code**. Enforcement will be determined by application of the Rules of Conduct alone; the commentary will assist those seeking to conform their conduct to the Code and those charged with its enforcement.

Statement in Compliance With Antitrust Law

The following practices are not, in themselves, unethical, unprofessional, or contrary to any policy of The American Institute of Architects or any of its components:

- (1) submitting, at any time, competitive bids or price quotations, including in circumstances where price is the sole or principal consideration in the selection of an architect;
- (2) providing discounts; or
- (3) providing free services.

Individual architects or architecture firms, acting alone and not on behalf of the Institute or any of its components, are free to decide for themselves whether or not to engage in any of these practices. Antitrust law permits the Institute, its components, or Members to advocate legislative or other government policies or actions relating to these practices. Finally, architects should continue to consult with state laws or regulations governing the practice of architecture.

CANON I

General Obligations

Members should maintain and advance their knowledge of the art and science of architecture, respect the body of architectural accomplishment, contribute to its growth, thoughtfully consider the social and environmental impact of their professional activities, and exercise learned and uncompromised professional judgment.

E.S. 1.1 Knowledge and Skill:

Members should strive to improve their professional knowledge and skill.

Rule 1.101 In practicing architecture, Members shall demonstrate a consistent pattern of reasonable care and competence, and shall apply the technical knowledge and skill which is ordinarily applied by architects of good standing practicing in the same locality.

Commentary: By requiring a "consistent pattern" of adherence to the common law standard of competence, this rule allows for discipline of a Member who more than infrequently does not achieve that standard. Isolated instances of minor lapses would not provide the basis for discipline.

E.S. 1.2 Standards of Excellence:

Members should continually seek to raise the standards of aesthetic excellence, architectural education, research, training, and practice.

E.S. 1.3 Natural and Cultural Heritage:

Members should respect and help conserve their natural and cultural heritage while striving to improve the environment and the quality of life within it.

E.S. 1.4 Human Rights:

Members should uphold human rights in all their professional endeavors.

Rule 1.401 Members shall not discriminate in their professional activities on the basis of race, religion, gender, national origin, age, disability, or sexual orientation.

E.S. 1.5 Allied Arts & Industries:

Members should promote allied arts and contribute to the knowledge and capability of the building industries as a whole.

CANON II

Obligations to the Public

Members should embrace the spirit and letter of the law governing their professional affairs and should promote and serve the public interest in their personal and professional activities.

E.S. 2.1 Conduct:

Members should uphold the law in the conduct of their professional activities.

Rule 2.101 Members shall not, in the conduct of their professional practice, knowingly violate the law.

Commentary: The violation of any law, local, state or federal, occurring in the conduct of a Member's professional practice, is made the basis for discipline by this rule. This includes the federal Copyright Act, which prohibits copying architectural works without the permission of the copyright owner. Allegations of violations of this rule must be based on an independent finding of a violation of the law by a court of competent jurisdiction or an administrative or regulatory body.

Rule 2.102 Members shall neither offer nor make any payment or gift to a public official with the intent of influencing the official's judgment in connection with an existing or prospective project in which the Members are interested.

Commentary: This rule does not prohibit campaign contributions made in conformity with applicable campaign financing laws.

Rule 2.103 Members serving in a public capacity shall not accept payments or gifts which are intended to influence their judgment.

Rule 2.104 Members shall not engage in conduct involving fraud or wanton disregard of the rights of others.

Commentary: This rule addresses serious misconduct whether or not related to a Member's professional practice. When an alleged violation of this rule is based on a violation of a law, or of fraud, then its proof must be based on an independent finding of a violation of the law or a finding of fraud by a court of competent jurisdiction or an administrative or regulatory body.

Rule 2.105 If, in the course of their work on a project, the Members become aware of a decision taken by their employer or client which violates any law or regulation and which will, in the Members' judgment, materially affect adversely the safety to the public of the finished project, the Members shall:

- (a) advise their employer or client against the decision,
- (b) refuse to consent to the decision, and
- (c) report the decision to the local building inspector or other public official charged with the enforcement of the applicable laws and regulations, unless the Members are able to cause the matter to be satisfactorily resolved by other means.

Commentary: This rule extends only to violations of the building laws that threaten the public safety. The obligation under this rule applies only to the safety of the finished project, an obligation coextensive with the usual undertaking of an architect.

Rule 2.106 Members shall not counsel or assist a client in conduct that the architect knows, or reasonably should know, is fraudulent or illegal.

E.S. 2.2 Public Interest Services:

Members should render public interest professional services, including pro bono services, and encourage their employees to render such services. Pro bono services are those rendered without expecting compensation, including those rendered for indigent persons, after disasters, or in other emergencies.

E.S. 2.3 Civic Responsibility:

Members should be involved in civic activities as citizens and professionals, and should strive to improve public appreciation and understanding of architecture and the functions and responsibilities of architects.

Rule 2.301 Members making public statements on architectural issues shall disclose when they are being compensated for making such statements or when they have an economic interest in the issue.

CANON III

Obligations to the Client

Members should serve their clients competently and in a professional manner, and should exercise unbiased and unbiased judgment when performing all professional services.

E.S. 3.1 Competence:

Members should serve their clients in a timely and competent manner.

Rule 3.101 In performing professional services, Members shall take into account applicable laws and regulations. Members may rely on the advice of other qualified persons as to the intent and meaning of such regulations.

