PAC-CLAD
PETERSEN

A CARUSLE COMPANY

UNIQUE. DISTINCT. FACADES.

University of Texas - Tyler
Architect: Smithgroup JJR
Location: Tyler, TX

Dri-Design Metal Wall Panels offer virtually limitless possibilities of design within the same fully tested, easy to install, dry joint system. Additionally, the unique attachment method allows several variations to be used together, which can produce a truly customized look. The University of Texas in Tyler used varying depths of Shadow Series panels in combination with a custom wood-look Dri-Design soffit to create this beautiful façade.

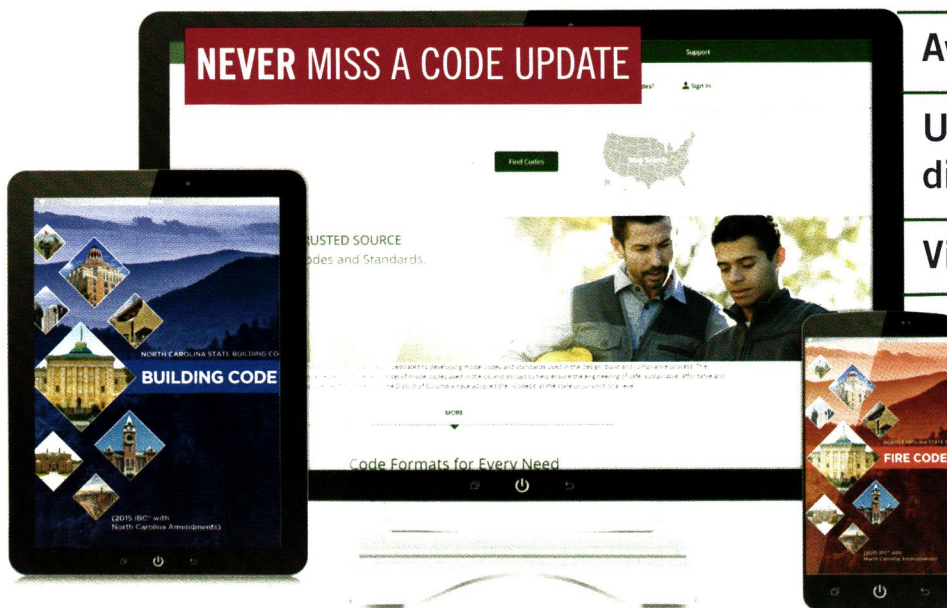

- No sealants, gaskets or butyl tape means no streaking and no maintenance for owners.
- Not laminated or a composite material, so panels will never delaminate.
- At Dri-Design, we have a strict policy of recycling and creating products that the world can live with.
- Fully tested to exceed ASTM standards and the latest AAMA 508-07.
- Available in a variety of materials and colors.
- Non-combustible and NFPA-285 compliant.

Founded in 1857, The American Institute of Architects is the recognized advocate for the architectural profession in the United States.

With a membership of nearly 90,000 architects, interns and students, the AIA actively promotes the highest standards of professional ethics and advances the professional development of its members through continuing education. Speaking with a unified voice, the AIA represents architects in governmental and regulatory decisions that impact professional practice and the quality of life.

The North Carolina Chapter of The American Institute of Architects (AIA North Carolina) was founded in 1913 and, with over 2,200 members, is the largest statewide AIA chapter in the U.S. The membership of AIA North Carolina includes about three-quarters of the architects who live in this state.

AIA North Carolina members work and live in every corner of the state, practicing in firms ranging in size from one to 400 persons. The membership is divided into seven geographical sections, located in Asheville, Charlotte, Eastern North Carolina, Piedmont (Greensboro/High Point), Triangle, Wilmington and Winston-Salem.

AIA North Carolina focuses its resources on five key areas, including:

Public Awareness of Architecture and the Profession

Working through Activate NC and local Activate committees, AIA North Carolina actively pursues a concerted effort to help the public become more aware of architecture and the positive impact architects have on the built environment. AIA local sections declare one month each year as Architecture Week, hosting a wide variety of activities intended to engage and stimulate the public. Additionally, the chapter's annual Design Awards program is a prime opportunity to highlight to the public the finest work by North Carolina architects.

Government Affairs

With its current offices located in close proximity to the State Capitol, AIA North Carolina is well positioned to represent the architect's view in legislation and public policy development. AIA North Carolina's opinions and positions are actively sought by lawmakers when dealing with legislation affecting construction, building codes and planning. Through a separate organization, AIA North Carolina maintains a well-funded political action committee.

Continuing Education and Professional Development

Continuing education is a requirement for licensure renewal and for ongoing membership in the AIA. In 2019, the chapter will offer affordable and accessible programs dedicated to health-safety-welfare subject material. AIA North Carolina will also offer online classes through its O.W.L.S. (On-Demand Webinar Learning Series) program that will be accessible to members all across the state. AIA members can participate in Knowledge Communities, which specifically target career and practice needs ranging from health care facilities to historic preservation. In 2020, AIA North Carolina, AIA South Carolina and AIA Georgia will have the 2020 ASPIRE Experience, the South Atlantic Region Conference, which will take place in Asheville, North Carolina, September 13-15.

Member Services

Publications and information are among the most valuable services available to AIA members. Members receive subscriptions to national publications such as *ARCHITECT* and many digital editions such as *Eco-Home* and *Eco-Structure*, along with the AIA North Carolina News and Notes newsletter. Websites are maintained at www.aianc.org and www.aia.org.

The AIA NC Center for Architecture and Design

AIA North Carolina is proud to be located in the Center for Architecture and Design at 14 East Peace Street in Raleigh, North Carolina. This building was made possible by donations from AIA members and firms. Find more information about the building at www.aianc.org.

Collateral Organizations

AIA North Carolina maintains and develops relationships with a host of organizations that impact the architectural profession, including construction trade associations, state regulatory agencies, accredited schools of architecture and other licensed design professionals.

Mission Statement

The mission of AIA North Carolina is to serve its members by enhancing and promoting the profession of architecture.

2019 AIA North Carolina President's Message

What an exciting time for our profession and industry! It's not hard to find a member who will tell you how busy they are and the exciting projects they are working on. It's in times like these we have the opportunity to become a proactive organization and begin to build resiliency in our core mission. This year began with the theme of alignment. While this idea focused on our recently released strategic plan, it also spoke to the "alignment" of our organization with members' expectations.

This mid-year update aims to showcase all the hard work AIA North Carolina's staff, the Board of Directors and volunteers put in bringing value to our members across the state. From amazing ACTIVATE events to the monumental legislative efforts surrounding HB 858, this year is already packed full of opportunities that have positively impacted our members and organization.

