Precast concrete applications in Commercial, Industrial, Housing and Specialized Structures are amazing! In 50 years, precast, prestressed concrete has become a primary building component offering extraordinary structural and architectural options. Architects now have more certified precast plants to help create tomorrow's reality from today's dreams.

Stay current with today's (and tomorrow's) precast, prestressed trends, projects and options. Visit our website to receive regular precast concrete newsletters, project and product updates, and useful information about our AIA/CES Registered Provider box lunch and other accredited programs.

Building Materials That Stand Up to Trial by Fire

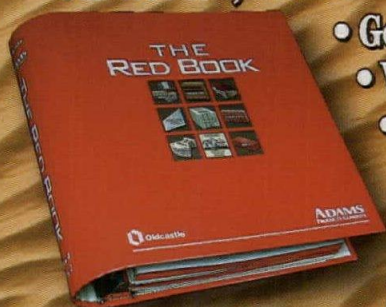

Adams Products Company is the recognized leader in concrete masonry technology and design. For over 55 years, Adams has maintained the confidence of builders and architects alike for their innovative technology, quality products, superior knowledge, committed customer service and on-time deliveries.

Whether your building needs require the security of Adams' UL Certified two hour fire-resistant REDLINE™ block or architectural elegance, Adams can provide you with the largest assortment of concrete products in a variety of colors, shapes, and sizes. Adams' highly trained sales reps and consultants are fully qualified to help you make the right choices.

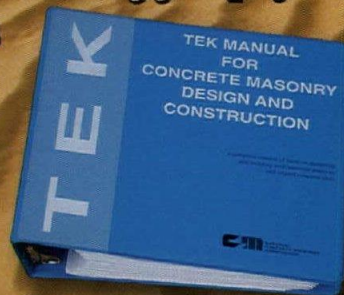

From award winning beauty to structural integrity that stands up to the trial by fire, no one can give you concrete solutions like Adams Products Company.

Founded in 1857, The American Institute of Architects is the recognized advocate for the architectural profession in the United States.

With a membership of nearly 70,800 architects, interns and students, the AIA actively promotes the highest standards of professional ethics and advances the professional development of its members through continuing education. Speaking with a unified voice, the AIA represents architects in governmental and regulatory decisions that impact professional practice and the quality of life.

The North Carolina Chapter of The American Institute of Architects (AIA North Carolina) was founded in 1913 and is the largest statewide AIA chapter in the U.S. with over 1,900 members. The membership of AIA North Carolina includes about three-quarters of the architects who live in this state.

AIA North Carolina members work and live in every corner of the state, practicing in firms ranging in size from one to 400 persons. The membership is divided into seven geographical sections, located in Asheville, Charlotte, Eastern North Carolina, Piedmont (Greensboro/High Point), Triangle, Wilmington and Winston-Salem.

AIA North Carolina focuses its resources on five key areas, including:

GOVERNMENT AFFAIRS: With its offices located in a historic building less than one block from the State Capitol, AIA North Carolina is well-positioned to represent the architect's view in legislation and public policy development. AIA North Carolina opinions and positions are actively sought by lawmakers when dealing with legislation affecting construction, building codes and planning. Through a separate organization, AIA North Carolina maintains a well-funded political action committee ranked among the top 40 association and corporate PACs in the state.

PUBLIC AWARENESS OF ARCHITECTURE AND THE PROFESSION: Working through several volunteer committees and its local sections, AIA North Carolina actively pursues a concerted effort to help the public become more aware of architecture and the positive impact architects have on the built environment. The Chapter's annual Design Awards program is a prime opportunity to highlight to the public, the finest

work by North Carolina architects. The governor of North Carolina traditionally declares a week each year as Architecture Week and the AIA local sections host a wide variety of activities intended to engage and stimulate the public. Architecture Week in the year 2003 is scheduled for September 15-21.

CONTINUING EDUCATION AND PROFESSIONAL DEVELOPMENT: Continuing education is a requirement for licensure renewal and for ongoing membership in the AIA. In 2003, the Chapter will offer affordable and accessible programs dedicated to health-safety-welfare subject material. AIA members can participate in 22 Professional Interest Areas, that specifically target career and practice needs, ranging from health care facilities to historic preservation. This year's regional South Atlantic Region Design Conference & Expo, scheduled for October 9-11 at the Westin Savannah Harbor Resort, Savannah, Georgia provides architects a three-day opportunity for continuing education opportunities, professional development and networking.

MEMBER SERVICES: Publications and information are among the most valuable services available to AIA members. Members receive subscriptions to national publications such as *Architectural Record* and *AIArchitect*, along with the AIA North Carolina *Architext* newsletter. Web sites are maintained at www.aianc.org and www.aia.org.

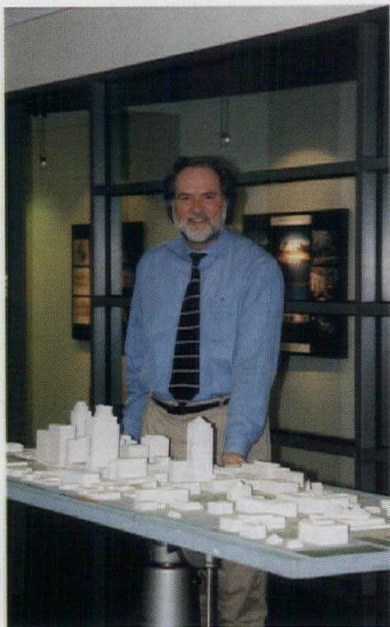

COLLATERAL ORGANIZATIONS: AIA North Carolina maintains and develops relationships with a host of organizations which impact the architectural profession including construction trade associations, state regulatory agencies, accredited schools of architecture and other licensed design professionals.

MISSION STATEMENT

The American Institute of Architects is the voice of the architectural profession dedicated to:

- *Serving its members*
- *Advancing their value*
- *Improving the quality of the built environment*

2003 PRESIDENT'S MESSAGE

KERRY A. KANE, AIA

Since its founding in 1913, AIA North Carolina has been dedicated to serving its members, advancing the value of architects, and improving the quality of the built environment. With more than 1,900 members, AIA North Carolina is the largest statewide AIA chapter and one of the most respected components in the nation. Our members today represent a wide range of practice including education, public/government service, construction management, and facility planning in addition to project design. To better serve this talented and diverse membership, AIA North Carolina, in 1999, reorganized its committee structure into four focus areas. Last year the chapter began to implement the recommendations

of our Member Services Task Force Study which was intended to expand the relationship the state chapter has with our seven sections and to enhance the level of services and support members receive, regardless of where they practice or the size of their section.

Member services initiatives in 2002 included the establishment of the state communication coordinator's position and the beginning of a revenue sharing plan with the sections. This funding allowed sections to initiate new or expand existing services such as setting up section websites and speaker programs. It also enabled the Asheville, Piedmont, and Wilmington sections to hire part-time staff for the first time to handle such activities and communications. Goals for 2003 include the continuation of the revenue sharing initiative, development of a Management Staff Council to allow Chapter and section staff to meet on a regular basis to ensure communication and coordination between the components, and co-sponsoring programs and events with the sections and schools of architecture.

Each of AIA North Carolina's four focus areas is led by a state director. Priorities for 2003 include the following:

CONTINUING EDUCATION

Last year more than 12,000 HSW hours were delivered by AIA North Carolina. This amounted to 60% of the credit hours required for our 1,700 registered architect members. In 2003, full day academy programs are planned throughout the state on such topics as the Accessibility Code, the Rehab Code, Contract Negotiations, Green Building

Products, Advanced Moisture Protection and LEED Certification. Also, lunch and learn programs will be provided at the section level. John Peter Barie, AIA, of Raleigh will continue to serve this year as Director of Continuing Education.

GOVERNMENT AFFAIRS AND COLLATERAL ORGANIZATIONS

Jay J. Peterson, Jr., FAIA, of Wilmington, as Director of Collateral Organizations along with David Crawford, our Executive Director, will lead our government affairs and legislative initiatives as well as maintain and enhance our relationships with other organizations that impact the design profession and construction industry. On the legislative front, AIA North Carolina will monitor the status of potentially emerging issues such as a professional service tax and advocate for:

- An unamended International Building Code
- A modified Building Code Council and regulatory process
- State design and construction agency streamlining.

From a professional practice prospective, we will track the performance of the new delivery systems enacted by SB 914 such as construction management at risk and design/build, to help evaluate their impact on the design and construction process.

PUBLIC AWARENESS

In recent years, the Public Awareness and QBS Committees developed the award winning Value of The Architect Video and a QBS presentation for client groups. Led by Director, Ann W. Collier, AIA, of Rocky Mount, AIA North Carolina will continue

to make these presentations in 2003, and begin work on exhibit and publication efforts to showcase work by member firms. We also plan to publish a second issue of *North Carolina Architecture* this year in the fall, which will highlight our Chapter Awards Program.

MEMBER SERVICES

In addition to the member service initiatives noted above, AIA North Carolina is working with an insurance consultant, Acheev, to determine how to best provide health insurance coverage and perhaps other options such as term life, disability, and long-term care, to our members. Our goal is to incorporate the findings of the evaluation into member benefits and/or options where feasible. Wayne H. Camas, AIA, of Charlotte will lead these

efforts as Director of Member Services.

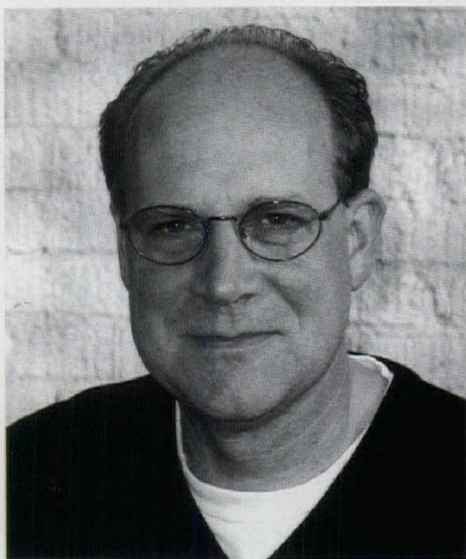

CONVENTIONS AND AWARDS PROGRAMS

Our state convention in 2003 will be a regional South Atlantic Region Convention which we will co-host with AIA Georgia and AIA South Carolina. It will be held in Savannah, Georgia, at the Westin Savannah Harbor Resort and the Savannah International Trade Center from Thursday, October 9, through Saturday, October 11. Please mark your calendars, as this should prove to be an informative and entertaining experience. The SAR Convention will offer multi-track programs similar to a mini-national convention. In addition, the National Practice Management PIA has agreed to combine their Human Resources Conference with our convention.

AIA North Carolina hosted its annual Chapter Awards Program as a one-day event at the Grandover Resort in Greensboro on June 7. This year's design awards submission requirements requested photographs, drawings and written information submitted digitally on a CD disc as well as hard copy. This CD format made submissions more publication, exhibition and archive friendly. David E. Miller, FAIA, of Seattle, Washington, was the Design Awards jury chair. His firm, The Miller/Hull Partnership, was recently honored with the 2003 AIA Firm Award.

I look forward to the coming year with much enthusiasm. I encourage each of you to support and participate in AIA North Carolina activities at both the chapter and section level. Together we can accomplish much in 2003.

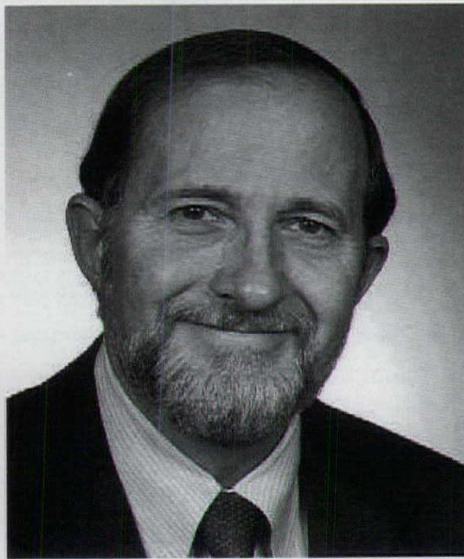

THREE ARCHITECTS ELEVATED TO THE AIA COLLEGE OF FELLOWS

ROGER CANNON, FAIA

Roger Cannon, FAIA, of Raleigh; Jesse Julius Peterson, Jr., FAIA, of Wilmington; and Sam Tinsley Snowden, Jr., FAIA, of Laurinburg were inducted into the AIA College of Fellows during the 2002 AIA National Convention in Charlotte. Fellowship status is reserved for members who have made contributions of national significance to their profession.

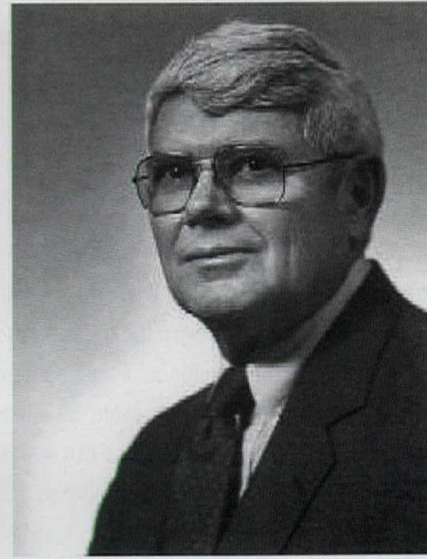

Cannon has developed a mature, modern aesthetic that makes creative use of common materials, creating uncommon solutions to common problems. His firm, Cannon Architects, has received several design awards, recognizing

JESSE JULIUS PETERSON, JR., FAIA

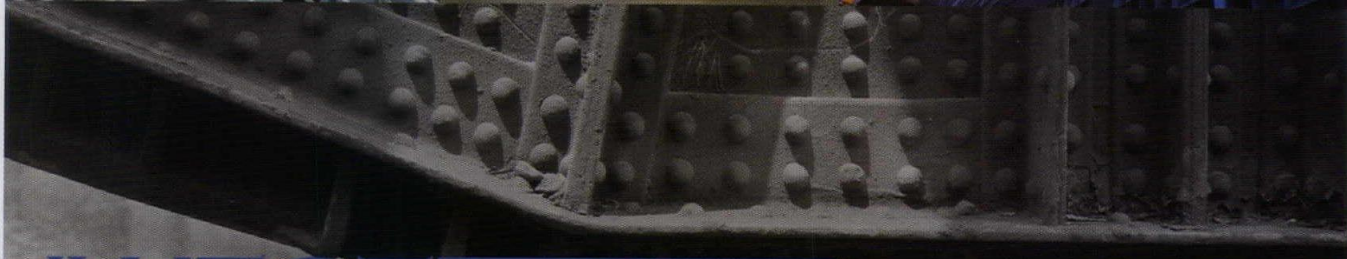

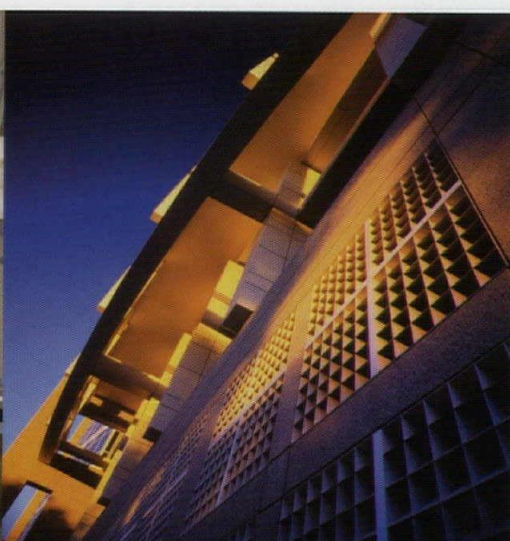

the firm's aesthetic strength and appropriateness of design solutions. An advocate of life-long learning, Cannon participates regularly at the College of Design at NC State University.

Considered a pioneer in medical facility design concepts, Peterson has established himself as a leader in the area of specialized practice. His extensive knowledge about hospital design has led to article publications and seminars. Peterson built a successful firm, Peterson Associates PA, that grew to 65 professionals. The firm is well-known for high quality, timely and cost-effective design

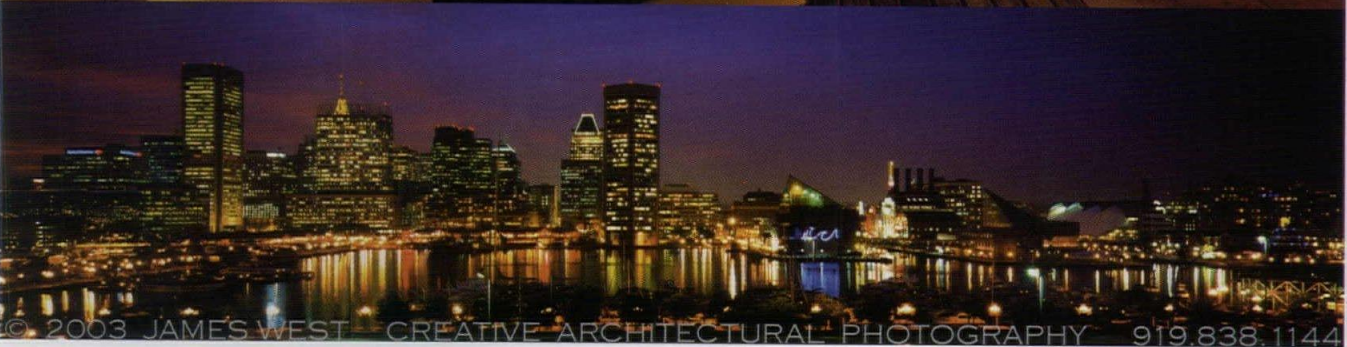

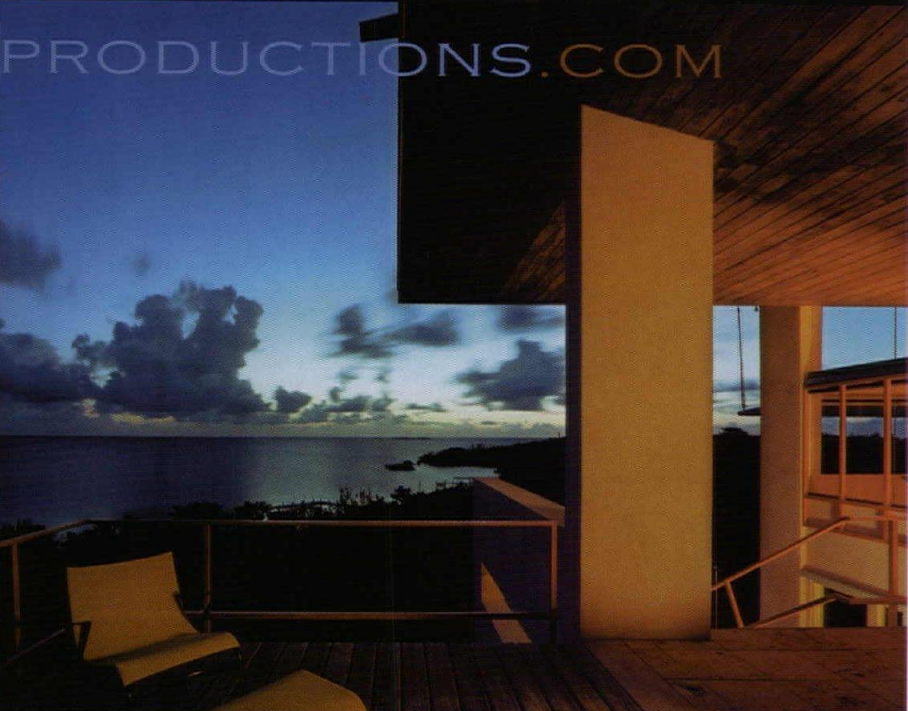

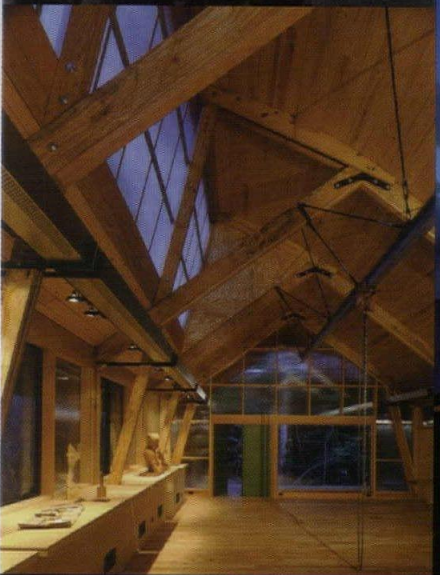

SAM TINSLEY SNOWDEN, JR., FAIA

Serving sixteen years on the North Carolina Building Code Council, Snowden shaped the Council's agenda on issues such as energy, accessibility, fire prevention and wind codes. A tireless advocate for code standardization, his commitment earned him a place on the Southern Building Code Congress International and the AIA's Building Performance and Regulation Task Force on Education. In 1998, Snowden was awarded the William H. Deitrick Service Medal, AIA North Carolina's highest honor of public and professional service.