Rule 3.102 Members shall undertake to perform professional services only when they, together with those whom they may engage as consultants, are qualified by education, training, or experience in the specific technical areas involved.

Commentary: This rule is meant to ensure that Members not undertake projects that are beyond their professional capacity. Members venturing into areas that require expertise they do not possess may obtain that expertise by additional education, training, or through the retention of consultants with the necessary expertise.

Rule 3.103 Members shall not materially alter the scope or objectives of a project without the client's consent.

E.S. 3.2 Conflict of Interest:

Members should avoid conflicts of interest in their professional practices and fully disclose all unavoidable conflicts as they arise.

Rule 3.201 A Member shall not render professional services if the Member's professional judgment could be affected by responsibilities to another project or person, or by the Member's own interests, unless all those who rely on the Member's judgment consent after full disclosure.

Commentary: This rule is intended to embrace the full range of situations that may present a Member with a conflict between his interests or responsibilities and the interest of others. Those who are entitled to disclosure may include a client, owner, employer, contractor, or others who rely on or are affected by the Member's professional decisions. A Member who cannot appropriately communicate about a conflict directly with an affected person must take steps to ensure that disclosure is made by other means.

Rule 3.202 When acting by agreement of the parties as the independent interpreter of building contract documents and the judge of contract performance, Members shall render decisions impartially.

Commentary: This rule applies when the Member, though paid by the owner and owing the owner loyalty, is nonetheless required to act with impartiality in fulfilling the architect's professional responsibilities.

E.S. 3.3 Candor and Truthfulness:

Members should be candid and truthful in their professional communications and keep their clients reasonably informed about the clients' projects.

Rule 3.301 Members shall not intentionally or recklessly mislead existing or prospective clients about the results that can be achieved through the use of the Members' services, nor shall the Members state that they can achieve results by means that violate applicable law or this Code.

Commentary: This rule is meant to preclude dishonest, reckless, or illegal representations by a Member either in the course of soliciting a client or during performance.

E.S. 3.4 Confidentiality: Members should safeguard the trust placed in them by their clients.

Rule 3.401 Members shall not knowingly disclose information that would adversely affect their client or that they have been asked to maintain in confidence, except as otherwise allowed or required by this Code or applicable law.

Commentary: To encourage the full and open exchange of information necessary for a successful professional relationship, Members must recognize and respect the sensitive nature of confidential client communications. Because the law does not recognize an architect-client privilege, however, the rule permits a Member to reveal a confidence when a failure to do so would be unlawful or contrary to another ethical duty imposed by this Code.

CANON IV

Obligations to the Profession

Members should uphold the integrity and dignity of the profession.

E.S. 4.1 Honesty and Fairness:

Members should pursue their professional activities with honesty and fairness.

Rule 4.101 Members having substantial information which leads to a reasonable belief that another Member has committed a violation of this Code which raises a serious question as to that Member's honesty, trustworthiness, or fitness as a Member, shall file a complaint with the National Ethics Council.

Commentary: Often, only an architect can recognize that the behavior of another architect poses a serious question as to that other's professional integrity. In those circumstances, the duty to the professional's calling requires that a complaint be filed. In most jurisdictions, a complaint that invokes professional standards is protected from a libel or slander action if the complaint was made in good faith. If in doubt, a Member should seek counsel before reporting on another under this rule.

Rule 4.102 Members shall not sign or seal drawings, specifications, reports, or other professional work for which they do not have responsible control.

Commentary: Responsible control means the degree of knowledge and supervision ordinarily required by the professional standard of care. With respect to the work of licensed consultants, Members may sign or seal such work if they have reviewed it, coordinated its preparation, or intend to be responsible for its adequacy.

Rule 4.103 Members speaking in their professional capacity shall not knowingly make false statements of material fact.

Commentary: This rule applies to statements in all professional contexts, including applications for licensure and AIA membership.

E.S. 4.2 Dignity and Integrity:

Members should strive, through their actions, to promote the dignity and integrity of the profession, and to ensure that their representatives and employees conform their conduct to this Code.

Rule 4.201 Members shall not make misleading, deceptive, or false statements or claims about their professional qualifications, experience, or performance and shall accurately state the scope and nature of their responsibilities in connection with work for which they are claiming credit.

Commentary: This rule is meant to prevent Members from claiming or implying credit for work which they did not do, misleading others, and denying other participants in a project their proper share of credit.

Rule 4.202 Members shall make reasonable efforts to ensure that those over whom they have supervisory authority conform their conduct to this Code.

Commentary: What constitutes "reasonable efforts" under this rule is a common sense matter. As it makes sense to ensure that those over whom the architect exercises supervision be made generally aware of the Code, it can also make sense to bring a particular provision to the attention of a particular employee when a situation is present which might give rise to violation.

CANON V

Obligations to Colleagues

Members should respect the rights and acknowledge the professional aspirations and contributions of their colleagues.

E.S. 5.1 Professional Environment:

Members should provide their associates and employees with a suitable working environment, compensate them fairly, and facilitate their professional development.

E.S. 5.2 Intern and Professional Development:

Members should recognize and fulfill their obligation to nurture fellow professionals as they progress through all stages of their career, beginning with professional education in the academy, progressing through internship and continuing throughout their career.

Rule 5.201 Members who have agreed to work with individuals engaged in an architectural internship program or an experience requirement for licensure shall reasonably assist in proper and timely documentation in accordance with that program.

E.S. 5.3 Professional Recognition:

Members should build their professional reputation on the merits of their own service and performance and should recognize and give credit to others for the professional work they have performed.

