### NEW ADDRESS

Duane and Lawrence Architects, announce the relocation of offices to 2600 Connecticut Avenue, N.W., Washington, D. C. 20008. Telephone 234-8101.

## REPORT FROM OUR RETIRING PRESIDENT

As Past President I will serve as a director for one year. It is with every confidence that I look forward to the coming year with such able leadership. I have worked with all your officers and I am sure that you have chosen well and they will serve you well.

During 1966 several important changes have been initiated. The most important, perhaps, is the sound fiscal policy that has been achieved. We have the services of a new accountant, Mr. Eugene Borders, who has simplified and reorganized our business affairs.

Chapter members are serving with distinction in many areas. Denny Madden is President of the Maryland Council of Architects, Inc. Gene Delmar and Phil Mason have important committee posts on a regional level, working on the forthcoming Middle Atlantic Regional Conference on Transportation, to be held in Williamsburg in February of 1967. Stan Arthur and Chuck Soule are serving on the Maryland Registration Board. Ron Senseman, Chairman and Gene Delmar, Subcommittee Chairman are valued members of the Committee for a More Beautiful Montgomery County. Walter Bucher is a member of the Board of Zoning Appeals and a member of the Montgomery County Planning Commission. Ben Elliott is General Chairman for the regional conference for the Guild for Religious Architecture. Neil Greene's program efforts have developed interesting and stimulating luncheon meetings. Joe Dennison is serving as President of the D. C. Metropolitan Chapter of Construction Specifications Institute. Dave Rinn, as chairman of Competitions and Exhibitions, presents the fruits of his labor in this issue of PVA. Of course, Jim Hilleary has done his usual superlative job as Editor of PVA.

The social activity has also been enlarged with the Garden Reception last spring — and the most successful Testimonial Dinner for E. B. and Faith Morris so ably arranged by Ron Senseman.

All told, the voice of the Architect in Potomac Valley is being heard in our land. The excellent cooperation of all the Executive Committee, committee chairmen and membership has been most gratifying, and I am confident that you will give your new president, Gene Delmar, your whole-hearted support.

Jack Lawrence

THE POTOMAC VALLEY CHAPTER  
OF  
THE AMERICAN INSTITUTE OF ARCHITECTS  
takes this occasion  
to congratulate all award winners  
and  
to thank all who participated  
in this Biennial Event.

### EUGENE A. DELMAR, A.I.A.

Gene, a native of Gallitzen, Pennsylvania, completed military service prior to attending Columbia University from which he received his Bachelor of Architecture Degree in 1954.

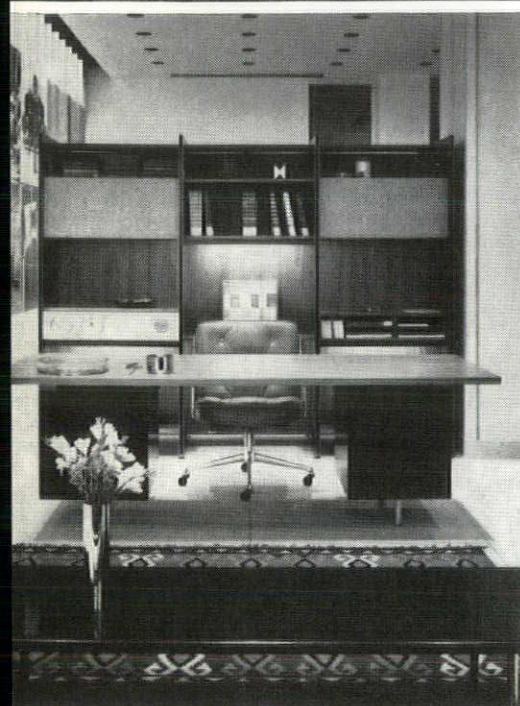

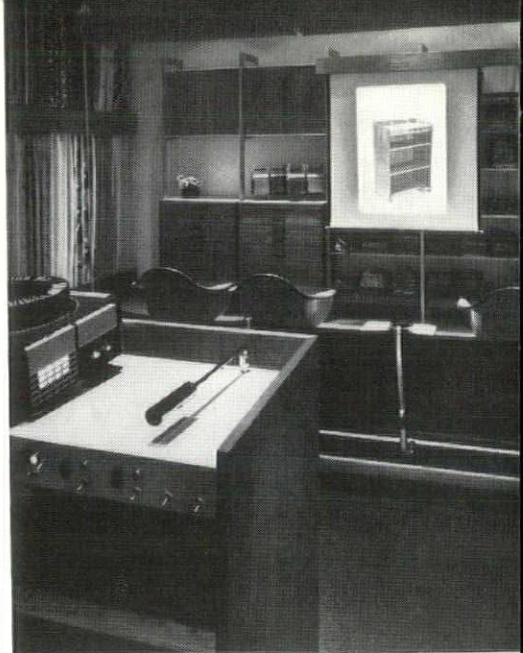

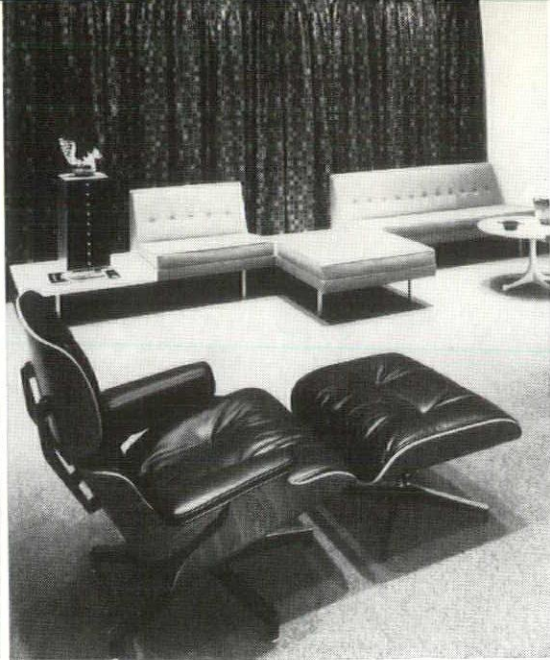

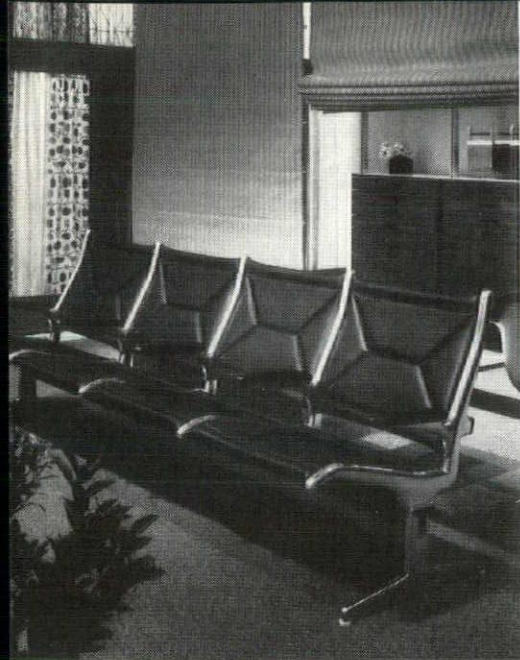

He worked with Harold M. Lewis, City Planner, New York, New York before moving to this area. He apprenticed with Wendell Hallett and Ronald S. Senseman, F.A.I.A. before founding his own firm in 1959.