Building on these successes, our Board of Directors is going even further and investing in the future of our organization. I am excited to share we are continuing our partnership with our South Atlantic neighbors to bring you the second year of our regional design conference. The ASPIRE Experience will be coming to back Asheville, North Carolina, September 13-15, 2020, offering with it an entirely new experience to our members and the public. Efforts are currently underway to create original content and engage members on design topics that matter. Don't forget to mark your calendars!

Finally, it has been a privilege to serve this organization and engage its members and staff on a daily basis. Learning the unique issues of each section and the different challenges they face has impressed on me how fortunate our organization is. It is these unique perspectives that create an exceptional Board — one that I have proudly served this year.

I look forward to seeing everyone in Wilmington on October 11 for the AIA North Carolina Membership Meeting and Design Awards and again in Asheville for the 2020 ASPIRE Experience. Stay busy AIA North Carolina!

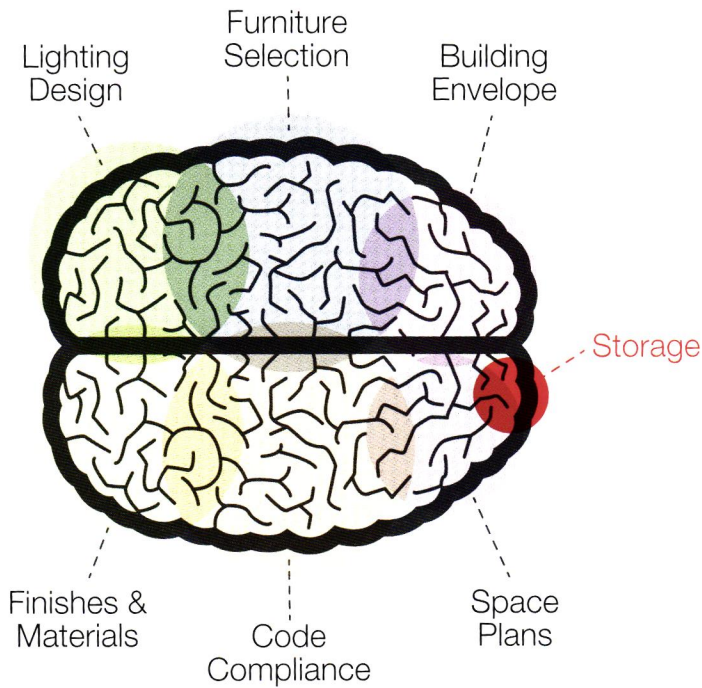

Jim Williams, AIA
2019 AIA North Carolina President

MODERN FEEL.
MASS APPEAL.

Prestige Cast
ARCHITECTURAL CAST STONE SERIES

Prestige Cast Architectural Stone Series from Johnson Concrete Products is a premium ASTM C1364 veneer product line with the look of limestone. Produced in North Carolina on state-of-the-art machinery, it's the most cost effective cast stone for your next project. Available in a range of earth tone colors, Prestige Cast is a modern, clean aesthetic for all building types.

The most important thing you should never think about.

Storage. And by reading this ad, you've already thought about it too much. If you have storage needs on your project, call us and we'll let you get back to something more interesting. **866-866-4778.**

AIA North Carolina Staff

David Crawford, Hon. AIA
Executive Vice President

David Crawford joined AIA North Carolina at the beginning of 2001 after serving as executive director with AIA San Diego for 10 years. Prior to that, he served as director of professional practice and assistant director of government relations with the

AIA California Council for four years.

Crawford received his bachelor's in political science from California State University, Fullerton. He was selected to finish his undergraduate work as part of the Cal State University system's prestigious Sacramento Semester Program. Following graduation in 1984, he worked briefly as a political operative for a California State Assembly member and then began his legislative career as a manager for the state's first online legislative tracking service. He began his lobbying career in 1986 with the California Probation, Parole and Correctional Association.

Crawford sat on the Board of Directors of the two accredited architecture schools in San Diego for five years and served on various city and regional advisory committees.

He is a member of the American Society of Association Executives and in 1996-97 chaired the California Council of Architectural Component Executives (California CACE). In 2006 he was president of the National Council of Architectural Component Executives.

Marynell Gehrke
Director of Special Events

Marynell Gehrke joined the AIA North Carolina staff in January 1995 after working since 1992 with Olson Management Group, an association management company. As director of special events, Gehrke acts as staff liaison for the convention (Summer

Design Conference), the continuing education committees and all AIA North Carolina meeting and conference planning. Gehrke received a Bachelor of Science degree in industrial relations from the University of North Carolina in 1984.

Maggie Whittemore
Director of Programs and Communications

Maggie Mae Whittemore joined AIA North Carolina in August 2017. Maggie is a graduate of Saint Michael's College in Vermont and studied media studies, journalism and digital arts. She also studied public rela-

tions at Murdoch University in Australia. Her major responsibilities include organizing and arranging continuing education, creating newsletters, sending out information to the members and managing social media.

Keri Dixon
Director of Membership
Executive Director, AIA Asheville

Keri Dixon joined AIA North Carolina in June 2010. She is a graduate of Western Carolina University in North Carolina and studied professional writing and history. Keri has a background in communications and a

passion for technology, and she previously worked as the director of communications for The Episcopal Diocese of East Carolina. Her major responsibilities include maintaining and reporting on membership issues and conducting design awards across the state.

The contact information for AIA Asheville is:
9 West St. Ext.
Asheville, NC 28801
p: (828) 253-6014
e: kdixon@aianc.org

Kate Shelton
Executive Director, AIA Charlotte

Before becoming the executive director for AIA Charlotte, Kate was AIA Charlotte's member services coordinator. She graduated in 2004 from the University of North Carolina at Charlotte with a degree in business administration.

The contact information for AIA Charlotte is:

Michelle Marks
Executive Director, AIA Wilmington and AIA Eastern

Michelle Marks has been with LS3P Architects since June 2005, where she is the administrative assistant for Chris Boney. She joined AIA Wilmington as the executive director in December 2006. She

is a native of Wilmington, where she resides with her husband and her son. She enjoys bicycle riding and boating with her family and anything associated with living on the coast.

2018 Code of Ethics and Professional Conduct

Preamble

Members of The American Institute of Architects are dedicated to the highest standards of professionalism, integrity, and competence. This Code of Ethics and Professional Conduct states guidelines for the conduct of Members in fulfilling those obligations. The Code is arranged in three tiers of statements: Canons, Ethical Standards, and Rules of Conduct:

- Canons are broad principles of conduct.
- Ethical Standards (E.S.) are more specific goals toward which Members should aspire in professional performance and behavior.
- **Rules of Conduct (Rule) are mandatory; violation of a Rule is grounds for disciplinary action by the Institute.** Rules of Conduct, in some instances, implement more than one Canon or Ethical Standard.

