Participating Members of the New Hampshire Chapter

A. I. A.
The President's Message

A prosperous, rewarding year in 1961 for your chosen endeavors, whatever they may be.

From time to time, pause and reflect on your fortunes and blessings,—it will make that work-a-day toil easier, life more worth living, and a greater appreciation of your fellow man's problems.

E. H. Hunter
New Hampshire Chapter, American Institute of Architects, will hold its winter meeting at The Tavern, Laconia, N. H. Chapter president, E. H. Hunter will preside, and Norman P. Randlett, Laconia, is in charge of arrangements.

Selection of a speaker and other details are being worked out. Exact time and date is as yet undecided, however chapter members will be advised in ample time to plan and complete their reservations. What the weather man will have in store for the date selected is anybody’s guess, but those working on the program expressed the hope that members would extend themselves to “show a full house,” and participate in their chapter functions.

## SPRAGUE’S #4 DISTILLATE FUEL OIL

Sprague at Portsmouth offers a special fuel oil for use

- where #6 (Bunker "C") fuel oil is not considered practicable
- where #5 blended oil results in inefficient operation, excessive service calls, or unsatisfactory performance
- where #2 fuel oil is over 20,000 gallons per year

This is SPRAGUE’S #4 DISTILLATE, a refined product of consistent analysis, delivered to Portsmouth by tanker direct from the refinery, and stored separately in a 4,000,000 gallon capacity tank.

The use of SPRAGUE’S #4 DISTILLATE eliminates the problems of poor combustion and excess soot caused by variations in the oil’s characteristics from load to load, does away with starting failures in cold weather, high preheating costs, and sludge precipitation in storage tanks, and requires less attention and service.

Deliveries of SPRAGUE’S #4 DISTILLATE are made in Sprague trucks throughout New Hampshire and into Maine, Massachusetts, and Vermont.

SPRAGUE’S #4 DISTILLATE is competitive in price with #5 blended oil and superior in performance. Let one of our representatives tell you more about it.

Telephone Portsmouth, GEneva 6-4120 for further information.

## IRVING W. HERSEY ASSOCIATES, AIA, MOVE TO NEW LOCATION AT DURHAM

About February first the offices of Irving W. Hersey Associates, AIA, will be located at 19 Ballard Street, Durham, N. H. For many years Mr. Hersey conducted the practice of architecture in the Town Hall building at Durham.

With the completion of renovations and modernizing the new location affords increased drafting space and enlarged office area for the personnel in the Hersey organization.
THE CHRISTIAN BROTHERS
OF MANCHESTER, N. H.

The Christian Brothers first came to Manchester in 1886 in response to a particular need of the Church — the Christian education of youth. Here they have remained and here they have prospered as Manchester has prospered. The years since have not been easy ones, but they have been rewarding for the Brothers — and for Manchester.

Looking back over the 75 years, the Brothers cannot help but feel proud at what has been accomplished. Proud, not of themselves, but of the Brothers who preceded them and the tradition of St. La Salle that made it all possible; of old St. Joseph's, where the Brothers helped to develop so many boys into men, strong in the love of God and country; of Bishop Bradley High School where the apostolate is continuing; and of the city of Manchester which has and is continuing to nurture such wonderful boys.

The Brothers have been called "Builders of Boys and Makers of Men" and that is no more evident anywhere than here. The role that the Brothers have played in the spiritually and temporally successful lives of thousands of "Brothers Boys" in the Manchester Diocese is clearly evident. Some of the most successful business and professional men in this state have acknowledged the importance of their early training as "Brothers Boys" in shaping their careers. And in the field of vocation to the priesthood and religious life the Brothers' record has been outstanding.

In this year of Jubilee the Christian Brothers look back with thanksgiving to God for the Grace He has bestowed on their efforts for Church, country and community.
Dignity and simplicity of a quiet design as well as conformity to the existing school building are the keynote for the new residence.

Featuring the design of the “U” shaped building is the canopied shrine forming and sheltering the main entrance and the cloistered landscape court at the rear of the building. Forming the “U” are the chapel and dining hall in separate wings.

Forming the cloistered area in the “U” is an open porch.