An active worker in the Potomac Valley Chapter, he has served well on the Executive Committee. In addition to his professional affiliations, he is a member of the Silver Spring Board of Trade, the Silver Spring Lions Club, Columbia University Club, Izaak Walton League, Sigma Chi Fraternity Alumnus, the National Association of Homebuilders and Chairman of the Committee on Aesthetics for the Committee for a More Beautiful Montgomery County.

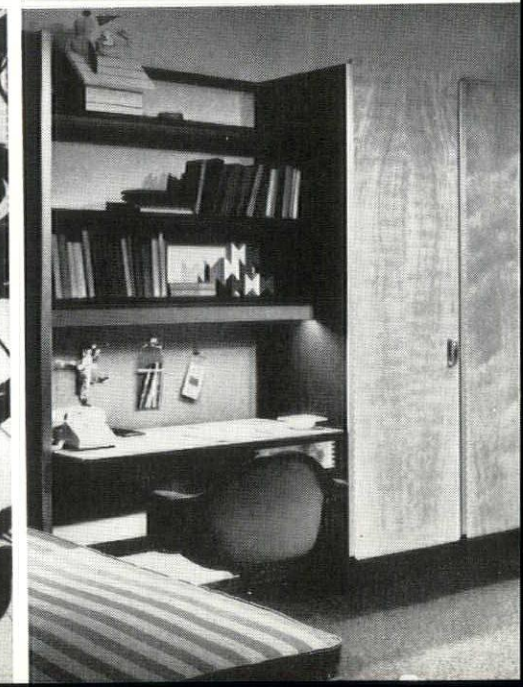

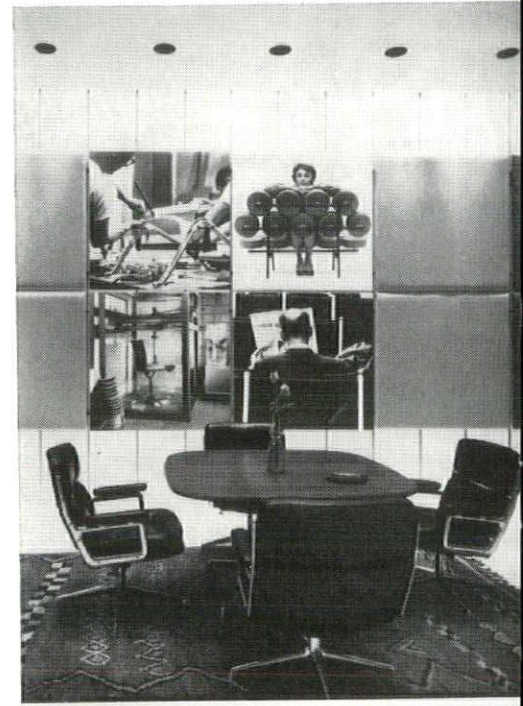

Gene resides in Wheaton with his wife, Bettie, and three children in a house which he describes as "Early Delmar" and which is in a perpetual state of updating.

  
 Charles Eames,  
 Alexander Girard  
 and George Nelson  
 cordially invite you to an  
 adventure in the classics.  
 Daily from nine-thirty  
 to noon; one to five  
 at 1730 M Street N.W.  
 Herman Miller Inc.

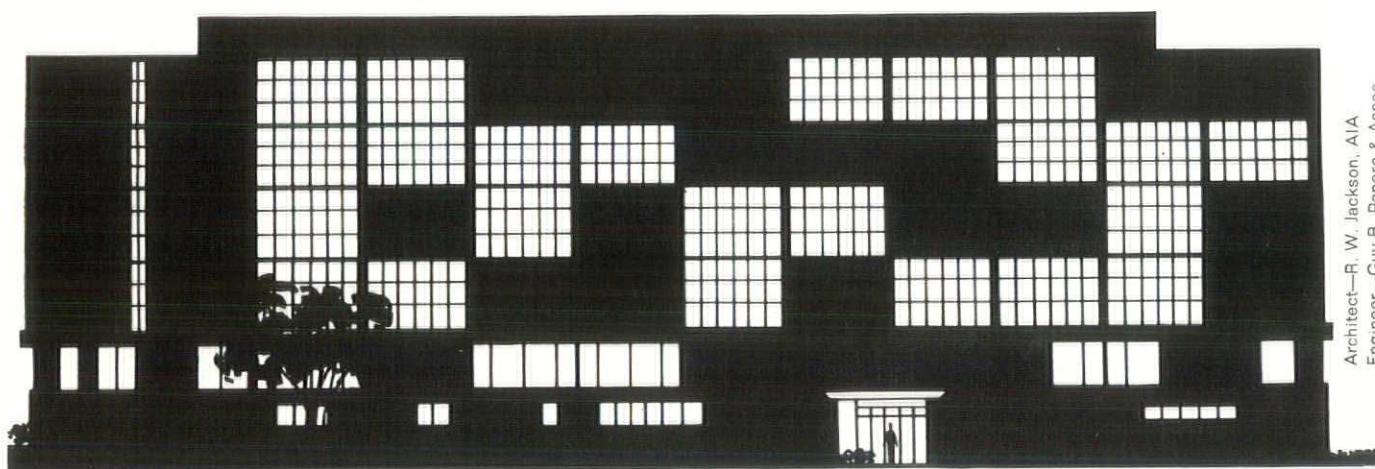

**1966 BIENNIAL COMPETITION  
FOR AWARDS IN ARCHITECTURE**

***at Cafritz Memorial Hospital, natural gas heats or cools on ordinary days...***

Architect—R. W. Jackson, AIA  
Engineer—Guy B. Panero & Assoc.