MAKING BETTER ARCHITECTS —2003 SAR CONFERENCE

making better architects

SAVANNAH

aia georgia · aia north carolina · aia south carolina

AIA SOUTH ATLANTIC REGIONAL CONFERENCE 2003

AIA North Carolina members are invited to *unleash your inner eagle* at the 2003 South Atlantic Region (SAR) Design Conference and Expo. This groundbreaking event will be held October 9-11, 2003 at the Westin Savannah Harbor Resort in Savannah, Georgia.

AIA North Carolina, South Carolina and AIA Georgia have joined together to present SAR 2003. Architects and design professional from across the South Atlantic Region are expected to attend this three-day event.

Along with the traditional conference trade show, the SAR conference will include a river-front reception, dinner theater, networking dinners, tours of Savannah, alumni gatherings and much more.

The conference will also feature its own Design Awards program. Slightly different from AIA North Carolina's program, SAR Design Awards will feature two categories, Architectural Projects and Interior Projects. Each category will be juried by a separate jury made up of relevant design professionals. All SAR Design Award winners will be honored at a Design Awards Gala on October 11.

SAR is a joint venture sponsored by the AIA Chapters of North Carolina, South Carolina and Georgia. The SAR Conference takes place every three years with one of the three Chapters serving as host. At the next South Atlantic Region Conference, scheduled for 2006, AIA North Carolina will serve as the host Chapter.

DESIGN AWARD WINNERS CELEBRATE NORTH CAROLINA'S PAST, PRESENT AND FUTURE

A true "timeline" of North Carolina architecture was celebrated as AIA North Carolina announced the 2002 winners of the Design Awards competition. Fourteen winning projects were selected from a field of 109 entries submitted by AIA members across the state of North Carolina.

This year's award winning projects unknowingly represent the architectural history of North Carolina—past, present and future. A private residence designed to acknowledge the traditional tobacco barns and sheds that represent North Carolina family farming embodies times gone by while a company's headquarters looks towards the future with a design allowing for prospective growth. A well-designed winery addition transports visitors back to a time when the shop was a simple cattle barn while a non-denominational church embraces a congregation's desire to worship in a modern space.

Though vastly differing in form and function, each project was deemed by a jury of three professionals to have met or exceeded benchmarks of good architecture. Awards are broken into two categories: honor and merit, with honor being the top award.

Merit Awards were presented to Little & Associates Architects, Charlotte; Pearce Brinkley Cease + Lee, PA, Raleigh; FMK Architects, Charlotte; Vincent Petrarca, Raleigh; Samsel Architects, PA,

Asheville; Cherry Huffman Architects, Raleigh; and The Freelon Group, Inc., Research Triangle Park.

Along with taking home merit awards, Pearce Brinkley Cease + Lee PA and The Freelon Group, Inc. were also presented with honor awards for the Fletcher Opera Theater and Meymandi Concert Hall – BTI Center for the Performing Arts, Raleigh and Lord Corporation World Headquarters, Cary, respectively.

Frank Harmon Architect of Raleigh picked up their ninth award in six years for the design of their Outdoor Classroom in Columbia.

Rounding out the winners in the honor category are: Dixon Weinstein Architects of Chapel Hill for a private residence in Chatham County; Kenneth Hobgood Architects of Raleigh for Plush, a shoe store in Raleigh; Gomes + Staub PLLC of Raleigh for the Scott + Stringfellow Office Fitup in Raleigh; and Clearscapes, PA of Raleigh for Helios Coffee/Carson Medlin Building in Raleigh.

The 2002 Awards Jury reviewed all entries and made its selections in a July meeting in Philadelphia, Pennsylvania. Jury members were: Bernard J. Cywinski, FAIA, Bohlin Cywinski Jackson; Daniela Holt Voith, AIA, Voith & MacTavish Architects; and James Winkler, AIA, Converse Winkler Architecture. All jurors are principal partners with firms in the Philadelphia area.

2002
HONOR AWARD

Dixon Weinstein Architects

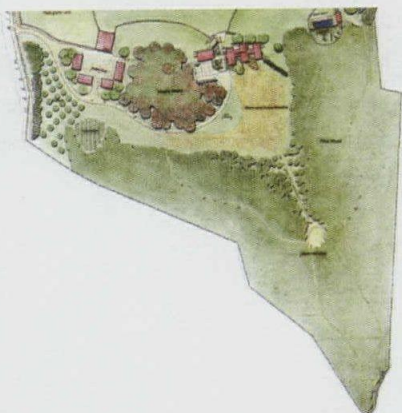

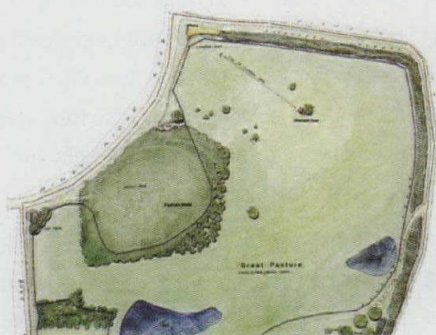

Hayes Cucchiara Residence

Location: Chatham County

Photo Credit: J. West Productions

The objective was to design a modern house of simple forms and clear, open plan, acknowledge the vernacular architecture of the traditional North Carolina farmstead and actively employ light, views and access to engage the rolling site.

Overlooking 30 acres of pastureland, the house draws on the simple utility and clustered effect of the tobacco curing barns and sheds that represented family farming across North Carolina. Four wood-sided barns along a ridge provide most of the rooms for living, as well as the garage and other utilities. The connecting sheds provide the entry and circulation. One also shelters the dining room, filling the space between the two barns containing the kitchen and living room. The sheds offer panoramic views and a close connection to the site.

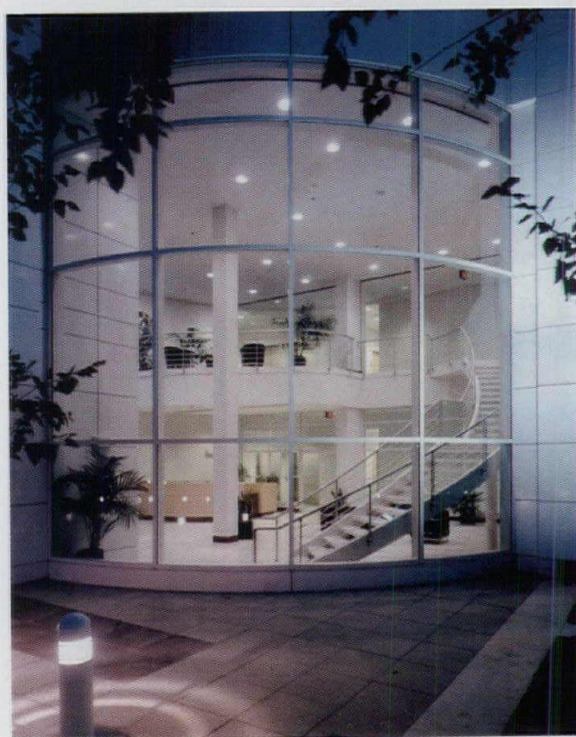

2002
HONOR AWARD

The Freelon Group, Inc.

Lord Corporation World Headquarters

Location: Cary, North Carolina

Photo Credit: J. West Productions

Set in a suburban site, this new three-story headquarters is the partial realization of a master plan for an international company that develops high-tech mechanical and chemical products.

The building is a series of transparent layers allowing light to penetrate well into the interior. The north-south axis links the lobby with the auditorium and separates the open office areas from the enclosed core areas. The east-west axis organizes the private functions of the building and connects offices with conference areas.

The formal development of the south courtyard reinforces the geometry found in the plan. A thin canal of moving water leads to a pond that ends the axis. A series of planted gardens and random patterns of large trees represents what will become a greenway system linking this building with future additions.

2002
HONOR AWARD

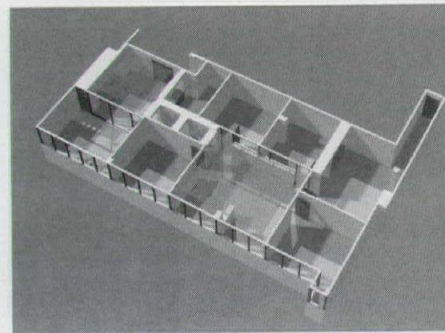

2002
HONOR AWARD

Gomes + Staub PLLC

Scott + Stringfellow Office Fitup

Location: Raleigh, North Carolina

Photo Credit: Gomes + Staub PLLC

Located in the ground floor of a 1983 building, this renovation accommodates the office of a financial planning practice.

The plan establishes two primary spaces: a front reception/conference area and a back open workspace from which all private offices are accessed. Glass planes allow light and view to penetrate the space and reflect ceiling planes.

To establish a hierarchy of well-formed spaces while stretching limited budget resources, the design retains much of the existing construction like the ceiling grid, many light fixtures, and the HVAC infrastructure.

During construction custom office pieces, executed in cherry veneer and painted steel, were added to the project. They were designed with simple broad surfaces to enhance their material presence within the carpet and gypsum board that form the spatial envelope.

2002
HONOR AWARD

Clearscapes, PA

Helios Coffee/Carson Medlin Building

Location: Raleigh, North Carolina

Photo Credit: Jay Mangum

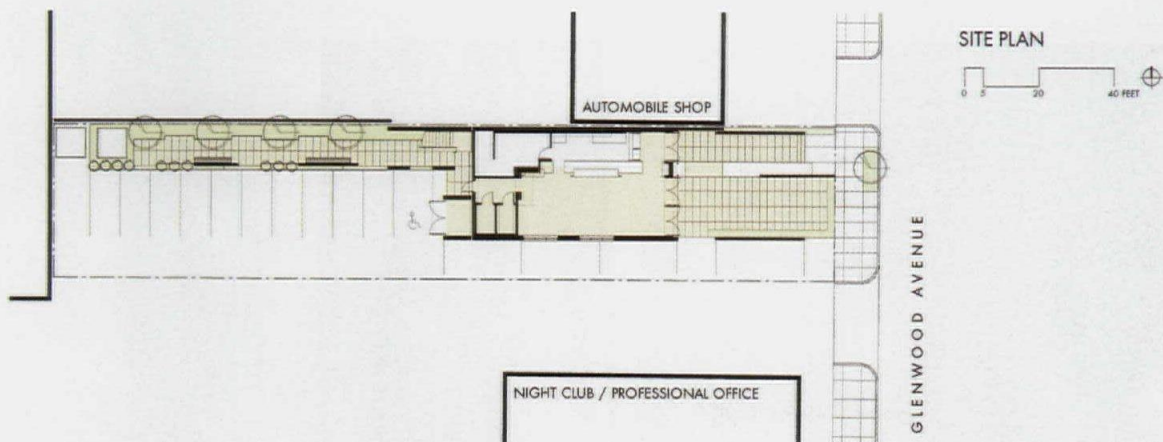

In this office building, the new owner hoped to house both his banking headquarters and a small enterprise for the community. The street façade of the building is unified with a storefront grid. The extended front courtyard, located on a former parking lot, re-engages the street while creating a contained outdoor gathering space and entry.

Second floor offices are divided along an existing eccentric column line to

create separate zones for each company division. Interaction between these divisions is defined through the use of a "Chinese Wall" which houses all of the shared office support functions.

The ground floor coffee shop is divided along the same column line to create both service and dining zones. These two areas adjoin at a continuous coffee bar running the length of the space.

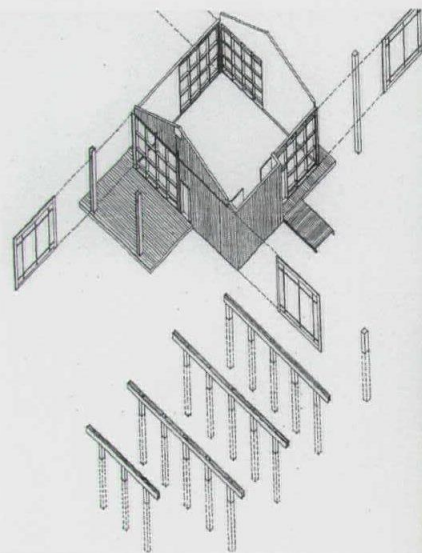

2002
HONOR AWARD

Frank Harmon Architect

Outdoor Classroom

Location: Columbia, North Carolina

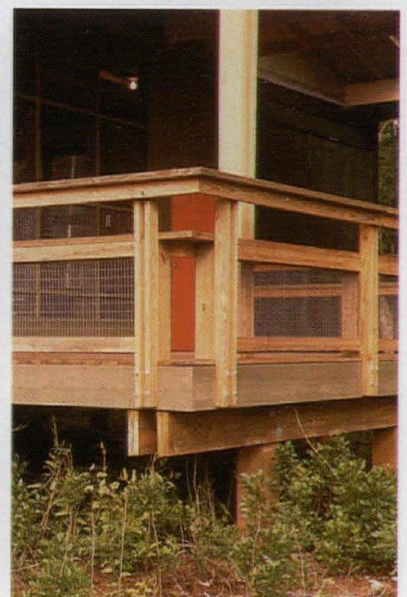

Photo Credit: Brian Hoffman

The U.S. Fish and Wildlife Service wanted an outdoor classroom to lure visitors into the swamp along the Scuppernong River. A place where they would feel safe from snakes, bugs and other creatures while learning about them.

The classroom is perched on stilts with twelve-foot high screened windows on all sides to allow tree shadows, flower smells and bullfrog sounds to become part of the curriculum. Sliding plywood doors close the windows at night and during storms and the space works as an indoor-outdoor laboratory with steps leading to the swamp. The ceilings, also at twelve feet, increase natural ventilation with deep eaves to shelter the walls. Native wood that was cut and milled in the county was used throughout.

2002
HONOR AWARD

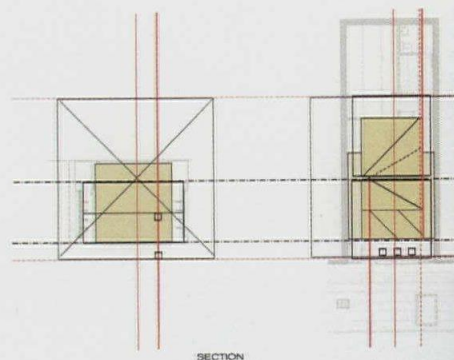

2002
HONOR AWARD

Kenneth Hobgood Architects

Plush

Location: Raleigh, North Carolina

Photo Credit: J. West Productions

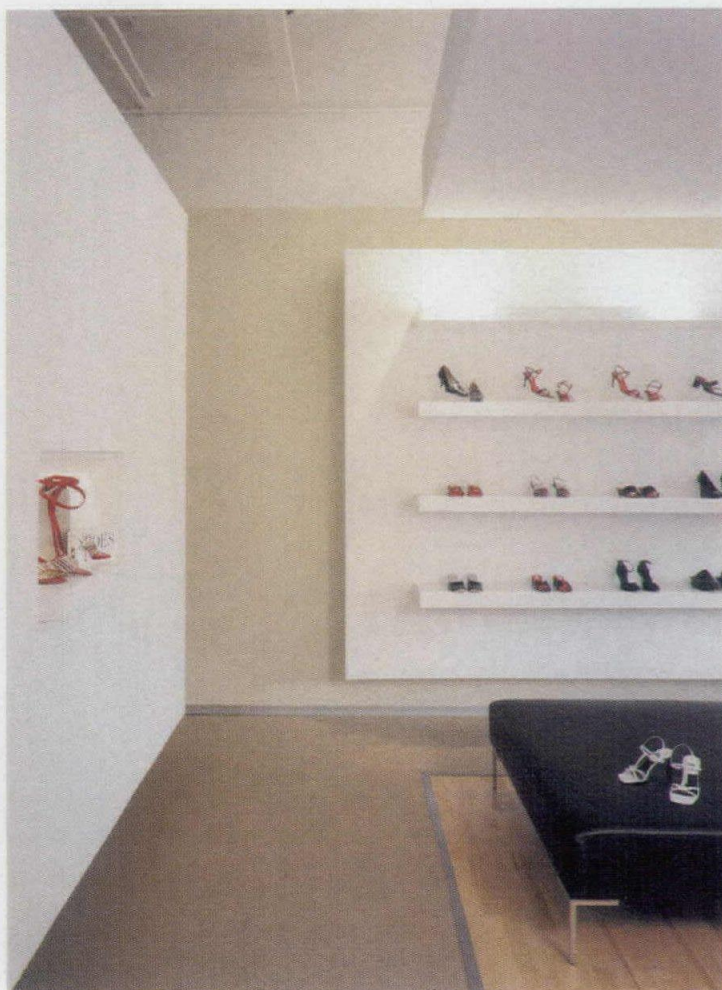

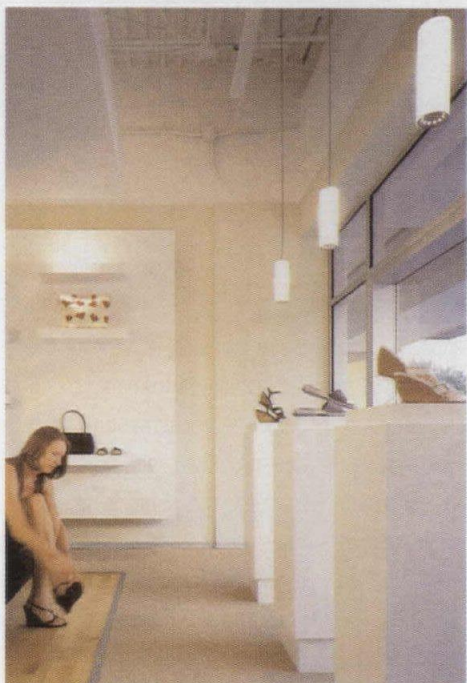

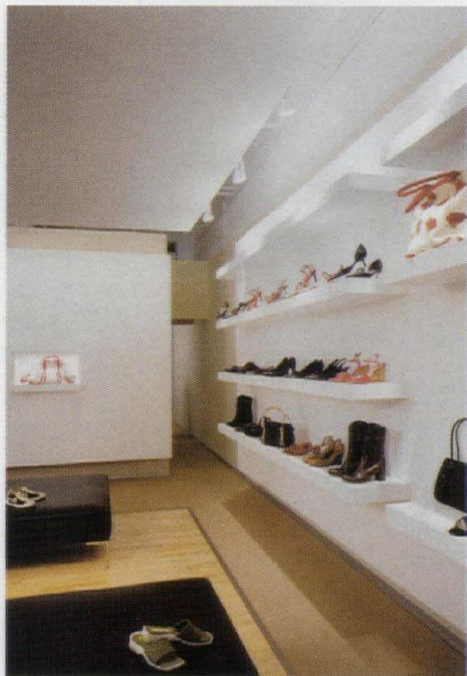

With a budget of only \$40,000 and 1,000 square feet of space in an existing shopping center, Plush called for a new display and customer area, office, transaction counter, bathroom and storage.