The stair wells at the ends of the main building lead to the second floor sleeping quarters. There will be accommodations for thirty Brothers, each room will be tastefully painted and furnished.

The Chapel will be panelled in pre-finished plywood. The Altar will be liturgical in design. Right and left of the Altar will be shrines of Our Most Blessed Mother and St. Joseph. Stain glass windows will lend a note of quiet and prayerfulness.

Andrew C. Isaak, A.I.A., of Manchester, currently vice president of the New Hampshire Chapter A.I.A., designed the edifice.

BLOCK MANUFACTURERS SPONSOR ANNUAL MASON'S PARTY AND DINNER

The boys that "lay 'em up," masons and masonry contractors, enjoyed a hospitable evening, December 2, as guests of New Hampshire's biggest block producers, Duracrete of Hooksett, Monadnock Block of Keene. The two companies did a repeat performance of an annual event with the usual social hour, a dinner superbly prepared especially for those who had the steak and a speaking program that included representatives of manufacturers, union and federal and state labor officials.

More than one hundred fifty attended the function, with new products, new methods brought to the attention of the masons. Recognition was given to a number of guests who have worked their trade for fifty or more years, "gold card" union members. Discussions were at a lively pace, as this is one group that when they have something to say, they get up and say it.

Attending Annual Masons Dinner were left to right: Harry Corfield of Local 4, Concord; Chester Wright of Worcester, Mass., Local 6; Joseph Dyer, regional director of Building Trades Dept., Washington, D. C.; Charles J. Gannon of Manchester, U. S. Dept. of Labor, Bureau of Apprentice Training; John Tracy of Boston, international representative; John Ineson of Rochester, secretary-treasurer, New Hampshire State Conference, Bricklayers, Masons and Painters, and Elliot Dann, president and business agent of Local 3, Manchester.
PROMINENT NEW HAMPSHIRE ARCHITECT ESTABLISHES TRUST FUND

Alfred T. Granger, A. I. A.

For the benefit of this generation, and generations to follow a widely known practising architect and engineer, Alfred T. Granger, AIA, of Hanover, New Hampshire, has established "The Alfred T. Granger Student Art Trust Fund," in perpetuity.

Purpose of the fund is to provide money awards from the trust fund to advance worthy, talented high school students, or private secondary school students in art, architectural drawing or mechanical drawing by a scholarship to either an art school or a school specializing in architectural or mechanical drawing. Such high school or private secondary school student shall be of the State of Vermont, or of the State of New Hampshire.

A committee shall determine the eligibility of all applicants for awards from the trust fund, and the applicant must be a resident of New Hampshire or Vermont, or both of these States for two years. Awards voted by the committee shall not exceed seven hundred fifty dollars annually for an individual. Each applicant for an

(Continued on Next Page)

SPRAGUE FUELS for New Hampshire consumers

Sprague has a fuel to satisfy most heating and process load requirements

**Industrial Fuel Oils**

- #4 Distillate
- #5 Blend
- #6 Bunker "C" (Residual)

**Bituminous Coals**

Southern Tidewater and Northern All Rail coals for underfeed, spreader, or chain grate stokers and pulverized fuel units

Sprague has a New Hampshire organization on the spot to serve the entire state

- A tidewater terminal at Portsmouth handling a full range of Industrial fuel oils and quality Southern West Virginia coals.
- A fleet of fuel oil and coal trucks for complete delivery service, and facilities for making rail shipments of both coal and fuel oil.
- A sales and engineering force available to you offering factual information on the type of fuel best suited to each installation's equipment.

Telephone our representatives at Portsmouth, GEneva 6-4120 for sales service.

Home office at Boston — Offices serving customers in 24 States and Canada.
award must submit a portfolio of drawings of his accomplishments in art, or architectural or mechanical drawing.

Mr. Granger in the interest of proper administration of The Trust Fund has included a self-perpetuating committee consisting of the following persons: Mario Infanti, Milford, New Hampshire business man as Trustee, Harold F. Graeme, State Director of Vocational Education, State of Vermont, Dr. Alice Baumgarner, Director of Arts Education, State of New Hampshire, Stephen P. Tracy, New Hampshire Board of Registration of Architects, Roger W. Hunt, New Hampshire Board of Registration of Engineers, Payson Webber, Vermont Board of Registration of Architects, John Brockway, attorney, of White River Junction, Vermont.