The **Code** applies to the professional activities of all classes of Members, wherever they occur. It addresses responsibilities to the public, which the profession serves and enriches; to the clients and users of architecture and in the building industries, who help to shape the built environment; and to the art and science of architecture, that

continuum of knowledge and creation which is the heritage and legacy of the profession.

Commentary is provided for some of the Rules of Conduct. That commentary is meant to clarify or elaborate the intent of the rule. The commentary is not part of the **Code**. Enforcement will be determined by application of the Rules of Conduct alone; the commentary will assist those seeking to conform their conduct to the **Code** and those charged with its enforcement.

Statement in Compliance With Antitrust Law

The following practices are not, in themselves, unethical, unprofessional, or contrary to any policy of The American Institute of Architects or any of its components:

- (1) submitting, at any time, competitive bids or price quotations, including in circumstances where price is the sole or principal consideration in the selection of an architect;
- (2) providing discounts; or
- (3) providing free services.

Individual architects or architecture firms, acting alone and not on behalf of the Institute or any of its components, are free to decide for themselves whether or not to engage in any of these practices. Antitrust law permits the Institute, its components, or Members to advocate legislative or other government policies or actions relating to these practices. Finally, architects should continue to consult with state laws or regulations governing the practice of architecture.

CANON I

General Obligations

Members should maintain and advance their knowledge of the art and science of architecture, respect the body of architectural accomplishment, contribute to its growth, thoughtfully consider the social and environmental impact of their professional activities, and exercise learned and uncompromised professional judgment.

E.S. 1.1 Knowledge and Skill:
Members should strive to improve their professional knowledge and skill.

Rule 1.101 In practicing architecture, Members shall demonstrate a consistent pattern of reasonable care and competence, and shall apply the technical knowledge and

skill which is ordinarily applied by architects of good standing practicing in the same locality.

Commentary: By requiring a "consistent pattern" of adherence to the common law standard of competence, this rule allows for discipline of a Member who more than infrequently does not achieve that standard. Isolated instances of minor lapses would not provide the basis for discipline.

E.S. 1.2 Standards of Excellence:
Members should continually seek to raise the standards of aesthetic excellence, architectural education, research, training, and practice.

E.S. 1.3 Natural and Cultural Heritage:
Members should respect and help conserve their natural and cultural heritage while striving to improve

the environment and the quality of life within it.

E.S. 1.4 Human Rights:
Members should uphold human rights in all their professional endeavors.

Rule 1.401 Members shall not engage in harassment or discrimination in their professional activities on the basis of race, religion, national origin, age, disability, caregiver status, gender, gender identity, or sexual orientation.

Commentary: Harassment may include, but is not limited to, offensive jokes, slurs, epithets or name calling, unwelcome physical contact, or threats, intimidation, ridicule or mockery, insults or put-downs, offensive objects or pictures, and interference with work performance. Petty

slights, annoyances, and isolated incidents (unless extremely serious) will not rise to the level of violation of this Rule.

Rule 1.402 Members shall not engage in conduct involving wanton disregard of the rights of others.

Commentary: Wanton disregard under this rule includes conduct taken in disregard of (1) a high degree of risk that the Complainant would be adversely affected, and (2) that risk would be apparent to a reasonable person. "Reasonable person" is an objective standard and considers someone who uses such qualities as attention, knowledge, intelligence, and judgement which a society requires of its members to protect their own interests and the interests of others. Wanton disregard under this rule also includes engaging in conduct that is severe or pervasive enough that a reasonable person would consider it harassing, hostile, or abusive. This includes, but is not limited to, sexual misconduct, bullying, intimidation, or retaliation.

E.S. 1.5 Design for Human Dignity and the Health, Safety, and Welfare of the Public:

Members should employ their professional knowledge and skill to design buildings and spaces that will enhance and facilitate human dignity and the health, safety, and welfare of the individual and the public.

E.S. 1.6 Allied Arts and Industries: Members should promote allied arts and contribute to the knowledge and capability of the building industries as a whole.

CANON II
Obligations to the Public

Members should embrace the spirit and letter of the law governing their professional affairs and should promote and serve the public interest in their personal and professional activities.

E.S. 2.1 Conduct: Members should uphold the law in the conduct of their professional activities.

Rule 2.101 Members shall not, in the conduct of their professional practice, knowingly violate the law.

Commentary: The violation of any law, local, state or federal, occurring in the conduct of a Member's professional practice, is made the basis for discipline by this rule. This includes the federal Copyright Act, which prohibits copying architectural works without the permission of the copyright owner. Allegations of violations of this rule must be based on an independent finding of a violation of the law by a court of competent jurisdiction or an administrative or regulatory body.

Rule 2.102 Members shall neither offer nor make any payment or gift to a public official with the intent of influencing the official's judgment in connection with an existing or prospective project in which the Members are interested.

Commentary: This rule does not prohibit campaign contributions made in conformity with applicable campaign financing laws.

Rule 2.103 Members serving in a public capacity shall not accept payments or gifts which are intended to influence their judgment.

Rule 2.104 Members shall not engage in conduct involving fraud.
Commentary: This rule addresses serious misconduct whether or not related to a Member's professional practice. Proof of fraud must be based on an independent finding of a violation of the law or a finding of fraud by a court of competent jurisdiction or an administrative or regulatory body.

Rule 2.105 If, in the course of their work on a project, the Members become aware of a decision taken by their employer or client which violates any law or regulation and which will, in the Members' judgment, materially affect adversely the safety to the public of the finished project, the Members shall:

- (a) advise their employer or client against the decision.
- (b) refuse to consent to the decision, and
- (c) report the decision to the local building inspector or other public official charged with the enforcement of the applicable laws and regulations, unless the Members are able to cause

the matter to be satisfactorily resolved by other means.

Commentary: This rule extends only to violations of the building laws that threaten the public safety. The obligation under this rule applies only to the safety of the finished project, an obligation coextensive with the usual undertaking of an architect.

Rule 2.106 Members shall not counsel or assist a client in conduct that the architect knows, or reasonably should know, is fraudulent or illegal.

E.S. 2.2 Public Interest Services: Members should render public interest professional services, including pro bono services, and encourage their employees to render such services. Pro bono services are those rendered without expecting compensation, including those rendered for indigent persons, after disasters, or in other emergencies.

E.S. 2.3 Civic Responsibility: Members should be involved in civic activities as citizens and professionals, and should strive to improve public appreciation and understanding of architecture and the functions and responsibilities of architects.

Rule 2.301 Members making public statements on architectural issues shall disclose when they are being compensated for making such statements or when they have an economic interest in the issue.