***generates electricity in an emergency***

Talk about double duty. Here's a dual function that's unique. Natural gas-powered engines not only provide cooling for Washington's new Morris Cafritz Memorial Hospital, but also generate electricity if outside power fails.

Fully two-thirds of the normal demand can be met by the same Gas units

that provide cooling. In a matter of seconds!

Eliminated: the cost of a separate standby plant and circuits. Added: increased emergency power capacity at lower owning and operating cost. Another dramatic proof: the future belongs to Gas!

***do it tomorrow's way...  
today...with GAS!***

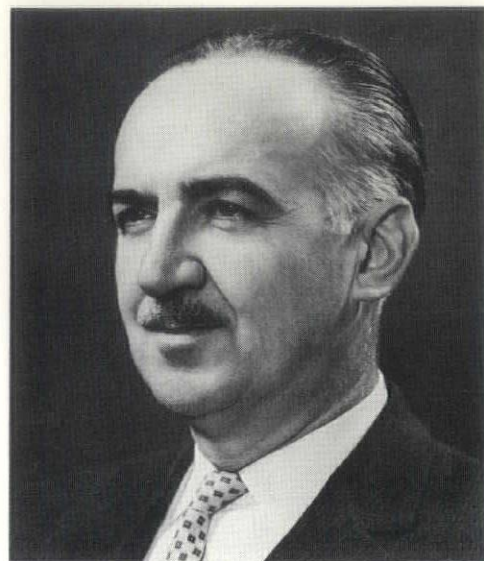

## MARIO E. CAMPIOLI, A.I.A.

Presently well known to the country as Acting Architect of the Capitol, Mr. Campioli immigrated as an infant from Parma, Italy. He received his Bachelor of Architecture from Columbia University in 1937 and did architectural research abroad in England, France, Portugal, Sweden and Italy.

He received his early training in the office of Dwight James Baum where he became an associate. After the death of Mr. Baum in 1959 he became production manager with the firm of Eggers and Higgins in New York. In 1949, he left his position to become Director of Architecture for the Colonial Williamsburg Restoration. In 1957 he assumed duties of Office Manager with the Washington Office of DeWitt, Poor and Shelton, Architects, where he became Project Director for the Extension of the Capitol. In this capacity, he developed plans, conducted historical research, lectured on the Capitol and represented the firm in discussions and conferences with the Architect of the Capitol, members of Congress and the advisory architects. This valuable experience prepared him for assumption of his present duties in 1959.

Mr. Campioli, a father of four, resides with his wife in McLean, Virginia.

## J. ROY CARROLL, JR., F.A.I.A.

J. Roy Carroll, Jr., F.A.I.A. of Carroll, Grisdale & Van Alen, Architects, is particularly well known to members of the American Institute of Architects having served as our National President 1963-64.

His education and activities have long centered around Pennsylvania having been educated there and since practiced in the Philadelphia area. He received his Bachelor and Master Degrees from the University of Pennsylvania, was a Graduate Fellow in Architecture in 1927-28 and the recipient of the Henry Gillette Woodman Fellowship in 1941. He also served the University as Assistant Professor and Executive Chairman of the Design Staff.

Long active in the A.I.A. he served as National Secretary 1960-62 and First Vice President 1962-63 before assuming the Presidency. He is also an Honorary Member of the Mexican Society of Architects, Fellow of the Royal Society of Arts and the Philippine Institute of Architects. Prior to national service in the A.I.A. he served in executive capacities for the Pennsylvania Society of Architects.

The designer of many outstanding buildings, he is the recipient of awards too numerous to mention; and in addition to his professional life is active in many civic, church and art societies along the east coast.

## PAUL L. GAUDREAU, A.I.A.

Paul L. Gaudreau, a Past President of the Baltimore Chapter of the American Institute of Architects and a partner in the Baltimore firm of Gaudreau, Architects, is a native of Massachusetts. He was graduated Magna Cum Laude in 1936 from Catholic University of America where he later taught for a time. He was also first Head of the John Hopkins University Design Course.

Known for his interest in design of churches and cities, he has traveled extensively researching throughout Europe.

His many interests and activities include membership in The American Institute of Planners, The Baltimore County Board of Architectural Review (former chairman), the State Board of Architectural Review (former chairman) and the Board of Directors of the Center For Inter-Faith Research on Religious Architecture.

Despite his youthful appearance, he has a daughter in college and a high school aged son. He resides as well as practices in Baltimore, Maryland.

FIRST AWARDS

**FIRST AWARD:**

Office Building

**Architect:** Eugene A. Delmar

Structural Engineer: Morris W. Green

Mechanical Engineer:

Frank E. Williams, Jr.

Electrical Engineer: Edwin Wheeler

Landscape Consultant:

Kenneth P. Soergel, II

Owner: Realty Investment Co., Inc.

Contractor: Owner

Location: Silver Spring, Maryland

**FIRST AWARD:**

Speculative House

**Architect:** James F. Hilleary

Developer-Contractor:

Joseph D. Judge

Location: Allview Estates,

Ellicott City, Maryland

**FIRST AWARD:**

Church

**Architect:**

Keyes, Lethbridge & Condon

Structural Engineer: Robert A. Weiss

Mechanical Engineer:

Kluckhuhn & McDavid Co.

Landscape Architect:

Lester A. Collins

Owner: River Road Unitarian Church

Location: Bethesda, Maryland

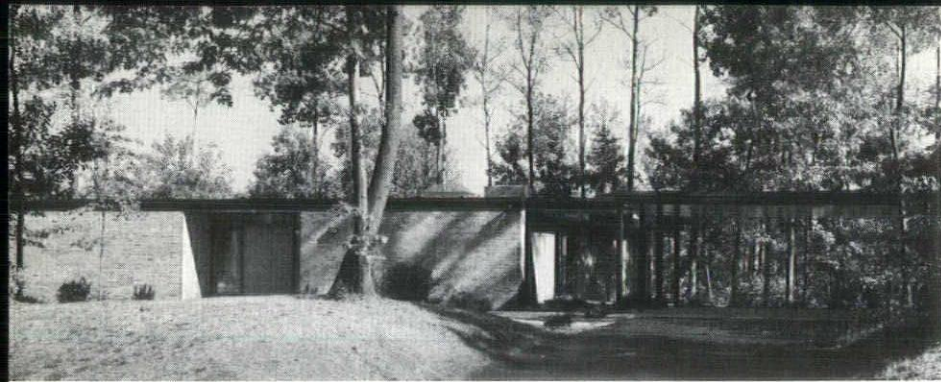

FIRST AWARD:  
OFFICE BUILDING FOR  
REALTY INVESTMENT CORPORATION  
EUGENE A. DELMAR, A.I.A., ARCHITECT

"This is a simple, well articulated plan, consistent in its architectural treatment, its scale and landscaping, and displaying an excellent choice of materials."

