18: The Complete Zaha Hadid, Expanded and Updated, by Aaron Betsky, Dean of the Frank Lloyd Wright School of Architecture. Zaha Hadid (1950- 2016) was one of the most innovative and celebrated architects of our time. This comprehensive survey of over two hundred projects—from her earliest experimentation to product design, from speculative follies to large- scale built works—is a testament to the depth, range, and inventiveness of her vision.

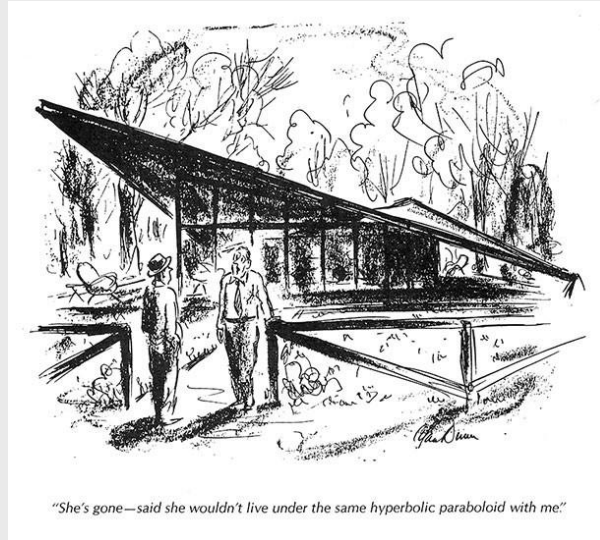

From Curbed: The national American Institute of Architects (AIA) has awarded the coveted 2018 AIA Gold Medal—which honors an architect for work that has left an indelible mark on the theory and practice of architecture—to **James Stewart Polshek**.

MOD Squad

When the Mod Squad started in 2008, NCMH was a small, all-volunteer website. Since then, NCMH became the largest website for MCM houses in the world, earned 12 preservation awards, documented over 6,500 houses, offered 80 house tours, hosted 150 Thirst4Architecture and movie events, and helped about 200 Modernist houses change hands. Now our paid professional staff plans and runs events, coordinating larger numbers of wonderful volunteers. While NCMH has grown, Mod Squad rates have stayed the same for 10 years. On January 1, memberships rates change to support that growth. Join NCMH's wildly fun crew of Modernist fans now - or renew your membership - and get the old rates through December 31! [Details](#).