E.S. 2.4 Environmental Equity and Justice: Members should promote fairness and safety in providing professional services and make reasonable efforts to advise their clients and employers of their obligations to the environment, including: access to clean air, water, sunlight and energy for all; sustainable production, extraction, transportation and consumption practices; a built environment that equitably supports human health and well-being and is resistant to climate change; and restoring

degraded or depleted natural resources.

Rule 2.401 When performing professional services, Members shall make reasonable efforts to inform their clients of the potential environmental impacts or consequences the Member reasonably believes may occur as a result of work performed on behalf of the clients.

CANON III Obligations to the Client

Members should serve their clients competently and in a professional manner, and should exercise unprejudiced and unbiased judgment when performing all professional services.

E.S. 3.1 Competence:
Members should serve their clients in a timely and competent manner.

Rule 3.101 In performing professional services, Members shall take into account applicable laws and regulations. Members may rely on the advice of other qualified persons as to the intent and meaning of such regulations.

Rule 3.102 Members shall undertake to perform professional services only when they, together with those whom they may engage as consultants, are qualified by education, training, or experience in the specific technical areas involved.

Commentary: This rule is meant to ensure that Members not undertake projects that are beyond their professional capacity. Members venturing into areas that require expertise they do not possess may obtain that expertise by additional education, training, or through the retention of consultants with the necessary expertise.

Rule 3.103 Members shall not materially alter the scope or objectives of a project without the client's consent.

E.S. 3.2 Conflict of Interest:
Members should avoid conflicts of interest in their professional

practices and fully disclose all unavoidable conflicts as they arise.

Rule 3.201 A Member shall not render professional services if the Member's professional judgment could be affected by responsibilities to another project or person, or by the Member's own interests, unless all those who rely on the Member's judgment consent after full disclosure.

Commentary: This rule is intended to embrace the full range of situations that may present a Member with a conflict between his interests or responsibilities and the interest of others. Those who are entitled to disclosure may include a client, owner, employer, contractor, or others who rely on or are affected by the Member's professional decisions. A Member who cannot appropriately communicate about a conflict directly with an affected person must take steps to ensure that disclosure is made by other means.

Rule 3.202 When acting by agreement of the parties as the independent interpreter of building contract documents and the judge of contract performance, Members shall render decisions impartially.

Commentary: This rule applies when the Member, though paid by the owner and owing the owner loyalty, is nonetheless required to act with impartiality in fulfilling the architect's professional responsibilities.

E.S. 3.3 Candor and Truthfulness:
Members should be candid and truthful in their professional communications and keep their clients reasonably informed about the clients' projects.

Rule 3.301 Members shall not intentionally or recklessly mislead existing or prospective clients about the results that can be achieved through the use of the Members' services, nor shall the Members state that they can achieve results by means that violate applicable law or this Code.

Commentary: This rule is meant to preclude dishonest, reckless, or illegal representations by a Member either in the course of soliciting a client or during performance.

E.S. 3.4 Confidentiality:
Members should safeguard the trust placed in them by their clients.

Rule 3.401 Members shall not knowingly disclose information that would adversely affect their client or that they have been asked to maintain in confidence, except as otherwise allowed or required by this Code or applicable law.

Commentary: To encourage the full and open exchange of information necessary for a successful professional relationship, Members must recognize and respect the sensitive nature of confidential client communications. Because the law does not recognize an architect-client privilege, however, the rule permits a Member to reveal a confidence when a failure to do so would be unlawful or contrary to another ethical duty imposed by this Code.

CANON IV Obligations to the Profession

Members should uphold the integrity and dignity of the profession.

E.S. 4.1 Honesty and Fairness:
Members should pursue their professional activities with honesty and fairness.

Rule 4.101 Members having substantial information which leads to a reasonable belief that another Member has committed a violation of this Code which raises a serious question as to that Member's honesty, trustworthiness, or fitness as a Member, shall file a complaint with the National Ethics Council.

Commentary: Often, only an architect can recognize that the behavior of another architect poses a serious question as to that other's professional integrity. In those circumstances, the duty to the professional's calling requires that a complaint be filed. In most jurisdictions, a complaint that invokes professional standards is protected from a libel or slander action if the complaint was made in good faith. If in doubt, a Member should seek counsel before reporting on another under this rule.

Rule 4.102 Members shall not sign or seal drawings, specifications, reports, or other professional work for which they do not have responsible control.

Commentary: Responsible control means the degree of knowledge and supervision ordinarily required by the professional standard of care. With respect to the work of licensed consultants, Members may sign or seal such work if they have reviewed it, coordinated its preparation, or intend to be responsible for its adequacy.

Rule 4.103 Members speaking in their professional capacity shall not knowingly make false statements of material fact.

Commentary: This rule applies to statements in all professional contexts, including applications for licensure and AIA membership.

E.S. 4.2 Dignity and Integrity: Members should strive, through their actions, to promote the dignity and integrity of the profession, and to ensure that their representatives and employees conform their conduct to this **Code**.

Rule 4.201 Members shall not make misleading, deceptive, or false statements or claims about their professional qualifications, experience, or performance and shall accurately state the scope and nature of their responsibilities in connection with work for which they are claiming credit.

Commentary: This rule is meant to prevent Members from claiming or implying credit for work which they did not do, misleading others, and denying other participants in a project their proper share of credit.

Rule 4.202 Members shall make reasonable efforts to ensure that those over whom they have supervisory authority conform their conduct to this **Code**.

*Commentary: What constitutes "reasonable efforts" under this rule is a common sense matter. As it makes sense to ensure that those over whom the architect exercises supervision be made generally aware of the **Code**, it can also make sense to bring a particular*

provision to the attention of a particular employee when a situation is present which might give rise to violation.

CANON V **Obligations to Colleagues**

Members should respect the rights and acknowledge the professional aspirations and contributions of their colleagues.

E.S. 5.1 Professional Environment: Members should provide their colleagues and employees with a fair and equitable working environment, compensate them fairly, and facilitate their professional development.

Rule 5.101 Members shall treat their colleagues and employees with mutual respect, and provide an equitable working environment.

E.S. 5.2 Intern and Professional Development: Members should recognize and fulfill their obligation to nurture fellow professionals as they progress through all stages of their career, beginning with professional education in the academy, progressing through internship and continuing throughout their career.

Rule 5.201 Members who have agreed to work with individuals engaged in an architectural internship program or an experience requirement for licensure shall reasonably assist in proper and timely documentation in accordance with that program.

E.S. 5.3 Professional Recognition: Members should build their professional reputation on the merits of their own service and performance and should recognize and give credit to others for the professional work they have performed.

Rule 5.301 Members shall recognize and respect the professional contributions of their employees, employers, professional colleagues, and business associates.