Photographer: J. Alexander

Photographer: J. Alexander

**FIRST AWARD:  
SPECULATIVE HOUSE  
JAMES F. HILLEARY, A.I.A., ARCHITECT**

"A speculative house with the amenities of a custom design. The treatment is quiet and elegant and very well detailed. The attractive atrium contributes to the pleasantness of the entry as well as the expansion and privacy of the interior spaces. A dining terrace and living room balcony furnish the family a change of view without sacrifice of privacy in a commendable setting where nature has been retained advantageously."

Photographer: J. Alexander

**FIRST AWARD:**  
**RIVER ROAD UNITARIAN CHURCH**  
**KEYES, LETHBRIDGE AND CONDON, ARCHITECTS**

"Admirable siting and relationship of building contour to terrain, a simple and pleasing relationship of form and materials with excellent handling of landscaping and parking facilities."

Thurman Donovan

Owner: Frederick Y.M.C.A.

Location: Frederick, Maryland

**AWARD OF MERIT:**

Apartment-Townhouse Development

**Architects:**

**Keyes, Lethbridge & Condon**

Structural Engineer:

Carl C. Hansen

Mechanical Engineer:

Kluckhuhn & McDavid Co.

Landscape Architect: Eric Paectke

Owner: The Berens Company

Location: Washington, D. C.

