Support Modernist Preservation:

Paschal House Petition: The heirs of Raleigh's **1950 Paschal House**, a masterpiece by early NCSU School of Design faculty member Jim Fitzgibbon, have **solicited a proposal to deconstruct** the house, so the clock is ticking on Raleigh's most important endangered mid-century modern. The house features so many of the much-loved Modernist elements: a low-sloping roof line with deep eaves; an earthy blend of local granite, warm-toned woods and cork floors; high-ceilinged living room featuring a massive fireplace with sunken hearth; The use of passive solar climate control; a planned landscape that includes majestic mature oaks; custom art details, such as unique wooden gates and iron outdoor sculptures; floor to ceiling glazing in living room that brings the outside in; a thoughtful separation of public and private living spaces; private courtyards screened from the street. Overpricing the property (as it has been for five years) keeps it vacant and vulnerable. You can help influence whether this iconic home is saved - or goes vanishes like the Catalano House did in 2001. Help save the long-empty and still-savable property through signing the petition here.