Rule 5.301 Members shall recognize and respect the professional contributions of their employees, employers, professional colleagues, and business associates.

Rule 5.302 Members leaving a firm shall not, without the permission of their employer or partner, take designs, drawings, data, reports, notes, or other materials relating to the firm's work, whether or not performed by the Member.

Code of Ethics & Professional Conduct

Rule 5.303 A Member shall not unreasonably withhold permission from a departing employee or partner to take copies of designs, drawings, data, reports, notes, or other materials relating to work performed by the employee or partner that are not confidential.

Commentary: A Member may impose reasonable conditions, such as the payment of copying costs, on the right of departing persons to take copies of their work.

CANON VI

Obligations to the Environment

Members should promote sustainable design and development principles in their professional activities.

E.S. 6.1 Sustainable Design:

In performing design work, Members should be environmentally responsible and advocate sustainable building and site design.

E.S. 6.2 Sustainable Development:

In performing professional services, Members should advocate the design, construction, and operation of sustainable buildings and communities.

E.S. 6.3 Sustainable Practices:

Members should use sustainable practices within their firms and professional organizations, and they should encourage their clients to do the same.

RULES OF APPLICATION, ENFORCEMENT, AND AMENDMENT

Application

The **Code of Ethics and Professional Conduct** applies to the professional activities of all members of the AIA.

Enforcement

The Bylaws of the Institute state procedures for the enforcement of the **Code of Ethics and Professional Conduct**. Such procedures provide that:

- (1) Enforcement of the Code is administered through a National Ethics Council, appointed by the AIA Board of Directors.
- (2) Formal charges are filed directly with the National Ethics Council by Members, components, or anyone directly aggrieved by the conduct of the Members.
- (3) Penalties that may be imposed by the National Ethics Council are:
 - (a) Admonition
 - (b) Censure
 - (c) Suspension of membership for a period of time
 - (d) Termination of membership.
- (4) Appeal procedures are available.
- (5) All proceedings are confidential, as is the imposition of an admonishment; however, all other penalties shall be made public.

Enforcement of Rules 4.101 and 4.202 refer to and support enforcement of other Rules. A violation of Rules 4.101 or 4.202 cannot be established without proof of a pertinent violation of at least one other Rule.

Amendment

The **Code of Ethics and Professional Conduct** may be amended by the convention of the Institute under the same procedures as are necessary to amend the Institute's Bylaws. The **Code** may also be amended by the AIA Board of Directors upon a two-thirds vote of the entire Board.

***2012 Edition.** This copy of the **Code of Ethics** is current as of September 2012. Contact the General Counsel's Office for further information at (202) 626-7348.

AIA Fellows

The American Institute of Architects bestows the recognition of fellowship for achievement in architecture on members who have contributed notably to the advancement of the profession of architecture. With the exception of the Gold Medal, fellowship is the highest honor the AIA can bestow on a member. It is conferred on architects with at least 10 years of membership in the AIA who have made significant contributions in the following areas: the aesthetic, scientific and practical efficiency of the profession; the standards of architectural education, training and practice; the building industry through leadership in the AIA and other related professional organizations; advancement of living standards of people through an improved environment; and to society through significant public service.

Founded in 1952, the College of Fellows includes approximately 5 percent of the total AIA membership. Those advanced to fellowship can use "FAIA" after their names in recognition of their contributions in design, education, research or public service.

Current members of AIA North Carolina who have been recognized for fellowship are:

Robin Fran Abrams, FAIA
 *Richard K. Albyn, FAIA
 John L. Atkins, FAIA
 Alan T. Baldwin, FAIA
 Peter Batchelor, FAIA
 G. Edwin Belk, FAIA
 C. William Bevins, FAIA

 *Turner G. Williams, FAIA
 Anna Wu, FAIA

* Denotes members from AIA North Carolina who are now deceased.

AIA National Design Awards

A total of 12 projects located in North Carolina have received the AIA's highest recognition of design excellence.

1953: Project: N.C. State Fair Pavilion (Dorton Arena), Raleigh
 Architect: William H. Deitrick, FAIA, with Matthew Nowicki, designer
 1954: Project: Double Oaks Elementary School, Charlotte
 Architect: Arthur G. Odell, Jr., FAIA
 1957: Project: Wilson Junior High School, Charlotte
 Architect: Arthur G. Odell, Jr., FAIA
 Project: Residence/studio, Raleigh
 Architect: George Matsumoto, FAIA
 1971: Project: NCB (NationsBank) Branch Office, Charlotte
 Architect: Wolf Associates
 1974: Project: NCB (NationsBank) Branch Office, Charlotte
 Architect: Wolf Associates
 1980: Project: Southern Service Center for Equitable Life, Charlotte
 Architect: Wolf Associates

1983: Project: Mecklenburg County Courthouse, Charlotte
 Architect: Wolf Associates
 1984: Project: R.J. Reynolds Tobacco Co. Building, Winston-Salem
 Architect: Croxton Collaborative with Hammill-Walter
 2009: Project: Art as Shelter at the North Carolina Museum of Art, Raleigh
 Architect: Tonic Design
 2011: Project: North Carolina Museum of Art, Raleigh
 Architect: Thomas Phifer and Partners
 Local Architect: Pearce Brinkley Cease + Lee
 2013: Project: James B. Hunt Library, Raleigh
 Architect: Snohetta
 Local Architect: Pearce Brinkley Cease + Lee

AIA North Carolina Chapter Awards and Honors

The 2016 winners were announced during an awards banquet held at the Biotech Place in Wake Forest, North Carolina, on Thursday, November 10, 2016.