Rule 5.302 Members leaving a firm shall not, without the permission of their employer or partner, take designs, drawings, data, reports, notes, or other materials relating to the firm's work, whether or not performed by the Member.

Rule 5.303 A Member shall not unreasonably withhold permission from a departing employee or partner to take copies of designs, drawings, data, reports, notes, or other materials relating to work performed by the employee or partner that are not confidential.

Commentary: A Member may impose reasonable conditions, such as the payment of copying costs, on the right of departing persons to take copies of their work.

CANON VI **Obligations to the Environment**

Members should recognize and acknowledge the professional responsibilities they have to promote sustainable design and development in the natural and built environments and to implement energy and resource conscious design.

E.S. 6.1 Energy conservation: Members should set ambitious performance goals for greenhouse gas emission reduction with their clients for each project.

E.S. 6.2 Water Use: Members should optimize water conservation in each project to reduce water use and protect water supply, water quality, and watershed resources.

E.S. 6.3 Building Materials: Members should select and use building materials to minimize exposure to toxins and pollutants in the environment to promote environmental and human health and to reduce waste and pollution.

E.S. 6.4 Ecosystems: Members should consider with their clients the impact of each project on the natural habitat and ecosystem to promote environmental and human health.

E.S. 6.5 Climate Change:
Members should incorporate adaptation strategies with their clients to anticipate extreme weather events and minimize adverse effects on the environment, economy and public health.

Rule 6.501 Members shall consider with their clients the environmental effects of their project decisions.

RULES OF APPLICATION, ENFORCEMENT, AND AMENDMENT

Application

The **Code of Ethics and Professional Conduct** applies to the professional activities of all members of the AIA.

Enforcement

The Bylaws of the Institute state procedures for the enforcement of the **Code of Ethics and Professional Conduct**. Such procedures provide that:

- (1) Enforcement of the **Code** is administered through a National Ethics Council, appointed by the AIA Board of Directors.
- (2) Formal charges are filed directly with the National Ethics Council by Members, components, or anyone directly aggrieved by the conduct of the Members.
- (3) Penalties that may be imposed by the National Ethics Council are:
 - (a) Admonition
 - (b) Censure
 - (c) Suspension of membership for a period of time
 - (d) Termination of membership.
- (4) Appeal procedures are available.
- (5) All proceedings are confidential, as is the imposition of an admonishment; however, all other penalties shall be made public.

Enforcement of Rules 4.101 and 4.202 refer to and support enforcement of other Rules. A violation of Rules 4.101 or 4.202 cannot be established without proof of a pertinent violation of at least one other Rule.

Amendment

The **Code of Ethics and Professional Conduct** may be amended by the convention of the Institute under the same procedures as are necessary to amend the Institute's Bylaws. The **Code** may also be amended by the AIA Board of Directors upon a two-thirds vote of the entire Board.

2018 Edition. This copy of the **Code of Ethics is current as of September 6, 2018. Contact the General Counsel's Office for further information at (202) 626-7311.*

AIA North Carolina Chapter Awards and Honors

The 2018 winners were announced during an awards banquet held at the 21c in Durham, North Carolina, on Friday, October 19, 2018.

A five-person Awards Committee, appointed yearly by the chapter president and chaired by the immediate past president, is responsible for reviewing the nominations and selecting a recipient.

F. CARTER WILLIAMS GOLD MEDAL

This is the highest honor presented by the chapter to a member of AIA North Carolina. It is awarded to an individual in recognition of a distinguished career or extraordinary accomplishments as an architect. The Gold Medal was created by the Board of Directors in 1976.

The first recipient was Luther Snow Lashmit.

Until 1998, Lashmit was the only architect to receive this award. It was at that time renamed in honor of the late Raleigh architect F. Carter Williams, FAIA. The Williams family has established an endowment in support of the Gold Medal.

Eligibility

A current or deceased member of AIA North Carolina is eligible to receive the Gold Medal. No more than one such award shall be made in any year. Individuals who are current members of the chapter Board, one year removed from the Board or members of the Awards Committee are ineligible for consideration.

Nominations

Nominations may be made by members, the public or AIA North Carolina sections.

Please contact AIA North Carolina at (919) 833-6656 for nomination deadlines. Nominations should include the following information:

- A nomination letter that summarizes the contributions made by the individual
- A brief biography of the nominee, not to exceed four pages
- Miscellaneous material (clippings, articles, etc.), not to exceed three pages
- Letters of support, not to exceed five, from AIA North Carolina members; letters should be explicit in their recommendation and contain specific reasons for support.

Gold Medal Recipients

2006	Macon S. Smith, FAIA, Raleigh
2007	Paul D. Boney, FAIA, Wilmington
2008	Gail A. Lindsay, FAIA, Wake Forest
2009	Jay Peterson, FAIA, Wilmington
2010	Philip G. Freelon, FAIA, Durham
2011	Marvin J. Malecha, FAIA, Raleigh
2012	Steven D. Schuster, FAIA, Raleigh
2013	Frank Harmon, FAIA, Raleigh
2014	Edwin F. "Abie" Harris, Jr., FAIA, Raleigh
2015	Mary Louis "Lou" Jurkowski, FAIA, Raleigh
2016	Roger Clark, FAIA, Raleigh
2017	Harvey B. Gantt, FAIA, Charlotte
2018	Phil Szostak, FAIA, Chapel Hill

AIA NORTH CAROLINA FIRM AWARD

The AIA North Carolina Firm Award shall be awarded to a North Carolina firm that has consistently produced quality architecture with a verifiable level of client satisfaction for a period of at least 10 years as an established presence in this state. This award is the highest honor the Chapter can bestow upon a firm.

Eligibility

North Carolina architectural firms practicing under the leadership of either a single AIA North Carolina member principal or several AIA North Carolina members principal are eligible for the Firm Award. In addition, a firm that has been reorganized and whose name has been changed or modified are also eligible, as long as the firm has been in operation in North Carolina for a period of at least 10 years. Although firms that are headquartered in other states or firms that perform the majority of their work in other states or countries are

eligible, the firm's work and impact within the state of North Carolina shall be of primary consideration. A firm owned or managed by the chapter president, president-elect or members of the Awards Committee shall not be eligible for consideration.

