New Book out September 25: **Sofas: 340 Iconic Designs**, by **Agata Toromanoff**. We've seen chair coffee-table books, house coffee-table books, so it was only a matter of time until sofas got their 15 minutes of fame. The sofa encapsulates everything one associates with home—a place of relaxation, comfort, and calm. It can serve as a decorative centerpiece, a child's play area, and a bed all at once. This generously illustrated volume celebrates the creativity of more than 150 designers from Josef Hoffmann and Le Corbusier. Please, don't read it in a chair.