A five-person Awards Committee, appointed yearly by the chapter president and chaired by the immediate past president, is responsible for reviewing the nominations and selecting a recipient.

F. CARTER WILLIAMS GOLD MEDAL

This is the highest honor presented by the chapter to a member of AIA North Carolina. It is awarded to an individual in recognition of a distinguished career or extraordinary accomplishments as an architect. The Gold Medal was created by the Board of Directors in 1976. The first recipient was Luther Snow Lashmit. Until 1998, Lashmit was the only architect to receive this award. It was at that time renamed in honor of the late Raleigh architect F. Carter Williams, FAIA. The Williams family has established an endowment in support of the Gold Medal.

Eligibility

A current or deceased member of AIA North Carolina is eligible to receive the Gold Medal. No more than one such award shall be made in any year. Individuals who are current members of the Chapter Board, one year removed from the Board or members of the Awards committee are ineligible for consideration.

Nominations

Nominations may be made by members, the public or by AIA North Carolina sections. Please contact AIA North Carolina at (919) 833-6656 for nomination deadlines. Nominations should include the following information:

- A nomination letter that summarizes the contributions made by the individual
- A brief biography of the nominee not to exceed four pages
- Miscellaneous material (clippings, articles, etc.) not to exceed three pages
- Letters of support, not to exceed five, from AIA North Carolina members; letters should be explicit in their recommendation and contain specific reasons for support

Gold Medal Recipients

| | |
|------|--|
| 1976 | Luther Snow Lashmit, AIA, Winston-Salem |
| 1998 | Lloyd G. Walter Jr., FAIA, Winston-Salem |
| 1999 | J. Hyatt Hammond, FAIA, Greensboro |
| 2000 | Marley P. Carroll, FAIA, Charlotte |
| 2001 | Herbert P. McKim, FAIA, Wilmington |
| 2002 | Jeffrey A. Huberman, FAIA, Charlotte |
| 2003 | Charles H. Boney Sr., FAIA, Wilmington |
| 2004 | S. Scott Ferebee, FAIA, Charlotte |
| 2005 | John L. Atkins, FAIA, Research Triangle Park |
| 2006 | Macon S. Smith, FAIA, Raleigh |
| 2007 | Paul D. Boney, FAIA, Wilmington |
| 2008 | Gail A. Lindsay, FAIA, Wake Forest |
| 2009 | Jay Peterson, FAIA, Wilmington |
| 2010 | Philip G. Freelon, FAIA, Raleigh |
| 2011 | Marvin J. Malecha, FAIA, Raleigh |
| 2012 | Steven D. Schuster, FAIA, Raleigh |
| 2013 | Frank Harmon, FAIA, Raleigh |
| 2014 | Edwin F. "Abie" Harris Jr., FAIA, Raleigh |
| 2015 | Mary Louis "Lou" Jurkowski, FAIA, Raleigh |
| 2016 | Roger Clark, FAIA, Raleigh |

AIA NORTH CAROLINA FIRM AWARD

The AIA North Carolina Firm Award shall be awarded to a North Carolina firm that has consistently produced quality architecture with a verifiable level of client satisfaction for a period of at least 10 years as an established presence in this state. This award is the highest honor the chapter can bestow upon a firm.

Eligibility

North Carolina architectural firms practicing under the leadership of either a single AIA North Carolina member principal or several AIA North Carolina member principals are eligible for the Firm Award. In addition, firms that have been reorganized and whose name has been changed or modified are also eligible, as long as the firm has been in operation in North Carolina for a period of at least 10 years. Although firms that are headquartered in other states or firms that perform the majority of their work in other states or countries are eligible, the firm's work and impact within the state of North Carolina shall be of primary consideration. A firm owned or managed by the chapter president, the president-elect or members of the Awards committee shall not be eligible for consideration.

Nominations

Nominations may be made by members, the public or by AIA North Carolina sections. Please contact AIA North Carolina at (919) 833-6656 for nomination deadlines. The nominations should include the following information:

- A nomination letter by a member, an AIA North Carolina section or a representative of the public, summarizing the firm's contributions in terms of design excellence and client satisfaction
- A brief biography of all firm principals and a history of the firm
- A firm brochure (if available)
- Descriptive statements and photographs of early, middle and recent work of the firm
- A maximum of five signed letters by clients, attesting to the firm's excellence and/or high level of performance

Firm Award Recipients

| | |
|------|--|
| 1998 | O'Brien/Atkins Associates, Research Triangle Park |
| 1999 | Walter Robbs Callahan & Pierce Architects, Winston-Salem |
| 2000 | Lee Nichols Architecture, Charlotte |
| 2001 | The Freelon Group, Inc., Research Triangle Park |
| 2002 | Boney, PLLC, Charlotte, Raleigh & Wilmington |
| 2003 | Dixon Weinstein Architects, PA, Chapel Hill |
| 2004 | Pearce Brinkley Cease + Lee, Raleigh |
| 2005 | FreemanWhite, Charlotte |
| 2006 | Gantt Huberman, Charlotte |
| 2007 | Clearscapes, Raleigh |
| 2008 | Shook Kelly, Charlotte |
| 2009 | Cherry Huffman Architects, PA, Raleigh |
| 2010 | BJAC, Raleigh |
| 2011 | Mathews Architecture, Asheville |
| 2012 | DudalPaine Architects, Durham |
| 2013 | Little, Charlotte |
| 2014 | Szostak Design, Inc., Chapel Hill |
| 2015 | Cannon Architects, Raleigh |
| 2016 | Samsel Architects, Asheville |

WILLIAM H. DEITRICK SERVICE MEDAL

The AIA North Carolina – William H. Deitrick Service Medal will be presented to an AIA North Carolina member who exhibits extraordinary service to the community, the profession or AIA North Carolina. The medal is named in honor of the late William Henley Deitrick, FAIA, a former president of AIA North Carolina. The AIA Tower, headquarters for AIA North Carolina, previously served as Deitrick's architectural studio and offices.