The main display area is configured as a square/cubic volume with six sides including the central floor panel and ceiling

plane. The sides are paired and complementary as a gesture to the mirror image of a pair of shoes.

Square leather benches are arranged in the center of the space. Light proportion and simple materials are used to offset the budget constraints and provide a background of simple elegance for the display of shoes.

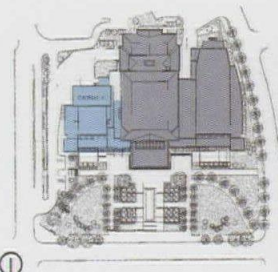

2002
HONOR AWARD

Pearce Brinkley Cease + Lee, PA

Fletcher Opera Theater and Meymandi Concert Hall - BTI Center for the Performing Arts

Location: Raleigh, North Carolina

Photo Credit: J. West Productions

The program included the design of two new performance halls for an existing civic auditorium. Urban design issues would greatly influence the project. It was also important to generate a cohesive, civic-scaled façade extending across the entire site.

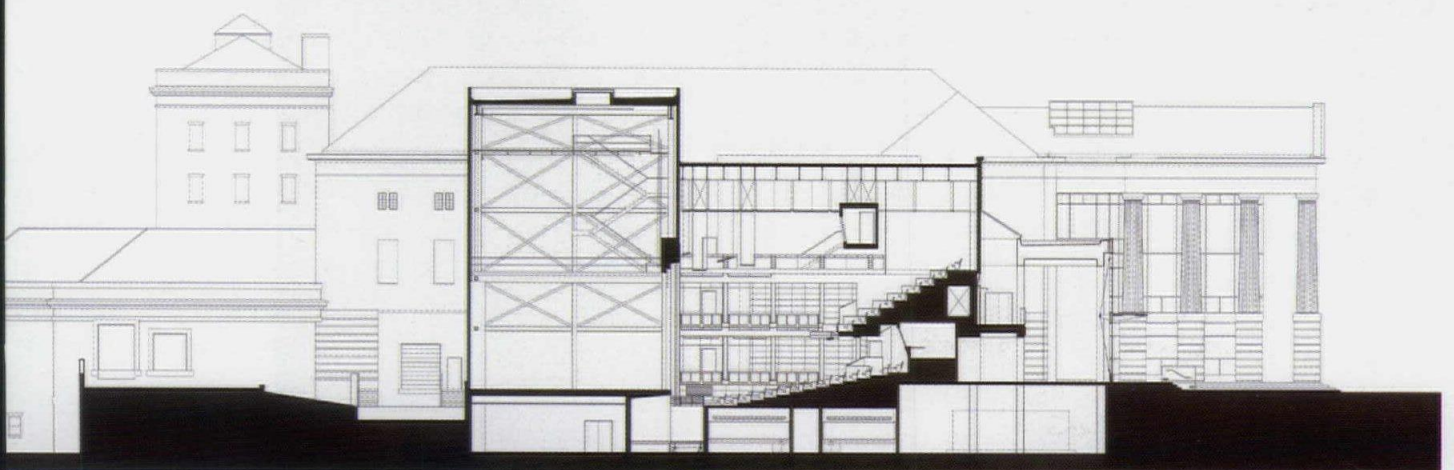

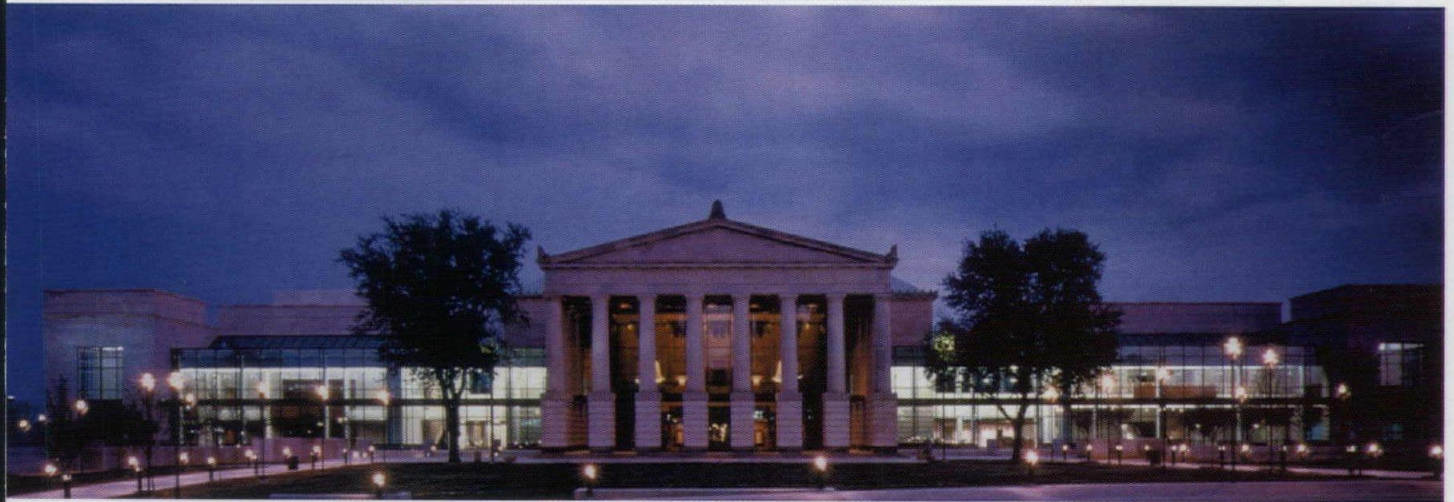

The Fletcher Opera Theater seats 600 people and provides a surprisingly intimate relation from every seat to the stage. The theater attempts to blur the boundary between the stage and audience. The proscenium in the

room is not rigidly defined and extends well into the audience space, bringing the actors and patrons closer together. Using cherry paneling, painted steel railings, frosted glass and Vermont slate, the architects worked to find the proper balance to allow elegance and technology to coexist in the same space.

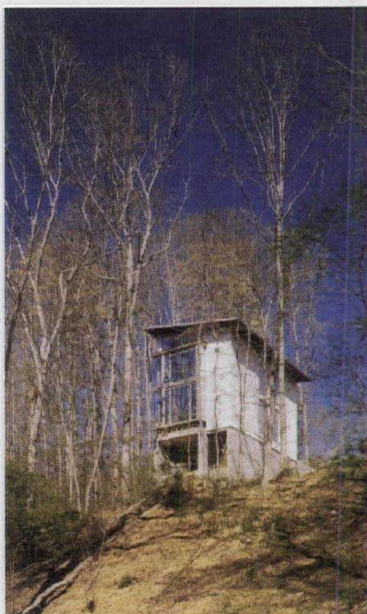

On the opposite side of the expanded complex, the larger Meymandi Concert Hall, seating 1,700 people, took on the massing of the classic "shoebox" hall. In this space virtually

every decision was driven by the concern for acoustical performance. The facility itself is basically a concrete box, using pre-cast panels and a roof of 8 inch poured concrete over steel trusses. The stage is made with a traditional rock maple, while cherry paneling is carried over from the opera hall. The exterior of both new additions are clad in brick and Indiana limestone, seamlessly tying each building to the older Memorial Auditorium.

2002
HONOR AWARD

2002
MERIT AWARD

Vincent Petrarca, Assoc. AIA

Honeymoon Cottage

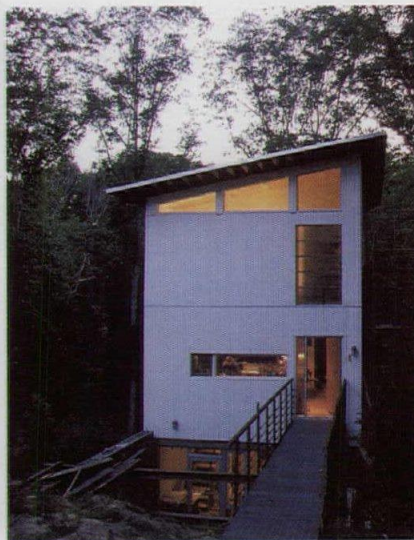

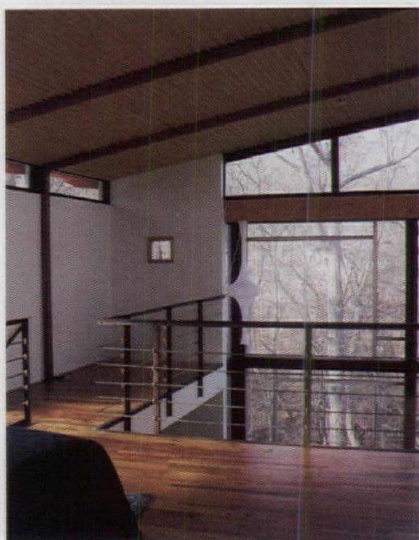

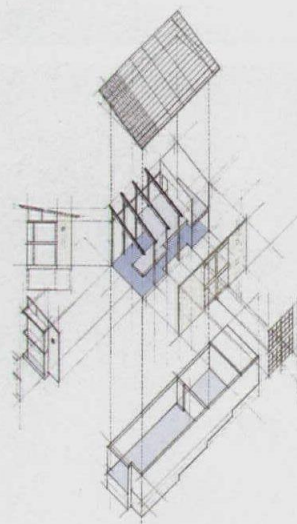

Location: Raleigh

Photo Credit: J. West Productions

The Honeymoon Cottage is as much a product of its specific place as its economic context. The owners built their dream through vision, investment and sweat.

The owners – acting as the designers, contractors, laborers and occupants – physically fabricated this residence. It maintains the same program, budget and price as the houses found in its context. Rather than reinventing, the house embraces and reinterprets the type, economy and construction practices found in its early suburban neighborhood in Raleigh.

By sharing their wedding day at the house, the concepts of togetherness, honesty and optimism remain forever embodied in the form, space and process of the Honeymoon Cottage.

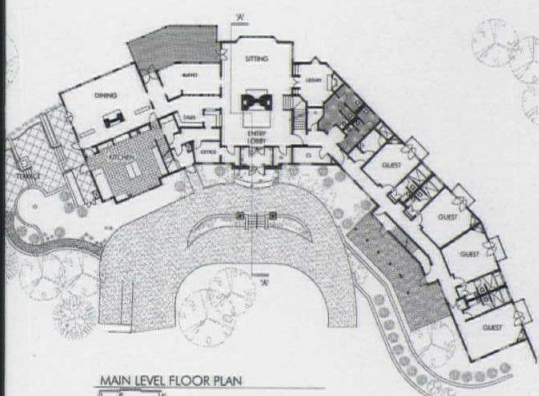

Samsel Architects, PA

The Sourwood Inn

Location: Asheville

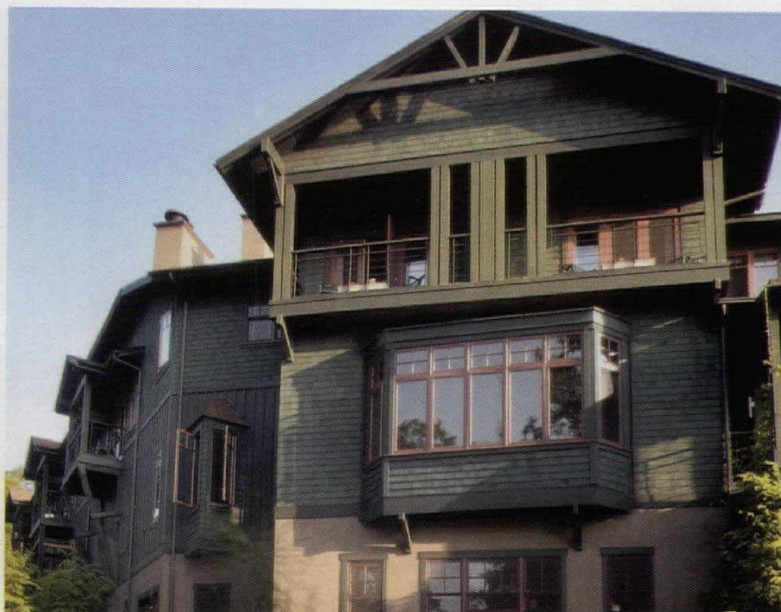

Photo Credit: John Warner Photography, Gil Stose

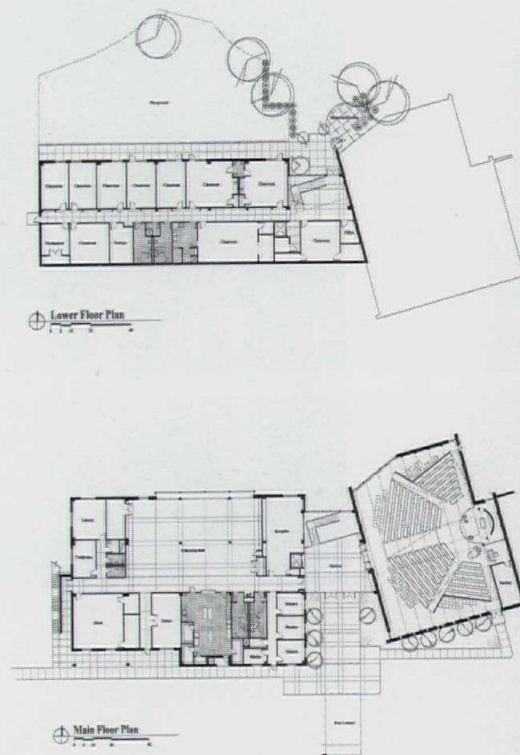

The inn's program was driven by the owners desire to create an understated haven from modern living. The site provided an ideal setting to satisfy the goal of significant land conservation with minimum development.

The arts & crafts design was inspired by structures that dotted the mountains of North Carolina in the early twentieth century. The massing of the building as well as the exterior colors were selected to help the structure "recede" into the mountains. Native stone and multiple outdoor spaces were created to offer a variety of connections to the land and sun.

Guest room layout was designed to keep the building shallow on the steep terrain and maximize great scenic views.

Cherry Huffman Architects

United Church of Chapel Hill

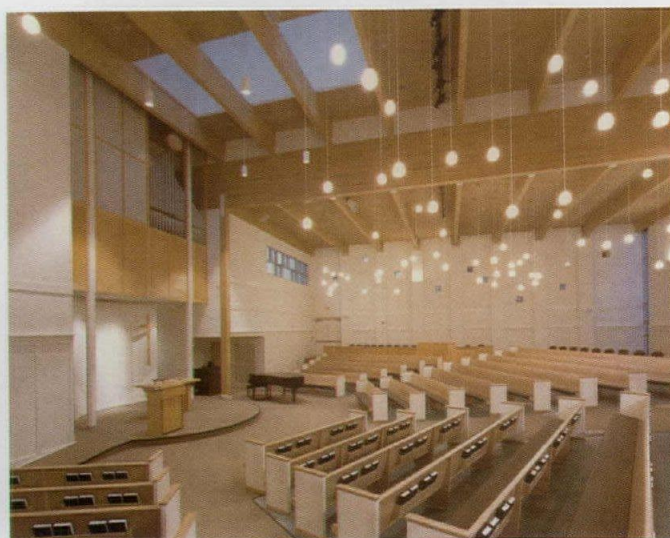

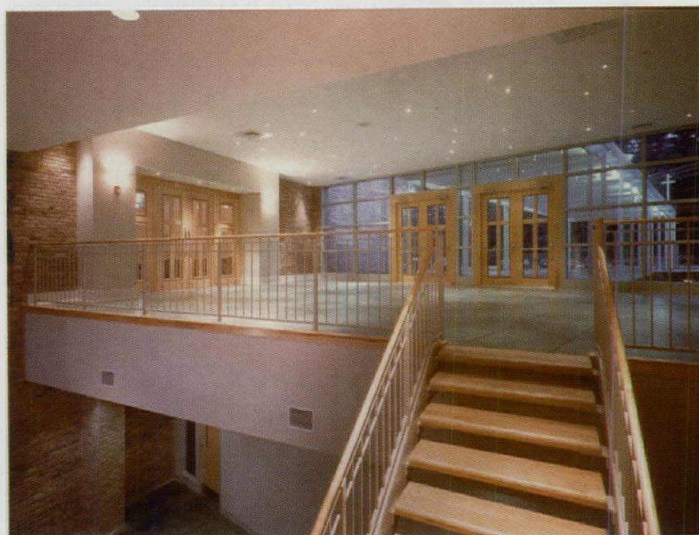

Location: Chapel Hill, North Carolina

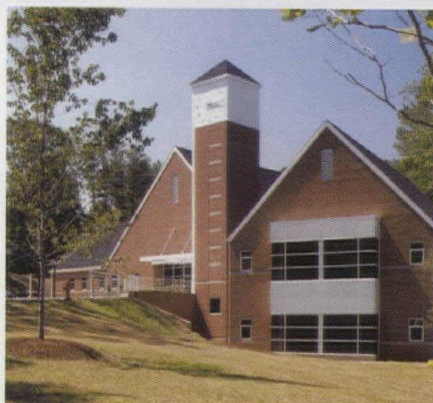

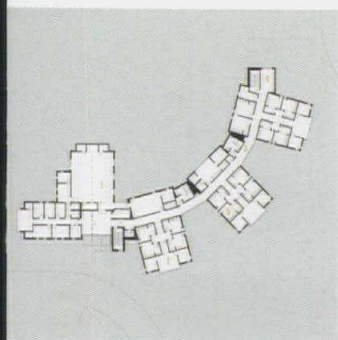

Photo Credit: J. West Productions

This non-denominational Christian church sought a worship space that was outward reaching yet intimate and inspirational. The design concept was that of a "twenty-first century meeting house," mindful of the historic roots of the congregation but respectful of their desire to worship in a modern space.