Complete information regarding the Student Art Trust Fund which will first be available in 1961, will be sent to school superintendents, principals and guidance directors in order that all deserving students throughout Vermont and New Hampshire who meet the requirements of the Trust may have the opportunity to apply for the scholarship benefits.

Mr. Granger who has been practicing architecture for 30 years in the states of Vermont and New Hampshire has specialized in educational buildings and the following are some of his accomplishments and designs in school buildings: Nashua High School, Franklin High School and Bessie C. Rowell Elementary School in Franklin, Tilton-Northfield High School Claremont Junior High School, Northfield Vermont High School, Vergennes, Vermont Union District #5 High School Bellows Falls High School and Central Elementary School, Mary C. Donder Memorial Elementary School, Portsmouth Exeter High and Elementary Schools, Milford Senior High School and the Laconia Junior High School.

Illustrated: The stairwell of one of the new dormitories at St. Anselm's College, Manchester, N. H. Architect: Koehler & Isaak. Contractor: Davison Construction Co., Inc.
The Associated General Contractors of New Hampshire - Vermont held their Annual Meeting on December 8, 1960 and elected new officers for the year 1961.

Upwards of 135 persons including members and guests attended the affair at the Carpenter Motor Hotel in Manchester.

Retiring President Parker Rice reminded the contractors of the critical problems facing them in 1961 and told them the only effective way of meeting those problems was through the AGC on both the national and state level. President Rice also had high praise for Governor Wesley Powell's drive for better New Hampshire highways and he said the Governor would again have the support of the highway construction industry in his plans for an expanded highway system this year.

New officers for the year 1961 were elected at the meeting. They include, President, Herbert Stebbins; Vice President, Highway Division, Ferris Bavicchi; Vice President, Building Contractors, James Peirce; Vice President, Associate Members, Edward Sanel; Secretary, Robert Foster; Treasurer, John Palazzi; Directors, Horace Watkins, David W. Davison, Donald Noyes, Roderic Maynes.

AGC elects 1961 Officers — Pictured above are top officers of the Associated General Contractors of New Hampshire and Vermont for the year 1961. Seated left to right are John Palazzi, Treasurer; Parker Rice, retiring President; Herbert Stebbins, 1961 President. Standing: left to right are Edward Sanel, Vice-Pres. Associate Members; Ferris Bavicchi, Vice President, Highway Division; James Peirce, Vice-President, Building Contractors.
PROPOSED LIBRARY AND SCIENCE BUILDING AT PROCTOR ACADEMY WILL BE COMPLETED IN 1961

Campus facilities at Proctor Academy, Andover, N. H. will be expanded in 1961 with the construction of a library and science building. Completion date is set for September and the opening of school.

Horace G. Bradt, AIA, Exeter, N. H. is the architect, and William R. Shirley, New York, N. Y. is consulting architect.

The building will contain a library with spacious study areas, laboratory and recitation rooms for chemistry, physics, biology and general science. There will be conference rooms, audio-visual facilities, and a kitchenette for receptions.

Headmaster Lyle H. Farrell is completing a fund raising drive, but he notes that the school is not adverse to additional contributions from outsiders or anyone that might have been overlooked.
Principal participants at Annual Masons Dinner were from left to right: J. A. Jones of Chicago, speaker; Gerald L. MacKinnon of Glazon Corp., speaker, and William Beckwith, Bridgeport, Conn., speaker. Rear: Herbert Stebbins, representing the Associated General Contractors of New Hampshire-Vermont; Dante Donati, co-host, Duracrete Block Co. Inc.; Ray Hastings, co-host, Monadnock Block Co.; Thomas Crane of Watertown, Mass., regional director, New England Concrete Masonry Association.
Two abstractions related to the human form. The black female figure was carved in African ebony and is two feet high. The polished bronze male figure, 12" high, was modeled directly in wax and cast using the last wax method of bronze casting. Sculpture by Winslow B. Eaves, West Andover, N. H.