Eligibility

A current or deceased member of AIA North Carolina is eligible to receive the Deitrick Service Medal. No more than one such award shall be made in any year. Individuals who are current members of the chapter Board, one year removed from the Board or members of the Awards committee are ineligible for consideration. The selection will be made from one of the following categories:

Service to the Community

This category recognizes the work of architects who serve as elected officials, public administrators or institutional leaders and establish and contribute to the development of laws, regulations and policies that promote excellence in architecture.

Service to the Chapter

This category recognizes the work of architects that, by their skill, professionalism, dedication, ability and commitment, have consistently advanced the common goals of AIA North Carolina.

Service to the Profession

This category recognizes the work of architects who have had a significant impact on the profession of architecture and its public perception as a profession.

Nominations

Nominations may be made by members, the public or AIA North Carolina sections. Please contact AIA North Carolina at (919) 833-6656 for nomination deadlines. The nominations should include the following information:

AIA North Carolina Awards and Honors

- A nomination letter by the AIA member, group of members, component or committee
- A biography of the nominee, not to exceed two pages, including a list of offices, positions, honors, achievements, publications or presentations that relate to the award's purpose
- Five letters of support that give testament to the achievement presented
- Exhibits, if appropriate for the nominee, to illustrate accomplishments that relate to the award's purpose

Deitrick Service Medal Recipients

| | |
|------|--|
| 1995 | S. Scott Ferebee Jr., FAIA, Charlotte |
| 1996 | Leslie N. Boney Jr., FAIA, Wilmington |
| 1997 | Danie A. Johnson, FAIA, Asheville |
| 1998 | Sam T. Snowden Jr., FAIA, Laurinburg |
| 1999 | Carole A. Hoefener, AIA, (posthumously), Charlotte |
| 2000 | Thomas P. Turner Jr., FAIA, Charlotte |
| 2001 | Macon S. Smith, FAIA, Raleigh |
| 2002 | James C. Hamphill Jr., Charlotte |
| 2003 | James W. Mason, AIA (posthumously), Chapel Hill |
| 2004 | Robert P. Burns, FAIA, Raleigh |

THE LEGACY AWARD

The Legacy Award is given in recognition of an individual's, group's, corporation's, institution's, church's or government entity's long-standing commitment and contributions to architecture; for their support of the community of North Carolina architects; and for their influence on North Carolina architecture. The award will be given from time to time as qualified candidates are brought to the attention of the North Carolina Awards Committee. No more than one award will be given annually, and it will not be necessary that an award be given every year.

Nomination

Nominations for this award may be made by any member of AIA North Carolina, the AIA North Carolina Board, the Architectural Foundation Board or a member of the NC Chapter Awards Committee.

Eligibility

Nominations for The Legacy Award shall be limited to North Carolina individuals, groups, corporations, institutions, church or government entities that have demonstrated long-standing commitments, made significant contributions or influenced the preservation of North Carolina's built environment and its resources. Such groups or individuals shall demonstrate that they have, with purpose, influenced the advancement of architecture and/or raised the public's awareness of the positive impact that architecture and planning can make on the perception and livability of North Carolina communities.

Submittal Requirements

- Name, biography or history of the nominated individual or institution
- Description and history of the project, social contributions, awards, etc.
- Names and brief description of architects employed in the performance of the work associated with the nomination
- Three letters of reference, at least two of which shall be from members of AIA North Carolina

Legacy Award Recipients

| | |
|------|---|
| 2010 | The Biltmore Companies |
| 2011 | Preservation North Carolina |
| 2013 | NC Modernist Houses |
| 2014 | Charlotte Center City Partners |
| 2015 | Susan Kluttz, Secretary, Department of Cultural Resources |
| 2016 | The Downtown Winston-Salem Partnership |

GAIL LINDSEY SUSTAINABILITY AWARD

The AIA North Carolina Gail A. Lindsey Sustainability Award is awarded to a North Carolina individual or organization that has positively impacted the attainment of a sustainable and harmonious environment, espousing ideals pioneered by the late Gail Lindsey, FAIA.

Eligibility

Any individual or organization with a significant, positive impact on North Carolina or a region of North Carolina.

Nominations

Nominations may be made by members, the public or by AIA North Carolina sections.

Previous winners

| | |
|------|--|
| 2009 | Cheryl Walker, FAIA, Charlotte |
| 2010 | Douglas M. Brinkley, FAIA, Raleigh |

| 2016 | Jeff Tiller |

J. HYATT HAMMOND SCHOLARSHIP

AIA North Carolina Gold Medalist J. Hyatt Hammond, FAIA, has established a fund to provide scholarships for young professionals to attend the AIA North Carolina Summer Design Conference.