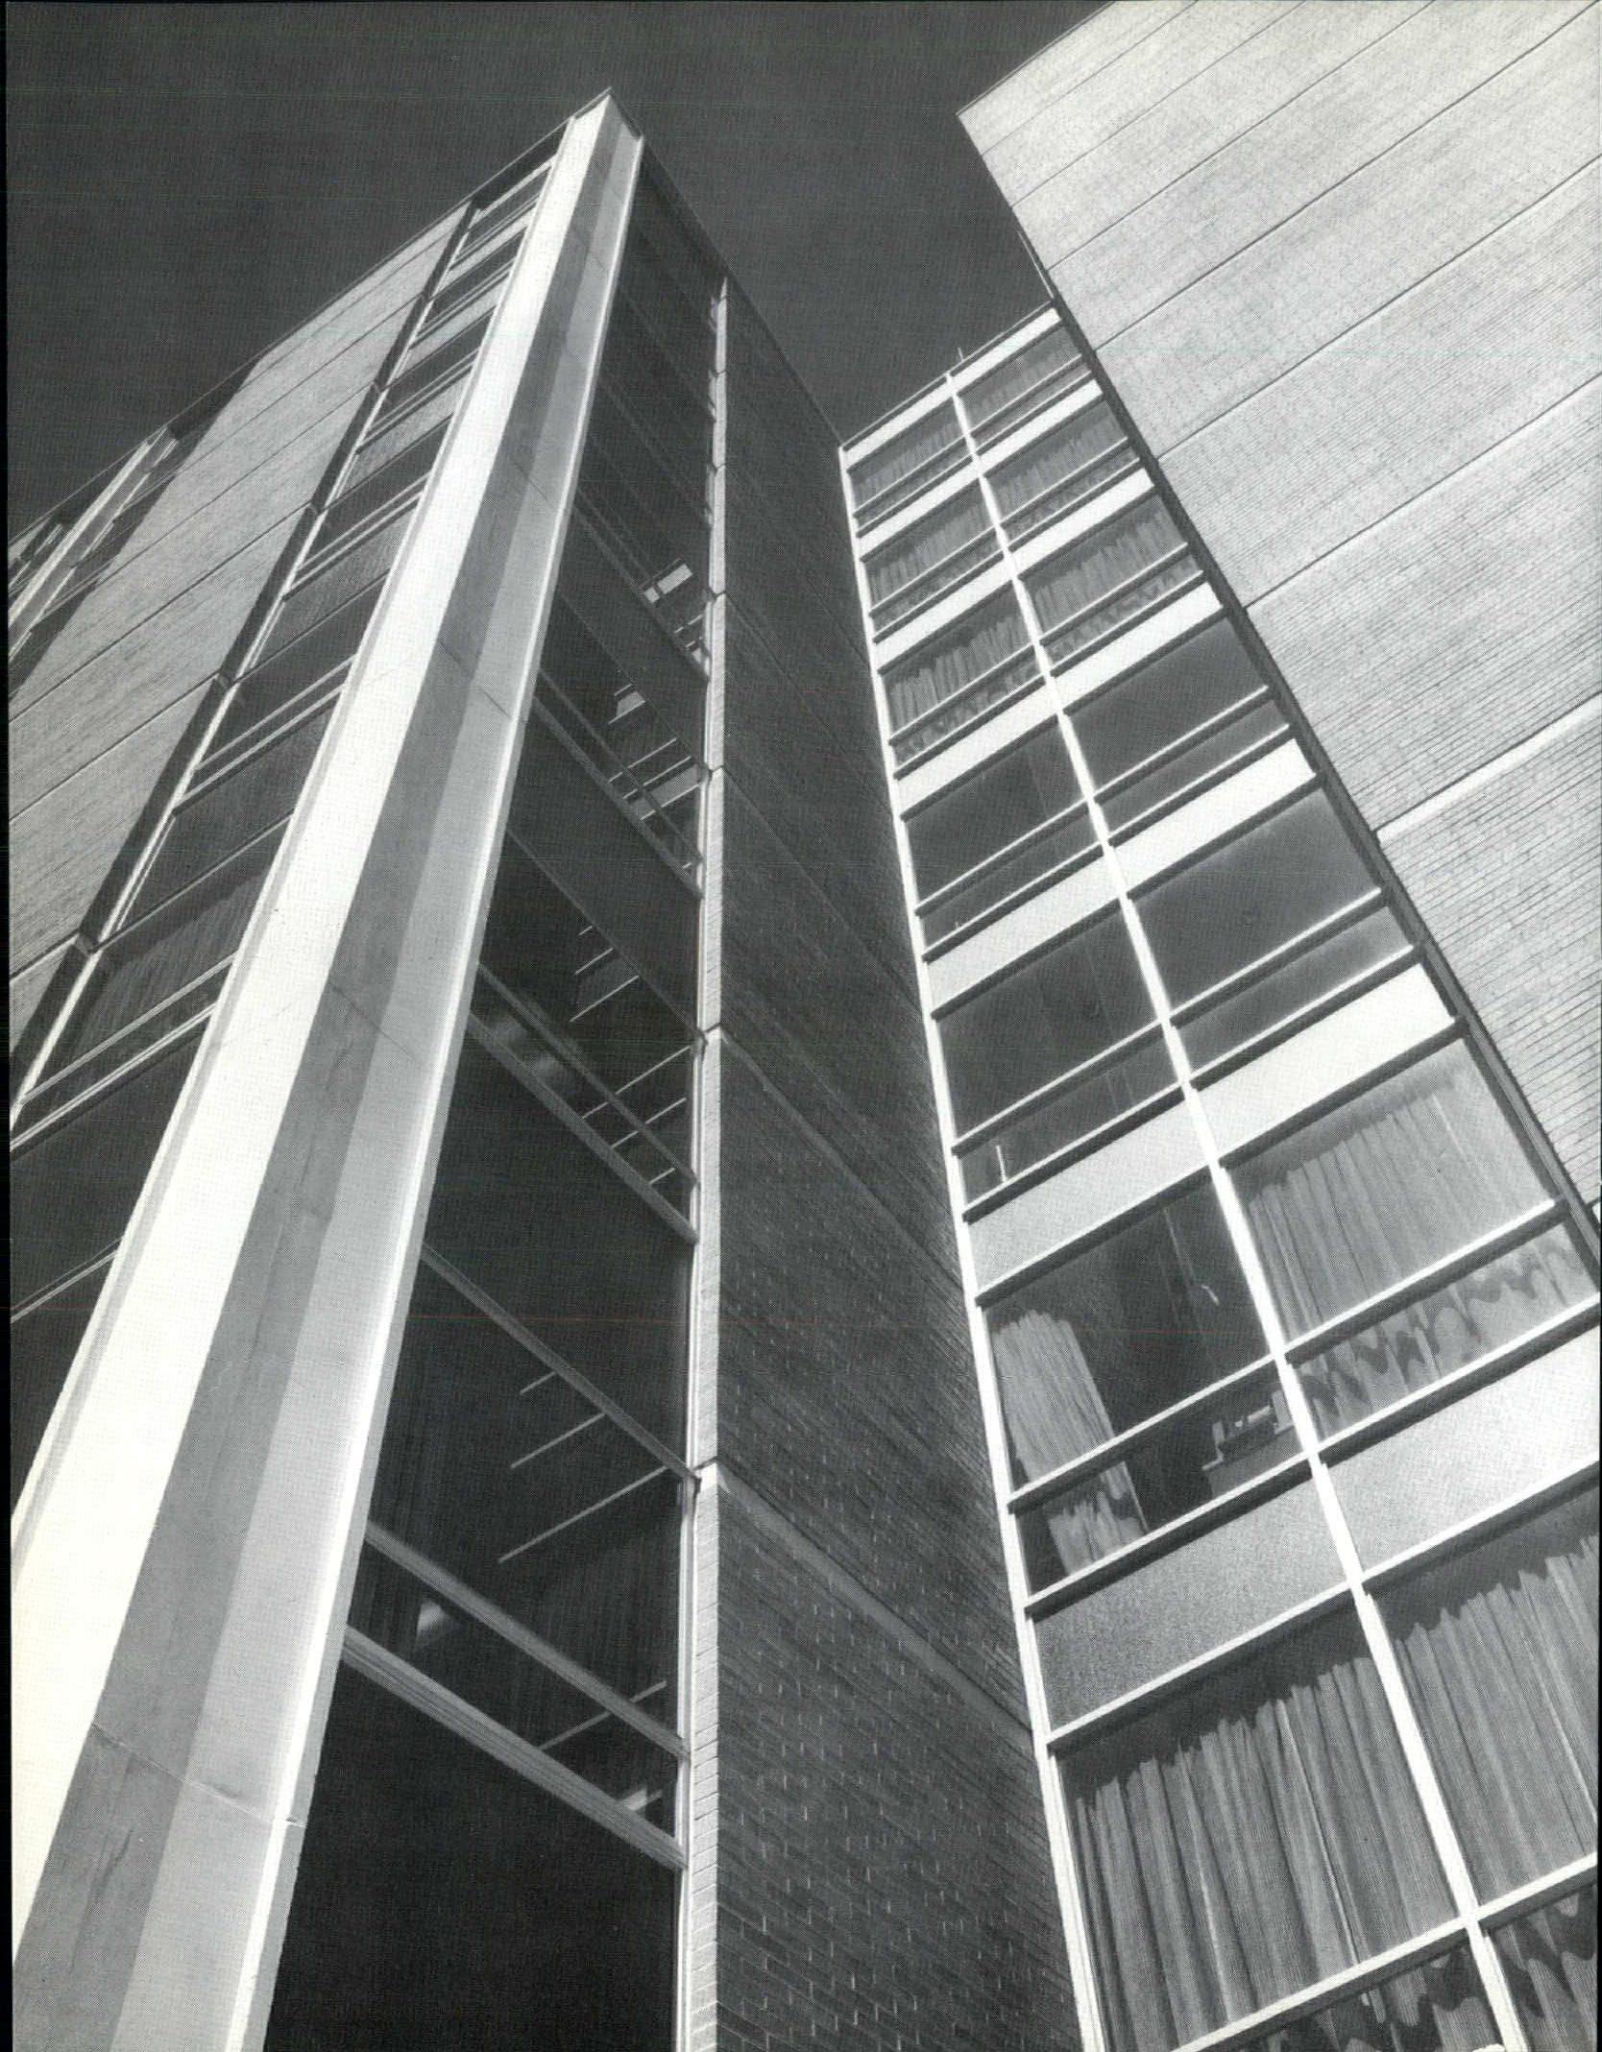

**AWARD OF MERIT:**  
**JOSEPH MILLER RESIDENCE**  
**CHAPMAN & MILLER, ARCHITECTS**

"An admirably restrained plan behind and a simple unbroken facade respecting its urban location. This house affords a great variety of views and a most conveniently arranged plan. The house is exceptionally well related to its superbly landscaped site."

Photographer: J. Alexander

Photographer: Bruno Kleimanis

**AWARD OF MERIT:  
REGIONAL PARK POLICE STATION  
DUANE AND LAWRENCE, ARCHITECTS**

"A simple structure of materials appropriate in texture and scale to its wooded location. The exterior is most inviting, particularly considering that it is a police station. The handling of landscaping and grounds is commendable especially in relationship to parking area. The entire concept is a minimum intrusion into the natural setting."

