

## Today's News - October 25, 2004

ArcSpace shows us Koolhaas in Korea. – We lose a master of university design. – In China, "urban renewal is a Richter-scale event, utterly destroying the past and heaving up proud, sometimes bizarre skylines ..." – Lessons learned from Lower Manhattan. – 15 seconds that changed San Francisco: the complete 6-part series. – Two U.K. hospital projects show the wrong - and right - way to design for healthcare. – Insightful design for a school for the blind in Canada. – No more "neo": Chicago returns to its Modernist roots. An apartment building in Washington, DC, is "an exception to an unhappy rule." – MoMA's architect shows some restraint (a rarity these days?). – Solar panels strive to be less unsightly. – Study finds the best cities for sleep. – IIDA launches new online Knowledge Center. – Exhibition reviews: Mau says design can save the world; Newson takes on just about everything; designs for Chicago bridges span everything from banal to brilliant. – A Frank Lloyd Wright celebration in Pittsburgh. – New book spans centuries of U.S. embassy design.