Eligibility

Eligibility is restricted to AIA North Carolina associate members and architect members who have been licensed for less than 10 years.

Application Process and Scholarship Presentation

AIA North Carolina makes scholarship applications available in the months prior to the AIA North Carolina Summer Design Conference. Submitted applications are reviewed by board members of the North Carolina Architectural Foundation. Winners are notified at least one month prior to the Summer Design Conference. Scholarship money is provided to the recipients after the conference, based upon receipts provided up to a total of \$500.

Sandra Grzemski, Assoc. AIA
Edwin Parks, AIA

Continuing Education Mandatory for Licensure and Membership

North Carolina architects must fulfill a program of continuing education each year in order to renew their licenses. Continuing education has been a membership requirement for the American Institute of Architects for several years now. The two requirements are slightly different but compatible.

Here's the bottom line: AIA architects in North Carolina should obtain a total of 18 learning units per calendar year. Of these 18 hours, at least eight hours must be in subjects designated as health, safety and welfare (HSW). *Special note: As of January 2013, sustainable design (SD) is no longer required by the AIA.*

State Licensure Requirements

Each year, North Carolina architects must complete a verifiable program of 12 contact hours of continuing education. The contact hours must be in health, safety and welfare subject material. Contact hours may not be carried over from one calendar year to the next. HSW programs provided by AIA registered providers will be accepted by the North Carolina Board of Architecture. The licensing board will also accept an AIA member's continuing education transcript as evidence of continuing education fulfillment.

AIA Requirements

Developed to demonstrate AIA members' lifelong commitment to learning, the AIA Continuing Education System (CES) enhances knowledge, competency and competitiveness. In summary, the Institute's plan includes the following:

- Members must have 18 hours of continuing education per year in order to maintain membership.
- The 18 hours must include 12 contact hours in health/safety-related subject matter.

AIA North Carolina Continuing Education Academy

AIA North Carolina has successfully launched an aggressive effort to provide its members

affordable, accessible and relevant continuing education. The AIA North Carolina Continuing Education Academy is the winner of the 1999 AIA/CES Award for Excellence. AIA North Carolina was the only AIA chapter or component in America to win this prestigious award for excellence in continuing education programming and member service.

This year, AIA North Carolina held the 2017 Design Conference, "ACTIVATE: Design | Collaboration | Community Engagement," on September 13-15, 2017, in Wilmington, North Carolina. This was a unique opportunity to obtain learning units and network with leaders from across all three states.

Also continuing this year is the online education program called O.W.L.S. (On-Demand Webinar Learning Series). These online classes, held on the second Tuesday of every month, offer 1.5 hours of learning credits on a variety of credits. These classes are free for members and have a nominal fee for nonmembers, and can be accessed by any architect for a fee at any time after they are recorded.

Visit the AIA North Carolina website, www.aianc.org, for an updated listing of continuing education programs in the Southeast. In addition, the seven local sections of AIA North Carolina typically offer AIA/CES programs at their meetings.

Where AIA CES Records Are Kept

The CES record keeping is performed at the AIA national headquarters in Washington, D.C. Call (800) 242-3837, ext. 3 for questions or comments on AIA/CES records. This record-keeping center monitors contact hours earned by AIA members and keeps track of registered providers. AIA members may monitor their continuing education progress and transcripts by visiting AIA online at www.aia.org/education/index.htm.

Architectural Education

N.C. State University

The Department of Architecture at N.C. State University was established in 1948 as one of two original academic components in the School of Design. The School of Design experienced a long period of development, establishing a reputation for innovation. In the fall of 2000, the department was given school status, and the school was granted college status.

The college is presently led by Dean Mark E. Hoversten, Assoc. AIA, who was appointed to the position in 2016. David Hill, AIA, has been appointed as the Interim Head of the School of Architecture.

The School of Architecture has grown its mission and curricular offerings over the years to include programs leading to the following three degrees:

Bachelor of Environmental Design in Architecture (BEDA)

A four-year pre-professional curriculum that serves as the foundation for the two advanced programs. The curriculum includes a balance of general studies (English, mathematics, science and humanities), design studio courses and architectural support courses (history, technology, methods and theory).

Bachelor of Architecture (B.Arch.)

A one-year professional curriculum that builds on the four-year BEDA or other equivalent program.

Master of Architecture (M.Arch.)

Three tracks lead to the professional M.Arch. degree: Track I is a two-year program for holders of the BEDA or equivalent four-year pre-professional degree; Track II is a three-semester second professional degree program for holders of the B.Arch. degree; Track III accepts students with degrees in nonarchitectural fields into a three-and-a-half-year program.

Both the B.Arch. and M.Arch. are professional degrees accredited by the National Architectural Accrediting Board. The most recent accreditation action took place in 2006, extending accreditation of both programs for six years. The College of Design annually admits 130 freshmen and transfer students into one of five studio-based programs. Following an interdisciplinary fall semester, students begin their architectural studies in the spring semester of the first year. For information about the undergraduate admissions standards and procedures, contact the College of Design, N.C. State University, Box 7701, Raleigh, NC 27695-7701.

Admissions to the B.Arch. and M.Arch. programs are by application to the School of Architecture. For additional information, contact the School of Architecture, College of Design, N.C. State University, Box 7701, Raleigh, NC 27695-7701.

