Submissions open May 1: The George Matsumoto Prize for North Carolina Modernist residential architecture is a unique design competition featuring \$6,000 in awards, a blue-ribbon jury of internationally-known architects, critics, and designers, and online public voting. NCMH created the Matsumoto Prize in 2012 honor of George Matsumoto, one of the founding faculty members of North Carolina State University's College of Design. Matsumoto created some of North Carolina's most well-known and well-loved Modernist houses. The Matsumoto Prize provides motivating honors and incentives for a new generation of architects; contributes to wider public recognition of Modernism in all its forms (architecture, art, furniture, and fashion); and recognizes the significant economic and aesthetic impact of Modernist design across North Carolina. The Matsumoto Prize is the only juried architecture competition in North

Carolina that focuses exclusively on Modernist houses, provides financial awards, involves a national jury plus public voting, and connects to a major architectural archive. The Prize meaningfully and powerfully engages the public with the architecture they love and showcases exceptional Modernist architects and designers in North Carolina. Past jurors include **Tom Kundig**, **Marlon Blackwell**, **Larry Scarpa**, **Frank Harmon**, **Jeanne Gang**, **Eric Gartner**, **Joshua Prince-Ramus**, **Alison Brooks**, **Nathan Crowley**, **David Jameson**, **Harry Bates**, **Harry Wolf**, **Helena Arahuate**, **Maryann Thompson**, **Brion Jeannette**, **Peter Gluck**, **Bev Thorne**, and **Ray Kappe**. This year the jury includes: **Carl Abbott FAIA**, **Carl Abbott Architect**; **Paul Goldberger HAIA**; **Susan Saarinen ASLA**, **Saarinen Landscape Architecture**; **Ron Radziner FAIA**, **Marmol Radziner**; **Harry Wolf FAIA**, **Wolf Architecture**; **Robert Miller FAIA**, **Bohlin Cywinski Jackson**; and **Curt Fentress FAIA RIBA**, **Fentress Architects**. New Book available April 18: **The Work of MacKay-Lyons Sweetapple Architects** by Robert McCarter, Juhani Pallasmaa, Kenneth Frampton. The work of Nova Scotia's MacKay-Lyons Sweetapple Architects embodies two interrelated primary principles: economy and place. Economy as an ethical imperative leads to creating a great experience with minimal form, material, and cost. Reinforcing this

imperative is the architects' engagement of coastal Nova Scotia and its climate, landform, and material culture. The practice has evolved plan types that allow the architects to engage the land and climate of their native Nova Scotia, and is also focused on the importance of the interior spatial experience. They believe that what really matters in architecture is not fashion and form but the material culture of building and the making of places.