**AWARD OF MERIT:  
METROPOLITAN NATIONAL BANK  
OFFICE BUILDING  
EUGENE A. DELMAR, A.I.A., ARCHITECT**

"Separation of office spaces and services in distinct shafts permits a very flexible arrangement in this exceptionally well designed building. There is a very handsome design relationship of brick wall to glass space completely expressive of function."

Photographer: J. Alexander

Photographer: Robert C. Lautman

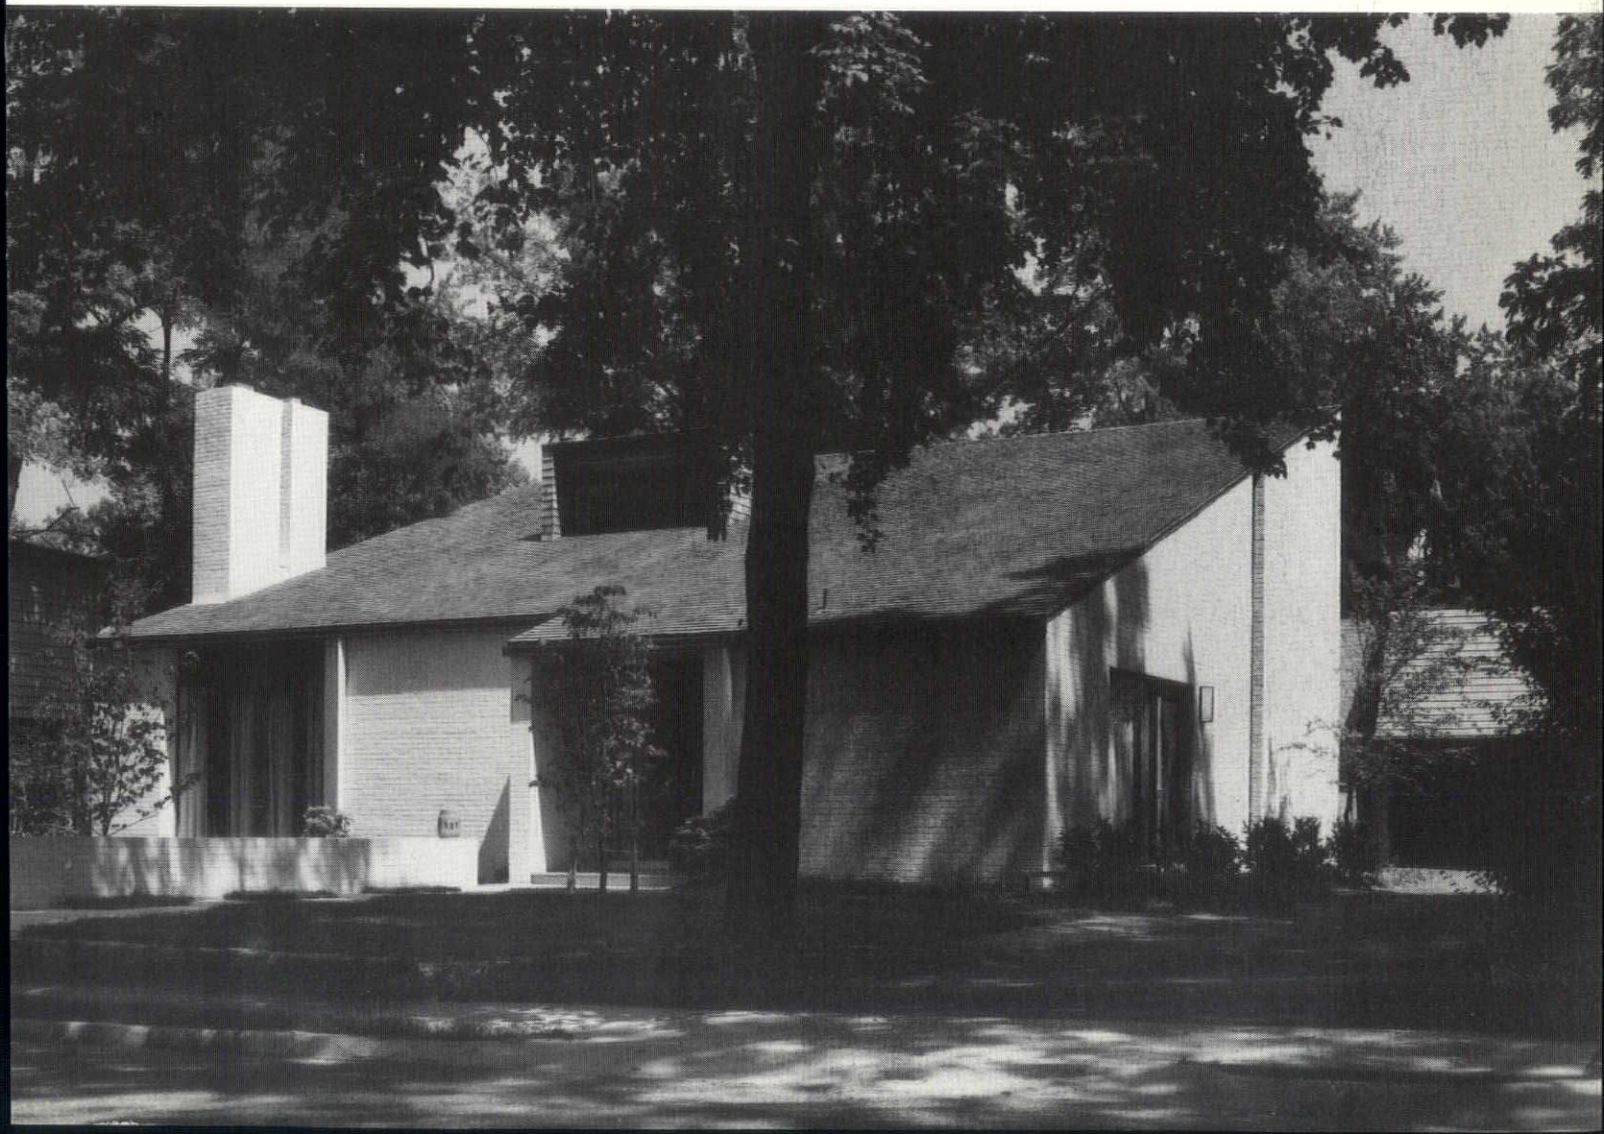

**AWARD OF MERIT:  
CAFritz RESIDENCE — GEORGETOWN  
HUGH NEWELL JACOBSEN, ARCHITECT**

"The architect has altered the facade little but effectively, imparting more elegance and style than the house originally possessed. We commend his restraint in modernization of the street facade. The plan has been sensibly modernized by the creation of a bright court."

