This Milton Small masterpiece at 912 Williamson Drive, which recently changed hands after 30+ years, is scheduled for an interior renovation by Hilary Farr and the crew of Love It or List It. This could be very good or quite bad for one of North Carolina's best examples of mid-century Modernism. The construction permits have been obtained, and as of last Friday, the kitchen cabinetry and appliances and original cabinetry were for sale on Craigslist Raleigh. Will we Love It or Hate It? Stay tuned.
There are only two classic orange Howard Johnson's left in America. The concept was designed by Modernist architect Rufus Nims. And there are, as of 2007, only 37 Tastee Freez's. Do you track other roadside icons of the 1950's and 1960's? Reply and tell us!

MOD WATCH

**Mod Watch** keeps an eye on the North Carolina buildings you love. You can keep the NCMH community updated by checking the demolition/building permits each week. Reply with any news.

New: One of the only Modernist houses by architect **Tebee Hawkins** is for sale in Charlotte as a teardown. We're looking for photos of the late 1970's house, as all MLS listings only show the McMansion that will replace it.

**Dead Mod Walking 2015:** The old gal's still standing but we don't know for how long. Please help NCMH monitor when Milton Small's masterful **3515 Glenwood building**, first photo, receives the demolition permit online [here](#). The site was approved last year for a three-story 72,963 square foot replacement, second photo.