Central to the design was the need to respond to the site – a long, narrow and steeply sloped area with a stream at its lowest point.

The change in grade allowed for classrooms on the bottom floor, opening directly to a playground with spectacular views of the area. The narthex serves to welcome visitors, the sanctuary and the fellowship hall, is a one-story space that opens to the stream. The sanctuary was built at an angle and is formed by simple planes held apart allowing light to enter the space.

The Freelon Group, Inc.

The Hill Center

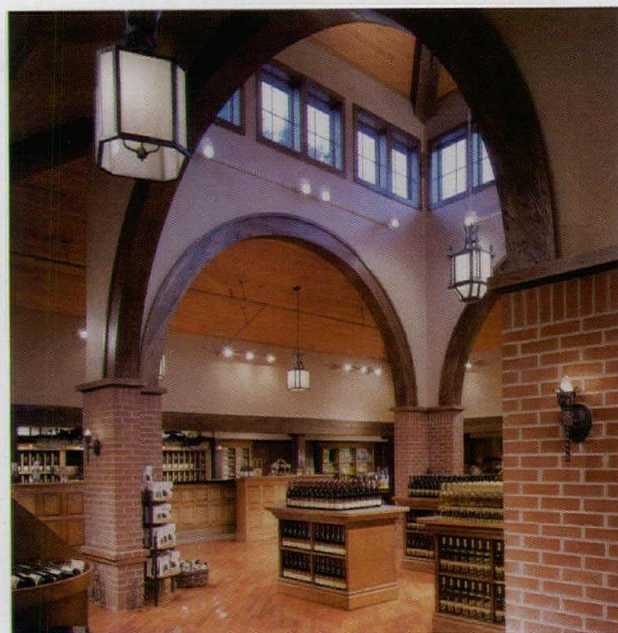

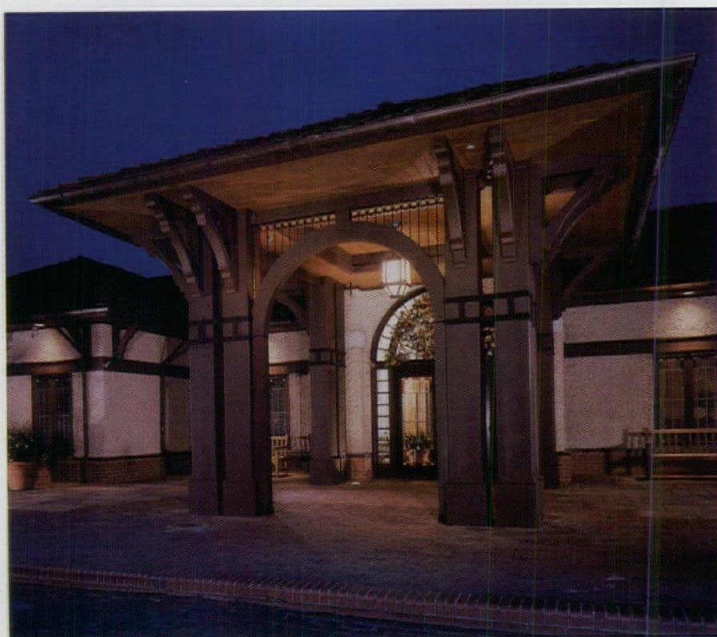

Location: Durham, North Carolina

Photo Credit: J. West Productions

This private school serves children with specific learning disabilities. The classrooms are smaller than typically found in traditional schools due to the center's four-to-one student/teacher ratio.

Reflecting the school's previous building, a 1920's farmhouse, the design attempts to break down the scale into smaller, more residential components. Program areas include a main lobby, central administration, an auditorium and entry into the main classroom spine where three academic houses are located. Other support spaces are located behind this main design element.

The curved spine is a response to two site constraints – a wetlands area in the southeast corner of the site, and steep topography with dense hardwoods in the northwest corner. The clock tower is a traditional element that marks the prominent corner site as well as the main entrance, providing the "hinge" point for the sweeping curve.

Little & Associates Architects

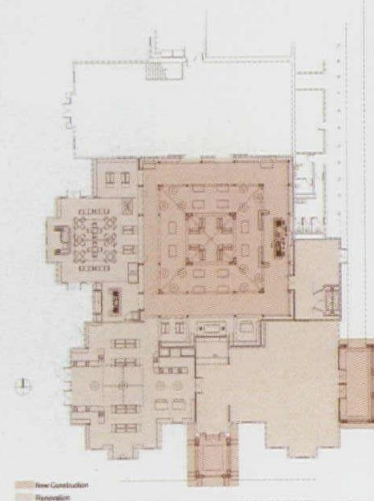

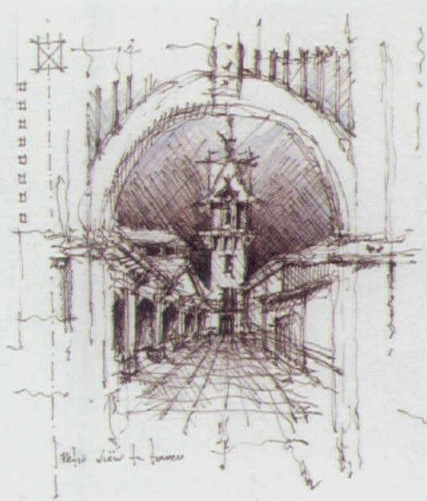

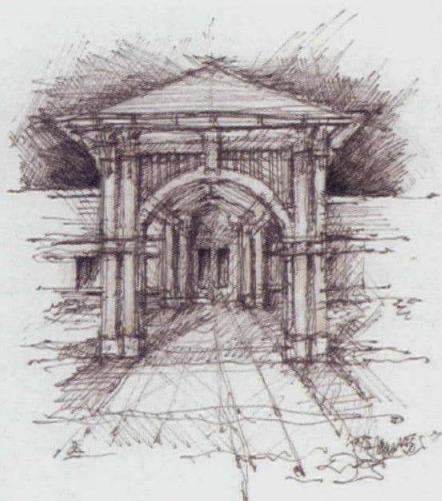

Biltmore Estate Winery Addition

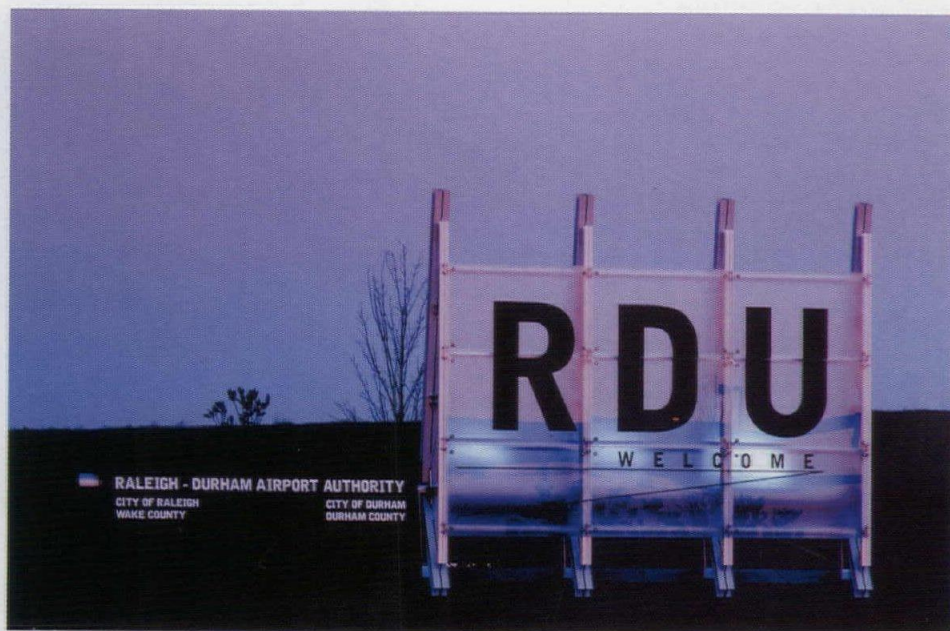

Location: Asheville, North Carolina

Photo Credit: Don Dubroff

The Biltmore Estate Winery has become a feature destination on the grounds of the Biltmore Estate.

Richard Morris Hunt's concept for the dairy barn was a clear diagram of three wings for cattle feeding that created two main courtyards. A central spine united these wings while a four-sided clock tower marked its center and became the dominant feature from the pasture. In the 1980's, the barn was converted and enlarged to become the Biltmore Winery - a transformation that clouded the features of the original structure. This project sought to reintroduce clarity to the original designs, thus returning the building to some of the basic principles established by Hunt. Through the addition of a new entry sequence, exterior patio, wine pavilion and full renovation – the Winery is revisited.

Pearce Brinkley Cease + Lee

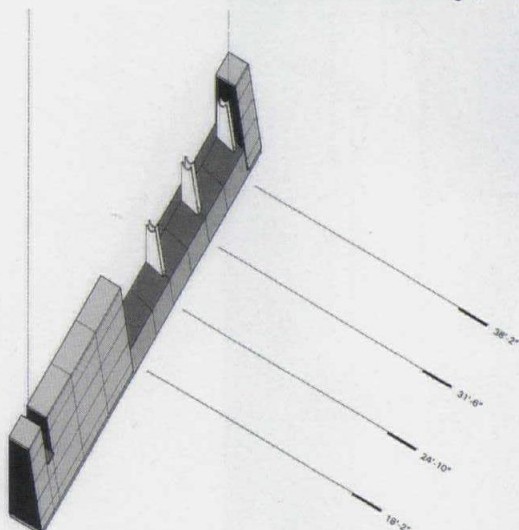

RDU Entrance Markers

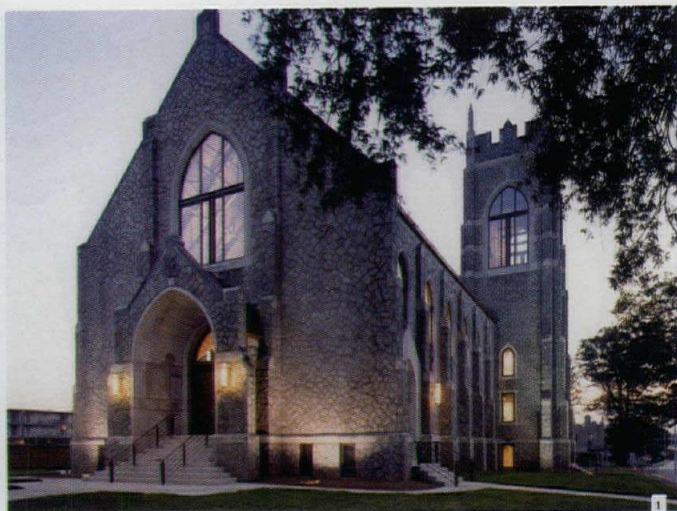

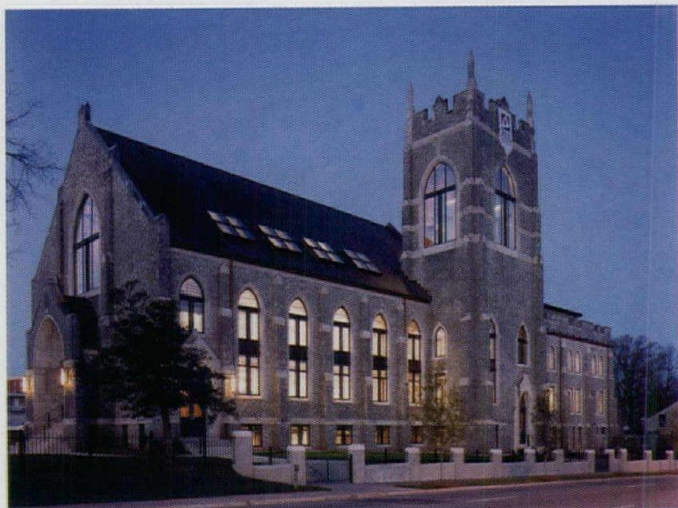

Location: Raleigh-Durham International Airport, North Carolina

Photo Credit: J. West Productions

The design challenge: Create a pair of signature entrance markers to be located at major entrance points of the Raleigh Durham International Airport to welcome passengers to the airport, and to reflect the airport's growing importance as a regional transportation center.

The solution: The new markers convey a level of refinement consistent with the image of a bustling airport in a recognized research and technology center. Made of transparent back-lit glass panels supported by four custom-fabricated structural aluminum trusses, the signs make a formal reference to objects typically encountered at airports such as radar installations and large, overhead signage assemblies.

FMK Architects

McColl Center for Visual Art

Location: Charlotte, North Carolina

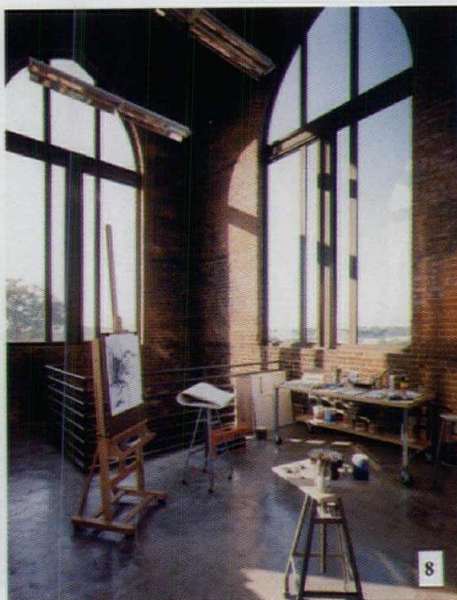

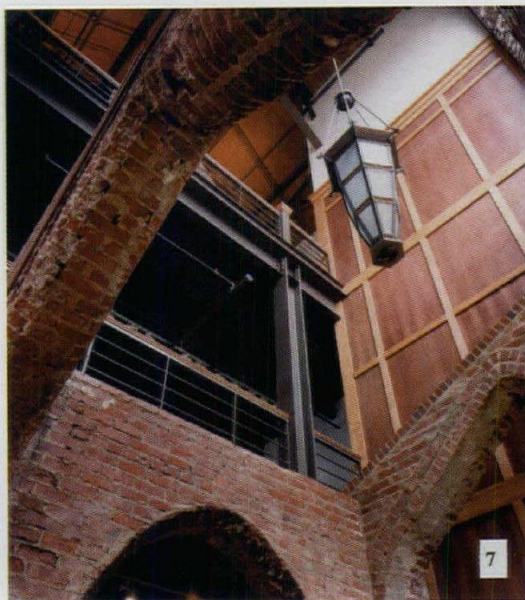

Photo Credit: FMK Architects (pre-renovation)

Chuck Choi (completed project)

The challenge of this project was to insert an entirely new and secular building into the ruin of a former church, which burned in 1984 and laid untouched for 15 years.

The 34,000 square foot facility houses individual artists' studio spaces, a metal shop, woodworking shop and a fully equipped darkroom.

An important design objective was to maximize studio space without destroying the inherent character of the historic stone ruin. This was achieved by utilizing a new exposed steel interior structure and open ceiling while incorporating simple, light-reflecting interior finishes. Studio space can easily be adjusted according to the needs of the artists. The signature areas within the facility are the three story public foyer and the gallery space.

When AIA Contract Documents are in force, everyone's interests are in balance.

AIA Contract Documents were created from a consensus of contractors, developers, lawyers and architects.

They have been written expressly to balance the interests of all parties.

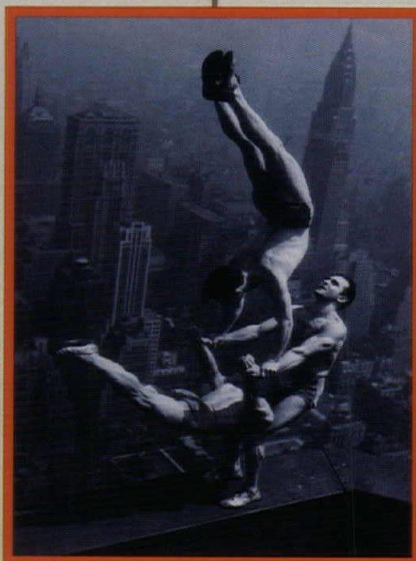

They cover all phases of a project from beginning to end. And, they have been clarified by 115 years of legal precedent.

Courts have recognized their legal legitimacy time after time. Which is why no other standard contract document

system is as effective at keeping projects running smoothly and finishing successfully. They're available in paper

or electronic form, with flexible pricing. Plus our latest software release features full Microsoft® Word functionality and improved navigational aids, as well as formatting and collaboration

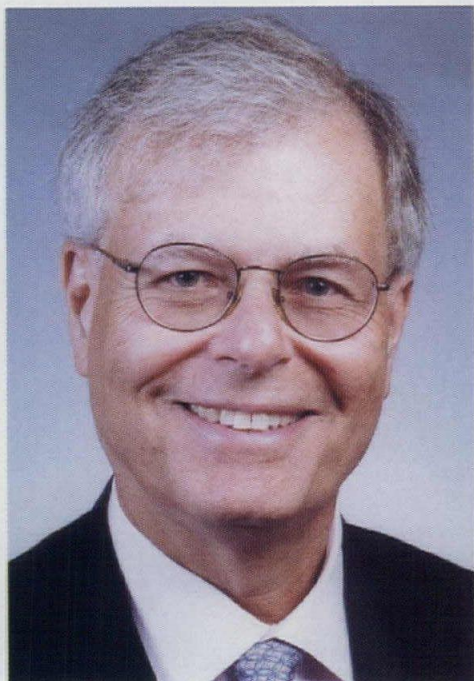

options. To learn more or to download the software, contact AIA North Carolina at www.aianc.org or call 1-919-833-6656.

Charlotte Architect/Artist Presented Gold Medal Award

Charlotte architect and artist Jeffrey A. Huberman, FAIA is the 2002 recipient of the F. Carter Williams Gold Medal, the highest honor the North Carolina Chapter of the American Institute of Architects accords its membership. The Gold Medal is awarded in recognition of a distinguished career of extraordinary accomplishments as an architect.

Huberman received his Bachelor of Architecture from the University of Florida in 1964. Upon graduation, he began practice with Odell Associates and later moved to Wolf-Johnson & Associates. In 1971, he and fellow architect Harvey B. Gantt, FAIA founded Gantt Huberman Architects launching a 31-year partnership that continues today.

Throughout his career, Huberman has devoted a great deal of time and personal expertise in service to the professional community. He has held membership with the North Carolina Board of Architecture since 1994 and has since served as the organization's Secretary, Treasurer, Vice-President. He now holds the office of President. Huberman has also been very involved in the National Council of Architectural Registration Boards (NCARB), a non-profit federation committed to the development of professional standards for the profession of architecture. In this capacity, he has sat on and chaired a variety of committees including: the Intern Development Program; Reciprocity Impediment Task Force; and Procedures and Documents Committee.