UNC Charlotte

The School of Architecture within the College of Arts + Architecture at UNC Charlotte graduated its first students with professional degrees in 1976. In 2010, the school received its seventh consecutive full-term accreditation from the National Architectural Accreditation Board (NAAB). The college is led by Dean Kenneth Lamba, AIA, and the School of Architecture is led by Director Christopher Jarrett. The curriculum provides a balance between theory and application and general and professional education. Students may pursue a double major or minor in another field such as urban design, urban studies, art, construction management and business/real estate development. The curriculum is organized as follows:

Undergraduate Programs

- Bachelor of Arts in Architecture (B.A. in Arch.)
- Bachelor of Architecture (B.Arch.)

The Bachelor of Arts in Architecture (B.A. in Arch.) is the pre-professional, four-year undergraduate program in architecture. In the first three years, students are enrolled in general education and core architecture courses, including architectural design studio in the first year. In design studios and seminars, which occur each semester, students acquire the fundamentals of visual and spatial design, problem-solving, conceptualization, technology and environmental influences. In the fourth year, students select design studios and seminars related to topical interests such as energy and sustainability, digital design methods, urban design, and conceptual themes. In addition, students extend their knowledge of architectural history and technology while having the opportunity to pursue individual interests through architectural elective seminars. The B.A. in Arch. is awarded at the end of the fourth year.

In the fall semester of the fourth year, students may elect to pursue one of two professional degrees in architecture granted by the school: (1) the Bachelor of Architecture (B.Arch.) is the professional "undergraduate-level program" leading to the NAAB-accredited Bachelor of Architecture degree; or (2) the Master of Architecture (M.Arch.) is the professional "graduate-level program" leading to the NAAB-accredited Master of Architecture degree.

For the B.Arch. degree, students complete an additional one-year curriculum consisting of a comprehensive architectural design project coupled with advanced courses in building technology, professional practice and architectural electives. The Bachelor of Architecture (B.Arch.) is awarded at the end of the fifth year.

Graduate Programs

- Master of Architecture (M.Arch.)
- Master of Urban Design (M.U.D.)

The Master of Architecture (M.Arch.) is the professional "graduate-level program" in architecture leading to the NAAB-accredited Master of Architecture degree. The M.Arch. provides flexibility for both students who have a degree in a field other than architecture (MI-track) as well as those who have an undergraduate degree (B.A. or B.S.) with a major in architecture (MII-track).

MI-track students complete a three-year curriculum that begins in the second session of the summer semester. In the first year, students acquire the fundamentals of visual and spatial design, problem-solving, conceptualization, and environmental influences. In addition to design studio, they take introductory coursework in architectural history and theory, building technology, and visual skills. In the second year, MI-track students are aligned with the curriculum for MII-track students, completing a two-year curriculum consisting of a comprehensive architectural design project and advanced graduate design studios coupled with courses in contemporary theory, design methodology, building technology, professional practice and architectural electives. The final year provides an opportunity for advanced, focused design exploration and research.

The Master of Urban Design (M.U.D.) is a 12-month, three-semester program focusing on cities and suburbs that are being reshaped by shifting demographics, global capital, information technology, and environmental sustainability. The M.U.D. Program is located off-campus, in the University's Center City Building in Uptown Charlotte. Dual degrees with geography and business are available for both the M.Arch. and M.U.D. degree programs.

Within the school, there are several research centers and laboratories that provide a point of contact for students to engage in funded research projects with the faculty. Research in high-performance building and optimization protocols, daylighting and energy analysis, digital design and interactive visualization, and urban design takes full advantage of the school's advanced computing, software and digital fabrication facilities.

The school's International Summer Study programs travel to diverse destinations that have recently included China, Italy, Spain, Portugal and Switzerland, with an upcoming trip planned for Eastern European capital cities. The SoA regularly hosts exchange students, and SoA students have opportunities to study abroad at other institutions in China, the Netherlands, Denmark, Germany, Finland, England, Mexico and Australia.

The School accepts transfer students for advanced standing from other NAAB-accredited schools. More detailed information may be obtained by going to www.soa.uncc.edu or by writing the School of Architecture, UNC Charlotte, Charlotte, NC 28223.

N.C. Board of Architecture

The North Carolina Board of Architecture, established by the General Assembly in 1915, is responsible for enforcement of the laws and regulations governing the practice of architecture in the state. A major task is to determine the qualifications of applicants who seek licensure in this state.

The Board is comprised of seven members appointed by the governor, five of whom are licensed architects appointed for five-year terms. Two of the members of the Board are not licensed architects and represent the interests of the public at large. The public members serve at the pleasure of the governor.

In order to qualify for a license to practice architecture in North Carolina, an applicant must meet the following minimum requirements:

1. An accredited professional degree in architecture
2. Three-year internship
3. Pass all divisions of the ARE (Architectural Registration Examination)

The current Board members are:

Stephen M. McClure, President, Charlotte

Robert W. Bishop, AIA, Vice President, Durham

Jimmy Lee Norwood Jr., AIA, Secretary, Winston-Salem

Steven G. Clipp, AIA, Treasurer, Chapel Hill

Fred Dodson Jr., Member, Charlotte

Katherine N. Peele, FAIA, Member, Raleigh

John H. Tabor, FAIA, Member, Charlotte

Additional information on the N.C. Board of Architecture may be obtained by contacting:

Cathe M. Evans

National Council of Architectural Registration Boards

The National Council of Architectural Registration Boards was established in 1920 to assist member boards in carrying out their duties, foster the enactment of uniform architectural laws, develop examinations and establish standards for certification requirements in education and training, to perfect procedures for verifying the qualifications of applicants and determining their eligibility for certification, and establish and maintain reciprocal registration between states having registration laws.