**AWARD OF MERIT:  
DAVID CONDON RESIDENCE  
KEYES, LETHBRIDGE AND CONDON, ARCHITECTS**

"For this rather restricted lot, the house is well placed and the landscaping carefully designed. Perhaps a higher front garden wall would have given additional privacy to the living room. The division of plan with the private rooms toward the rear garden is commendable."

Photographer: J. Alexander

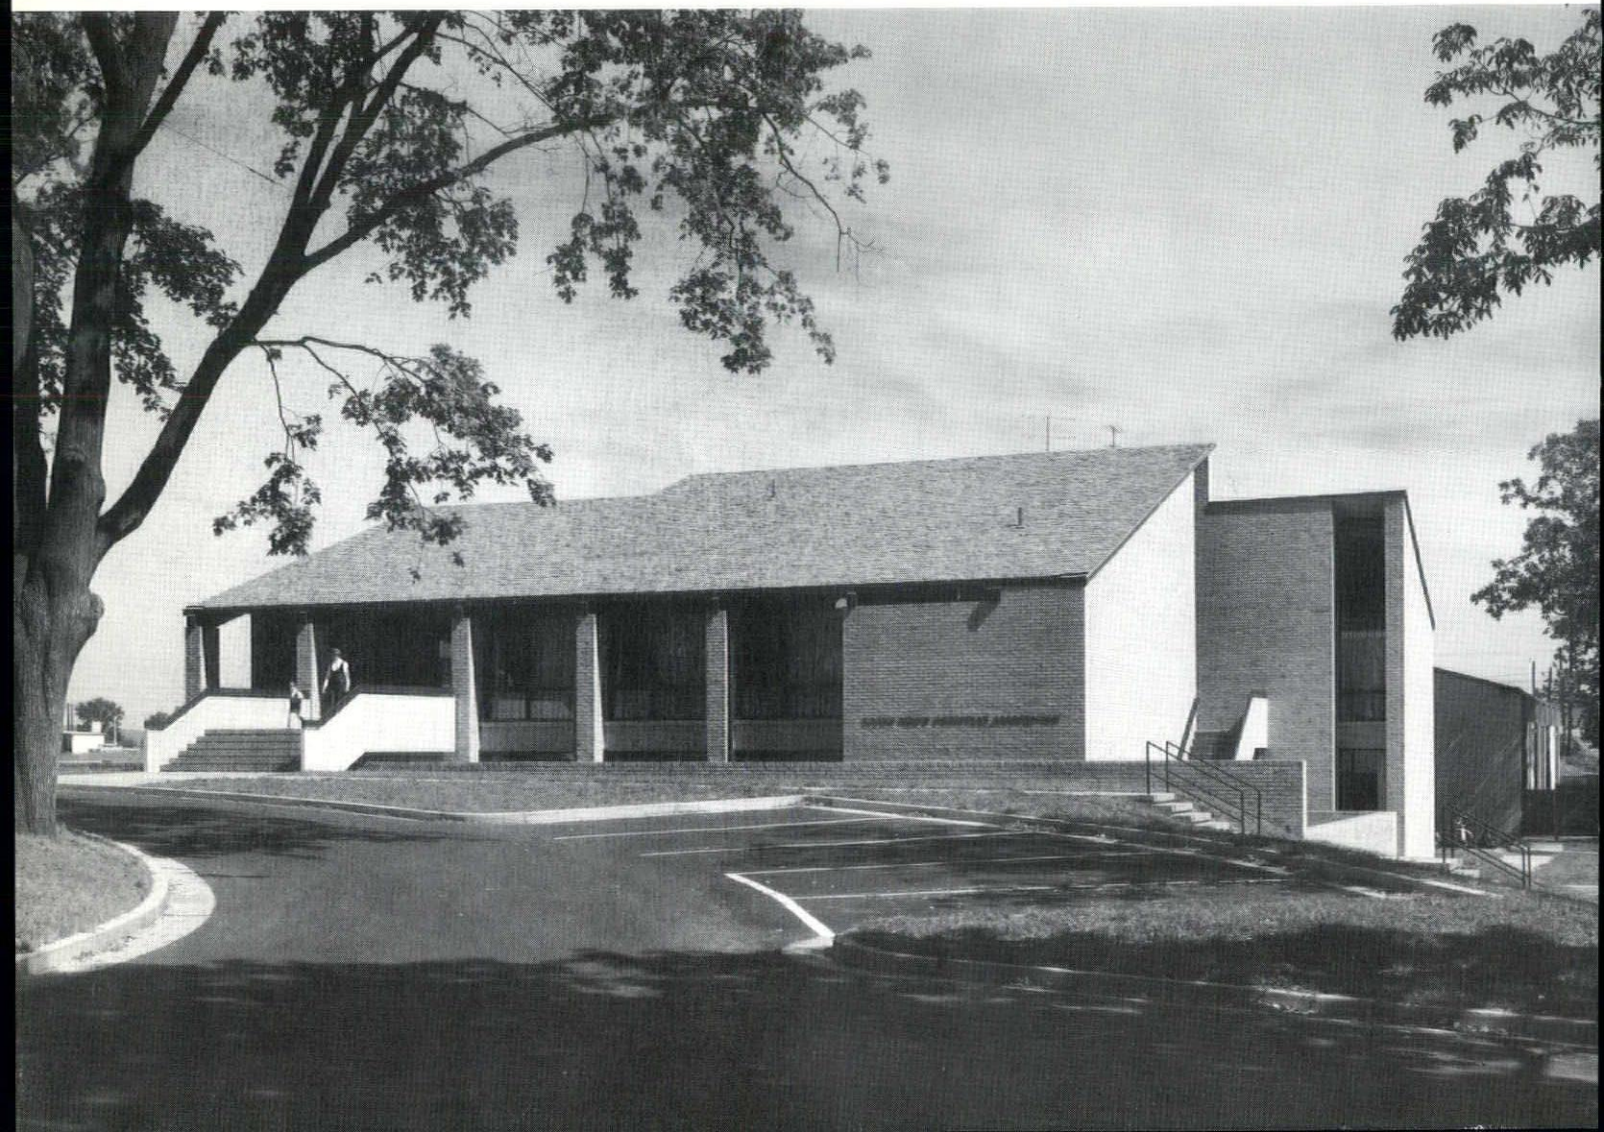

AWARD OF MERIT;  
FREDERICK Y.M.C.A.  
KEYES, LETHBRIDGE AND CONDON, ARCHITECTS

"This is a straight forward plan solution in a well proportioned exterior. Thoughtful use of brick and wood on exterior and interior is admirable."