Huberman has served as AIA North Carolina Secretary, Vice-President and President. For his proven career and commitment to the organization, Huberman was elevated to the AIA College of Fellows in 1994. He also touts a long list of AIA credentials including: ArchiPAC Advisory Board; South Atlantic Regional Council AIA Leadership Council Board Member; Fellow Nomination Committee Chairman; and Long Range Planning Committee Chairman.

Aside from his architectural career, Huberman has also established himself as an accomplished painter and artist. Permanent displays of his work are featured in displays throughout the state of North Carolina and also in locations in Pennsylvania and South Carolina. He has also taken part in individual and group exhibitions in the midwest, east coast and the south.

Recognition comes steadily to Huberman. Along with receiving several awards from AIA North Carolina, he has also been recognized for service to the City of Charlotte and Mecklenburg County. Huberman is currently listed in the most recent edition of "Who's Who in America".

"It would not be an overstatement to say that Jeff's commitment to high standards of professional practice, coupled with his willingness to work hard, has made a difference in how we practice architecture in this state and nationally," said partner Harvey Gantt. "I am obviously proud of all the acclaim and honors my partner, colleague and friend has achieved over the years."

Boney, PLLC Named North Carolina Firm of the Year

Boney Architects, a 50-person planning, design and construction administration firm with offices in Wilmington, Raleigh and Charlotte, is the 2002 recipient of the North Carolina Chapter of the American Institute of Architects Firm Award.

This honor is the highest presented to an architectural firm by the state chapter. It is given annually to a North Carolina firm that has consistently produced quality architecture with a verifiable level of client satisfaction for a period of at least 10 years as an established presence in the state.

Known early on as a pioneer in educational facility design, Boney schools can be found in 74 of North Carolina's 100 counties with over 1,500 facilities completed. They have completed projects for 10 of the 16 University of North Carolina campuses, as well as 20 projects for community colleges throughout the state. Specific projects include the

Walter Royal Davis Library at UNC Chapel Hill, Anne and Benjamin Cone Art Center at UNC Greensboro, Centennial Campus Middle School in Raleigh and Veterans Park Educational Campus in Wilmington.

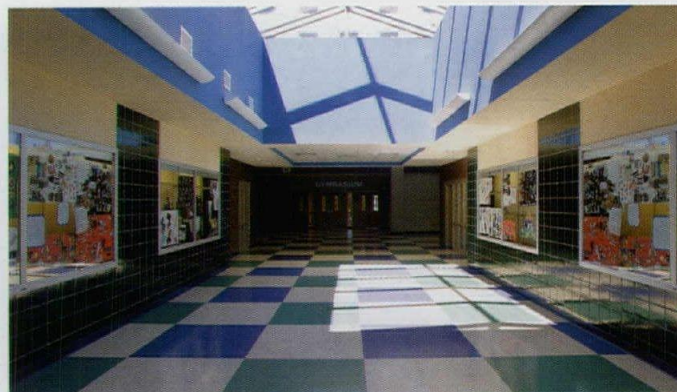

Aside from their reputation in educational facility design, Boney also claims a diverse portfolio of design in healthcare, commercial, churches and other facilities. This includes the Employer's Association Headquarters and Training Facility in Charlotte, Cape Fear Memorial Hospital in Wilmington and their own firm headquarters located in Wilmington.

The Cone Art Center, located in Charlotte, was photographed by Gordon Schenck, Jr. ►

Founded in 1922 by Leslie Boney, the firm was originally established as Leslie N. Boney, Architect. Boney's firm soon grew to become a family business when his three sons, Leslie Jr., William and Charles, joined him as partners, establishing a unique partnership as the only firm in the nation

2002 FIRM AWARD

Veterans Park was photographed by Greg Loflin of Greensboro.

composed of a father and three sons. In the late 70's, Charles and William's sons, Charles, Jr. and Paul, also joined the firm. In 2000, the firm name changed to Boney, PLLC.

Since the early days of the firm, Boney has accepted a vast array of awards for their many projects. Recent awards include: AIA Wilmington Award for Community Improvement; National School Board Association Projects of Excellence; Louis I.

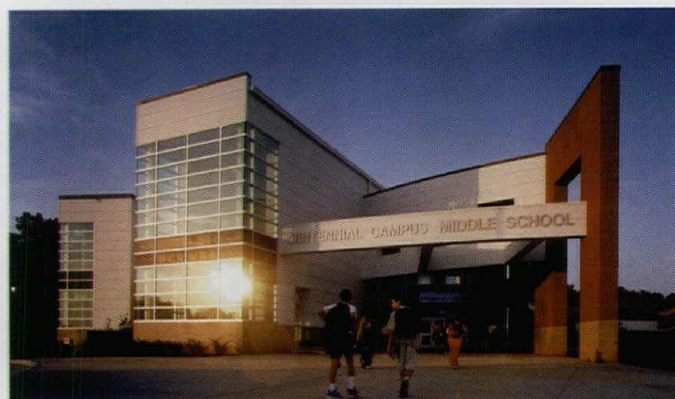

Kahn Citation, American School and University; and Council of Educational Facility Planners International Exhibition of School Architecture. Boney's architecture has also been featured as part of a study on our nation's schools.

Boney's long history can be accredited to the firm's awareness that as time changes, they must change right along with it. Colleague John Atkins, III, President and CEO of O'Brien/Atkins Associates, PA said, "The public sector is a

challenging environment for architects, however for over eight decades, Boney has consistently delivered the right combination of personal service, integrity and creative design solutions resulting in solid relations with their clients. When one thinks of North Carolina architectural firms that have successfully sustained themselves across time and have made a significant impact on our environment, Boney Architects has no rival."

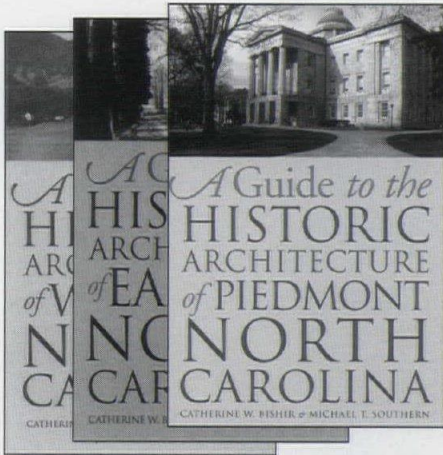

The rendering of the Wachovia office building was done by Art Associates of Ohio.

Centennial was photographed by Jim Sink, Artech, Inc. of Raleigh.

2002 WILLIAM H. DEITRICK SERVICE MEDAL

Charlotte Architect Awarded Service Medal

Charlotte architect James C. Hemphill, Jr., FAIA is the 2002 recipient of the William Henley Deitrick Medal for Service from the North Carolina Chapter of the American Institute of Architects. The award is presented annually to a North Carolina architect who performs extraordinary service to the chapter, profession or to their community.

Hemphill earned his architecture degree from Clemson University. Upon graduation, he served as apprentice to his father, also an architect. In 1952, he joined Odell Associates and served as Principal Associate until 1970 when he founded Hemphill Associates.

Hemphill has a long record of leadership in a variety of committees and organizations. He played a lead role in establishing the Charlotte Section of AIA North Carolina. He has also served as President of the Charlotte Section, President of AIA North Carolina, President of the Charlotte Civitan's Club and President of the North Carolina Board of Architecture. Hemphill was also bestowed with one of the AIA's highest honors, election into the College of Fellows. He chaired a variety of committees including the AIA North Carolina Programs Committee, Public Relations Committee and By-Laws Committee.

Hemphill's work has had a lasting effect on the industry today. He led the effort to establish the 16-division format of specifications indexing that is still used today in the construction industry. He is also the author of several publications including "Glossary of Architectural Terms" for students at Clemson University; "New AIA Filing System" and "Uniform System".

Hemphill is strongly dedicated to the future of the architectural profession, volunteering his time to mentor students of architecture, architectural apprentices and professionals. He served as a continuing lecturer to the Professional Practice classes at Clemson University for 10 years.

Retired Raleigh architect Macon S. Smith, FAIA and last year's Deitrick honoree, says of Hemphill, "I can't think of but a few architects that have devoted so much of their time and energy to the education of architectural apprentices and professionals as well as improving the image of the profession with the public."

Colleague Harvey B. Gantt, FAIA of Gantt Huberman Architects in Charlotte concurs, saying, "I've always admired the fact that Jim has consistently served his profession and the community and has done both with the integrity and character befitting a man of stature in our profession."

AIA NORTH CAROLINA LEADERSHIP

2003

Kerry Alan Kane, AIA
President

Kerry Kane is a principal of Small Kane Architects, PA, in Raleigh. He received a Bachelor of Arts from Harvard University and a Master of Architecture from N.C. State University where he was the recipient of the AIA Certificate of Merit Award for his work. Kane, who has taught at N.C. State's School of Design, has served as President of the local Raleigh Section (now known as Triangle) and convention chairman of the 1993 Summer Design Conference. Kane has served a total of five years on the AIA North Carolina Board of Directors. His community activities have included chairing the City of Raleigh Appearance Commission.

Steven D. Schuster, AIA
President-elect

Steve Schuster is a partner with the firm of Clearscapes in Raleigh that has won a host of local, regional and national awards for design excellence. Schuster received his Bachelor of Architecture from N.C. State and a Master of Architecture from the University of Colorado. Schuster has been a visiting instructor and lecturer at N.C. State, UNC Chapel Hill, Meredith College, M.I.T., and the University of Colorado while taking a leadership role in AIA Raleigh, Preservation North Carolina and the Raleigh Historic Properties Commission.

Alan D. McGuinn, AIA
Treasurer

Alan McGuinn is a project architect with the firm of Calloway Johnson Moore & West in Asheville. He graduated with honors from the University of North Carolina at Charlotte with a Bachelor of Architecture. He is a recipient of the AIA Traveling Fellowship and the AIA School Medal and certificate of merit from the Henry Adams Fund. McGuinn previously served as a director for AIA North Carolina, and as chair of the A/E Joint Coordinating Committee. He was the 1996 President of AIA Asheville and served on the Section Board for four years. He is currently active in the Asheville Community as a member of the Buncombe County Planning Board.

James Easton Rains, Jr., AIA
Secretary

Jim Rains is the owner of Rains Studio, PA, an architectural, construction administration and lender review services firm located in Ramseur. He received his Bachelor of Environmental Design in Architecture from N. C. State University in 1980. Rains has previously served as Section Director and Officer in both Raleigh and Wilmington, President of the Wilmington Section in 1996, Chairman of the Government Affairs Committee in 1997, and Chairman of the AIA-PAC Committee in 1999, which set an all time record fundraising level. In 1985, Governor Jim Martin appointed Rains to a four-year term on the Board of Directors of the Alternative Energy Corporation. He is active in the American Arbitration Association with his service on the Construction Industry Panel since 1989.

Bobby W. Patterson, AIA
Immediate Past President

Bobby Patterson is founder of the Winston-Salem firm of Architectural Design Associates. He received a Bachelor of Arts in Architecture from the University of North Carolina at Charlotte. He has previously served as Chapter Secretary, Winston-Salem Section President and as board member of AIA-PAC and the N.C. Architectural Foundation. Patterson's past civic service includes the Forsyth County Joint Historic Properties Commission and volunteer design service to mission groups in West Africa, Romania and the Caribbean.

Wayne H. Camas, AIA
Director, Membership

Wayne Camas is the founder and President of Camas Associates Architects PA in Charlotte. Camas is a graduate of Clemson University with a Bachelor of Pre-Architecture and Master of Architecture, with a Minor in City Regional Planning. Wayne previously served as Chairman of the Charlotte AIA Week Committee and has lectured on this topic at the AIA North Carolina Leadership Conference and the National AIA Grassroots in Washington. Among his professional affiliations, he serves on the City/County Smart Growth Committee, as a director on the Charlotte Repertory Theatre Board, and is a founding Board member of Interiors Tonight!, a fundraiser benefiting RAIN (Regional Aids Interfaith Network) and MAP (Metrolina Aids Project). Previously he served on the Arts & Sciences Council Grassroots Grants Council and the Cultural Diversity Committee.

2003 AIA NORTH CAROLINA LEADERSHIP

Ann W. Collier, AIA

Director, Public Relations

Ann Collier is a principal with the firm of Oakley Associates, Architects, P.A. in Rocky Mount. She received her Bachelor of Environmental Design in Architecture from the N.C. State School of Design. Among her many professional affiliations and activities, Collier served as Eastern Section President in 2000.

John Peter Barie, AIA

Director, Continuing Education

John has recently established John Barie Architecture to bring Practice Management consulting to the design and construction industry and to continue his focus as a project director/design director on a variety of educational, institutional and residential projects. After earning his Bachelor of Architecture from Penn State University, John served four years active duty in the U.S. Army including a tour in Germany and service in the Republic of Vietnam where he was awarded the Bronze Star Medal. In 1998 he led the Ad Hoc Committee that organized the Triangle Section joining Raleigh and Durham-Chapel Hill into a single entity. He was elected the first president of the newly formed AIA Triangle Section in 1999 and served a second term in 2000. John also served on the AIANC 2000 Member Services Task Force. This is his second year as Director of the Continuing Education Academy.

Jesse Julius Peterson, Jr., FAIA

Director, Collateral Organizations

Jay Peterson is Founder and Consulting Architect for Peterson Associates, pa in Charlotte. He has a Bachelor of Architecture degree from the School of Design at N. C. State University (1959). He was President of AIA Charlotte (1992) and Chairman of AIA-PAC (1995). He is a member of the North Carolina State Building Commission and a member of the North Carolina State University Foundation.

Quentin Hunter, AIA

South Atlantic Region Associate Director

Quentin Hunter graduated from Louisiana Tech University in 1996 with a Bachelor of Architecture and a minor in Graphic Design. Hunter currently services as the South Atlantic Region Associate Director. He previously served as Director for the Piedmont section for four years.

Kevin Gentry, AIA

Asheville Section President

Kevin Gentry is Vice-President and managing partner for Masters Gentry Architects, located in his native city of Asheville. He is a registered architect in the states of North Carolina and Maryland and is NCARB certified. Kevin practiced architecture in Georgia, Indiana, Virginia, Maryland and Washington DC before returning to Asheville. He is a cum laude graduate of the University of Tennessee College of Architecture, where he was a recipient of national design awards presented by the American Institute of Architecture Students and the National Science Foundation. Kevin has served on the Asheville section board as Chairman of Membership Communications, as well as various subcommittees for fundraising and public awareness. Kevin currently serves as a member of the Board of Directors for the Irene Wortham Center in Asheville, which provided services to children and adults with developmental disabilities.

Barbara Field, AIA

Asheville Section President-elect

Raised in Atlanta, Georgia, Barbara Field studied architecture at Georgia Institute of Technology and was the first woman to receive a Bachelor of Architecture degree from Georgia Tech (1965-1966). She has practiced architecture at firms in Atlanta, New Canaan, Connecticut and Cambridge, Massachusetts. Since 1980, she has worked with SPACEPLAN Architects in Asheville, North Carolina. A member of the American Institute of Architects since 1980, Field has served as the President of the Asheville section, director of AIA North Carolina and Vice Chairman of the AIA North Carolina PAC Board. In 1991, Field won a seat on the Asheville City Council and went on to serve for ten years. She is currently a Director of MSD (Buncombe County Metropolitan Sewerage District) board, the Asheville Area Arts Council, the Alcohol and Beverage Control board, Our Next Generation board, the YMI Cultural Center and is a Trustee of Pack Place, Education, Arts and Science Center.

AIA NORTH CAROLINA LEADERSHIP 2003

Charles Terry Shook, AIA
Charlotte Section President

Terry Shook is president and founder of Shook Kelley, a Perception Design firm specializing in strategic consulting services, including branding, architecture, communication design and interior design. He graduated cum laude in 1976 from the College of Architecture at UNC-Charlotte, and completed graduate coursework at North Carolina State University in 1978. Terry is currently Vice President of the Charlotte Chapter of the American Institute of Architects (AIA), a member of the International Downtown Association and the Urban Land Institute. He has received numerous awards including being named a finalist for the Charlotte Chamber's Entrepreneur of the Year. Terry's an annual lecturer at Harvard University's Graduate School of Design and a frequent guest lecturer for national organizations such as the Urban Land Institute, The Seaside Institute, National Trust for Historic Preservation, and the International Council of Shopping Centers, among others.

Robert Johnson, AIA
Charlotte Section President-elect

Rob Johnson is a Vice-President and Principal with MBAJ Architecture with offices in Shelby, Charlotte, and Raleigh. MBAJ serves clients across the Carolinas and mid-Atlantic region. Rob is a native of Wilmington, North Carolina and a 1977 graduate from the College of Architecture at UNC-Charlotte. He earned a Masters of Architecture degree from the University of Illinois and was the recipient of the distinguished Edward L. Ryerson Traveling Fellowship. This is the highest award given to an architectural design student. After working with TVS&A in Atlanta through most of the 1980s, he returned to North Carolina in 1988. Johnson resides in Charlotte and is a proud father of three children. He is the past co-president of the Park Road Elementary School PTA, currently serves on the PTA board at Myers Park Traditional Elementary School and is chair of the CPCC Architectural Technology Advisory Board. He is a member of St. Mark's Lutheran Church and enjoys golf, running and snow skiing. While serving on the AIA Charlotte Board, he has taken a personal interest in government affairs and the annual Joe Mallamo Memorial Golf Outing that benefits the College of Architecture at UNC-Charlotte.

Beth Walker, AIA
Eastern Section President

Beth Walker is an architect and managing principal of The Walker Group Architecture, Inc. in New Bern, North Carolina. She received her Bachelor of Environmental Design from North Carolina State University and her Master of Architecture from the University of New Mexico in Albuquerque. After practicing as a licensed architect in the state of New Mexico, Beth returned to North Carolina, where she enjoys living and practicing architecture in coastal Carolina. She is an active member of the community and of the Eastern Section of AIA. She has recently served as the Secretary and President-elect of the Eastern section.

William M. Beutel, AIA
Eastern Section President-elect

Bill Beutel is the Operations-Production Manager with Shuller, Ferris, Lindstrom + Associates in Fayetteville. He graduated with a Bachelor of Science in Architecture at the Rhode Island School of Design, licensed in Maine and North Carolina; and LEED certified. After a four-year tour with the USAF, he opened his private practice as Solarc Design Inc in Bangor, Maine. In Maine he was a Boy Scout Troop Scoutmaster, Little League and Babe Ruth league coach, on the Board of Director's for United Way, Chairman of the Zoning Board of Appeals, and Kiwanis Club member. He is a life member of the Retired Officers Association, the Air National Guard Civil Engineer's Association, a member of the Society of American Military Engineers, AIA and NCARB. Since moving to Fayetteville in 2001, Bill and his wife Beth have had two Art Showings of their oils and sketches during Fayetteville's fourth Friday's. They are members of the Fine Arts Council, patrons of the Cape Fear Theatre, and have been working on fund raisers and set designs for the Dance Theatre of Fayetteville.