The NCARB is a nonprofit corporation with all legally constituted boards of architecture in the United States as members, including the North Carolina Board of Architecture. To be eligible for NCARB certification, architects must submit satisfactory evidence that they comply with the standard for education, training, examination and character and that they have been registered by a member board.

The NCARB will, upon request of an individual architect, secure, authenticate and record factual data of the applicant's education, training, practice and character. This record will be forwarded to any state board upon request of the applicant.

Certification shall be given to an applicant holding a council record verifying that the applicant has complied with the council's standards of education, training, practice and character and that the applicant has passed an examination conforming to the council's standards of content, extent and length of time.

Certification by the NCARB is recommendation to all registration authorities that registration be granted to the holder without further examination. Most board members accept NCARB certification as conclusive evidence of an architect's eligibility of registration. It is, however, not a national registration.

Complete information on compiling a council record and obtaining council certification can be obtained from:

National Council of Architectural Registration Boards
1801 K St. NW
Washington, DC 20006
(202) 783-6500
Fax: (202) 783-0290
www.ncarb.org

AIA Political Action Committee

The AIANC-PAC has achieved high success rates in terms of its contributions to winning candidates and its ability to influence legislation. It has played a prominent role in enhancing the image of AIA North Carolina among state legislators and in establishing architects as a respected source of information for legislators.

Legislative Success

Since its formation in 1986, the AIA North Carolina Political Action Committee (AIANC-PAC) has become increasingly successful in the political arena and has been of major assistance to AIA North Carolina in advancing its legislative agenda.

A long string of legislative victories have been achieved by AIA North Carolina in the last decade, including:

- Protection for architects in the selection of design/build teams for public projects
- Qualification-based selection for architects on public projects
- Greater flexibility for single-prime contracting on public projects
- Statutory strengthening of the Architectural Practice Act (G.S. 83A)
- Passage of a \$1.8 billion statewide bond issue for school construction
- Qualified immunity for architects as volunteers in declared emergencies
- Clarification of a seven-year statute of repose
- Securing the single prime contracting option on government projects
- Passage of \$3 billion higher education bond for construction
- Protecting architect lien rights
- Ensuring an open and qualification-based selection process for public design and public-private partnerships

AIA North Carolina has also been successful in defeating or altering legislation that could have a negative effect on the architectural profession. Issues like interior designer licensing, stock school plans and professional service taxes have all been stopped in past legislative sessions.

In addition, AIA architects have been appointed by the governor and legislative leaders to key positions on regulatory and advisory boards and commissions.

Mission of AIANC-PAC

The AIANC-PAC was established to assist the architects of North Carolina in gaining access to state legislators for the purpose of establishing an effective forum on issues facing the profession. Its mission is to work to create an environment in the North Carolina General Assembly and Council of State that is conducive to accomplishing the goals of the architectural profession.

Three specific objectives guide the activities of the AIA NC-PAC. These are:

- To solicit contributions
- To make contributions to candidates who will be influential in determining the future course and the practice of architecture in North Carolina
- To generally educate or inform the membership of AIA North Carolina concerning legislative and political issues affecting the profession

The AIA NC-PAC is organized and operated on a voluntary, nonpartisan basis to preserve and promote the status of architecture through the pursuit of its objectives. The organization is governed and supervised by a Board of Directors composed of 21 members of the AIA-PAC, with a minimum of one member from each section of AIA North Carolina. Each director is appointed to a term of three years, with no director being appointed to more than two consecutive terms.

To maintain established levels of candidate contributions and ensure the continued effectiveness of AIA North Carolina's Government Affairs Programs, AIA NC-PAC needs continued and increased financial support from members and friends of the profession. Records and information about AIA NC-PAC are maintained at the offices of AIA North Carolina.

North Carolina Architectural Foundation

The North Carolina Architectural Foundation (NCAF) was established for the purpose of promoting architecture as a discipline and a profession in North Carolina. Since 1948, the NCAF has supported architectural scholars, researchers and students and has provided grants for exhibitions and publications about architecture.

The mission of the NCAF is:

- Architectural Research
- Architectural Principles
- Educational Programs
- Architectural Scholarships
- Public Awareness
- Continuing Education
- Historic Preservation

In 2012, the Foundation became a major contributor to the overall programming and success of the AIA NC Center for Architecture & Design.

The Foundation operates on private gifts. Contributions to the NCAF may be sent to:

North Carolina Architectural Foundation
14 E. Peace St.
Raleigh, NC 27604

Kamphoefner Prize

The Foundation awards the Kamphoefner Prize of \$10,000 during even-numbered years to an AIA North Carolina member who exhibits excellence in the Modern Movement of architecture. The prize is funded through an endowment bequeathed by Henry and Mabel Kamphoefner. Henry Kamphoefner was the founder and original dean of the NC State School of Design.

HARRISCOST, LLC

HARRISCOST, LLC was established in 2014. Having worked in this industry for over 38 years, Roger "Rocky" Harris recognized the need to offer quality construction consultant services to architects and owners. **HARRISCOST, LLC** has an experienced staff consisting of construction engineering graduates and MII certified estimators. We provide C/S/A and M/E/P estimates. Our staff has the knowledge, experience, software and equipment to provide the owner with probable-cost construction estimates at any phase or for any type of building program or project.