Photographer: J. Alexander

Photographer: J. Alexander

**AWARD OF MERIT:**  
**TIBER ISLAND APARTMENTS**  
**KEYES, LETHBRIDGE AND CONDON, ARCHITECTS**

"The designers have shown strong and sensitive relationship of high medium and low rise buildings, producing a single sizable open space as well as auxiliary, smaller spaces that complement it. The entire complex has a consistent scale."

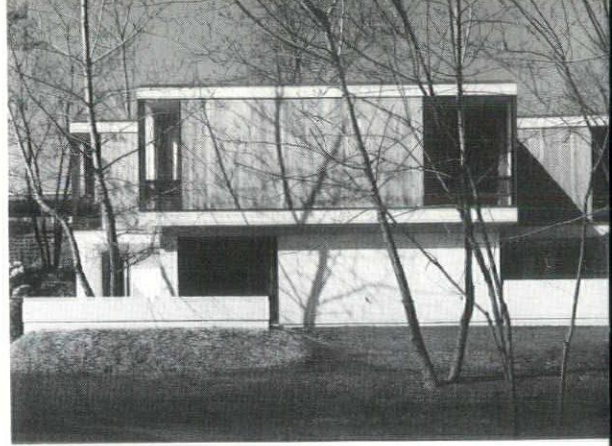

**COMMENT ONLY:**

**MAY RESIDENCE**

**COOPER & AUERBACH, ARCHITECTS**

The jury commended the elevations and detailing while questioning a plan which placed living areas one level above arrival court.

Photographer: J. Alexander

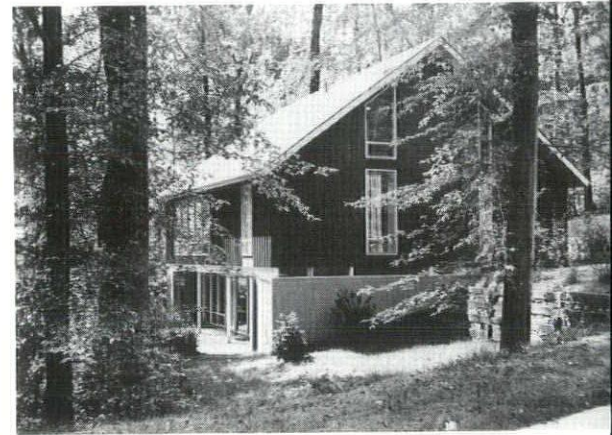

**COMMENT ONLY:**

**CROSS & ADREON**

**WYNKOOP-SUBDIVISION**

The jury commended the layout of roads and the placement of houses individually and their relation to each other as well as to the existing topography.

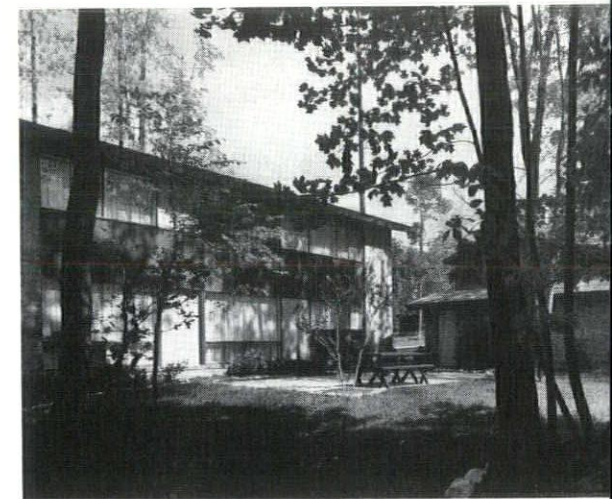

**COMMENT ONLY:**

**DEVELOPMENT HOUSING**

**DEIGERT & YERKES, ARCHITECTS**

While praising the individual houses, they questioned aspects of the site plan which led them to assume that possibly the site development may have been predetermined.

Photographer: J. Alexander

**COMMENT ONLY:**

**NEWMYER RESIDENCE**

**HUGH NEWELL JACOBSEN, ARCHITECT**

While highly stylized and extremely formal, the jury commended the consistency of treatment. They felt a more gracious vehicular approach to the house seemed required.

## SUMMATION

As your reporter, my presence at the Biennial Awards judgment was tolerated in a spectatorial capacity. David Rinn is to be congratulated for the quiet efficiency with which he handled the entire event.

I was impressed with the performance of this year's jury for its consistency and cooperative spirit. It was not a prima donna performance but rather a synchronization of effort. They stressed consistency of performance in all aspects of design and remained faithful to their own established standards.

In a post judgment they praised the very high caliber of the sixty-one entries and the excellence of the photographic presentation. (We are fortunate in having such sensitive photographers available to us - Ed.).

They also requested that we make certain recommendations for future Awards Programs which would assist the jurors in arriving at decisions.

1. Property lines should be clearly demarked and adjacent buildings shown to establish this relationship.
2. Floor plans should be presented at a larger scale for legibility, particularly in apartment and multi-building projects.
3. A section through the building would help the jury to understand the project better.
4. Keying photographs to plan would be beneficial for the readability.
5. A simple statement of the program and its specific problems, placed on the face of the presentation mount, would give assistance to the jury not only in understanding the project, but also in determining how well the architect has solved the specific problems.

As spectator, I would like to make a suggestion also; that more consideration be given to the mechanics of judgment. This year's jury struggled with poor lighting and glare, necessitating constant rearrangement of the exhibition in order to throw an equally favorable light on all projects. This, needless to say, was tiring for the jury and netted a lot of wasted motion and time. Perhaps a fixed lighting and a single setting may be the answer. At any rate, we have two years to solve this mechanical problem.

Lastly, our thanks are extended to all who participated in making this year's event an outstanding one.

Editor

*Congratulations*

### a Cassidy point of view...

A quick look at the Capitol Park Townhouses will convince you they're styled for convenient, modern living. And providing the perfect accent to the view of these fashionable homes are Pella Wood Sliding Glass Doors. Designed for years of reliable, trouble-free service, these handsome wood doors snugly keep out the elements, yet allow a beautiful view of that favorite outdoor area.

For the past 35 years, we have been serving Washington architects and builders with a wide selection of quality building products. Cassidy Representatives are always available to assist you in determining the windows, doors and other products best suited for your needs. When planning your next project—be it townhouses, an office building or an industrial complex—call us. We'll show you the value of a Cassidy point of view.