2003 AIA NORTH CAROLINA LEADERSHIP

Jody Efird, AIA

Piedmont Section President

Jody Efird is a partner and project architect with the Firm of Efird & Gwinn, Architects, P.A., in Greensboro, NC. Jody received her Bachelor of Environmental Design in Architecture and Bachelor of Environmental Design in Landscape Architecture from North Carolina State University. She serves on the Historic Carolina Theatre Commission and is a new member to Crescent Rotary of Greensboro. Jody has served as Secretary and President-elect to the Piedmont Section and has been active on several Piedmont Section committees.

Charles A. Pearce, III, AIA

Piedmont Section President-elect

Charles A. Pearce, III, AIA is an Associate and Project Manager/Architect for the firm of J. Hyatt Hammond and Associates in Greensboro. He received his Bachelor of Arts in Architecture from the University of North Carolina at Charlotte in 1983. He is currently serving his second term as President-elect of the Piedmont Section after completing his term as past President in 2002. In addition to the responsibilities of President-elect, Charles is serving as Chairperson for the AIA/Piedmont College Scholarship.

Stephanie Garner, AIA

Triangle Section President

Stephanie Clontz Garner is a Project Architect with Boney, PLLC. She received her Bachelor of Environmental Design in Architecture and Bachelor of Architecture degrees from the North Carolina State University School of Design. In 2001, Stephanie served as Treasurer for AIA Triangle and established the AIA Triangle/NCSU School of Architecture Mentoring Program. She is the state coordinator of AIA North Carolina's Young Architects Forum, has served as Secretary/Treasurer for the Triangle Young Architects Forum, and is a member of the AIA North Carolina Public Awareness Subcommittee and the City of Raleigh Appearance Commission.

Ron Collier, AIA

Triangle Section President-elect

Ron Collier is a principal of AlphaCollier, Inc. in Raleigh. He received his Bachelor of Architecture and Master of Architecture from Virginia Tech College of Architecture. He has been in private practice in North Carolina for 29 years with focus on education, public and institutional projects. His design of the Cary Family YMCA received honor award from NCMA and a Technical Award from the Triangle Chapter of CSI. Under his direction, the Windsor Elementary School received the "School of Excellence Award" from the NC Department of Public Instruction. Collier was an instructor of third-year design at Virginia Tech and has lectured at NCSU School of Design on professional practice. Collier has been a part of AIA since his college days where he served many offices including AIAS President at Virginia Tech. He has served as AIANC Committee Chair for Bylaws, Computers in Architecture, and as Director for Collateral Organizations. He currently serves on the AIANC Insurance Task Force. He was a member of the Triangle sections merger task force into AIA Triangle. He has served as Director, Treasurer and now President-Elect of AIA Triangle. He is a construction arbitrator with the American Arbitration Association.

Christopher L. Boney, AIA

Wilmington Section President

Chris Boney is an Associate with Boney, PLLC in Wilmington. He received a Bachelor of Environmental Design in Architecture from the NC State School of Design in 1994. In 1997, he earned a Master of Architecture from the University of Virginia, where he received the Pisto Award for Academic Excellence. He has been involved with the local section as an Associate Director and Director since 1999, focusing on Intern Development and Young Architect advancement. Chris serves on the Board of Directors of the Wilmington Children's Museum, and is actively involved with several local community organizations.

Ian Johnston, AIA

Wilmington Section President-elect

Ian Johnston is a partner with Johnston Architecture in Wilmington. He received a Bachelor of Science from the University of North Carolina at Charlotte. He also studied Architecture at the University of Copenhagen, Denmark. Ian has been involved in the planning and execution of Continuing Education for the Wilmington Section for the last five years and was previously Wilmington Section IDP Coordinator. He also served on the NCAIA EIFS Task Force.

AIA NORTH CAROLINA LEADERSHIP 2003

Matthew D. Messick, AIA

Winston-Salem Section President

Matt Messick is a partner with Walter Robbs Callahan & Pierce Architects, PA in Winston-Salem. He received his Bachelor of Environmental Design in Architecture (1990) and a Bachelor of Architecture with honors from N. C. State University (1991). He was recipient of the RTKL summer fellowship in 1990, and the Walter Robbs Callahan & Pierce Scholarship in 1991. Messick has served on the Winston-Salem Board of Directors since 1998. He's been active in a variety of civic organizations in the Greensboro/Winston-Salem area.

Carlos V. Espinosa, AIA

Winston-Salem Section President-elect

Carlos Vincent Espinosa is a partner and designer with Thomas H. Hughes\ Architecture, PC in Winston-Salem. Espinosa received his undergraduate Bachelor of Science in Architecture and his Bachelor of Architecture degrees from the School of Architecture and Planning at The Catholic University of America. He extensively explored studio art and painting at the University, which continues to be an impact as he has had his works displayed in two "Art by Architects" gallery shows (1999 & 2002). He brought architectural experience from New York City and Washington DC prior to locating in Winston-Salem. Espinosa served on the Historic District Commission for the City of Winston-Salem from 1999-2002, as well as a City Marketing Commission targeted at young adults from 2000-2003. He has served on the Winston-Salem section Board of Directors since 2000.

Kenneth A. Lambla, AIA

University Representative

Ken Lambla, AIA is Dean of the College of Architecture, UNC Charlotte, where he has been on the faculty since 1983. Lambla received his Bachelor of Environmental Design degree from the University of Kansas, and his Master of Architecture degree from the University of California, Berkeley. His career in both education and practice is focused on defining architecture as community development and action. He has worked as an architect and urban designer in Belfast (Northern Ireland), Chicago (Illinois), San Francisco (California), and during his tenure at UNC Charlotte throughout North Carolina. He has completed two elementary schools in Charlotte, and was a consultant for the "Exploris" children's museum (Raleigh) in site selection, feasibility studies, research and programming, and early schematic design studies. His work as Director of the "Elizabeth Urban Design and Transportation Study" (Charlotte) won a national ASLA award. His teaching has been in design, design process, and history along with a strong commitment to international education. He has directed architectural programs in London (UK), The Netherlands, France, and Italy, as well as being resident director for university programs. His research has focused on social histories of housing projects completed in Chicago and Rotterdam, The Netherlands. He served as Chair of Instruction in the CoA from 1997-2002.

Marvin J. Malecha, FAIA

University Representative

Marvin J. Malecha, FAIA, is dean of the School of Design at N.C. State. He holds a bachelor of architecture from the University of Minnesota and a Master of Architecture from Harvard University. Prior to his appointment at N.C. State, Malecha served for 12 years as the dean of the College of Environmental Design at California State Polytechnic University, Pomona. Malecha has served as president of the Association of Collegiate Schools of Architecture and the California Council of Architectural Education. He has also served as a master juror for the National Council of Architectural Registration Board (NCARB) and on the National Architectural Accrediting Board. As an architect, he gained experience working with the firm of Hugh Stubbins and Associates in Cambridge, Mass. He continues to maintain a consulting practice while acting as an academic administrator.

2003 AIA NORTH CAROLINA LEADERSHIP

Thomas M. Barrie, AIA
University Representative

Thomas M. Barrie, AIA is the Director of the School of Architecture at N.C. State University. Before joining N.C. State in July 2002, he was Professor of Architecture at Lawrence Technological University in Southfield, Michigan. His research focuses on alternative histories of architecture, and in particular the interrelationship of a culture's architecture on its cultural/religious belief and common rituals. Barrie's research has brought him to sacred sites worldwide. He has also published numerous articles and lectured extensively on his subject area. He is the author of two published books and is currently working on a third. In 2003, Barrie was awarded the ACSA Creative Achievement Award and in 1997 he was awarded the ACSA/AIAS New Faculty Teaching Award. He holds a Master of Philosophy in Architectural History and Theory from the University of Manchester, England and a Master of Architectural Design from Virginia Tech.

Samuel H. Johnson, Esq.
Legal Counsel

Sam Johnson has served as legal counsel for AIA North Carolina since 1985. He is senior partner in the Raleigh law firm of Johnson, Hearn, Vinegar & Gee, PLLC and an honorary affiliate member of AIA North Carolina. A past member of the North Carolina General Assembly, Johnson is consistently ranked among the most effective lobbyists at the General Assembly. He is past chairman of both the House Appropriations Committee and the House Judiciary Committee, and he has served as a UNC Board of Trustees member. Johnson received his undergraduate and law degrees from the University of North Carolina.

SOUTH ATLANTIC REGIONAL COUNCIL

The leadership of AIA North Carolina, along with representatives from AIA Georgia and AIA South Carolina, participates in the South Atlantic Regional Council (SARC). SARC enables the AIA components in the South Atlantic Region to share ideas and also maintain liaison with national activities of the Institute.

South Atlantic Region directors serve rotating three-year terms with representation shared equally among the three states. SARC directors attend all Institute Board meetings and also travel the three-state region as a means of communicating and sharing information with AIA members.

SARC convenes at least three times a year. Every three years, SARC hosts a regional convention. The next SAR convention will be held in Savannah, GA in October 2003.

The South Atlantic Region has two representatives who serve on the Institute Board of Directors. In 2003, those individuals are:

Stephen T. Swicegood, AIA
South Atlantic Region Director

Stephen Swicegood is a founder of idea/span, a ten-year old Atlanta-based interior architecture firm that creates workplaces to help knowledge organizations grow, thrive and prosper. The 20-person practice currently has projects in 16 states and two foreign countries. idea/span's work has been widely recognized through design awards and publication journals such as *Interiors*, *Interior Design* and *Contract*, and the 1996 book *The New Office*, which profiles new and innovative workplaces designed in the 1990s. Prior to joining idea/span, Swicegood worked at Herry International, Jova Daniels Busby and Welton Becket Associates. From 1983-89, he was Design Director and Managing Director for Herry UK Ltd. in London. Swicegood is a 1973 graduate of Auburn University. He served as President of AIA Atlanta in 1996 and AIA Georgia in 2001.

Paul Davis Boney, FAIA
South Atlantic Region Director

Paul Boney is the Chief Executive Officer of Boney Architects. While Boney Architects has a great diversity of public and private projects, Paul's primary area of interest is the critical, national need for educational facilities. This background proved to be an invaluable resource in his 1995 appointment by Governor Hunt to the Schools Capital Construction Study Commission. Paul has been active member of the planning commission of his hometown of Wilmington, North Carolina. He serves as Chairman of the foundation for the University of North Carolina at Wilmington, and as a Trustee of St. Andrews Presbyterian College.

AIA NORTH CAROLINA LEADERSHIP 2003

David A. Crawford

Executive Director

David Crawford joined AIA North Carolina at the beginning of 2001 after serving as director of Professional Practice and assistant director of Government Relations with the AIA California Council for four years. Crawford received his B.A. in Political Science from California State University, Fullerton. He sat on the Board of Directors of the two accredited architecture schools in San Diego for five years, served on various city and regional advisory committees and has been conferred honorary membership in the AIA from the San Diego Chapter and the California Council. He is a member of the American Society of Association Executives and in 1996-97 chaired the California Council of Architectural Component Executives (California CACE).

Jo Ellen High

Business Manager

Jo Ellen High joined the AIA North Carolina staff in August 1989. Some of her duties as business manager include managing the financial records, serving as staff liaison for the annual design awards program, maintains records for AIA North Carolina's Political Action Committee, and supervising the staff and personnel records. For five years prior to working with the AIA, High held a financial position with the Biblical Recorder, the newsjournal for the Baptist State Convention, headquartered in Raleigh. High attended business college and received an accounting certificate in 1970. She has previous experience in the fields of insurance and mortgage banking.

Marynell Gehrke

Director of Special Events

Marynell Gehrke joined the AIA North Carolina staff in January 1995 after working since 1992 with Olson Management Group, an association management company. As director of special events, Gehrke acts as staff liaison for the convention (Summer Design Conference) and handles all AIA North Carolina meeting and conference planning. Gehrke received a B.S. degree from the University of North Carolina in industrial relations in 1984.

Kathie Rainey

Director of Member Services

Kathie Rainey joined the staff of AIA North Carolina in 1998 and has more than 20 years of administrative and customer service experience. A graduate of Lees-McRae College in Banner Elk, Rainey was raised in Southern Pines. Her responsibilities with AIA North Carolina include processing new members and maintaining the membership database, management of AIA Document sales and maintenance of a job placement file

Laura Tomczak

Communications Coordinator

Laura Tomczak joined the AIA North Carolina staff in January 2002. Her duties at the AIA include coordinating communications for the organizations seven sections, website maintenance, producing a quarterly newsletter and various other communications related duties. Before relocating to the state of North Carolina, Tomczak lived in Erie, Pennsylvania where she was employed in the Communications and Public Affairs Department at GE Transportation Systems. Tomczak earned a BA in English-Creative Writing from Penn State University, The Behrend College in 1996. She has also held communications positions at the American Red Cross and the United States Postal Service.

Cynthia Savage

Executive Director, AIA Charlotte

Cindy Savage is the account executive for AIA Charlotte. She has ten years of association management experience working with the Society of Petroleum Engineers Intl. and the Distribution Contractors Association. Cindy has a BA in Social Work from Duquesne University and a M ED in Higher Education/Continuing Education from the University of North Texas. She and her family recently relocated to North Carolina from Texas.

The contact information for AIA Charlotte is:

c/o TH Management Inc., 1229 Greenwood Cliff, Suite 340 (PO Box 24155), Charlotte, NC 28234
Ph: 704-377-3610, Fx: 704-365-3678,
Email: cindy@aiacharlotte.org

Diane Williams

Executive Manager, AIA Triangle

Diane S. Williams is the Executive Manager for AIA Triangle, a section of the North Carolina Chapter of the American Institute of Architects. Williams received her BS in Education from Ohio State University in Columbus, Ohio. She has more than eight years of association management experience working as Executive Director for the Pitt County Medical Association and the Seaboard Medical Association. In addition, Williams has eleven years of marketing and newspaper experience, working as the Circulation Director for The Daily Reflector in Greenville, NC.

AIA Triangle serves ten counties and more than 550 members:

The contact information for AIA Triangle is:

2003 AIA NORTH CAROLINA LEADERSHIP

Jenni Boggs

Executive Manager, AIA Wilmington

Jenni Boggs joined the staff of AIA North Carolina in 2002 to manage AIA Wilmington member services. This newly created position expands on her previous services to the president and vice president of AIA Wilmington. Her responsibilities include assisting all members in the Wilmington area with Wilmington AIA meetings, continuing education courses, member records and various other AIA related endeavors. She has been with BMS Architects, PC for six years providing administrative support in many areas of the field of architecture.

Contact information for AIA Wilmington is:
c/o BMS Architects, PC
P.O. Box 3667
514 Market Street
Wilmington, NC 28406
Ph: 910-762-2621; Fx: 910-762-8506
Email: boggs@bmsarch.com

Joanie H. Bomhard

Administrative Assistant, AIA Piedmont

Joanie H. Bomhard accepted the Administrative Position for the AIA Piedmont Section in January 2003. Prior to the current positions, she has held positions with Baker Roofing as Administrative Assistant; Landry's Seafood in Houston as a staff accountant and began her career as Restaurant Accounting Supervisor with Golden Corral Family Steakhouse Corporate offices. Married to a restaurant manager, they are the proud parents of an MBA candidate employed with Duke Life Flight. The Bomhards make their home in Greensboro.

Contact information for AIA Piedmont is:
4456 Platinum Drive, 1B
Greensboro, NC 27409
Ph: 336-691-5047; Fx: 336-218-0783
Email: piedmontaia@bellsouth.net

Mary Fierle

Executive Manager, AIA Asheville

Mary Fierle serves as Executive Manager to the Asheville section of the American Institute of Architects. A former Business Development Coordinator for the City of Asheville's Downtown Development office, Fierle also worked as staff coordinator for the City's Urban Trail program. Prior to moving to Asheville in 1993, she was Public Relations Manager for the Historic Savannah Foundation in Georgia. She has worked in public relations for nearly 20 years, and has held positions with Marriott Corporation, Carnival Cruise Lines, the 1982 World's Fair and the Atlanta Braves. She has a BS degree in Public Relations from Georgia Southern University. Fierle lives in Asheville with her husband, Tim, an architect with Buncombe County School System, an AIA member and their two young children.

Contact information for AIA Asheville is:
129 Pearson Drive, Asheville, NC 28801
Ph: 828-253-6014; Email: Maryfierle@cs.com

Good designs become great designs when the ingredients are blended with experience and perfection. Faassen & Associates has that experience and the talent to prepare the best kitchen, whether you need just an appetizing snack bar or a full course facility.

Here's some food for thought. For over 30 years we've been serving up kitchens designs for corporate headquarters, government facilities and prisons, educational facilities, health care facilities, convention centers and hotels. We're specialists in kitchen and laundry design and we understand what it takes to get a project done properly. With our expertise, the architect's cost will be less and the engineer's work will be simpler. We are independent from commercial ties, thus offer unbiased professional service. We complete your team, enhancing the quality of your delivered product.

Food facilities and laundries are large investments and clients deserve the best design service available. So, whether you need to dream up a masterpiece, or just spice things up a bit, contact Faassen & Associates now and let us help you prepare your next project.

THE FRAMEWORK FOR SUCCESS

CADRE Systems, Inc. provides design automation solutions that will help you establish the framework you need to succeed in today's progressive architectural design climate. We can supply you with the tools and services needed for efficient facilitation and profitable implementation of CAD design strategies.

- **Hardware**
Computers, Printers, Servers, Networks, Modems, and more
- **Software**
AutoCAD Architectural Desktop, Rebis, 3D Studio VIZ, Novell Netware, Microsoft NT Server, and more
- **Training**
Scheduled Classes, Workshops, Private Tutorials, On-Site or at our Facilities
- **Support**
Phone, Fax, Email, Web or On-site Support; Resource for renderings, scanning, equipment rentals, and more

Give us a call or visit our website for further information about the products and services offered by CADRE Systems, Inc.

2002 CHAPTER AWARDS AND HONORS

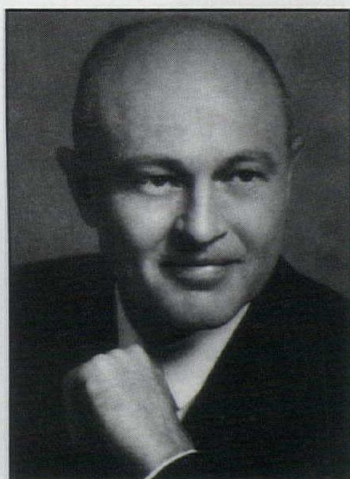

2003

AIA North Carolina announced the 2002 Chapter Award winners at the annual Design Awards Banquet held on the evening of Saturday, August 24, 2002 at the conclusion of the Summer Design Conference at the Grove Park Inn, Asheville, North Carolina.

A five-person Awards committee, appointed by the Chapter president and chaired by the immediate past president is responsible for reviewing the nominations and selecting a recipient.