Nominations

Nominations may be made by members, the public or AIA North Carolina sections. Please contact AIA North Carolina at (919) 833-6656 for nomination deadlines. The nominations should include the following information:

- A nomination letter by a member, an AIA North Carolina section or a representative of the public, summarizing the firm's contributions in terms of design excellence and client satisfaction
- A brief biography of all firm principals and a history of the firm
- A firm brochure (if available)
- Descriptive statements and photographs of early, middle and recent work of the firm
- A maximum of five signed letters by clients, attesting to the firm's excellence and/or high level of performance

Firm Award Recipients

2006	Gantt Huberman, Charlotte
2007	Clearscapes, Raleigh
2008	Shook Kelly, Charlotte
2009	Cherry Huffman Architects, PA, Raleigh
2010	BJAC, Raleigh
2011	Mathews Architecture, Asheville
2012	Duda Paine Architects, Durham
2013	Little, Charlotte
2014	Szostak Design Inc., Chapel Hill
2015	Cannon Architects, Raleigh
2016	Samsel Architects
2017	Clark Nexsen
2018	LS3P

WILLIAM H. DEITRICK SERVICE MEDAL

The AIA North Carolina – William H. Deitrick Service Medal will be presented to an AIA North Carolina member who exhibits extraordinary service to the community, profession or AIA North Carolina. The medal is named in honor of the late William Henley Deitrick, FAIA, a former

president of AIA North Carolina. The AIA Tower, headquarters for AIA North Carolina, previously served as Deitrick's architectural studio and offices.

Eligibility

A current or deceased member of AIA North Carolina is eligible to receive the Deitrick Service Medal. No more than one such award shall be made in any year. Individuals who are current members of the chapter Board, one year removed from the Board or members of the Awards Committee are ineligible for consideration. The selection will be made from one of the following categories:

Service to the Community

This category recognizes the work of architects who serve as elected officials, public administrators or institutional leaders and who establish and contribute to the development of laws, regulations and policies that promote excellence in architecture.

Service to the Chapter

This category recognizes the work of architects who, by their skill, professionalism, dedication, ability and commitment, have consistently advanced the common goals of AIA North Carolina.

Service to the Profession

This category recognizes the work of architects who have had a significant impact on the profession of architecture and its public perception as a profession.

Nominations

Nominations may be made by members, the public or AIA North Carolina sections.

Please contact AIA North Carolina at (919) 833-6656 for nomination deadlines. The nominations should include the following information:

- A nomination letter by the AIA member, group of members, component or committee
- A biography of the nominee, not to exceed two pages, including a list of offices, positions, honors, achievements, publications or presentations that relate to the award's purpose
- Five letters of support that give testament to the achievement presented
- Exhibits, if appropriate for the nominee, to illustrate accomplishments that relate to the award's purpose

Deitrick Service Medal Recipients

2007	Dennis J. Hall, FAIA, Charlotte
2008	Allen D. McGuinn, FAIA, Asheville
2009	Katherine Peele, FAIA, Raleigh
2010	James E. Rains Jr., FAIA, Ramsauer
2011	Walton R. Teague, FAIA, Greensboro
2012	James N. Bartl, AIA, Charlotte
2013	J. Michael Cox, FAIA, Asheville
2014	Irvin A. Pearce, FAIA, Raleigh
2015	Jane Mathews, FAIA, Asheville
2017	Charles L. Travis, FAIA, Cornelius
2018	Kevin Montgomery, FAIA, Durham

THE LEGACY AWARD

The Legacy Award is given in recognition of an individual, group, corporation, institution, church or government entity's long-standing commitment and contributions to architecture, for their support of the community of North Carolina architects and for their influence on North Carolina architecture. The award will be given from time to time as qualified candidates are brought to the attention of the North Carolina Awards Committee. No more than one award will be given annually, and it will not be necessary that an award be given every year.

Nomination

Nominations for this award may be made by any member of AIA North Carolina, the AIA North Carolina Board, the Architectural Foundation Board or a member of the NC Chapter Awards Committee.

Eligibility

Nominations for the Legacy Award shall be limited to North Carolina individuals, groups, corporations, institutions, churches or government entities that have demonstrated long-standing commitments, made significant contributions or influenced the preservation of North Carolina's built environment and its resources. Such groups or individuals shall demonstrate that they have, with purpose, influenced the advancement of architecture and/or raised the public's awareness of the positive impact that architecture and planning can make on the perception and livability of North Carolina communities.

Submission Requirements

- Name, biography or history of the nominated individual or institution
- Description and history of the project, social contributions, awards, etc.
- Names and brief description of architects employed in the performance of the work associated with the nomination
- Three letters of reference, at least two of which shall be from members of AIA North Carolina

Legacy Award Recipients

2010	The Biltmore Companies
2011	Preservation North Carolina
2013	NC Modernist Houses
2014	Charlotte Center City Partners
2015	Susan Kluttz, Secretary, Department of Cultural Resources
2016	The Downtown Winston-Salem Partnership
2017	Not Awarded
2018	Jim Goodman

GAIL LINDSEY SUSTAINABILITY AWARD

The AIA North Carolina – Gail A. Lindsey Sustainability Award is awarded to a North Carolina individual or organization that has positively impacted the attainment of a sustainable and harmonious environment, espousing ideals pioneered by the late Gail Lindsey, FAIA.

Eligibility

Any individual or organization with a significant, positive impact on North Carolina or a region of North Carolina.

Nominations

Nominations may be made by members, the public or AIA North Carolina sections.

Previous winners

2009	Cheryl Walker, FAIA, Charlotte
2010	Douglas M. Brinkley, FAIA, Raleigh
2011	Alicia Ravetto, FAIA, Carrboro
2012	Renee Hutcheson, FAIA, Raleigh
2013	North Carolina Sustainable Energy Foundation
2014	Not awarded
2015	Not awarded
2016	Jett Tiller
2017	Not Awarded
2018	Will Weaver

EMERGING PROFESSIONAL AWARD

Eligibility

Associate AIA members, as well as any architect residing and licensed to practice architecture in North Carolina, whose initial date of licensure in any US jurisdiction is fewer than 10 years and not more than 15 years after graduation from an accredited school of architecture and who is a member in good standing with AIA North Carolina, are eligible for the North Carolina Emerging Professional Award.

Criteria

Candidates must demonstrate noteworthy achievements in one or more of the following areas:

- The contributions the candidate has made to the advancement of architectural design and design discourse
- The contributions the candidate has made to the advancement of AIA and its leadership, either through local, state or national components
- The contributions the candidate has made to the advancement of architectural education
- The contributions the candidate has made toward the betterment of the local community
- Evidence of the candidate's nurturing and mentoring of next generation architects

Nomination

A nomination for this award can be made by an AIA associate member or AIA member of AIA North Carolina. Self-nominations are allowed.

Submission

Each submission shall contain the following:

- A letter of support or nomination letter by an AIA North Carolina member in good standing that summarizes the contributions made, not to exceed one page
- A brief biography and curricula vitae of the candidate, not to exceed three pages
- A brief summary of the candidate's achievements and contributions to the institute, not to exceed one page
- Up to 10 pages of any other supporting exhibits that the candidate chooses to support their nomination (design portfolio, descriptions of community work, etc.)
- The information provided should highlight achievements, contributions and design excellence of the individual

All materials must be submitted online.