AIA NORTH CAROLINA – F. CARTER WILLIAMS GOLD MEDAL

This is the highest honor presented by the Chapter to a member of AIA North Carolina. It is awarded to an individual in recognition of a distinguished career or extraordinary accomplishments as an architect. The Gold Medal was created by the Board of Directors in 1976. The first recipient was Luther Snow Lashmit. Until 1998, Lashmit was the only architect to receive this award. It was at that time re-named in honor of the late Raleigh architect F. Carter Williams, FAIA. The Williams family has established an endowment in support of the Gold Medal.

ELIGIBILITY: A current or deceased member of AIA North Carolina is eligible to receive the Gold Medal. No more than one such award shall be made in any year. Individuals who are current members of the Chapter Board, one year removed from the Board or members of the Awards committee are ineligible for consideration.

NOMINATIONS: Nominations may be made by members, the public, or by AIA North Carolina sections.

Please contact AIA North Carolina at 919-833-6656 for nomination deadlines. Nominations should include the following information:

- A nomination letter that summarizes the contributions made by the individual
- A brief biography of the nominee not to exceed four pages
- Miscellaneous material (clippings, articles, etc.) not to exceed three pages
- Letters of support, not to exceed five, from AIA North Carolina members; letters should be explicit in their recommendation and contain specific reasons for support.

GOLD MEDAL RECIPIENTS

- 1976** Luther Snow Lashmit, AIA, Winston-Salem
- 1998** Lloyd G. Walter, Jr., FAIA, Winston-Salem
- 1999** J. Hyatt Hammond, FAIA, Greensboro
- 2000** Marley P. Carroll, FAIA, Charlotte
- 2001** Herbert P. McKim, FAIA, Wilmington
- 2002** Jeffrey A. Huberman, FAIA, Charlotte

AIA NORTH CAROLINA FIRM AWARD

The AIA North Carolina Firm Award shall be awarded to a North Carolina firm that has

consistently produced quality architecture with a verifiable level of client satisfaction for a period of at least 10 years as an established presence in this state. This award is the highest honor the Chapter can bestow upon a firm.

ELIGIBILITY: North Carolina architectural firms practicing under the leadership of either a single AIA North Carolina member principal or several AIA North Carolina member principals are eligible for the Firm Award. In addition, firms that have been reorganized and whose name has been changed or modified are also eligible, as long as the firm has been in operation in North Carolina for a period of at least 10 years. Although firms that are headquartered in other states or firms that perform the majority of their work in other states or countries are eligible, the firm's work and impact within the state of North Carolina shall be of primary consideration. A firm owned or managed by the Chapter president, president-elect or members of the Awards committee shall not be eligible for consideration.

NOMINATIONS: Nominations may be made by members, the public, or by AIA North Carolina sections. Please contact AIA North Carolina at 919-833-6656 for nomination deadlines. The nominations should include the following information:

- A nomination letter by a member, AIA North Carolina Section or a representative of the public, summarizing the firm's contributions in terms of design excellence and client satisfaction
- A brief biography of all firm principals and a history of the firm
- A firm brochure (if available)

2003 2002 CHAPTER AWARDS AND HONORS

- Descriptive statements and photographs of early, middle and recent work of the firm
- A maximum of five signed letters by clients, attesting to the firm's excellence and/or high level of performance

FIRM AWARD RECIPIENTS

O'Brien/Atkins Associates, RTP

1999 Walter Robbs Callahan & Pierce Architects, Winston-Salem

2000 Lee Nichols Architecture, Charlotte

2001 The Freelon Group, Inc., Durham

2002 Boney Architects, Charlotte, Raleigh & Wilmington

AIA NORTH CAROLINA WILLIAM H. DEITRICK SERVICE MEDAL

The AIA North Carolina William H. Deitrick Service Medal will be presented to an AIA North Carolina member who exhibits extraordinary service to the community, profession or AIA North Carolina. The medal is named in honor of the late William Henley Deitrick, FAIA, a former president of AIA North Carolina. The AIA Tower, headquarters for AIA North Carolina, previously served as Deitrick's architectural studio and offices.

ELIGIBILITY: A current or deceased member of AIA North Carolina is eligible to receive the Deitrick Service Medal. No more than one such award shall be made in any year. Individuals who are current members of the Chapter Board, one year removed from the Board or members of the Awards committee are ineligible for consideration. The selection will be made from one of the following categories:

• SERVICE TO THE COMMUNITY

This category recognizes the work of architects who serve as elected officials, public administrators or institutional leaders and establish and contribute to the development of laws, regulations and policies that promote excellence in architecture.

• SERVICE TO THE CHAPTER

This category recognizes the work of architects that, by their skill, professionalism, dedication, ability and commitment, have consistently advanced the common goals of AIA North Carolina.

• SERVICE TO THE PROFESSION

This category recognizes the work of architects who have had a significant impact on the profession of architecture and its public perception as a profession.

NOMINATIONS: Nominations may be made by members, the public, or by AIA North Carolina sections

Please contact AIA North Carolina at 919-833-6656 for nomination deadlines. The nominations should include the following information:

- A nomination letter by the AIA member, group of members, component or committee.

- A biography of the nominee, not to exceed two pages, including a list of offices, positions, honors, achievements, publications or presentations that relate to the award's purpose.
- Five letters of support that give testament to the achievement presented.
- Exhibits, if appropriate for the nominee, to illustrate accomplishments that relate to the award's purpose.

DEITRICK SERVICE MEDAL RECIPIENTS

1995 S. Scott Ferebee, Jr., FAIA, Charlotte

1996 Leslie N. Boney, Jr., FAIA, Wilmington

1997 Danie A. Johnson, AIA, Asheville

1998 Sam T. Snowdon, Jr., AIA, Laurinburg

1999 Carole A. Hoefener, AIA, Charlotte

2000 Thomas P. Turner Jr., FAIA, Charlotte

2001 Macon S. Smith, FAIA, Raleigh

2002 James C. Hemphill, Jr., FAIA, Charlotte

PREAMBLE

Members of The American Institute of Architects are dedicated to the highest standards of professionalism, integrity, and competence. This Code of Ethics and Professional Conduct states guidelines for the conduct of Members in fulfilling those obligations. The **Code** is arranged in three tiers of statements: Canons, Ethical Standards, and Rules of Conduct.

Canons are broad principles of conduct.

Ethical Standards (**E.S.**) are more specific goals toward which Members should aspire in professional performance and behavior.

Rules of Conduct (**Rule**) are mandatory; violation of a rule is grounds for disciplinary action by the Institute. Rules of Conduct, in some instances, implement more than one Canon or Ethical Standard.

The **Code** applies to the professional activities of all classes of Members, wherever they occur. It addresses responsibilities to the public, which the profession serves and enriches; to the clients and users of architecture and in the building industries, who help to shape the built environment; and to the art and science of architecture, that continuum of knowledge and creation which is the heritage and legacy of the profession.

Commentary is provided for some of the Rules of Conduct. That commentary is meant to clarify or elaborate the intent of the Rule. The commentary is not part of the **Code**. Enforcement will be determined by application of the Rules of Conduct alone; the commentary will assist those seeking to conform their conduct to the **Code** and those charged with its enforcement.

Statement in Compliance With the 1990 Consent Decree: The following practices are not, in themselves, unethical, unprofessional, or contrary to any policy of The American Institute of Architects or any of its components:

- (1) submitting, at any time, competitive bids or price quotations, including in circumstances where price is the sole or principal consideration in the selection of an architect
- (2) providing discounts; or
- (3) providing free services.

Individual architects or architecture firms, acting alone and not on behalf of the Institute or any of its components, are free to decide for themselves whether or not to engage in any of these practices. The Consent Decree permits the Institute, its components, or Members to advocate legislative or other government policies or actions relating to these practices. Finally, architects should

continue to consult with state laws or regulations governing the practice of architecture.

CANON I**General Obligations**

Members should maintain and advance their knowledge of the art and science of architecture, respect the body of architectural accomplishment, contribute to its growth, thoughtfully consider the social and environmental impact of their professional activities, and exercise learned and un-compromised professional judgment.

E.S. 1.1 Knowledge and Skill: Members should strive to improve their professional knowledge and skill.

Rule 1.101 In practicing architecture, Members shall demonstrate a consistent pattern of reasonable care and competence, and shall apply the technical knowledge and skill which is ordinarily applied by architects of good standing practicing in the same locality.

Commentary: By requiring a consistent pattern of adherence to the common law standard of competence, this rule allows for discipline of a Member who more than infrequently does not achieve that standard. Isolated instances of minor lapses would not provide the basis for discipline.

E.S. 1.2 Standards of Excellence: Members should continually seek to raise the standards of aesthetic excellence, architectural education, research, training, and practice.

E.S. 1.3 Natural and Cultural Heritage: Members should respect and help conserve their natural and cultural heritage while striving to improve the environment and the quality of life within it.

E.S. 1.4 Human Rights: Members should uphold human rights in all their professional endeavors.

Rule 1.401 Members shall not discriminate in their professional activities on the basis of race, religion, gender, national origin, age, disability, or sexual orientation.

E.S. 1.5 Allied Arts & Industries: Members should promote allied arts and contribute to the knowledge and capability of the building industries as a whole.

CANON II**Obligations to the Public**

Members should embrace the spirit and letter of the law governing their professional affairs and should promote and serve the public interest in their personal and professional activities.

E.S. 2.1 Conduct: Members should uphold the law in the conduct of their professional activities.

Rule 2.101 Members shall not, in the conduct of their professional practice, knowingly violate the law.

Commentary: The violation of any law, local, state or federal, occurring in the conduct of a Member's professional practice, is made the basis for discipline by this rule. This includes the federal Copyright Act, which prohibits copying architectural works without the permission of the copyright owner. Allegations of violations of this rule must be based on an independent finding of a violation of the law by a court of competent jurisdiction or an administrative or regulatory body.

Rule 2.102 Members shall neither offer nor make any payment or gift to a public official with the intent of influencing the official's judgment in connection with an existing or prospective project in which the Members are interested.

Commentary: This does not prohibit campaign contributions made in conformity with applicable campaign financing laws.

Rule 2.103 Members serving in a public capacity shall not accept payments or gifts which are intended to influence their judgment.

Rule 2.104 Members shall not engage in conduct involving fraud or wanton disregard of the rights of others.

Commentary: This rule addresses serious misconduct whether or not related to a Member's professional practice. When an alleged violation of this rule is based on a violation of a law, then its proof must be based on an independent finding of a violation of the law by a court of competent jurisdiction or an administrative or regulatory body.

Rule 2.105 If, in the course of their work on a project, the Members become aware of a decision taken by their employer or client which violates any law or regulation and which will, in the Members' judgment, materially affect adversely the safety to the public of the finished project, the Members shall:

- (a) advise their employer or client against the decision,
- (b) refuse to consent to the decision, and
- (c) report the decision to the local building inspector or other public official charged with the enforcement of the applicable laws and regulations, unless the Members are able to cause the matter to be satisfactorily resolved by other means.

Commentary: This rule extends only to violations of the building laws that threaten the public safety. The obligation under this rule applies only to the

safety of the finished project, an obligation coextensive with the usual undertaking of an architect.

Rule 2.106 Members shall not counsel or assist a client in conduct that the architect knows, or reasonably should know, is fraudulent or illegal.

E.S. 2.2 Public Interest Services: Members should render public interest professional services and encourage their employees to render such services.

E.S. 2.3 Civic Responsibility: Members should be involved in civic activities as citizens and professionals, and should strive to improve public appreciation and understanding of architecture and the functions and responsibilities of architects.

Rule 2.301 Members making public statements on architectural issues shall disclose when they are being compensated for making such statements or when they have an economic interest in the issue.

CANON III

Obligations to the Client

Members should serve their clients competently and in a professional manner, and should exercise unprejudiced and unbiased judgment when performing all professional services.

E.S. 3.1 Competence: Members should serve their clients in a timely and competent manner.

Rule 3.101 In performing professional services, Members shall take into account applicable laws and regulations. Members may rely on the advice of other qualified persons as to the intent and meaning of such regulations.

Rule 3.102 Members shall undertake to perform professional services only when they, together with those whom they may engage as consultants, are qualified by education, training, or experience in the specific technical areas involved.

Commentary: This rule is meant to ensure that Members not undertake projects which are beyond their professional capacity. Members venturing into areas which require expertise they do not possess may obtain that expertise by additional education, training, or through the retention of consultants with the necessary expertise.

Rule 3.103 Members shall not materially alter the scope or objectives of a project without the client's consent.

E.S. 3.2 Conflict of Interest: Members should avoid conflicts of interest in their professional practices and fully disclose all unavoidable

conflicts as they arise.

Rule 3.201 A Member shall not render professional services if the Member's professional judgment could be affected by responsibilities to another project or person, or by the Member's own interests, unless all those who rely on the Member's judgment consent after full disclosure.

Commentary: This rule is intended to embrace the full range of situations that may present a Member with a conflict between his interests or responsibilities and the interests of others. Those who are entitled to disclosure may include a client, owner, employer, contractor, or others who rely on or are affected by the Member's professional decisions. A Member who cannot appropriately communicate about a conflict directly with an affected person must take steps to ensure that disclosure is made by other means.

Rule 3.202 When acting by agreement of the parties as the independent interpreter of building contract documents and the judge of contract performance, Members shall render decisions impartially.

Commentary: This rule applies when the Member, though paid by the owner and owing the owner loyalty, is nonetheless required to act with impartiality in fulfilling the architect's professional responsibilities.

E.S. 3.3 Candor and Truthfulness: Members should be candid and truthful in their professional communications and keep their clients reasonably informed about the clients' projects.

Rule 3.301 Members shall not intentionally or recklessly mislead existing or prospective clients about the results that can be achieved through the use of the Members' services, nor shall the Members state that they can achieve results by means that violate applicable law or this Code.

Commentary: This rule is meant to preclude dishonest, reckless, or illegal representations by a Member either in the course of soliciting a client or during performance.

E.S. 3.4 Confidentiality: Members should safeguard the trust placed in them by their clients.

Rule 3.401 Members shall not knowingly disclose information that would adversely affect their client or that they have been asked to maintain in confidence, except as otherwise allowed or required by this Code or applicable law.

Commentary: To encourage the full and open exchange of information necessary for a successful professional relationship, Members must recognize and respect the sensitive nature

of confidential client communications. Because the law does not recognize an architect-client privilege, however, the rule permits a Member to reveal a confidence when a failure to do so would be unlawful or contrary to another ethical duty imposed by this Code.

CANON IV

Obligations to the Profession

Members should uphold the integrity and dignity of the profession.

E.S. 4.1 Honesty and Fairness: Members should pursue their professional activities with honesty and fairness.

Rule 4.101 Members having substantial information which leads to a reasonable belief that another Member has committed a violation of this Code which raises a serious question as to that Member's honesty, trustworthiness, or fitness as a Member, shall file a complaint with the National Ethics Council.

Commentary: Often, only an architect can recognize that the behavior of another architect poses a serious question as to that other's professional integrity. In those circumstances, the duty to the professional's calling requires that a complaint be filed. In most jurisdictions, a complaint that invokes professional standards is protected from a libel or slander action if the complaint was made in good faith. If in doubt, a Member should seek counsel before reporting on another under this rule.

Rule 4.102 Members shall not sign or seal drawings, specifications, reports, or other professional work for which they do not have responsible control.

Commentary: Responsible control means the degree of knowledge and supervision ordinarily required by the professional standard of care. With respect to the work of licensed consultants, Members may sign or seal such work if they have reviewed it, coordinated its preparation, or intend to be responsible for its adequacy.

Rule 4.103 Members speaking in their professional capacity shall not knowingly make false statements of material fact.

Commentary: This rule applies to statements in all professional contexts, including applications for licensure and AIA membership.

E.S. 4.2 Dignity and Integrity: Members should strive, through their actions, to promote the dignity and integrity of the profession, and to ensure that their representatives and employees conform their conduct to this Code.

Rule 4.201 Members shall not make misleading,

deceptive, or false statements or claims about their professional qualifications, experience, or performance and shall accurately state the scope and nature of their responsibilities in connection with work for which they are claiming credit.

Commentary: *This rule is meant to prevent Members from claiming or implying credit for work which they did not do, misleading others, and denying other participants in a project their proper share of credit.*

Rule 4.202 Members shall make reasonable efforts to ensure that those over whom they have supervisory authority conform their conduct to this Code.

Commentary: *What constitutes reasonable efforts under this rule is a common sense matter. As it makes sense to ensure that those over whom the architect exercises supervision be made generally aware of the Code, it can also make sense to bring a particular provision to the attention of a particular employee when a situation is present which might give rise to violation.*

CANON V

Obligations to Colleagues

Members should respect the rights and acknowledge the professional aspirations and contributions of their colleagues.

E.S. 5.1 Professional Environment: Members should provide their associates and employees with a suitable working environment, compensate them fairly, and facilitate their professional development.

E.S. 5.2 Professional Recognition: Members should build their professional reputation on the merits of their own service and performance and should recognize and give credit to others for the professional work they have performed.

Rule 5.201 Members shall recognize and respect the professional contributions of their employees, employers, professional colleagues, and business associates.

Rule 5.202 Members leaving a firm shall not, without the permission of their employer or partner, take designs, drawings, data, reports, notes, or other materials relating to the firm's work, whether or not performed by the Member.

Rule 5.203 A Member shall not unreasonably withhold permission from a departing employee or partner to take copies of designs, drawings, data, reports, notes, or other materials relating to work performed by the employee or partner that are not confidential.

Commentary: *A Member may impose reasonable conditions, such as the payment of copying costs, on the right of departing persons to take copies of their work.*

RULES OF APPLICATION, ENFORCEMENT, AND AMENDMENT

Application

The **Code of Ethics and Professional Conduct** applies to the professional activities of all members of the AIA.

Enforcement

The Bylaws of the Institute state procedures for the

enforcement of the **Code of Ethics and Professional Conduct**. Such procedures provide that:

Enforcement of the **Code** is administered through a National Ethics Council, appointed by the AIA Board of Directors.

Formal charges are filed directly with the National Ethics Council by Members, components, or anyone directly aggrieved by the conduct of the Members.

Penalties that may be imposed by the National Ethics Council are:

- Admonition
- Censure
- Suspension of membership for a period of time
- Termination of membership
- Appeal procedures are available.

All proceedings are confidential, as is the imposition of an admonishment; however, all other penalties shall be made public.

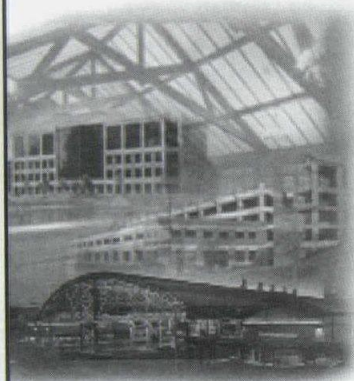

Amendment

The **Code of Ethics and Professional Conduct** may be amended by the convention of the Institute under the same procedures as are necessary to amend the Institute's Bylaws. The **Code** may also be amended by the AIA Board of Directors upon a two-thirds vote of the entire Board.

***1997 Edition.** *This copy of the Code of Ethics is current as of March 22, 1997. Contact the General Counsel's Office for further information at (202) 626-7311.*

CONTINUING EDUCATION NOW MANDATORY FOR LICENSURE AND MEMBERSHIP

North Carolina architects must fulfill a program of continuing education each year in order to renew their license. Continuing education has been a membership requirement for the American Institute of Architects for several years now. The two requirements are slightly different but compatible.

Here's the bottom line: AIA architects in North Carolina should obtain a total of 18 hours of continuing education each year, 12 of those in health-safety-welfare subject matter. The architect will then meet both the licensure and AIA membership requirements.

STATE LICENSURE REQUIREMENTS

Each year, North Carolina architects must complete a verifiable program of 12 contact hours of continuing education. The contact hours must be in health-safety-welfare subject material. Contact hours may not be carried over from one calendar year to the next. HSW Programs provided by AIA registered providers will be accepted by the North Carolina Board of Architecture. The licensing board will also accept an AIA member's continuing education transcript as evidence of continuing education fulfillment.

AIA REQUIREMENTS

Developed to demonstrate AIA members' lifelong

commitment to learning, the AIA Continuing Education System (CES) enhances knowledge, competency and competitiveness. In summary, the Institute's plan includes the following:

- Members must have 18 hours of continuing education per year in order to maintain membership.
- The 18 hours must include 8 contact hours in health/safety-related subject matter.

AIA NORTH CAROLINA CONTINUING EDUCATION ACADEMY

AIA North Carolina has successfully launched an aggressive effort to provide its members affordable, accessible and relevant continuing education. The AIA North Carolina Continuing Education Academy is the winner of the 1999 AIA/CES Award for Excellence. AIA North Carolina was the only AIA chapter or component in America to win this prestigious award for excellence in continuing education programming and member service.

In 2003, AIA North Carolina is offering seminars at various locations around the state. Some of the programs will provide up to fourteen hours of HSW credit while others will be shorter, concentrated seminars on specific topics. The

South Atlantic Region 2003 Design Conference in Savannah, Georgia scheduled for October 8-11, 2003 at the Westin Savannah Harbor Resort provides an opportunity for members to fulfill their requirements in a compressed period of time.

Visit the AIA North Carolina web site at www.aianc.org for an updated listing of continuing education programs in the Southeast. In addition, the seven local sections of AIA North Carolina typically offer AIA/CES programs at their meetings.

WHERE AIA CES RECORDS ARE KEPT

The CES record-keeping is performed under contract by the University of Oklahoma, Continuing Education, AIA/CES, 1700 Asp Avenue, Room B4, Norman, OK 73072-6400. Call 202-626-7353 for questions or comments on AIA/CES records.

This record-keeping center monitors contact hours earned by AIA members and keeps track of registered providers. Official transcripts will be issued annually to AIA members.

AIA members may monitor their continuing education progress by visiting AIA Online at www.aia.org. By using a member ID number, members may access an updated transcript of personal continuing education activities.

NORTH CAROLINA BOARD OF ARCHITECTURE **2003**

The North Carolina Board of Architecture, established by the General Assembly in 1915, is responsible for enforcement of the laws and regulations governing the practice of architecture in the state. A major task is to determine the qualifications of applicants who seek licensure in this state.

The Board is comprised of seven members appointed by the Governor, five of whom are licensed architects appointed for five-year terms. Two of the members of the Board are not licensed architects and represent the interests of the public at large. The public members serve at the pleasure of the Governor.

In order to qualify for a license to practice architecture in North Carolina, an applicant must meet the following minimum requirements:

- An accredited professional degree in architecture
- Three year internship
- Pass all divisions of the ARE (Architectural Registration Examination)

The current board members are Jeffrey A. Huberman, FAIA, president, Charlotte; Kevin G. Montgomery, AIA, vice president, Durham; G. Daniel Knight, Jr., AIA, treasurer, Rocky Mount; Charles H. Boney, Jr., AIA, Wilmington; Norma DeCamp Burns, FAIA, Bennett; Kiki Teague, public

member, Winston-Salem; and Charles N. (Nick) Garrett, Jr., public member, Wilmington.

NATIONAL COUNCIL OF ARCHITECTURAL REGISTRATION BOARDS

The National Council of Architectural Registration Boards was established in 1920 to assist member boards in carrying out their duties, foster the enactment of uniform architectural laws, develop examinations and establish standards for certification requirements in education and training, to perfect its procedures for verifying the qualifications of applicants and determining their eligibility for certification and establish and maintain reciprocal registration between states having registration laws.

The NCARB is a non-profit corporation with all legally constituted boards of architecture in the United States as members, including the North Carolina Board of Architecture. To be eligible for NCARB certification, architects must submit satisfactory evidence that they comply with the standard for education, training, examination and character and have been registered by a member board.

The NCARB will, upon request of an individual architect, secure, authenticate, and record factual data of the applicant's education, training, practice and character. This record will be forwarded to any state board upon request of the applicant.

Certification shall be given to an applicant holding a council record verifying that the applicant has complied with the council's standards of education, training, practice and character; and that the applicant has passed an examination conforming to the council's standards of content, extent and length of time.

Certification by the NCARB is recommendation to all registration authorities that registration be granted to the holder without further examination. Most board members accept NCARB certification as conclusive evidence of an architect's eligibility of registration. It is, however, not a national registration.

Complete information on compiling a council record and obtaining council certification can be obtained from:

BYLAWS

Chartered in 1913, AIA North Carolina is legally registered and incorporated with the North Carolina Secretary of State as the North Carolina Chapter, The American Institute of Architects. The Bylaws of AIA North Carolina serve as an agreement between the organization and its membership. The Bylaws were most recently revised August 1, 1998. For a copy of the Bylaws or questions, please call 919-833-6656.

CODE OF ETHICS & PROFESSIONAL CONDUCT

Members of The American Institute of Architects are dedicated to the highest standards of professionalism, integrity, and competence. They apply to all professional activities, wherever they occur. They address responsibilities to the public, which the profession serves and enriches; to the clients and users of architecture and in the building industries, who help to shape the built environment; and to the art and science of architecture, the continuum of knowledge and creation, which is the heritage and legacy of the profession.

The Code is arranged in three tiers of statements: Canons, Ethical Standards and Rules of Conduct. The Canons are broad principles of conduct. The Ethical Standards are more specific goals towards which members should aspire in professional performance and behavior. The Rules of Conduct are mandatory, the violation of which is grounds for disciplinary action by the Institute.

A copy of the Code of Ethics is available on pages (175-177) of this directory or online at www.aia.org/institute/code.asp.

2003 AIA FELLOWS

The American Institute of Architects bestows the recognition of Fellowship for achievement in architecture on members who have contributed notably to the advancement of the profession of architecture. With the exception of the Gold Medal, fellowship is the highest honor the AIA can bestow on a member. It is conferred on members with at least 10 years of continuous membership who have made significant contributions to the aesthetic, scientific, and practical efficiency of the profession; to the standards of architectural education, training, and practice; to the building industry through leadership of the AIA and other related professional organizations; to the advancement of the living standards of people through their improved environment and to society through significant public service.

Founded in 1952, the College of Fellows includes approximately five percent of the total AIA membership. Those advanced to fellowship can use FAIA after their names in recognition of their contributions in design, education, research or public service.

Current members of AIA North Carolina who have been recognized for Fellowship are:

Richard K. Albyn, FAIA
John L. Atkins III, FAIA
Peter Batchelor, FAIA
Georgia Bizios, FAIA
Charles H. Boney Sr., FAIA
Paul Davis Boney, FAIA
J. Armand Burgun, FAIA
Norma DeCamp Burns, FAIA

Marley P. Carroll, FAIA
Roger H. Clark, FAIA
Arthur R. Cogswell, FAIA
F. Dail Dixon Jr., FAIA

S. Scott Ferebee Jr., FAIA
Ligon B. Flynn, FAIA
Philip G. Freelon, FAIA
Beverly L. Freeman, FAIA
David F. Furman, FAIA
Harvey B. Gantt, FAIA
John B. Hackler, FAIA
J. Hyatt Hammond, FAIA
Robert E. Hansen, FAIA
Frank C. Harmon, FAIA
Edwin F. Harris Jr., FAIA
James C. Hemphill Jr., FAIA
Mason S. Hicks, FAIA
Charles C. Hight, FAIA
Jeffrey A. Huberman, FAIA
Peter Jefferson, FAIA
Danie A. Johnson, FAIA
Marvin R.A. Johnson, FAIA
Charles H. Kahn, FAIA
J. Bertram King, FAIA
Gail A. Lindsey, FAIA
Donald R. Lee, FAIA
Elizabeth B. Lee, FAIA
Marvin J. Malecha, FAIA
Wesley A. McClure, FAIA
Herbert P. McKim, FAIA
Michael Newman, FAIA
Michael H. Nicklas, FAIA
William L. O'Brien Jr., FAIA
Joseph K. Oppermann, FAIA
Katherine N. Peele, FAIA
J. Norman Pease Jr., FAIA
Gerard W. Peer, FAIA
Jesse Julius Peterson, Jr., FAIA
Richard L. Rice, FAIA
John D. Rogers Jr., FAIA
Benjamin T. Rook, FAIA
Robert W. Sawyer, FAIA
Philip A. Shive, FAIA
Macon S. Smith, FAIA
Sam Tinsley Snowdon, Jr., FAIA
Michael Tribble, FAIA
Thomas P. Turner, FAIA

Lloyd G. Walter Jr., FAIA
Charles H. Wheatley, FAIA
Murray Whisnant, FAIA

Eighteen Fellows from AIA North Carolina are now deceased, including:

Leslie N. Boney Jr., FAIA
Fred W. Butner Jr., FAIA
Robert L. Clemmer, FAIA
William H. Deitrick, FAIA
Harwell Hamilton Harris, FAIA
Albert L. Haskins Jr., FAIA
Thomas T. Hayes Jr., FAIA
Walter W. Hook, FAIA
Henry L. Kamphoefner, FAIA
Ronald L. Mace, FAIA
Anthony Lord, FAIA
Willard C. Northup, FAIA
Arthur G. Odell Jr., FAIA
John Erwin Ramsay, FAIA
G. Milton Small Jr., FAIA
James A. Stenhouse, FAIA
Erle G. Stillwell, FAIA
Turner G. Williams, FAIA
F. Carter Williams, FAIA

In addition, four individuals, who became Fellows while practicing architecture in North Carolina, now reside elsewhere. Their names and addresses are:

George Matsumoto, FAIA

Elliott Carroll, FAIA
4621 Drummond Avenue
Chevy Chase, MD 20815

AIA POLITICAL ACTION COMMITTEE 2003

The AIA-PAC is one of the most successful architect PACs in America. The North Carolina Forum for Research and Economic Enterprise (NC Free) ranks AIA-PAC among the top 40 corporate or association PACs in North Carolina. The AIA-PAC has achieved high success rates in terms of its contributions to winning candidates and its ability to influence legislation. It has played a prominent role in enhancing the image of AIA North Carolina among state legislators and in establishing architects as a respected source of information for legislators.

LEGISLATIVE SUCCESS

Since its formation in 1986, the AIA North Carolina Political Action Committee (AIA-PAC) has become increasingly successful in the political arena and has been of major assistance to AIA North Carolina in advancing its legislative agenda.

A long string of legislative victories have been achieved by AIA North Carolina in the last decade including:

- Qualification-Based Selection for architects on public projects
- Greater flexibility for single-prime contracting on public projects
- Statutory strengthening of the Architectural Practice Act (G.S.83A)

- Passage of a \$1.8 billion statewide bond issue for school construction
- Qualified immunity for architects as volunteers in declared emergencies
- Clarification of a seven-year statute of repose
- Securing the single prime contracting option on government projects

AIA North Carolina has also been successful in defeating or altering legislation, which could have a negative effect on the architectural profession. In addition, AIA architects have been appointed by the Governor and legislative leaders to key positions on regulatory and advisory boards and commissions.

MISSION OF AIA-PAC

The AIA-PAC was established to assist the architects of North Carolina in gaining access to state legislators for the purpose of establishing an effective forum on issues facing the profession. Its mission is to work to create an environment in the North Carolina general Assembly and Council of State, which is conducive to accomplishing the goals of the architectural profession.

Three specific objectives guide the activities of the AIA-PAC. These are:

- To solicit contributions.
- To make contributions to candidates who will

be influential in determining the future course and the practice of architecture in North Carolina.

- To generally educate or inform the membership of AIA North Carolina concerning legislative and political issues affecting the profession.

The AIA-PAC is organized and operated on a voluntary, non-partisan basis to preserve and promote the status of architecture through the pursuit of its objectives. The organization is governed and supervised by a Board of Directors composed of 21 members of the AIA-PAC, with a minimum of one member from each section of AIA North Carolina. Each Director is appointed to a term of three years, with no Director being appointed to more than two consecutive terms.

To maintain established levels of candidate contributions and ensure the continued effectiveness of AIA North Carolina's Government Affairs Programs, AIA-PAC needs continued and increased financial support from members and friends of the profession. Records and information about AIA-PAC are maintained at the offices of AIA North Carolina.

2003

NORTH CAROLINA ARCHITECTURAL FOUNDATION

The North Carolina Architectural Foundation promotes and sponsors architectural programs and education. The mission of NCAF is to actively encourage and support quality in the field of architecture and educate the public about architecture.

KAMPHOEFNER PRIZE

The Foundation awards the Kamphoefner Prize of \$10,000 to an AIA North Carolina member who exhibits excellence in the Modern Movement of architecture. The Prize is funded through an endowment bequeathed by Henry and Mabel Kamphoefner. Henry Kamphoefner was the founder and original dean of the N.C. State School of Design. In years when a Prize winner is not selected, two \$5,000 scholarships are awarded to students at the N.C. State School of Design.

1984:	Project: Architect:	R.J. Reynolds Tobacco Co. building, Winston-Salem Croxtan Collaborative with Hammill-Walter

N.C. STATE UNIVERSITY

The Department of Architecture at N.C. State University was established in 1948 as one of two original academic components in the School of Design. The School of Design experienced a long period of development, establishing a reputation for innovation. In the fall of 2000, the department was given school status and the school was granted college status.

The College is presently led by Dean Marvin J. Malecha, FAIA, who was appointed to the position in August 1994. Thomas Barrie, AIA, was appointed department head in 2002, his title is now Director of Architecture.

The School of Architecture has grown its mission and curricular offerings over the years to include programs leading to the following three degrees:

Bachelor of Environmental Design in Architecture (BEDA)

A four-year pre-professional curriculum that serves as the foundation for the two advanced programs. The curriculum includes a balance of general studies (English, mathematics, science and humanities), design studio courses and architectural support courses (history, technology, methods and theory).

Bachelor of Architecture (B. ARCH)

A one-year professional curriculum that builds on the four-year BEDA or other equivalent program.

Master of Architecture (M. ARCH)

Three tracks lead to the professional M. ARCH degree: Track I is a two-year program for holders of the BEDA or equivalent four-year pre-professional degree; Track II is a three-semester second professional degree program for holders of the B. ARCH degree; Track III accepts students with degrees in non-architectural fields into a three and one half year program.

Both the B. ARCH and M. ARCH are professional degrees accredited by the National Architectural Accrediting Board. The most recent accreditation

action took place in 2000 extending accreditation of both programs for five years. The College of Design annually admits 120 freshmen and transfer students. Following an interdisciplinary fall semester, students begin their architectural studies in the spring semester of the first year. For information about the undergraduate admissions standards and procedures, contact the College of Design, N.C. State University, Box 7701, Raleigh, NC 27695-7701.

Admissions to the B. ARCH and M. ARCH programs are by application to the School of Architecture. For additional information, contact the School of Architecture, College of Design, N.C. State University, Box 7701, Raleigh, NC 27695-7701.

UNC CHARLOTTE

The College of Architecture at UNC Charlotte graduated its first students with professional degrees in 1976. In 1999, the school received its fifth consecutive full term accreditation from the National Architectural Accreditation Board. The college is presently led by Dean Kenneth Lambla, AIA. The curriculum provides a balance between theory and application, and general and professional education. Students may develop a double major or minor in another field such as engineering, business, computer or behavioral science. The curriculum is organized into:

The Core Program

In the first three years of the undergraduate program, students are enrolled in general education and architectural courses. In studios and seminars, which occur each semester, students acquire the fundamentals of visual design, problem solving, conceptualization and environmental influences. The third year studios focus upon building designs that are site specific. In addition, students extend their knowledge of architectural history and technology while having the opportunity to pursue individual interests through architectural and general elective seminars.

Advanced Program

In the fourth and fifth years, students select design studios and seminars in accordance with their individual study plan they developed in their third year. In addition, to the design thesis or comprehensive projects, students enroll in studios and seminars which focus on topics such as design theories, programming, architectural materials and technology, lighting design, acoustics, wood and metals design/making, community design, computer-aided design, advanced studies in architectural history, graphic explorations and other design issues. The Bachelor of Arts is awarded at the end of the fourth year and the professional degree, Bachelor of Architecture, is awarded in the fifth year.

Graduate Programs

A student with an undergraduate, non-architecture degree may enroll in a three-year plus one summer professional Master of Architecture program. A student with an undergraduate degree in architectural studies may enroll in a two-year professional Master of Architecture program. The final year provides an opportunity for specially-focus design exploration and research.

In collaboration with the Department of Geography and Earth Science, the College of Architecture also offers a Master of Arts in Community Planning.

In addition, the College maintains the Charlotte Community Design Studio in the Center City area of Charlotte. The College's International Studies programs include summer studies in Italy, Spain and study opportunities in London, Mexico, Finland, and Germany.

The College has an extensive visiting/part-time faculty designer program that includes numerous student-study field trips and special exhibitions of art, architecture and design. The College accepts transfer students for advanced standing from other NAAB schools. More detailed information may be obtained by writing the College of Architecture, UNC Charlotte, Charlotte, NC 28223.

Contact: Michael G. Talbot, PE
Firm Size: 20

Services: Our firm has experience with LEED certification and design as well as having a LEED accredited professional on staff. As designers of electromechanical systems, we also have the analytical and modeling capabilities necessary to evaluate decisions on a Life-Cycle Cost basis. Above all, we understand the relationship between effective communication and successful projects. LEED is an objectively oriented rating system that was developed by the US Green Building Council to encourage and recognize "green" design. Through a team-oriented approach and holistic decision-making process, LEED provides an invaluable framework for clear communication of design goals and priorities. The results we see are higher quality indoor environments, greater building value, and happier building owners.

Recent Projects: Charlotte Mecklenburg Board of Education - Audrey Kell Road High School; Friendship Missionary Baptist Church, Charlotte, NC; 1515 Elizabeth Avenue (mid-rise office building), Charlotte, NC; Hickory Grove Baptist Church Education Building, Charlotte, NC; Fire Station #10, Charlotte, NC; Ocean Seniors Assisted Living Center, Manmouth County, NJ; Carolinas Healthcare Medical Office Building, Ballantyne Medical Plaza, Charlotte, NC; Mecklenburg County Bioterror Lab, Charlotte, NC; Berean Christian Academy, Atlanta, GA; Winthrop University Student Housing, Rock Hill, SC