Previous Winners

2017 Sara Glee Queen, AIA
2018 Albert McDonald, AIA

J. HYATT HAMMOND SCHOLARSHIP

AIA North Carolina Gold Medalist J. Hyatt Hammond, FAIA has established a fund to provide scholarships for young professionals to attend the AIA North Carolina Summer Design Conference.

Eligibility

Eligibility is restricted to AIA North Carolina associate members and architect members who have been licensed for fewer than 10 years.

Application Process & Scholarship Presentation

AIA North Carolina makes scholarship applications available in the months prior to the AIA North Carolina Summer Design Conference. Submitted applications are reviewed by board members of the North Carolina Architectural Foundation. Winners are notified at least one month prior to the Summer Design Conference. Scholarship money is provided to the recipients after the conference, based upon receipts provided up to a total of \$500.

2019 INSTITUTE HONOR AWARD FOR ARCHITECTURE FROM THE AMERICAN INSTITUTE OF ARCHITECTS AWARDED TO THE SMITHSONIAN NATIONAL MUSEUM OF AFRICAN AMERICAN HISTORY AND CULTURE

This program recognizes achievements for a broad range of architectural activity to elevate the general quality of architectural practice, to establish a standard of excellence against which all architects can measure performance and to inform the public expectations for architectural practice, its breadth and its value.

Smithsonian National Museum of African American History and Culture
Architect: The Freelon Group (part of Perkins+Will), Adjaye Associates, Davis Brody Bond and SmithGroup
Owner: Smithsonian Institution
Location: Washington, DC

To stay true to the master plan of the National Mall, to bridge the old world with the new and to cover the vast amount of history and culture for this space, 60 percent of the museum is actually located below ground, making it the deepest museum on The Mall, at 70 feet (21 meters) deep. This allows for five stories above ground and five stories below ground. Slated for LEED Gold certification, the first Smithsonian ever to achieve such a status, the National Museum of African American History and Culture's (NMAAHC) exterior skin helps this impressive project receive this status. Inspired by the three-tiered crop used in Yoruban art from West Africa, the ornamental bronze-colored metal lattice pays homage to the intricate ironwork that was crafted by enslaved African Americans in the South. The lattice work itself opens the building to streaming exterior daylight and can be modulated according to the season. Allowing for a historical and emotional journey, the interior is characterized by vast, column-free spaces and a material palette made up of precast concrete, timber and glazed skin that sit within the bronze lattice work. Integrating its architectural form with its purpose and function, the NMAAHC tells a story, the American story, through the lens of African American history and culture.

N.C. Board of Architecture

The North Carolina Board of Architecture, established by the General Assembly in 1915, is responsible for enforcement of the laws and regulations governing the practice of architecture in the state. A major task is to determine the qualifications of applicants who seek licensure in this state.

The Board comprises seven members appointed by the Governor, five of whom are licensed architects appointed for five-year terms. Two of the members of the Board are not licensed architects and represent the interests of the public at large. The public members serve at the pleasure of the governor.

In order to qualify for a license to practice architecture in North Carolina, an applicant must meet the following minimum requirements:

- An accredited professional degree in architecture
- A three-year internship
- Passing all divisions of the ARE (Architectural Registration Examination)

The current Board members are:
 Jimmy Lee Norwood Jr, AIA, President
 Katherine N. Peele, FAIA, Vice President
 Cathy C. Morrison, AIA, Secretary
 Steven G. Clipp, AIA, Treasurer
 Walter B. Sawyer, AIA, Member
 Fred Dodson Jr, Public Member
 Stephen M. McClure, Public Member, President

Additional information on the N.C. Board of Architecture may be obtained by contacting:

Cathe M. Evans
 Executive Director
 N.C. Board of Architecture
 127 W. Hargett St., Rm. 304
 Raleigh, NC 27601

National Council of Architectural Registration Boards

The National Council of Architectural Registration Boards was established in 1920 to assist member boards in carrying out their duties; to foster the enactment of uniform architectural laws; to develop examinations and establish standards for certification requirements in education and training; to perfect procedures for verifying the qualifications of applicants and determining their eligibility for certification; and to establish and maintain reciprocal registration between states having registration laws.

The NCARB is a nonprofit corporation with all legally constituted boards of architecture in the United States as members, including the North Carolina Board of Architecture. To be eligible for NCARB certification, architects must submit satisfactory evidence that they comply with the standard for education, training, examination and character and that they have been registered by a member board.

The NCARB will, upon request of an individual architect, secure, authenticate and record factual data of the applicant's education, training, practice and character. This record will be forwarded to any state board upon request of the applicant.

Certification shall be given to an applicant holding a council record verifying that the applicant has complied with the council's standards of education, training, practice and character and that the applicant has passed an examination conforming to the council's standards of content, extent and length of time.

Certification by the NCARB serves as a recommendation to all registration authorities that registration be granted to the holder without further examination. Most board members accept NCARB

certification as conclusive evidence of an architect's eligibility of registration. It is, however, not a national registration.

Complete information on compiling a council record and obtaining council certification can be obtained from:

National Council of Architectural Registration Boards
 1801 K St. NW
 Washington, DC 20006
 p: (202) 783-6500
 f: (202) 783-0290

North Carolina Architectural Foundation

The North Carolina Architectural Foundation (NCAF) was established for the purpose of promoting architecture as a discipline and a profession in North Carolina. Since 1948, the NCAF has supported architectural scholars, researchers and students and has provided grants for exhibitions and publications about architecture.

The mission of the NCAF is:

- Architectural Research
- Architectural Principles
- Educational Programs
- Architectural Scholarships
- Public Awareness
- Continuing Education
- Historic Preservation

In 2012, the Foundation became a major contributor to the overall programming and success of the AIA NC Center for Architecture & Design.

The foundation operates on private gifts. Contributions to the NCAF may be sent to:

North Carolina Architectural Foundation
 14 E. Peace St.
 Raleigh, NC 27604

Kamphoefner Prize

The foundation awards the Kamphoefner Prize of \$10,000 during even-numbered years to an AIA North Carolina member who exhibits excellence in the modern movement of architecture. The prize is funded through an endowment bequeathed by Henry and Mabel Kamphoefner. Henry Kamphoefner was the founder and original dean of the N.C. State School of Design.

Kamphoefner Prize Recipients

1988	J. Norman Pease Jr, FAIA	Charlotte
1989	No recipient chosen	
1990	Murray Whisnant, FAIA	Charlotte
1991	Brian Shawcroft, AIA	Raleigh

2015	No recipient chosen	
2016	Dennis Stallings, FAIA	Raleigh
2017	tonic design	Raleigh
2018	Robert Thomas, AIA	Raleigh

Continuing Education Mandatory for Licensure and Membership

North Carolina architects must fulfill a program of continuing education each year in order to renew their licenses. Continuing education has been a membership requirement for the American Institute of Architects for several years now. The two requirements are slightly different but compatible.

Here's the bottom line: AIA architects in North Carolina should obtain a total of 18 learning units per calendar year. Of these 18 hours, at least 12 hours must be in subjects designated as Health, Safety and Welfare (HSW). Special note: As of January 2013, Sustainable Design (SD) is no longer required by the AIA.

State Licensure Requirements

Each year, North Carolina architects must complete a verifiable program of 12 contact hours of continuing education. The contact hours must be in HSW subject material. Contact hours may not be carried over from one calendar year to the next. HSW Programs provided by AIA registered providers will be accepted by the North Carolina Board of Architecture. The licensing board will also accept an AIA member's continuing education transcript as evidence of continuing education fulfillment.

N.C. STATE UNIVERSITY

The Department of Architecture at N.C. State University was established in 1948 as one of two original academic components in the School of Design. The School of Design experienced a long period of development, establishing a reputation for innovation. In the fall of 2000, the department was given school status and the school was granted college status.

The college is presently led by Dean Mark Hoverston. Thomas Barrie, AIA, was appointed department head in 2002, his title is now director of architecture.

The School of Architecture has grown its mission and curricular offerings over the years to include programs leading to the following three degrees:

Bachelor of Environmental Design in Architecture (BEDA)

A four-year pre-professional curriculum that serves as the foundation for the two advanced programs. The curriculum includes a balance of general studies (English, mathematics, science and humanities), design studio courses and architectural support courses (history, technology, methods and theory).

Bachelor of Architecture (B. Arch.)

A one-year professional curriculum that builds on the four-year BEDA or other equivalent program.

Master of Architecture (M. Arch.)

Three tracks lead to the professional M. Arch. degree: Track I is a two-year program for holders of the BEDA or equivalent four-year pre-professional degree; Track II is a three-semester, second professional degree program for holders of the B. Arch. degree; Track III accepts students with degrees in non-architectural fields into a three and one half year program.

Both the B. Arch. and M. Arch. are professional degrees accredited by the National Architectural Accrediting Board. The most

AIA Requirements

Developed to demonstrate AIA members' lifelong commitment to learning, the AIA Continuing Education System (CES) enhances knowledge, competency and competitiveness. In summary, the Institute's plan includes the following:

- Members must have 18 hours of continuing education per year in order to maintain membership.
- The 18 hours must include 12 contact hours in health/safety-related subject matter.

AIA North Carolina Continuing Education Academy

AIA North Carolina has successfully launched an aggressive effort to provide its members affordable, accessible and relevant continuing education. The AIA North Carolina Continuing Education Academy is the winner of the 1999 AIA/CES Award for Excellence. AIA North Carolina was the only AIA chapter or component in America to win this prestigious award for excellence in continuing education programming and member service.

In 2017, AIA North Carolina plans to offer seminars at various locations around the state. This year, AIA North Carolina held the 2017 Design Conference, "ACTIVATE: Design | Collaboration | Engagement"

on September 13-15, 2017, in Wilmington, North Carolina. This was a unique opportunity to obtain learning units and network with leaders from across all three states.

Also continuing this year is the online education program called O.W.L.S. (On-Demand Webinar Learning Series). These online classes, held on the second Tuesday of every month, offer 1.5 hours of learning credits on a variety of credits. These classes are free for members, have a nominal fee for non-members and, after they are recorded, can be accessed for a fee by any architect at any time.

Visit the AIA North Carolina website at www.aianc.org for an updated listing of continuing education programs in the Southeast. In addition, the seven local sections of AIA North Carolina typically offer AIA/CES programs at their meetings.

Where AIA CES Records Are Kept

The CES record keeping is performed at the AIA National Headquarters in Washington, DC. Call 1 (800) 242-3837, ext. 3 for questions or comments on AIA/CES records. This record-keeping center monitors contact hours earned by AIA members and keeps track of registered providers.

Architectural Education

Advanced Program

In the fourth and fifth years, students select design studios and seminars in accordance with the individual study plan they developed in their third year. In addition to the design thesis or comprehensive projects, students enroll in studios and seminars that focus on topics such as design theories, programming, architectural materials and technology, lighting design, acoustics, wood and metals design/making, community design, computer-aided design, advanced studies in architectural history, graphic explorations and other design issues. The Bachelor of Arts is awarded at the end of the fourth year and the professional degree, Bachelor of Architecture, is awarded in the fifth year.

Graduate Programs

A student with an undergraduate, non-architecture degree may enroll in a three-year-plus-one-summer professional Master of Architecture program. A student with an undergraduate degree in architectural studies may enroll in a two-year professional Master of Architecture program. The final year provides an opportunity for specially focused design exploration and research.

In collaboration with the Department of Geography and Earth Science, the School of Architecture also offers a Master of Arts in community planning.

In addition, the school maintains the Charlotte Community Design Studio in the Center City area of Charlotte. The school's international studies programs include summer studies in Italy and Spain and study opportunities in London, Mexico, Finland and Germany.

The school has an extensive visiting/part-time faculty designer program that includes numerous student-study field trips and special exhibitions of art, architecture and design. The school accepts transfer students for advanced standing from other NAAB schools. More detailed information may be obtained by writing the School of Architecture, UNC Charlotte, Charlotte, NC 28223.

AIA Fellows

The American Institute of Architects bestows the recognition of fellowship for achievement in architecture on members who have contributed notably to the advancement of the profession of architecture. With the exception of the Gold Medal, fellowship is the highest honor the AIA can bestow on a member. It is conferred on architects with at least 10 years of membership in the AIA who have made significant contributions in the following areas: the aesthetic, scientific and practical efficiency of the profession; the standards of architectural education, training and practice; the building industry through leadership in the AIA and other related professional organizations; the advancement of living standards of people through an improved environment; and society through significant public service.

Founded in 1952, the College of Fellows includes approximately five percent of the total AIA membership. Those advanced to fellowship can use "FAIA" after their names in recognition of their contributions in design, education, research or public service.

Current members of AIA North Carolina who have been recognized for Fellowship are:

Robin Fran Abrams, FAIA	*Philip G. Freelon, FAIA	Jeffrey S. Lee, FAIA	*John D. Rogers, FAIA
*Richard K. Albyn, FAIA	David F. Furman, FAIA	*Gail A. Lindsey, FAIA	Benjamin T. Rook, FAIA
